YORK-SUNBURY FARMERS

It may be interesting to the farmers of York and Sunbury to know that under the Bennett-Stevens tariff they were compelled to pay through the nose for their cream separators, ploughs, binders, mowers, etc.

In the fiscal year 1933-34 Canada imported 10,995 cream separators of which 9,832 came from the United States and Sweden. Farmers had to pay 25 per cent duty instead of no duty as under the Liberal government.

In 1933-34 Canada imported 14,748 ploughs and plough parts of which 13,627 came from the United States. Farmers had to pay 25 per cent duty instead of 10 per cent. duty as under the Liberals. Practically all the binders, mowers, and combines which are imported come from the United States. Farmers pay 25 per cent duty instead of the 6 per cent. under the Liberals. In addition to these increased duties farmers have to pay a special excise tax of 3 per cent. on all imported goods except those from Great Britain, a tax which did not exist under the Liberals. When all these extra taxes and duties were imposed H. H. Stevens was a member of the Government and was equally responsible with R. B. Bennett and the rest of the Cabinet for the heavy burden placed on Canadian consumers.

Take our clothing and household needs:—Under the Bennett-Stevens tariffs the duties on cotton and woolen goods were increased on the average from 2 1/2 per cent to 10 per cent and in addition a duty ranging from 2 cents to 35 cents per pound was imposed. A special excise tax of 3 per cent was placed on all imported goods and has been removed only from goods coming from Great Britain. The sales tax was increased from 1 per cent in 1930 to 6 per cent in 1931 and 1932.

So far as trade is concerned Mr. Bennett in 1930 said to the electors of Canada: "I will Drive Our Products Into the Markets of the World."

The following comparison speaks for itself—Liberal Government: 1925-1930—Imports into Canada, \$5,581,130.376; Total Exports, \$6,279,830,614; Total Trade, \$11,860,960,990; Average Annual Total Trade, \$2,372,192,193. Conservative Government: 1930-1935—Imports into Canada, \$2,857,878,701; Total Exports, \$3,097,046,493; Total Trade \$5,954,925,194; Average Annual Total Trade, \$1,190,985,038.

Under the tariff policies of the Conservative Government of Mr. Bennett, Canadian trade has fallen to one-half the level it reached during the Liberal administration of Mr. King.

This decline in trade has made our taxes more burdensome.

Not only that, but fewer taxes have been collected because incomes were lower and fewer goods were exchanged.

The National Debt rose by \$800,000,000 during the Conservative administration from 1930-1935, while it was reduced by \$250,000,000 under the Liberal Governments of Mr. King.

CHEESE AND BUTTER OUTPUT

In every year since 1925 the Canadian factory cheese output has moved downwards, losing ground in favour of butter production. While cheese production figures for the first six months of 1935 are not complete, says the report on the dairy situation in Canada by the Agricultural Branch of the Dominion Bureau of Statistics, some indication of what is taking place may be determined from the June production in Prince Edward Island, New Brunswick, Quebec, Ontario and British Columbia. The combined production of cheese in these five provinces amounted to 16,300,165 pounds, as compared with a creamery butter output of 25,123,161 pounds. In the province of Quebec there was a decline of 14.1 per cent in the 1935 June production of cheese as compared with the same month in 1934, and a reduction of 14.7 per cent for the first six months of 1935 compared with the same period of 1934. In Ontario the diversion of milk from cheese factories to creameries still continues, suggesting that a further reduction in the cheese output may be expected in 1935. In order to prevent the creation of surplus butter stocks, the Dominion Government has made available a fund of \$1,000,000 to be used as a bonus payment to farmers delivering their milk to cheese factories. Payment on the basis of 1 1/2 cents a pound is to be made in August 1935, covering the July production. These payments will increase the revenue of cheese patrons and be an inducement to deliver milk to the cheese factories instead of to creameries. It is expected that there will be a reduction in the quantity of creamery butter to be manufactured in the next five months.

A SUCCESS STORY

Schenectady Union Star: Many a man will be cheered by the story of the eighty-year-old candy manufacturer in New York, who, deprived of his amassed wealth in 1931, hung a sandwich board on himself and in Time Square sold candy of his own making on the curb. Just the other day he was made head again of his own candy factory, selling only at whole-

sale, and returned to the scenes of his former affluence in aristocratic clothes, spats and all, and with the warm purpose of helping other unfortunates who have fallen from high estate. It is a tremendous tribute to the indomitable will of a down-and-out, who refused to stay down and who never was completely "out".

