THREE DEAD AND FIVE INJURED IN FIRE AT MULGRAVE, N. S. LOSS WILL TOTAL \$65,000

Mulgrave, N. S., Feb. 26—Three persons dead and five seriously injured was the human toll of fire that broke out at 3:30 o'clock this morning in the Seaside Hotel and raged for three hours and a half, completely destroying the hotel and six other buildings with a property loss of about \$65,000.

The dead:

Lizzie Goodwin, 22, white, Mulgrave, waitress.

Marjorie Gerro, 18, Tracadie, N. S., Colored, kitchen maid.

Sadie Williams, 19, Tracadie, N. S., colored, kitchen maid.

The injured:

Kline McDonald, hotel proprietor, burns, head, face, hands, and shock.

Mrs. Kline McDonald, burns, head, face, hands and shock.

Fairley Sutherland, the McDonald's adopted daughter, burns and shock.

Eugene Bennett, hotel clerk, burns and shock.

Alma Summers, hotel cook, burns and shock.

Buildings Destroyed

The properties destroyed, including: Seaside Hotel, \$30,000; Kline McDonald's grocery store, \$5,000; Kline McDonald's ice house, \$2,000; M. V. McLean's residence and garage, \$7,000; McMillan's restaurant and dwelling, \$8,000; Joseph Mansoon's gents furnishings, \$5,000; General Garage, \$4,000; Alonzo's Carr's garage, no value stated.

Other damage included the destruction of five hydro poles, one quarter of a mile of high tension line, and two transformers.

A coroner's jury after viewing the bodies of the fire victims returned a verdict of death by suffocation and attached blame to no one for the fire.

The fire was first discovered in the bathroom on the second floor of the hotel and started, it was believed from an overheated furnace pipe that passed through the room.

Clerk is Hero

Eugene Bennett, night clerk at the Seaside Hotel, was awakened from sleep about 3:30 by a crackling noise, which he thought was caused by the frost. On investigation, he found the bathroom on the second floor a mass of flames. Putting a coat over his head, he made his way along the hall to the bedroom of Mr. and Mrs. McDonald, whom he awoke from their slumbers. Finding exit from the room cut off by the flames, Mr. and Mrs. McDonald and their little adopted daughter, Fairley Sutherland, jumped from their bed room window to the roof of the adjoining grocery store.

Return to Assistance.

Bennett, after seeing the McDonalds clear of the house, made his way through the flame swept corridors to the part of the hotel occupied by the help. He aroused the three colored girls from their slumber and then called the cook, Miss Somers. He led the latter to safety and was under the impression that the three colored maids had followed him and the cook. Much to his horror he found that they had not made their way out. He immediately returned to the burning building, which was by this time a seething inferno, but was unable to locate the girls. He groped his way again into the open, where he collapsed from burns and exhaustion.

"Later the charred remains of two of the girls were found in the basement kitchen. One of these, it was thought, was the body of the Goodwin girl. Attempts at identification of the other body were unavailing. Up to a late hour tonight the body of the third girl had not been discovered."

Determined efforts to stay the progress of the flames were made by the villagers, augmented by a fire-fighting force from the Canadian National Railways car ferry steamer Scotia. They were seriously hampered, however, by a high wind and a sub-zero temperature.

Church is Saved.

The flames spread from building to building until in all seven structures lay in ashes. It was only by the greatest effort that the Presbyterian church was saved from destruction. This building was badly scorched.

The loss was considerably lessened by the hasty action of the fire-fighters in removing ten automobiles from the General Garage, which structure a

short while later was a mass of flames.

Honor Clerk's Heroism.

Late this afternoon the Mulgrave Town Council met in special session when it was decided to give the fire victims a public funeral. A resolution was passed extolling Eugene Bennett for his gallantry during the fire and urging that steps be taken to present his claim for the medal of the Royal Humane Society.

HAMMERFEST, U. N. B. FUNCTION HUGE SUCCESS

(Continued From Page Eight.)

Forest School of the University of New Brunswick. This year is the twentieth anniversary of the founding of the school. He reviewed the achievements of the school and of the graduates that she had sent out. There are more students in the forestry school this year than have been graduated during the twenty years. This is a sure sign of the growth of the school. Of the seventy or so graduates of the school about half are employed by the government and nearly half by private concerns. The rest, Professor Webb said, are teaching Forestry in the schools and colleges. Professor Webb also spoke of the proposed erection of a new Forestry building for the Foresters at the University of New Brunswick.

After the speeches the guests sang songs. Dr. Cameron sang some old Scotch airs that were very much enjoyed.

Among the guests present were: the Honorable C. D. Richards, Minister of Lands and Mines; George Miller, chief forester for New Brunswick; Professors E. O. Turner, Adam Cameron, A. F. Baird, H. P. Webb, B. Fleiger; L. S. Webb; J. B. McNair; Edward Hagerman; R. J. Love, president of the students' union of the university.

The party broke up about midnight and the long tramp home was made as quickly as possible through the cold night.

 * SPECIAL ATTRACTION *
 * AT GAIETY THEATRE *

Emil Jannings, the silent drama's First Actor, gives another of his superb characterizations in "The Last Command," the Photo play at The Gaiety Monday and Tuesday.

Jannings has brought as much real art to the business of making movies as any other actor in the world and with the directorial co-operation of Josef von Sternberg, he has made the current offering another fascinating instance of that genius.

Now that Jannings is the whole picture—there are splendid portrayals also by Evelyn Brent, William Powell, Nicholas Soussanin and Michael Visaroff in the other principal roles and the entire production merits superlative praise.

RESENTED THE CHARGE OF BEING LAZY

Pictou, Feb. 27—At the regular monthly meeting of the Local Council of Women of Pictou, this week the president Mrs. C. L. Moore announced that the annual meeting of the Provincial council would be held in Pictou next October. The Council met last year in Halifax.

