ROTARIANS REMOVE THE BOUNDARY LINE BETWEEN CANADA AND UNITED STATES

Algonquin Hotel, St. Andrews-by-the-Sea, Sept. 12—The boundary line between the United States and Canada was down today when Rotarians of the 38th (Maine) District, who had been assembling here since yesterday, got well started on the business and social functions of the first fall conclave ever held on soil outside the American Republic. Together with members from several clubs in New Brunswick, they participated in gatherings which stressed the international spirit of Rotary and listened to speakers who stressed the friendship that thrived between the two nations.

The high light of the day's proceedings was a talk given at dinner by Cameron Beck, personnel director of the New York Stock Exchange, who told of his experiences with, and on behalf of, boys and youths employed by that institution. It was a very human, very gripping talk which culminated in the declaration of his opinion that the future welfare of the youth of America rested not in the hands of the professors and preachers but with the business men and women as typified by the Rotary members.

Responsibilities.

Mr. Beck related many instances to demonstrate the fact that it was worth while for men to give heed to the souls of those with whom they worked and he summed up his conception of his responsibilities in life under four headings:

First—Responsibility to employers, realizing that it was only in co-operation with them that success could be achieved.

Second—Responsibility to individual employees. In this regard he declared that many a radical was such on account of some treatment received at the hands of a superior years before. He declared that the New York Stock Exchange would not countenance the disciplining of an employee before other workers, or before he had a chance to tell his own side of the case in private.

Third—Civic responsibility. Speaking on this, he declared that the good citizenship of a worker depended to a large extent on the influences surrounding him at his work.

Fourth—Responsibility to people looking for work. In this regard, he said, no seeker after work should be turned away without having been given a kind reception.

Mr. Beck asked the Rotarians to give a part of their hands and their hearts to the youth of the country, in a worthwhile effort to help them solve their problems.

Presentations.

On behalf of the 38th District, a handsome banjo clock was presented to District Governor Bernard Archibald, of Houlton, who graciously acknowledged the presentation, made by Past District Governor Dr. Sullivan L. Andrews.

During dinner, a beautiful bouquet of roses was presented to Mrs. Todd, wife of Lieut.-Governor W. F. Todd, who, in responding, spoke of the friendship which now existed between New Brunswick and Maine, between Canada and the United States, and hoped that nothing would ever happen to destroy it. Other bouquets were presented by the District Governor to Miss Tait, of Washington, assistant public printer of the United States, and to Mrs. Beck, wife of the speaker of the evening.

Many at Luncheon.

The spacious dining room was filled almost to capacity for luncheon at noon, the first formal get-together of the conclave. Bernard Archibald, governor of the Thirty-eighth District, was in the chair and addresses of welcome were given by Rev. Dr. W. C. Kierstead of Fredericton, governor of the Thirty-second Rotary District, embracing the Maritime Provinces and Newfoundland, and Hon. W. F. Todd, Lieutenant-Governor of New Brunswick.

Dr. Kierstead.

Dr. Kierstead, in extending a cordial welcome to the visitors, stressed the unity of ideals which existed on both sides of the international boundary and pointed out that the combined efforts of the two great English-speaking nations of North America would

go far toward establishing world peace and security, one of the chief aims of Rotary.

Benefits Mutual.

He referred to the mutual benefits derived by the United States and Canada from their interchange of ideas and methods. He pointed out that while Canada had gained much from the republic to the south in the way of industries and the investment of United States capital, it had suffered from the loss of many of its native sons who had migrated across the border. He appealed for thoughtful consideration of the matter of trade between the two countries, which he felt was now being hampered by tariffs which protected the people of the United States.

Lieut.-Gov. Todd Speaks.

Lieutenant-Governor Todd spoke of the long period of peace which had existed between the people of the United States and Canada, a peace so secure that not a soldier or a gun was to be found along the far-flung boundary line which separated them. He likened the ideals of Rotary to those of the Anglo-Saxon people, whether they lived under the Union Jack or the Stars and Stripes.

Mr. Archibald.

Mr. Archibald, in acknowledging the welcome on behalf of the visitors, argued that instead of the boundary line being unprotected between the United States and Canada, rather was it extremely well protected by the goodwill that existed between these two peoples. He referred to their common origin and hoped that the good feeling which now ruled would persist. He cordially thanked the previous speakers for their words of welcome.

After lunch the visitors were taken for a trip on the steamer Grand Manan over the site of the proposed Quoddy tidal development, where details of the suggested Cooper hydro plans were explained.

On their return the delegates enjoyed a band concert in the hotel rotunda by the Calais City Band.

GRADE SCHOOLS GIVEN HOLIDAY FOR EXHIBITION

(Continued From Page Eight.)

school was overcrowded and it would be necessary to transfer some pupils to other schools of that grade in the city. This the board directed him to do. Tenders for fuel for the city schools were received and it was found that A. H. VanWart and Sons was the lowest tenderer. The contract was therefore awarded to that company. A committee was appointed to deal with the request for increase of salary made by the teachers of the common grades.