Some of the girls are very curious about Joe who dresses in front of the window. Well he lives on George Street. We won't tell any more.

That man Cowan or Chown or whoever he is who is running as the independent Liberal candidate in Saint John seems to be getting the cold shoulder from Mackenzie King, Premier Dysart and other Liberal leaders. They have endorsed Bill Ryan.

This is not the time for Independents on political tickets. The times are too serious.

If the job of Dave Mersereau as expert advisor to the hydro commission keeps him busy out on the works somewhere the appointment should be a popular one.

It will soon be too cold for shorts on the tennis court.

Nothing horrifies a politician like the discovery that the other side is playing politics.

But the truth is that a fool driver, very, very seldom hits a sensible driver without some co-operation.

Some people are about town stealing cats with nice fur and taking off the skins. The remains of a cat on Brunswick Street shows the result at fancy carving.

Italy and Germany may stand for dictatorships. Canada never will be slaves. If what MacKenzie King says is true then it is time for a change.

A strong supporter of Mackenzie King says that the leader of the Liberal party never told a lie. There will be no one in heaven except Mackenzie King and George Washington.

DEATH OF CHILD

Kenneth Lawrence Perkins, the four year old child of Mr. and Mrs. John A. Perkins of this city, passed away at the Victoria Public Hospital here yesterday after an illness of one year. Besides the parents, three brothers, Francis and John at home, and Billy of Saint John, and two sisters, Helen and Florence at home, survive. The funeral will take place tomorrow afternoon with service from the parents' home, 308 Regent street at four o'clock. Very Rev. Dean J. H. A. Holmes will officiate and interment will be at the Rural cemetery extension.

MARKET TODAY

There was an average market at Phoenix Square today. Vegetable prices showed no material change from Saturday's market. Meats and dairy products remained quite high in price, butter demanding sale of sea food, mackerel, pollock, herring, (fresh and salt) getting a good price.

Schools Open At Marysville

MARYSVILLE, Sept. 4—The Alexander Gibson Memorial School reopened yesterday, beginning its ninth term since its initial opening in 1927.

At the opening of this term 262 pupils were enrolled in the eight classes of the school. Thirty of these pupils were from new families recently moved into town, and twenty-two permits were issued for beginners.

With the exception of Miss Louise Allison, B.A., who replaces Mrs. Lois Pugh, there is no other change in the teaching staff of the school, which remains as follows:

Grade I—Enrollment, 22. Taught by Miss Fannie Young. Grade II—Enrollment 32. Taught by Miss Gertrude Pinnamore. Grade III—Enrollment 35. Taught by Miss Daisy Boyce. Grade IV—Enrollment 40. Taught by Miss Sadie Miller. Grade V—Enrollment 45. Taught by Miss Verna Akerley. Grade VI—Enrollment 48. Taught by Miss Louise Allison, B.A. Grade VII and VIII Enrollment 40. Taught by Principal Miss Zula V. Hallett, B.A.

Canada Ruled by Dictatorships, Says King

(Continued from page One)
of the Reconstruction party but of the Conservative party.

From "Personal Feud"
"The Reconstruction party," declared Mr. King, "comes from a personal feud between Mr. Stevens and Mr. Bennett and the fact that Mr. Stevens was disappointed when Mr. Bennett did not resign. Is that a good basis for the founding of a party which would administer the affairs of Canada for the next five years?"

Here Mr. King made his prediction that another appeal would be made for national government, from the lips of the prime minister.

DEATH OF AGED LADY

The death occurred yesterday afternoon at her home in Kingsclear of Mrs. B. W. Fox, at the age of 80 years. She is survived by three daughters, Mrs. Harry Strange of Kingsclear, the Misses Fannie and Estella at home; one sister, Mrs. A. E. Smith of Littleton, New Hampshire, and one brother, Charles Smith, of Bangor, Maine. Her husband died last December. The funeral will take place on Thursday afternoon with service at the late home at Central Kingsclear at 2:15 o'clock and also at the Baptist Church at Lower Kingsclear. Deceased was well-known and a highly respected member of her community and her death will be learned with widespread regret.

