SHERIFF GOODSPEED

The appointment of Clarence N. Goodspeed as Sheriff for York County which Mr. Goodspeed announces today, is a popular one. Mr. Goodspeed is a former alderman and also a former member of the York Municipal Council. He was on one occasion a candidate for the Legislature in York County.

The new Sheriff is a good type of citizen and a man who should give every satisfaction in his new position.

Mr. Goodspeed states that his deputy will be Harry Maston of Devon, who will also act as resident jailer. Mr. Maston has been a provincial constable and is a man who should likewise give good satisfaction.

WEAR RED COATS

The unfortunate occurrence in Albert County, by which a man lost his life while hunting and another man has been charged with manslaughter as a result, should bring home the fact that the utmost precaution should be taken by those going into the woods at this season of the year.

If a law were passed that all hunters going into the woods be compelled to wear bright red shirts, coats or sweaters, it might help to eliminate the danger of fatal accidents. This should be made a condition of granting a license.

PETITIONS

About the easiest thing to get is signatures to a petition addressed to a government or some higher-up authority. Many will sign a petition without enquiring as to the exact prayer of the document.

An exchange states that in one town a wag circulated and had generally signed a petition praying that all the petitioners should be hanged—signed their own death warrant, as it were.

But this jokist was out-distanced by a humorist who had a petition almost unanimously signed in his home town, and the request in the body of the petition, which not one person read, was that the long, long way to Tipperary should be shortened.

COMPANY FOR MISS MACPHAIL

Miss Agnes Macphail will no longer bear the distinction nor suffer the drawbacks of being the only woman in the House of Commons. She will be joined at the next session by Mrs. George Black, wife of the former Speaker of the House, and a former Fredericton boy, representing the Yukon as an Independent Conservative. Mrs. Black's election and the return of Miss Macphail—a decided surprise to the Liberal and Conservative candidates who opposed her in the new riding of Grey-Bruce—even up the count with the Senate, there now being two women members in each House.

Mrs. Black, well known in Parliamentary circles, will enter the House with the good wishes of, it is safe to say, all the seasoned members of all parties. But she or any other woman who is to follow Miss Macphail into the House of Commons will not find her task an easy one. Miss Agnes Macphail pioneered for the women of Canada at Ottawa. It can be said that her return, obtained at the polls in a new constituency, amounts to a vote of confidence of the people in her ability and the record she has achieved. Though cast in Opposition, she has never found it difficult to bring sound and fruitful argument into a multitude of debates. Her crusade for penitentiary reform, to mention but the most recent of her House activities, has set a standard that will test the abilities of all future women members.

Lower Queensbury

Lower Queensbury, Oct. 28—Mr. and Mrs. Harold Spruce and son Karl and nephew Dannie O'Keefe of Bradley, Me., spent a week visiting relatives in this place, also in Prince William and Bear Island.

A bean supper was held at the home of Mr. A. Hood on Wednesday night. There was a large crowd in spite of the rainy night. The sum of \$15.30 was realized, proceeds for the school-house.

Mrs. Lorne Brown entertained at a knitting bee on Friday afternoon, a very enjoyable afternoon was spent.

Mrs. Barry Anderson of Andover, spent a few days with her father, A. A. Gunter.

A number of the young folks attended a party at Frank Joslin's on Saturday night.

The bears are beginning to make their appearance in this place, one having been seen near the road just behind the residence of Lorne Brown.

Mrs. Roy Murray of McAdam, returned home on Sunday after spending a week at her former home here.

Mrs. Wm. Howell, Boston, returned to her home on Tuesday night. Mrs. Howell spent a few days visiting her mother, Mrs. Martha Murch.

Mr. and Mrs. Lorne Brown and Mr. and Mrs. Percy Currie were the dinner guests of Mr. and Mrs. Murray Murch on Sunday.

Misses Ruth Moore, Mary Norquay and Joyce Brown were the guests of Misses Lena Joslin on Saturday afternoon.

On Thursday evening, Oct. 17th, a number of friends of Mrs. Paulina Agnew gathered at her home, and gave her a surprise party in honor of her birthday. A very pleasant evening was spent by all, after which a nice lunch was served by some of the ladies.

Failed to Take Proper Precaution Before Shooting

(Continued from Page One) emerged under the right breast, evidently having pierced the lower lobe of a lung. Members of the jury, John Wood, foreman, John W. Gaskin, C. R. Smith, Beverly Mitton, Spurgeon Horsman, Blair Collier and Victor Janowye—visited the scene of the fatality today and after the testimony had been submitted they deliberated more than an hour before birging in their verdict.

