EXERCISES URGED FOR GIRLS

Montreal, May 10—Traffic earnings of the Canadian Pacific Railway for the week ended May 7 were \$3,590,000, an increase, compared with the same period last year of \$16,000 or 0.4 per cent.

Chicago, May 11—Plenty of exercise—riding, swimming, golf, tennis—is favored for prospective mothers by Dr. Harold W. Miller. He told the Illinois Homeopathic association that the modern girl does not get enough exercise.

M. D. Duke of Toronto is in the city today.

H. W. Williams of Moncton is in the city today.

FOREST FIRE SITUATION IS IMPROVING

(Continued From Page Eight.)
busy during the last few days of fire activities.

The fire at the Indian Reserve near the Mouth of the Tobique River, burned about 1,000 acres of old burnt land but did no damage to standing timber. Another fire was reported at Maugerville yesterday and had burned about half an acre of grass and some forest land. It is now under control.

Although as yet no persons have been apprehended in connection with fires, some of which are of a suspicious nature, the officials are keeping a sharp watch out. Cases of neglect or carelessness brought to the notice of the department will be severely dealt with.

ALL HIGHWAY ROADS NOW OPEN TO MOTORISTS

(Continued from page eight)
ned a big program of road construction for the coming season and a record breaking motor traffic is looked for.

10-TON STEEL BOOM AWAKENS TRUCK DRIVER

New York, May 11—Charlie Kieffhaber, truck driver, will be careful hereafter about taking a nap on his parked machine. When he did so in front of a skyscraper under construction a 10-ton boom fell 22 stories from a derrick right through the truck. Charlie was awakened. Nothing else happened.

At the Gaiety

There's no use talking, what makes or break a western melodrama, is the quality of its gun-play and the frequency of its hell-for-leather riding. Both of these essentials are present in abundance in Zane Grey's "Under the Tonto Rim," on display in the Gaiety Friday and Saturday.

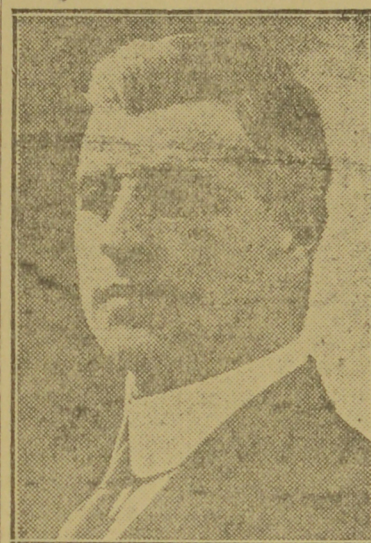

The film works up arousing climax in which the hero is properly victorious over a fearful gang of frontier desperadoes and in the end wins the heart of a quite lovely heroine, impersonated by the daintily demure Mary Brian. Richard Arlen has the male lead and the other players include Harry T. Morey, Jack Luden, William Franey and Harry Todd.

HON. HUGH GUTHRIE, M. P., WAS HONORED BY PEOPLE OF GUELPH; HON. R. B. BENNETT WAS PRESENT

Guelph, Ont., May 10—Hon. Hugh Guthrie, M. P., for Wellington South, and former leader of the Conservative party in the House of Commons, was the guest of honor at a banquet, tendered by his constituents here tonight.

When Mr. Guthrie arose to reply to the toast in his honor, Hon. Lincoln Goldie, Provincial Secretary, read an illuminated address and Col. Pritchard of Elora, presented a magnificent loving cup and a great bouquet of roses was presented to Mrs. Guthrie.

Hon. R. B. Bennett, leader of the

HON. HUGH GUTHRIE

Conservative party, was present as was also his sister, Miss Mildred Bennett.

Backs His Opinions

"Fifteen years ago," said Mr. Guthrie, "I held many different opinions than I hold now: If anyone can gain any satisfaction from my discarded opinions they are entirely welcome. The opinions which I hold now are backed by my reason, my judgment and my heart."

"My position as House leader of the Conservative party was temporary in every sense of the word. I was not a seeker after the permanent leadership. I was persuaded by leaders in the party to accept the position."

"No leader has ever got in the House of Commons who had a more determined, or more loyal following than has the present leader. I have never been more contented than in my present position as chief lieutenant of that leader."

Pleads for Stable Tariff

Mr. Guthrie made a plea for a stable tariff.

"For the last seven years, under a Liberal government," he said, "this riding has been marking time. During the previous ten years, we were enjoying at least a reasonable progress. The reason is the inactivity and the supineness of the King government, and the habit of year after year tinkering with the customs tariff." The placing of wools on the free list, he said, had only the excuse of pleasing the mill owners of Bradford, England.

"There is no greater supporter of the British government," he said "than I am, but when it comes I am, but when it is a question of the wool employes of Bradford and those of Guelph, I am for the workers of Guelph every time."

"What they want in the Dominion of Canada, and what they want in the British Empire is a fixed scale of tariff. We have never asked for high protection, and nobody wants it now. There has been no tinkering with the furniture tariff because Hon. James Malcomb, a big furniture dealer is a member of the government."

"When the Conservative party returns to power, as it will return, we will have a fixed tariff policy, a stable tariff policy."

Bennett Replies to Toast

Hon. R. B. Bennett, responding to the toast "Our Party" and to civic welcome tendered him by Mayor R. Beverly Robson, reviewed the history of the Conservative party and also paid a warm tribute to Mr. Guthrie as "a great lawyer, a sound councillor, a most impressive speaker, a man with a wider knowledge of parliamentary practice than any other man in Canada, not only a great debater, but also a great Canadian."

