

Premier King and Baldwin Will Discuss Emigration

Great Britain and Canada May Cooperate in Creating New Governmental Machinery For Placing Britishers on Canadian Farms—Canadian Premier to Visit Paris and Officially Open New Legation.

(Special to The Daily Mail by the British United Press.)

LONDON, Sept. 13—Premier W. L. MacKenzie King of Canada, is expected to reach London from Geneva about October 3rd or 4th, when he intends to consult Premier Baldwin regarding the reported emigration scheme whereby Britain and Canada would cooperate in creating new governmental machinery for placing a thousand men from Britain on Canadian farms.

While Premier King refuses to disclose the details of his plans in this respect until he has seen Mr. Baldwin, Conservative headquarters in London are busily engaged in collecting data, presumably with the object of furnishing the British Prime Minister with the necessary information.

Before embarking for London, Hon. Mr. King will visit Paris to meet members of the French cabinet and to officially open the new Canadian legation office, a ceremony for which Hon. Philippe Roy, Canada's representative in Paris, is returning from Geneva shortly in order to complete arrangements.

C.N.R. IS WELL EQUIPPED TO HANDLE GRAIN

Will Have Forty Thousand Cars on Service in Western Canada This Fall.

(Special to The Daily Mail.)

Montreal, Que., Sept. 13—With more than forty thousand grain cars in service on western lines of the system this fall, the Canadian National Railways are in splendid position for the handling of the grain movement from the west to the head of the lakes and to the Pacific Coast, according to operating department officials of the Canadian National here. While grain has begun to move from the local shipping points where threshing is under way, this movement is yet far from its peak, which will come when the Province of Saskatchewan commences general shipment in about another ten days. By that time, daily loadings of cars will climb to around the 1,500 mark, and this year, with an estimated 550,000,000 bushels of grain to be moved, all resources of the railways will be required to keep this grain moving forward to the elevators at the head of the lakes and the Pacific Coast ports. During the year, 108 new elevators were built at country points along the lines of the Canadian National in the three western provinces, these providing additional storage capacity of 3,558,000 bushels. The elevators were divided among the Prairie Provinces as follows: Manitoba, 21 elevators with 1,744,000 bushels; Saskatchewan, 18 elevators with 5546,000 bushels, and Alberta, 69 elevators with 2,276,000 bushels.

OLD INDIAN TREATY STUFF WOULD NOT GO

Amherst, N. S., Sept. 12—Charged with illegally fishing salmon in the Maccan River, Benjamin Brookes, of Springhill Junction, an Indian guide and trapper, was today fined \$1 with \$9.50 costs. It was in this case that Isaac Paul, chief of the Micmac encampment in Cumberland, used as a defence for the accused an old treaty between the English forces and the Indians set forth in 1752. As a result of this treaty there was great interest displayed in the case throughout the county district as the treaty gave permission to the Indians to fish, trap and hunt at all seasons.

John S. Smiley, K. C., who prosecuted the case for the Department of Marine and Fisheries, contended that the treaty was not valid and referred to a decision handed down by Judge George Patterson in the County Court upon the King vs. Sylliboy, of Sydney, an Indian who was arrested some time ago for having green pelts in his possession. Sylliboy also referred to the ancient treaty as a defence and Judge Patterson took steps to ascertain the facts of the matter before offering a decision. Sylliboy, at the time, was convicted but the fine was nominal. Guided by this decision, Magistrate C. E. Casey convicted Brookes this morning and imposed a light fine.

REPORT WOMEN'S WORK IS VERY ENCOURAGING

The Women's Missionary Aid Society under the leadership of Mrs. D. J. MacPherson of Marysville had charge of the afternoon programme of the 3rd district meeting of the Baptist church.

Mrs. Edna Wilson gave a most encouraging report of the Women's Convention recently held in Woodstock representing the work of Baptist Women's Missionary Societies in the Maritime Provinces. The financial report showed a banner year, \$54,000 having been raised which is \$3,000 more than the amount of the budget. A forward step taken by this gathering this year was the pledging of an additional \$2,000 to the work of Home Missions in the Jubilee year now at hand. Special mention was made of two missionaries, young women who are going forth to India under the auspices of the Women's societies. They are: Miss Vivian B. Waldron who has now completed her education at Acadia University, and Miss Ruth Falconer who is now carrying on her work at that University. Both of these young women are from New Brunswick. Mrs. Wilson aptly referred to the fine work of these missionaries when she said: "That light shines brightest which shines farthest from home."

Mrs. A. D. Matheson gave a stirring message on the fine work of missionaries who are bearing double burdens in recent years. She declared that the key to the work in foreign lands is the increased financial and prayerful contributions of the people at home. A fine description of the work carried on by Mr. and Mrs. Matheson in their own field of Bobbili, India, gave splendid finishing touches to her appeal.

Other items of interest were remarks of welcome and reading of Scripture by the President, and prayer by Mrs. W. G. Clark, and a display of handwork by Mrs. Havelock Coy. work done in the workshop for missions. Mrs. Williams from Keswick rendered a pleasing solo, and Rev. W. Stiles conducted preliminary devotional service.