Considerable interesting discussion followed the reading of an editorial from an Ontario paper the Farmer's Sun, which referred in slighting terms to the Maritimers as backward and indifferent. The ladies felt a natural resentment and expressed themselves in no uncertain terms.

As funds were growing low it was decided to hold an afternoon tea, similar to the successful one held last year, in the near future.

PROPOSED MEDUCTIC DAM WAS DISCUSSED BY SPORTSMEN

(Continued from page two)

the province until sixteen years of age, or British subjects.

Mr. MacAvity gave hearty support to the resolution. He wanted to know what would happen if he went to Bangor and tried to lease lands for shooting purposes. He was sure that he would not get by with it. He thought a high valuation should be put on property leased to foreigners and more taxes collected from it.

Hon. Richards discussed the matter briefly. He said that a man owning a farm, say in Sunbury county, had all of the common law rights. He owned the land and could do as he pleased with it, and difficulties would present themselves to any government which sought to interfere. It was a matter that had to be worked out in its own way. The province was trying to develop tourist travel, and was spending large sums to do it, because they believed it to be good business, and they did not want to monopolize one recreational resort. He would be glad to consider the matter and take what action necessary consistent with the rights of New Brunswick people.

Mr. MacAvity said that property rights did not give ownership to the migratory birds. He thought that visitors should not be given more rights than enjoyed by our own people. He said that American sportsmen could follow the birds right down south, which New Brunswick people could not do.

Hon. Mr. Richards pointed out that the woodcock was a migratory bird and that its control was with the Federal Government. He did not say that the farmer owned the birds, but he certainly had the right to use his property as he saw fit.

Mr. G. C. McDowell moved the six months' hoist to the resolution.

The statement of the Minister of Lands and Mines having made it clear to the audience that nothing could be done in the matter, Mr. Chestnut's resolution was put and declared carried.

Prizes Presented

Hon. C. D. Richards said that he had been called upon to perform a very pleasant duty, which was the presentation of the James S. Neill memorial prizes to the members of the Association who had taken the two largest salmon from the St. John River last season. The sum of \$25 had been donated for the purpose by Mr. C. E. Neill, general manager of the Royal Bank of Canada, as a memorial to his late father, Mr. James S. Neill, who had been York County's most outstanding sportsman, an enthusiastic salmon angler, a man beloved by all who knew him and a very worthy citizen. The prize money had been donated by Mr. Neill with the laudable object of encouraging the young men of the province to take greater interest in the development of salmon angling on the St. John and Miramichi Rivers. He announced that the first prize of \$15 had been won last season by Mr. G. Byard Simmons, who had caught a nineteen pounder at the Hart's Island Pool, and the winner of the second prize of \$10, was Mr. Roland H. Wheeler of Kingsclear, who had taken a sixteen pounder.

Mr. Simmons was then called to the front, and after being heartily congratulated by the minister on his success, was presented with his prize. In the absence of Mr. Roland Wheeler, who is at present in the lumber woods, the second prize was presented to his brother, Mr. Walter W. Wheeler. The winners of the two prizes are veterans of the great war.

The report of the Secretary-Treasurer showed 101 paid members and a cash balance on hand of \$116.

A hearty vote of thanks to Mr. C. K. Howard, tourist agent of the C. P. R., Mr. F. W. Robertson, the eastern passenger agent, and Mr. F. D. Savoy, advertising agent, for providing moving pictures for the meeting was adopted.

The Picture Show

At the conclusion of the regular business, moving pictures of fishing and hunting scenes were thrown upon the scene and were very popular. One of the pictures shown was taken under the supervision of Mr. W. H. Moore, of Scotch Lake, who is a recognized authority on birds. It depicted a very interesting and instructive close-up of a woodcock, a really remarkable picture. A snow goose, a very rare specimen, which was captured by a resident of Sunbury after it had paused in its flight to fraternize with some domestic fowl, was also shown. A film loaned by B. S. Moore showed Phil Howard on rather friendly terms with a monster bull moose during the period of deep snow. Mr. Howard's crowning act was to fasten a bachelor button to the ear of the monarch of the forest.

Interest in the picture was so great that practically the whole audience remained in their seats until after one o'clock.

GIRLS' HOME IS IN HEALTHY CONDITION

Rev. W. D. Wilson was Chosen President at Recent Annual Meeting at Truro.

Truro, Feb. 25—The annual meeting of the Board of Governors of the Maritime Home for Girls was held at the Home on Tuesday, with about 25 members of the Board in attendance. The report of the Superintendent was most satisfactory. There are now about 90 girls in the institution, and the health conditions are reported as excellent.

Reports from girls who have passed through the Home show that the great majority have redeemed themselves and are making good citizens in the communities in which they live. Quite a large number have married into good homes and are taking their places in the churches and societies.

Others are teaching schools in towns and villages. Some have taken up employment in offices, some trained for nurses, are now in training, and quite a number have secured positions as maids in some of the best homes in the Maritime Provinces. Only a small percentage of the girls going through the institution are reported as not living up to the standard set in the training received while in the Home.

The financial statement shows a healthy condition. All capital indebtedness on the building and plant, valued about \$150,000, has been paid or is provided for.

The new Board of Governors, the executive and officials were elected as follows:

President—Rev. W. D. Wilson.
 Vice-Presidents—G. W. Stuart, Truro; H. Usher Miller, St. John, N. B.
 Secretary—Rev. J. W. Godfrey, Truro.
 Treasurer—W. B. Murphy, Truro.

Mr. and Mrs. James O. Davis of Saint John is in the city today on a visit to some friends.

Mr. D. W. Sewell of Moncton is in the city today.