"This is a great country," said Mr. Bennett, "a vast country, not bounded

by narrow confines of your province. You must look on this party as one which will allow you, when you come to leave this vale of tears, to look back and know that you have added something to the happiness and prosperity of this country. When it falls to hold these ideals it will be time for it to pass out of existence." He touched on the "Pacific Scandal," saying it was like a candle of a thousand watt light, as compared to the scandals of more recent times.

"Sir Wilfred Laurier," he said, "advocated unrestricted international free trade. How long would we have remained a nation if that policy had been successful?"

Reviews Past Years

"We have had seven years of Liberal administration," he said. "We have been taking billions of dollars out of our soil in minerals, forest wealth and crops. We have increased our export trade, but what have we been doing to advance our civilization, to lay the foundations to better a great nation. We talk so much of our industrial advance, but last year the United States reports pointed out that they had sold more agricultural implements to Canada than to all the rest of the world."

"We, in this country are being content to see more and more of our raw material being exported, but we see last month importations which aid the devolution of our labor power and an increase of our unemployment."

"Take the effect on the population of our country. Official figures show that in the last five years we brought into this country 573,000 people, and we sent out 590,000 people. We are cutting down our pulpwood at a rate that was never equalled in this country. We cannot replace our mineral products."

PARISHIONER REBUKED FOR UNGODLY STRUT

Portland, Me., May 11—The New England preachers and church deacons of an earlier day were frankly outspoken. Even in their prayers they did not hesitate to become personal. One of these Puritanical exhorters named Moody was ordained pastor at York, Me., in the year 1700. A village blade had publicly called the attention to some fine, new clothes the minister was wearing, so the pastor staged "a come back." In his prayer he said with a continually rising inflection, "And, O Lord! we pray Thee cure Ned Ingraham of that ungodly strut!"

In dry spells it was not unusual to pray for rain. One Maine minister, is credited in the town records with this phraseology: "O, Lord, Thou knowest we do want Thee to send us a rain which shall pour down in fury and swell our streams and carry away our haycocks, fences, and bridges; but, Lord we want it to come drizzle-drozzle, drizzle-drozzle for about a week. Amen!"

DEAF PIANO TUNERS ARE IN GREAT DEMAND

(New York Sun)

The blind piano tuners of New York are said by an executive of one of the big piano companies to be in great demand. There are at least six sightless experts of piano tone, and there may be a few more that are not known to this executive.

"Their blindness makes them all the more acute in hearing and the delicate shades of sound," he said. "They are more accurate for very fine work than tuners who can see. There is nothing to divert or distract attention from their work."

In New York also many totally deaf persons find lucrative employment. One wholesale mercantile concern whose proprietor is quite deaf employs a number of men similarly afflicted. He issues commands to them by vibratory methods, for the deaf are sensitive to vibrations, even if they cannot hear.

SAYS ISSUES EFFECT THE AMERICANS

(Special to the Daily Mail by the British United Press)

Paris, May 11—Dr. C. C. Wu, former foreign minister of the Nanking government and now nationalist delegate in Paris, announced today he would sail immediately for the United States to confer with Secretary of State Kellogg and to lay the entire Shantung situation before the American people. "The tremendous issues involved affect the Americans only slightly less than the Chinese," Dr. Wu told the United Press. "It is necessary therefore that America decide what action if any, should be taken."

PRINCE CAROL DEVELOPS HIGH TEMPERATURE

(Special to the Daily Mail by the British United Press)

London, May 11—Prince Carol of Roumania has developed a high temperature.

Authorities are puzzled over what to do regarding him, if he fails to leave England as requested, during the week end. It was suggested that they might place him under official observance if his illness, which started with a chill, continued into next week.

MAY MOVE TO THE RIVIERA

(Special cable to the Daily Mail by the British United Press)

Berlin, May 11—Prince Carol of Roumania has applied for permission to proceed to the Italian Riviera, a Milan dispatch said today.

It was added that Carol's request came after an intimation from Belgium that his presence was unwelcome there.

Paris, May 11—Beating the electric light meter is so popular that officials say rates could be reduced 30 per cent in Paris if all men were honest. There are nearly 1,000 prosecutions pending in court most of the time, and jail sentences and fines seems to have little effect on the economical persons who like light bills to be light.

In new installations the light companies requires wires to be inclosed in steel tubes up to the meter to thwart the method of getting a free supply by connecting the circuits back of the meter. Other tricks have been discovered, but they are not revealed because the companies are devising tricks of their own to stop them.

NOTICE TO CONTRACTORS

Sealed tender, marked on the envelope "Tender for Warehouse and Office Building" will be received by Mr. R. G. Fulton, Chief Commissioner of The New Brunswick Liquor Control Board, Fredericton, N. B., or the undersigned, up to 12 o'clock noon, Standard Atlantic time, Tuesday, May 22nd, 1928.

DUNLOP TIRES

Something to think about:

Throughout the world, the productive Dunlop properties cover so vast an area that if combined into one place they would form a "Dunlop City" of over 100,000 acres.

"The Best Thing on Wheels"

Speaking of world-wide popularity, think of this:

Over 26,000,000 Dunlop Tires are on the road today. Dunlop Tires are available in every City or Town—at the leading dealers.
