

NEW MAP OF CANADA

The Topographical and Air Survey Bureau, Department of the Interior, Ottawa, has just issued a new map of Canada on the scale of 100 miles to one inch which will be found of interest to all those persons who have use for a small scale map of the Dominion.

The best map of Canada printed by the Department of the Interior is published on the scale of 35 miles to one inch in four separate sheets which, when joined together, cover a space about 4½ feet by 8½ feet, making an excellent wall map if one has such a space available. There is another map of intermediate size on the scale of 60 miles to one inch which is very convenient for desk use or as a smaller wall map.

The new map has been produced to meet the demand for a smaller map of handy size, useful for general reference purposes. It is 25 inches by 36 inches and fits into any large size drawer or a small space on the wall. This map shows all of Canada south of latitude 75, thus including all but some of the northern islands. All the larger physical features, such as lakes, rivers, bays, and islands, are depicted in correct position. The boundaries of the provinces and districts are outlined. All cities and towns are shown and all the railways are drawn in, but without the intermediate small stations being named. The latitude and longitude are drawn and from them it may be seen that southern Ontario lies in the same latitude as Boston, while the southernmost tip of the Ontario peninsula is as far south as the northern end of the state of California.

According to the latest figures, the land and fresh water area of Canada, according to provinces and territories, is given in the following table:

| Province | Sq. Miles |
|-----------------------|-----------|
| Prince Edward Island | 2,184 |
| Nova Scotia | 21,068 |
| New Brunswick | 27,985 |
| Quebec | 594,534 |
| Ontario | 412,582 |
| Manitoba | 246,512 |
| Saskatchewan | 251,700 |
| Alberta | 255,285 |
| British Columbia | 366,255 |
| Yukon Territory | 207,076 |
| Northwest Territories | 1,300,682 |

Lake Superior is the largest lake shown on the map. It and Lakes Erie, Huron and Ontario, lie between Ontario and the United States. Of the lakes lying wholly within Canadian territory, Great Bear Lake is the largest with an expanse of 11,660 square miles. Other large lakes over 1,000 square miles in area include Great Slave, Winnipeg, Athabasca, Winnipegosis, Manitoba, Nipigon, Southern Indian, Reindeer, Dubawht, La Martre and Lake of the Woods.

Canada has some great river systems the Mackenzie being 2,500 miles in length from its mouth to its headwaters, and the St. Lawrence 1,900 miles. Other great rivers over 1,000 miles in length include the Nelson, Saskatchewan, Churchill, Columbia, Peace and Yukon.

Mount Logan is the highest mountain in Canada, with an altitude of 19,850 feet. In addition to it there are sixty-six other mountain peaks above 11,000 feet in height.

Copies of this map may be obtained from the Surveyor General, Department of the Interior, Ottawa, for twenty-five cents per copy. As it is a useful school map, one copy will be supplied free to any school for official use, upon application of the teacher or school board.

BRITISH MARKET FOR POULTRY

Total imports of poultry into the United Kingdom in 1934 amounted to 452,000 cwts., as compared with 500,400 cwts. in 1933, writes Mr. W. A. Wilson, Animal Products Trade Commissioner in London, in the forthcoming issue of the Commercial Intelligence Journal. The tonnage for 1934 was the smallest since 1926, 12 per cent under those of 1932 and ten per cent less than in 1933. Of the total imports of poultry into the United Kingdom in 1934, amounting to 452,000 cwts., and turkeys for 261,000 cwts.; comparative figures for 1933 are 500,400 cwts., of which 199,000 cwts. were chicken and 255,000 cwts. turkeys. Contributions by Empire countries totalled 67,000 cwts. of chickens and 76,000 cwts. of turkeys in 1934 as compared with 40,000 cwts. of chickens and 68,000 cwts. of turkeys in the previous year. The outstanding position of the Irish Free State among Empire countries in the volume of dressed chickens supplied to this market is noteworthy, total imports from that source in 1934 amounting to 59,000 cwts. as against 37,000 cwts. in 1933. Canada is second, but the quantities supplied are small—8,000 cwts. and 1,000 cwts. respectively in the same years. The Free State was the most important source of supply for turkeys also, with 67,000 cwts. as against 58,000 cwts. in 1933. Canada's share for these two years was 7,000 cwts. and 9,000 cwts. respectively. Among foreign countries the following were the principal suppliers of chickens to the United Kingdom market in 1934: Hungary, Poland, the Netherlands, and Russia. Hungary was the leading source of supply for turkeys, others of importance being Yugoslavia.

It pays to advertise in The Daily Mail.

Helping Mothers to Cut Down On Family's Colds

Unique Formula for Nose and Throat Helps to Prevent Colds—And to Throw Off Head Colds at the Start.

SOON CLEARS "STUFFY HEAD"

Mothers are so often worried about their families' colds that they find special comfort in this unique aid for preventing colds—Vicks Va-tro-nol.

Especially designed for nose and upper throat, where most colds start, Va-tro-nol stimulates the functions provided by Nature—in the nose—to prevent colds, and to throw off head colds in the early stages.

Used in time—at the first sniffle, sneeze or nasal irritation—just a few drops up each nostril—Va-tro-nol helps to avoid many colds.

Where irritation has led to a clogged-up nose (a stuffy head cold or nasal catarrh) Va-tro-nol spreads through the nasal passages—reduces swollen membranes—clears clogging mucus—brings comforting relief.

A Practical Guide for Mothers Each year, more and more families are being helped to fewer colds, shorter colds and milder colds by following Vicks Plan for Better Control of Colds. Vicks Plan has been clinically tested by practicing physicians, and further proved in everyday home use throughout the country. Full details of the Plan come in each package of Vicks Va-tro-nol.

A tribute to the press that might well be heeded by all, political leaders included, seeking to influence public opinion is the following from The Maritime Baptist:—

The American Methodist Bishop, Dr. John M. Moore, makes this significant observation: "Preaching through the press is a necessity today."