Raymond Foster in a letter to the Board, thanked them for the prize donated to him on account of high standing in Grade 9 last year. A letter was received from Lt. Col. A. B. Snow with circular letter from the Chief Supt. of Education enclosed which called the attention of teachers and school officers to the importance of cadet corps work in the schools and urged upon them greater participation and stronger co-operation with the military authorities in the promotion of this work. Routine work concluded the meeting and the usual bills were ordered paid.

Instructor Reappointed

W. V. B. Riddell, physical instructor to the schools in the city and District Scoutmaster of the Boy Scouts will be retained in the city for the coming season in a like capacity. His appointment followed a meeting of the Executive Council of the Fredericton District of the Boy Scouts Association at the Cathedral recently. The Scout Association in conjunction with a number of citizens who have contributed generously to the cause, are responsible for the retaining of Mr. Riddell as instructor in athletics to the boys of the various schools in the city. The usual routine will be followed during the coming winter season, the organization of sports in training in physical culture.

Tea must not be exposed to air—it rapidly loses flavour and strength. With "SALADA", less than one hour elapses from the time chests are opened till the fragrant leaves are again sealed in air-tight aluminum packets. Be satisfied, use

VITAL FACTS BROUGHT OUT IN BAPTIST MEET

(Continued From Page Eight.)

has been such a glorious achievement.

Home Missions are not in any lesser degree a matter of interest as was shown by the act of Convention in authorizing the Home Mission Board in its coming Jubilee year to put on a campaign for \$50,000 in order to carry out its work in these Provinces. A profound conviction that the denomination has a large work to do lies behind this act of authorization.

The denomination's investment of over two and a half millions of dollars in Acadia University, the speaker declared, was now being justified if it was not justified before, by the educated ministry that is being kept within the bounds of these provinces through Acadia's recent developments, and by the excellently trained students in all departments going forth to take leading places in all parts of the world.

The \$75,000 allotment for this work has been exceeded by over \$5,000; but even yet, the funds are inadequate for the extensive program of the denomination, and the coming year will call for considerably increased beneficence to meet the growing demands.

Rev. Henri Lanctin Spoke.

The second speaker of the evening was Rev. Henri Lanctin of Connors, N. B. in very vivid manner he described the need of and type of work that protestantism is doing to help the many French Canadians throughout our country. Mr. Lanctin speaks out of a large experience as colporteur, as manager of an orphanage, and as a preacher of the Gospel.

The enthusiastic presentation of this message and description of the valuable work being done by such men as Mr. Lanctin assured this District of the worthwhileness of the Grande Ligne Mission work to which the Maritime Convention has regularly given its endorsement and enthusiastic support.

Special music was provided during the evening session by two male quartettes, one from Burt's Corner and one from Marysville. Resolutions were passed urging co-operative inter-church evangelism and reaffirming the position of these churches in advocating whatever measures may be taken to provide prohibition legislation in place of the present Liquor Control Laws.

Wedding of Interest

A wedding of interest to many friends was solemnized yesterday afternoon in the Brunswick Street Baptist parsonage when Rev. Dr. G. C. Warren united in marriage Verne Alva Carter, son of Mr. and Mrs. Frank Carter of Debec and Miss Bessie Pearl Hillman, daughter of Mr. and Mrs. Beverley Hillman of Hawkeshaw. The bride was a student at the Provincial Normal School during the term of 1924-25 and has been engaged in teaching since that time. Her last school was the Verdun school at Eel River. The ceremony was witnessed by Mr. and Mrs. Thomas R. Kennedy of Debec. The happy couple will reside at Debec where the groom is engaged in farming.

BORDER FAIR IS GETTING BAD WEATHER

St. Stephen, Sept. 12—The weather man failed again to smile on the St. Stephen Exhibition today. Around noon a heavy rain set in, continuing throughout the day, but the train, cars and boat brought a number of people to town, many from Saint John, Fredericton and Maine, and quite a large number passed through the gates, taking in the main buildings and midways.

On account of rain, the free acts were not held today and the racing program had to be carried over. The St. George Band furnished music throughout the day. Judging in many departments finished this afternoon, and the balance will be completed tomorrow.

Thursday is always the big day and with the \$1.00 free-for-all on Friday the two days should have a record attendance, if weather proves favorable.

RIFLE BULLET BRINGS DEATH TO YOUNG GIRL

Chatham, Sept. 12—Jean McIntosh, eight-year-old daughter of Mr. and Mrs. James McIntosh, of Tabusintac, is dead as the result of having been shot with a .22 calibre rifle with which she was playing was discharged, the bullet entering her body. The injured child was brought to Chatham to the Hotel Dieu Hospital but she passed away a short time after reaching the institution. She is survived by her parents, three brothers and four sisters.

Bridgeport, Conn. Sept. 13—Tired of life John Sweeney drank a can of canned heat and lay down across railroad tracks. A railroad officer who found him told him the tracks had not been used for three years.

London, Sept. 13—"Brighter taxicabs" are being introduced in London. Among other improvements they will have copper ashtrays, flower holders and match strikers. Mirrors will also be provided.

PROBATE COURT

COUNTY OF YORK
PROVINCE OF NEW BRUNSWICK.
To the next of kin and creditors of William S. Evans, of the Parish of Douglas, in the County of York, and Province of New Brunswick, Farmer, deceased.