WANT "ROD RIDING" INDICTABLE OFFENCE

WINNIPEG, Sept. 4—With sectional meetings in progress, the annual conventional of the Canadian Bar Association undertook study of administration of criminal justice, international justice, insurance law and legal education.

Appropriate amendments to the Criminal Code making illegal riding of freight trains, such as "rod riding" an indictable offence was among proposals of the committee on administration of criminal justice. It was submitted by Arthur G. Slaght, K.C., of Toronto.

Increased punishment for kidnapping, including the right to impose whipping, also was proposed. Promulgating of uniform rules in each province governing criminal practices was another of the suggestions being discussed. A uniform system of probation was advocated for all provinces.

OUR MAIL BAG

GRAND MANAN

Fredericton, N. B.,
Sept. 4th, 1935.

The Editor,
"The Daily Mail".
Dear Sir:

The article which Mr. VanDine refers to in his communication in yesterday's "Daily Mail" must have been written many years ago, for, as Mr. VanDine points out, Grand Manan's inhabitants are by no means primitive folk. They are not just simple fisher folk, unversed and ignorant of what is transpiring on the mainland. Their thirteen schools and nine or more churches are modern and well served. Two Fredericton young men are now teaching on the Island. The dwellings are substantial, neat, with well-kept grounds, and their highway roads are excellent. The hundreds of tourists, who stay there for a week or a month, or even longer every summer, can endorse these assertions. The high rocky, perpendicular cliffs, topped with forest, lapped by the restless waves and the tides of the Bay of Fundy, are magnificent, a wonder to behold. Anybody seeking natural grandeur and beauty, exhilarating atmosphere, deep-sea fishing, etc., has but to take the lovely boat trip from Saint John to Grand Manan. The Grand Manan fishermen's boats are of modern construction, with modern equipment, and altogether the people of the Island, and their conditions, are progressive and up-to-date. For an ideal vacation, go to Grand Manan.

Yours respectfully,
STERLING BRANNEN.

ways to control sprout growth. These experiments include cutting of individual areas to different stump heights and at different seasons of the year.

It is intended that forest research be the main work of the station and the programme will be increased as soon as the necessary work of organization has been completed.

The relief camps are all neat and comfortable, the sleeping camps all contain good comfortable beds arranged in dormitory style. The dining room or, as it is probably called the mess camp, is arranged with long tables neatly arranged. Adjoining is a cook house. Any woman would be proud of her dining room and kitchen if she kept it as clean as these are kept. This section of the country used to be a terrible place for flies in the days when fishing parties went out to Barney Breen's, the Noonan or "the Burpee" to fish or to spend a day at Barney's, pretending to fish. One would expect to find lots of flies in the dining rooms and kitchens of these camps. But those in charge keep the little beggars on the jump—or on the wing—and there was not a fly to be seen when The Daily Mail representative visited the camps. The men have hot and cold water shower baths. They have also a refrigerator system for keeping the drinking water cool. All these things they constructed themselves under the direction of Mr. Veness and his assistants.

There is a nice hospital camp at the Burpee. Although there has been no serious cases of illness there is a well stocked drug cabinet in charge of a competent man.

The recreation room is arranged with reading tables and has an organ and a piano donated by friends. At the Burpee Camp the camp post office is situated in a corner of this room. If people who have books, magazines or papers left over would donate these to the camps the men would appreciate this as they are rather short of reading matter. Any reading matter left at The Daily Mail Office will be called for by the camp trucks and

New buildings not being erected by the men with the concrete blocks which they make themselves include a three-car garage and a machine shop at the Burpee camp. A one hundred foot well will also be bored.

The people in charge of these camps are always pleased to show visitors about the place. While the general description here given deals principally with the Burpee camp, it applies to all camps as well so far as the relief project is concerned.

The spiritual wants of the men are being looked after at the headquarters in the Noonan Camp. Rev. Captain Doering is the Protestant chaplain, and Rev. Father Joseph Daley, formerly of Devon, administers to the spiritual wants of the Catholics. Both are very popular with the men, as are also the Headquarters Staff and the camp heads in general.

It is worth one's while to visit these camps.

It pays to advertise in The Daily Mail.
