"Two Husbands Wanted"

by HAZEL DEYO BATCHELOR

THIS STORY WILL NOT
APPEAR IN BOOK FORM

Watch Out For The
Opening Chapter.
In The DAILY MAIL

Every Man Thinks He Can:

Every Woman Knows She Can:

Run the government—
Get Paris with a two tube set—
Lick Tunney with a little training—
Understand women.

Outact Gloria Swanson—
Bring up the neighbor's children—
Make a home with a yard of chintz—
Twist men around her finger.

AN ARREST MADE IN MONTREAL
IN ARMSTRONG MURDER CASE;
AVARD DE MARCHANT IN CUSTODY

Montreal Jan. 8.—Commissioner E. C. P. Salt of the New Brunswick Provincial Police has placed under arrest Avard De Marchant. The man is being held in Montreal pending questioning and investigation Commissioner Salt who arrived in this city accompanied by Sergeant Bird of the New Brunswick Provincial Force is following a clue in connection with the murder of Edward E. Armstrong farmer, who was found with his head crushed in, near Perth N. B. on Dec. 31.

It has been established that Armstrong was killed some time between Dec. 28 and 31. The body was found covered in three feet of straw in a mow in a stable. His head had been battered in with a stake and a neck yoke it is believed.

The New Brunswick Provincial Police are investigating every possible clue in connection with the crime.

Sergeant Bird left last night for the woods of northern Quebec to investigate and check up the story of DeMarchant.

Hudlin's Case Also.

Commissioner Salt who was for years with the Royal Canadian Mounted Police in Montreal is also here in connection with the Hudlin case. On Nov. 15, Constable Russell P. Hayward of the New Brunswick Provincial Police was murdered at Ripples N. B. while attending to his duties. Nehemiah Hudlin, colored has been arrested and will be tried for the crime. It is in order to complete the chain of evidence that further investigation is being made in Montreal and neighborhood.

Speaks of Police.

In the course of short interview, during which no details of his mission were given out, Commissioner Salt yesterday discussed the work of the recently established provincial police for New Brunswick. Although the work is arduous and exacting, he stated the commissioner was satisfied that the population of New Brunswick realize the difficulties of organizing an entirely new force. Nevertheless all efforts are being made he said to serve the interests of the population in the most efficacious manner and to maintain peace and order.

Perth, N. B. Jan. 3.—Although little more than a week has elapsed since the discovery of the lifeless body of Edward E. Armstrong 64 year old farmer of this place where he had apparently been struck down brutally and covered up with the straw on his barn floor conditions had practically settled down to the even tenor of the small county town here, this week end. Since the completion of the inquest into the farmer's death things have returned to normal, although new developments are momentarily expected.

Telegram Gave Address

A new clue which it was considered might prove of immense importance was stumbled upon by the authorities during the inquest when the mother of Avard De Marchant who had been missing from Perth for some time dropped the information unwarily that her son had wired home from Montreal for replenishment of his personal funds.

The officials received her authority to investigate a copy of the telegram from the local office of the Western Union with the result that Commissioner E. C. P. Salt left the next noon for Montreal. The communication it was said was to the effect that he (De Marchant) was suffering from blood poisoning in a Montreal hospital and in need of money. It was believed that Captain Salt communicated with the Mounted Police in Montreal and arranged with them to hold the man while he entrained for that city to bring him back.

Sergeant Leech has returned to his post at Grand Falls and Officer McMahon had returned to Woodstock and Dudley Wilson who was recently transferred from Saint John to take charge of the new

post at this place still remain on guard.

May Arrive Today

Assistant Commissioner E. C. Morgan said yesterday that although no further word had been received from his chief it was generally believed that the prisoner whom Captain Salt was expected to bring to Andover today would be Avard De Marchant and the arrest would probably have some direct bearing on the case. De Marchant he said had been sought by the police for different offences the most recent one before this, being forgery which game he practiced in Maine.

De Marchant's wife Mr. Morgan said had for some time been housekeeper for the late Mr. Armstrong before the coming to his household of Mrs. Fanny Flanary. It was also believed that the prisoner had been involved in the matter in other ways.

Regarding a rumor received in Saint John that Mrs. Flanary and Sam Bentley who were detained for a time in the Andover jail and later let out on parole while waiting for hearing at the inquest had taken "French leave" and were apprehended by the police at McAdam Junction. Mr. Morgan said that he had heard nothing about it and that it, was probably just a wild rumor like so many current at the present time.

MADE GOOD
PROFIT FROM
HIS POULTRY

Adam Moore Finds
Poultry a Paying
Prospect on His Farm
at Scotch Lake.

Dear Sir,—

Your readers may be interested in a correct report of what our flock of ninety Barred Rock hens did for us last year. We had forty yearling hens for breeders, and fifty pullets. Most of the pullets were hatched in May, so were not early enough to be the best winter layers or they would have made a better showing. We gathered 14,090 eggs in the year an average for the whole flock of 156 5-9 each. These eggs were disposed of at a value of \$456.91. Feed and all expenses for an adv. and three roosters, that cost \$15 were charged to the hens and the total cost was \$257.85 and left a balance of \$198.76 for their care.

We set 120 dozen eggs in the incubators and had two brooders for the chickens in which we used 60 gallons of oil for heating. The total cost of all chicken feed, eggs, oil, etc., was \$231.43 and the total value of all the chickens raised was \$556.58 and we had same to use beside which left a balance in our favor of \$323.15 for chickens and \$198.76 for eggs a total for the flock of \$521.91.

That looks like easy money, but it is not as easy as it looks. You have got to have the right kind of hens, take care of them right and be with them every day in the year. There is no vacation, no holidays, no Sundays and not more than two hours off at any one time, any one who is not willing to do that, had better leave poultry alone, but it is a pleasant, interesting job for any one that likes it, and is willing to tend to it properly.

