The depressed price of farm products is a problem with which everyone is familiar, but on the 1913 basis farm product prices have never been as low as gasoline. Between 1913 and 1920 gasoline did not rise in price to nearly the same extent as farm products, yet since 1920 its price has almost continuously declined. The data for the above graph are based on figures published by the Dominion Bureau of Statistics.

FAIR LABOR POLICIES BENEFIT THE CONSUMER

WORRY and unhappiness are enemies of efficiency. We have always tried to be efficient and years ago we said, "to the greatest extent possible let us get worry and unhappiness out of this organization—out of the minds of every man and woman in our employ."

So Imperial Oil has always paid high wages. It set up sickness and death benefits, a pensions plan and group insurance for its workers. It made it easy for them to share ownership in the Company. It gave them a voice in the discussion of Company

policies that directly affect them. It introduced the forty-hour week, thus increasing the number of those who work for the Company.

Efficiency and loyalty are repaying the Company for all these measures. Imperial Oil employees give generously of their hands and minds because they are well treated. They feel secure and this feeling is reflected in their work and in the high quality and lower cost of the products they make. The consumer benefits, the employees benefit and the Company benefits by these policies.
