Where Is The Man Who Killed Dempsey Six Weeks Ago?

**Mounted Police Are Yet
Unable To Announce
Any Progress In Track-
ing Down Murderer—
Still on the Case.**

(Special to The Daily Mail)

JACQUET RIVER, July 2—In May last the body of Patrick Dempsey, aged 24, was found murdered in this vicinity. He had two bullet wounds in his body, one in his back and one in the back of his head. He belonged to Becketville Settlement near here. He was unmarried. He had been dead three or four days when his body was discovered.

The R.C.M.P. were put on the case but up to the present time have been absolutely unable to locate the murderer. They say that they have clues but further than that they refuse to discuss the case in any way, which is quite natural. As the R.C.M.P. are always supposed to get their man it is hoped here that their efforts to run down the murderer will meet with success. This is too small a province to have a man murdered in cold blood.

A search was made following the discovery of the body of the murdered man, but in spite of an intensive search in the area in which the body was found, R.C.M.P. failed to locate any rifle shells. The heavy ground covering of leaves and grass made the search difficult. When discovered the young man's cap was clutched tightly in his hand. A theory that he had been first shot in the back and had snatched his cap and started to run before being shot in the head, was given some credence by authorities.

The gruesome discovery was made by Nelson Kelly, 15, and Ernest Mead, 12, on property of A. E. Lapointe, outside the settlement of Becketville. The boys were walking through the underbrush, searching for spruce gum, when they came on the body.

Horried, they hurried back to the settlement, saying they had "found a corpse lying face downward in a clearing." They first reported their discovery to two neighbors, Irvine Doyle and James Kelly, who in turn informed R.C.M.P. Constable E. A. Aube, Jacquet River, R.C.M.P. from Campbellton hurried to the scene, as did Dr. Ellis, coroner. After viewing the body the coroner had photographs of it taken and then had it removed to undertaking parlors here.

As far as could be determined the victim had left his father's home to go to the home of his brother Joseph in Becketville. He spent the night there and on the following day went to the home of Frank Guitart, also in Becketville. He left Guitart's house that day and was not seen again alive.

The victim was released from the county jail at Dalhousie only a short time ago, being one of the prisoners in New Brunswick jails freed in connection with the King's silver jubilee celebration. He had been given a two month sentence by Magistrate A. A. Andrew of Campbellton, for taking part in a store break in Jacquet River. His brother had been sentenced to two years in the penitentiary at Dorchester for the same break and his father had been given a suspended sentence.

The bullet holes were in the centre of the back of the head, just above the neck.

Buy At Home

It is said that several truckloads of goods came into this city during the week from different mail order houses. These goods were delivered to citizens in various parts of the city. This is too bad. Our Home Owned Stores are here to serve you. The goods sold by our local merchants are in many cases much superior to those which can be purchased elsewhere at perhaps in some cases a few cents cheaper. Often when one buys "things cheap" he gets "cheap things," which in some cases have been found to be cheap at any price, and in many cases are found to be of inferior quality. In addition to this, the money, as The Daily Mail has stated many times, never comes back.

Let us boost our Home Owned Stores and the men who are helping to make our town go. You will find the names in The Daily Mail. You can get all the furniture, groceries, dry goods, hardware, drugs, or anything else at The Home Owned Stores in Fredericton.

Our Fredericton Owned Stores Should Have Our Loyal Support.

Mr. Farmer:— You have the corner store and the man who is your friend. When you go to town go to the merchant you know and who is always glad to buy your produce at the market or at home.

OCEAN TRAFFIC WAS LIVELY OVER THE WEEK-END

MONTREAL, July 2—The busiest day of the year so far as overseas travel is concerned saw nearly 3,000 ocean passengers arrive in and leave Montreal Saturday. When it was over worn and weary rail and steamship officials and employees looked forward to Sundays and Mondays holiday with a feeling that it had been well-earned. This day of days in the travel business, when for two hours in the morning there was as big a crowd of people in Windsor Station as you could see in Times Square on a New Year's Eve, began at seven with the arrival of the boat train bringing passengers from the Empress of Britain at Quebec, reached its peak a little after ten when the Duchess of Atholl sailed with 1,100 passengers continued late into the afternoon when the Duchess of Bedford arrived from Europe with some 400 travellers and ended with the departure of night trains carrying the ocean arrivals to points north, south and west.

From eight until ten with Empress of Britain arrivals catching their home-bound trains, special boat trains arriving from Toronto with passengers for the Empress of Britain and the Duchess of Atholl and two boat trains leaving for the former liner at Quebec and all this added to the usual crowd of commuters that arrive by morning trains, the crowd in Windsor Station concourse was of such proportions that it is doubtful if any one square foot of pavement was visible for two consecutive minutes. One railway official said there had not been so many travellers in the station at one time in seven years. He was smiling happily when he said it, and so were all rail and steamship men, for it was a day of good omen for the travel business.