Beers and Spencer, who entered the woods near Turtle Creek, together on Saturday, said they had heard distinctly the reply of a moose call following their calling several times. They told of events leading up to the accident, of Beer going to one side and getting nearer the sound. He said he saw what he believed to be antlers in the brush at the spot where Cole was, and also stated that he saw what he thought were moose hoofs but which now are believed to have been the white socks which Cole wore.

Beers was about 40 feet away from Cole, in a thicket, when the shot was fired.

Methods of Prospecting are Described

(Continued from Page Eight) the point where an ore body lies. The tortion balance, the speaker explained has been used mainly as a means for cutting down drilling expenditures by pointing out the probable location of ore bodies. It is especially useful in determining the location of bodies of iron ore, coal and oil.

Dr. Miller told of considerable work which has been done by his party in the Moncton oil and gas district. One interesting formation which the tortion balance discovered, he said, was an immense subterranean pre-Cambrian mountain, 20 to 30 miles long, 6 to 10,000 feet high and of indefinite width.

Slides were shown, illustrating some of the work done with the balance since 1928. Indeed, this sort of investigation is comparatively recent, most of the work along these lines having been done during the past few years.

When questioned by this writer after the lecture, Dr. Miller stated that at present the main purpose of the work is to test out the uses and practicability of the instrument. He felt sure that it would never replace the modern geologic survey, but would supplement it greatly. Dr. Miller, who is from Ottawa, is a graduate of the University of Manitoba and attended Oxford University as a Rhodes scholar.

TO LECTURE HERE

Wilbur Evans, eminent baritone, whose magic voice was heard here last winter, will be the first lecturer to be here in conjunction with the plan of the University of New Brunswick to utilize the surplus of the Busted Scholarship to have prominent lecturers in the artistic world, speak to the undergraduates of the University of New Brunswick. Mr. Evans will speak to the students in the Memorial Hall at noon tomorrow.

ILL TODAY

It is reported that Gabriel Smith, M.P.P. for Sunbury is quite seriously ill at his home today. Friends will hope for a prompt recovery.

OUR MAIL BAG

RESPECT FOR THE CITY LAWS

Editor Daily Mail,
City.

At the special meeting of the City Council of last Friday the matter of giving sanction for the construction of another fire-trap building with entrance from King Street was passed.

The old building had been burned some two months ago, and it is thought that this building was the cause of carrying two other buildings with it at the time, and when one of the other buildings was rebuilt it was rebuilt according to the laws of our City, but as the one in question desired to build contrary to the laws of our City the matter had to come before the Council for sanction, and once again the laws of our City are broken—and we state again that as long as you allow one man to build contrary to the laws of our City it is almost impossible to turn the other fellow down—the laws of our City are sacred and should not be broken by every "Tom-Dick-and-Harry," and the quicker the aldermen realize this the better for all concerned.

The Aldermen are all responsible in this particular case, because the people of this City look to them to see that the laws are not broken boastingly. This passed unanimously.

People today seem to think that it is great to beat the law—that they are doing a great stroke by beating the laws of the country and nine times out of ten boast about it which is bad business—the laws of our City were made by men that gave time and careful consideration, and today to stand up and break the laws with a grin on your face is only adding insult to injury, and while we thought the disease had been cured we find that it has broken out in another place.

Oct. 23, 1935.

CITIZEN

OUR SCHOOL EXAMS.

Editor Daily Mail,
City.

Dear Sir:

I was glad to read in your lively paper tonight that the city of Saint John and also Moncton are going to change their systems of school examinations, and also that Dr. Sterling MacFarlane and Mr. Hanson were each agreed that a change was necessary.

I have often wondered how it was the system was allowed to exist so long as we have it at present. I always thought it the fault of the provincial Education Office, but it seems that the towns can make these changes if they want to do so. Perhaps our city, which imagines that it is ahead of all others in educational matters, will wake up and do the same as the others.

I joined the Parents Association or whatever they call it. Perhaps if they can do something besides reading long reports from some magazines which some good women always did when I went to the meetings, they might take up this examination matter and get the opinions on it. It will show whether the Association is alive or whether it just exists. I do not think much can be done with the Board.

Yours,
Monday night

CARD OF THANKS

We wish to extend our sincere thanks to the many friends and neighbors who so kindly assisted us in our recent sad bereavement. To those who donated cars and floral tributes as well as to all who extended their sympathy and aid we are deeply grateful.

MRS. WOODARD GRIFFITH
and SON.

QUALITY or QUANTITY

Take your choice. You cannot expect both. Many people buy flavoring extract that is put up in large containers at a low price but they get QUANTITY only.

The housewife that takes pride in her cooking demands flavoring extract of high QUALITY. We recommend our PURE IMPERIAL EXTRACT which is of the highest QUALITY.

Ask your grocer for it. There is no other just as good.
