

Her Baby Wakes up Laughing and Cooing

"I started using Eagle Brand for my five months old baby two months ago. Now she wakes up laughing and cooing and is more than satisfied. No more getting up nights, as she gets only one bottle, going to bed, and no more till 7 a.m. She won a third prize at a recent baby show and I know Eagle Brand helped her to win. She weighed 6 lbs. at birth but is now over 13 lbs. If any mother would like me to tell her about Eagle Brand I would be pleased to do so. I only wish I had known about it sooner as it cannot be too highly recommended."

ISLE OF NEVER MIND
(From Washington Star)

Maybe, some day, we'll drift away
From shores that seem unkind
And reach, across the Twilight Bay
The Isle of Never Mind.
Perhaps to Cloudland we must go
And leave dull Earth behind;
But somewhere we shall surely know
The Isle of Never Mind.
Resentments will no longer win
Ambitions well designed
Only Forgiveness waits us in
The Isle of Never Mind.

"An average of 1,888 cars per day have been loaded with grain by the C.P.R. since the middle of September," said J. G. Sutherland, head of the transportation department at Winnipeg. This means about 2 1/2 million bushels moved daily—a record never before approached.

The International Dog Sled Derby that is one of the outstanding attractions of the winter sport season at Quebec City will take place from February 21 to 23. It has been announced. The course is 120 miles in length and famous 'mushers' from all parts of the country compete.

President Calles of Mexico, has purchased 176 prize British Columbia hens for stocking his farm near Mexico City. He paid \$5,550 cash for these birds, all of which have a record of more than 300 eggs a year and all of which are White Leghorns. The purchase was made through two agents of the president who came up from Mexico for this purpose.

An ingenious machine for the repair and maintenance of railroad tracks has been experimented with for some time by the Canadian Pacific Railway, it is reported. A gasoline motor generates power for an electric metallic arc welder and a grinder. These in turn build up and smooth out worn sections of rail near joints. It can operate anywhere on the lines, quite apart from any outside source of electric power.

Shipping beer by tank cars is an innovation alike for the brewing industry and railroading. A London brewery is now using insulated and refrigerated glass lined tanks containing 4,800 gallons to ship beer to their Montreal bottling plant. The tanks are the same as those used to ship milk in bulk, but have the addition of a safety valve to release pressure in excess of twelve pounds that may be generated in transit.