Family parties were an outstanding feature of the Duchess passenger list and in her hold were 18 automobiles going to take as many families touring through various countries. There were also several large parties of teachers and students going on the usual "high spot" tours of different countries. They will be away for the greater part of the school holiday period.

The Duchess of Bedford, arriving in the afternoon brought some 400 people, among whom were many Canadians who went over in the early part of

TWENTY-FOUR WERE INJURED IN BRIDGE COLLAPSE

Toronto, July 2. — Twenty-four persons were injured early this morning when a span of the Woodbine foot bridge, a wooden structure crossing a ravine in East York, collapsed under the weight of more than two-score picnickers. None was seriously injured.

While the 24 were taken to hospital, many others, including women and children, received medical treatment at the scene and were taken to their homes. All were members of the East York Workers' Association. They had been attending an association picnic.

Eye-witnesses said many of those on the part of the bridge that collapsed hung to the railing which did not fall with the flooring. They were able to swing along and finally drop only a few feet to safety near the edge of the ravine.

At its deepest point the ravine is 75 feet below the bridge, but the span that collapsed threw its occupants down less than 40 feet.

The crowd in the nearby park were just starting for home after watching outdoor wrestling matches which closed the picnic program when the bridge caved in. East York Township police said the Dominion Day holiday traffic on the 10-year-old bridge was unprecedented.

A mild panic seized part of the crowd of 5,000 within a short distance of the accident. For several minutes the cries of women and the screams of children added to the confusion in the darkness. The bridge was not lighted.

TENNIS ON HOLIDAY

The Fredericton Tennis club defeated the North Shore team here on the holiday, winning 16 events to 6 for the visitors. The tournament took place on the local club's newly-resurfaced courts. Last night the Newcastle visitors were entertained at a dance.

**A. & B. CLUB
MEETING HELD
LAST EVENING**

The regular monthly meeting of the A. & B. Club was held last evening at the clubrooms with President H. W. Woods in the chair. There was a good attendance of members and matters were dealt with in connection with the coming visit of the St. John Power Boat Club which hoist anchor on the 13th instant and arrive at Fredericton on Tuesday morning the 16th instant, with thirty boats and the chances are that if the fleet can stay over until Friday morning the regatta and water sports will be held on Thursday afternoon, the half holiday—if the boats have to return on Thursday then the Regatta will be held on Wednesday with prospects of a club dance being held on Tuesday evening and another on Thursday evening while the visitors are here.

Dr. G. Clowes VanWart, honorary president of the Club, was present at last evening's meeting and has subscribed funds for the purpose of obtaining information data and pictures of the founders of the club which will be of interest to those that come after the history of the club dates back some thirty five or forty years—many of the early members have passed on including Wesley VanWart the first president, also C. E. Neill, the secretary and former general manager of the Royal Bank of Canada, and Bliss Carman the great poet. R. S. **Battle Starts When Po-
lice Raided Meeting
Held for Raising Funds
For Stranded Strikers.**

REGINA, July 2—One constable was shot to death, one striker is dying and many are injured as the result of a riot which took place on Dominion Day at Regina when Royal Canadian Mounted Police and city constables clashed with three thousand relief camp deserters and sympathizers. The constable killed was Charles Miller of the Regina city police.

Scores were injured by flying rocks and any other missiles the milling strikers could lay hands on. Tear gas sent men, women and children fleeing from the market place when a meeting, called for the purpose of raising funds for the stranded strikers, was broken up.

The broken, dying form of a striker believed to be Dan McGee, was found after the milling mass of strikers had fled. McGee at first was reported dead but hospital authorities subsequently said he was still alive. They held out little hope of recovery.

Shots were fired by R.C.M.P. constables as the riot raged out of control beside the police headquarters.

Constable Miller in plain clothes, was seized by the strikers and beaten to death, eye witnesses said. Sticks were battered over his head as a group of men seized him in the Market Square behind the police station.

At 11.15 p.m. City Commissioner R. J. Westgate announced police held the rioting throngs in check and the Riot Act would not be read.

For more than two hours violent fighting continued between the camp deserters and police. Shots were fired. One unidentified striker fell wounded. For blocks surrounding the Market Square windows were shattered. Property damage, as yet unestimated, was considered extensive.

Hospital staffs were too busy attending the injured to estimate the number hurt.

At least 50 were receiving treatment. Doctors were called to give assistance to the wounded.

Although strikers fled before the tear gas and batons of the police, there was still spasmodic fighting at 10.15 p.m.

First outbreak occurred when the helmeted Mounted Police swooped down upon the strikers and supporters meeting in the Market Square. They appeared as a spokesman began a plea for funds to aid the strikers, ordered by authorities to remain in Regina. They have camped here since June 14 when they were first halted on their "On-to-Ottawa" trek from Western relief camps.

A score of men were taken into custody as police reinforcements were rushed by truck and on horse after the meeting broke up.

Eyes smarting from the stinging fumes of tear gas bombs, the strikers and their sympathizers scattered. One woman stumbled as she ran from the