Yours very truly,

ADAM MOORE.

Scotch Lake, N. B.,
Dec. 4th, 1927.

BAD GIN KILLED
18 SOLDIERS

Madrid, Jan. 9.—The United States is not the only country in the world to report fatalities from bad liquor.

Reports from Larache, Spanish Morocco, said that 18 Spanish soldiers died after drinking bad gin while celebrating a national holiday in honor of the three kings who visited the Christ child in the manger.

TO REFINANCE
THE BATHURST
COMPANY

New Owners May Erect
a 50,000 H. P. Power
Plant on the Nepisiguit.

Montreal Jan. 9.—It is understood that new financing by the Bathurst Company will be carried out within the next four or five weeks. The Company will be carried out within Nesbitt, Thompson and Company interests at a figure which netted the common shareholders \$105 per share.

The price at which Bathurst changed hands places a value of some \$10,283,000 on the equity in the property which is preceded by a bonded debt of some \$2,757,000.

The Power Corporation of Canada is to make a study of the company's power holdings for the present owners. In the meantime Bathurst has on order another 75 ton newsprint machine for which power will probably be supplied by a new power plant to be erected under the supervision of the Power Corporation.

Ultimately it is expected that Bathurst will go ahead with a construction program involving the erection of a new 50,000 h. p. hydro electric plant on the Nepisiguit river with which will be coupled the erection of a new 200 ton newsprint mill. The strength of the Bathurst company lies in its extensive and valuable timber limits.

The fact that the Power Corporation of Canada will carry out and supervise any hydro electric development means something to the shareholders of the Power Corporation. The more construction jobs which the corporation obtains the larger will be its earnings. The Power Corporation of course is not in the construction business but it derives a revenue both from directing the construction and the administration of power properties.

DISCLOSES WHY
COLUMBUS DID
NOT STAY HERE

London, Jan. 9.—Columbus did not settle in America because he did not have his wife with him, according to Lady Astor.

The more she sees of men the more her ladyship believes in women, she told her audience at the annual dinner of the Three Towns Association.

"Those pioneers we have heard about would not have stayed a week in other countries if their wives had not been with them," she said.

De Marchant's Arrest

No word has been received at Provincial Police headquarters in regard to the arrest of Avard De Marchant at Montreal as a suspect in the Armstrong murder case at Perth. Police Sergt. John Bird of this city accompanied Commissioner Salt to Montreal last week and will convey the prisoner to Andover. It is understood that De Marchant was arrested on a warrant sworn out by Commissioner Salt in Andover prior to his departure for Montreal.

Gyro Club Met.

The Gyro Club had their weekly meeting at their rooms today at noon. Frank Osborne acting as chairman of the meeting. Dr. Melvin, Chief Medical Officer of the Health Department was the speaker.

DEVICE JUNKS
AUTO SPRINGS

London, Jan. 9.—Following closely upon the introduction of the new Ford comes the news of a British invention to eliminate the necessity for springs on automobiles.

The device is the invention of W. Lawson Adams and consists of a toothed steel disc bolted to the side of the frame with a rubber cushion between it and a similar disc. The second disc is connected to the end of the axle by a steel arm. The discs and cushion are bolted together and it is claimed that the cushion absorbs all road shocks.

Experiments with the invention on an old car revealed that at a speed of 40 miles an hour over gutters ridges and six inch holes most comfortable riding was experienced. Small articles placed on the back seat of the car had not shifted at the end of the test.

Hartland, Jan. 8.—There was no balloting in the civic elections this year, the following being chosen by acclamation: Heber H. Hatfield, mayor; aldermen, Ward 1, Anthony G. Baker, Herbert N. Dickinson; Ward 2, Edward A. Britton, Howard E. Adams; Ward 3, Frank A. Aiton and Clifford W. McQuarrie. With the exception of Ward 3, all are new material and should prove an able body of men to administer the affairs of the town for the year.

CHEST COLDS
Quickly Rubbed Away

"In our home," writes Mrs. Mary P. Stanley of Pittsburgh, "we were never without Nerville. If any of the children had a cold I rubbed it away with Nerville. What a wonderful liniment Nerville is! For sore throat, a bad cough, or hoarseness, I always rely on Nerville. If the children had cramps, sick stomach or diarrhoea, Nerville restored them quickly. For overcoming the minor ills that occur in a large family, I consider Nerville is a necessity." Get a large 35-cent bottle of Nerville from your druggist today.

SPECIAL ATTRACTION
AT GAIETY THEATRE

"The Harvester" on the screen at the Gaiety Monday and Tuesday is an adaptation of Gene Stratton-Porter's widely read novel.

Since the story is laid at the famous Limberlost Cabin, home of the late Mrs. Porter, and since Director Lee Meehan was her son-in-law, he transported the entire company to the Limberlost estate in Indiana and photographed the exterior scenes in that location. The result is a background of unusual beauty.

Leading roles in "The Harvester" are played by Orville Caldwell and Natalie Kingston, while other important members of the cast are Jay Hunt, Will Walling, Lola Todd, Edward Hearn and Fanny Midgley and Bel Shazzar, the canine companion of The Harvester, which appears prominently throughout the story.

Those who liked the book, and they are legion, will like the picture.

SUPPER and SALE

IN NEW BUILDING

Included in the week's activities in connection with the opening of the new building of Brunswick St. Baptist Church, the ladies of the church will put on one of their famous suppers, Tuesday, January 10th, beginning at five o'clock. Supper will be served in the gymnasium, on account of the increased accommodation, where there will be no crowding. There will also be a chance for inspection of the new building. An orchestra will be in attendance. Ice cream and candy will be sold. Don't forget the Sale that is different.
