## Hitler Opposes Restoration Would Abandon Idea Forever

### Germany Will Never Come Back To Mon- archism, Says Present Ruler of That Country.

MUNICH, Germany, Feb. 25.—The heavy hand and shouting voice of Adolf Hitler sought to banish forever today all thought of the return of a monarch to the German Reich.

"To fools who still dream of a restored regime," Hitler shouted, "I say that what once was can never be again. You will never return to power."

The huge Munich town hall echoed with cheers from an assembly of old Nazi campaigners and eager young aspirants to Nazi honors gathered to celebrate the 15th anniversary of the day Hitler proclaimed the Nazi gospel in a Munich beer cellar.

"We are all for peace," said Hitler during his speech, touching only briefly on foreign relations, "but not at the price of our honor. We are ready for any kind of co-operation, but if the world does not understand we are ready at all times to stand on our own feet."

Mainly his address was a series of recollections of the struggle of National Socialism and a justification of Nazi "hard-fistedness" as necessary in view of what he called the corruption of the regime that preceded.

"Unshakable faith in the German people," Hitler loudly proclaimed "was my sole inspiration and sustenance at a time when the country languished in deepest humiliation, when materialism triumphed and when mammon ruled."

We were dishonored for 13 years through false leadership," said the Reichsfuehrer, "but such a Germany shall never come back. The German nation is determined to defend its liberty to the last. Neither I nor anyone after me will sign anything derogatory to our honor. What we sign we will keep."

### Dugald McCatherine Well Known Here, Dies in Portland, Me.

A telephone message received here last night by Mrs. Kenneth C. White, announced the sudden death at Portland, Maine, yesterday, of her brother Dugald McCatherine. Mr. McCatherine, who was in his 54th year, will be well and favourably remembered in this city where he was born and spent his boyhood days. The late Dugald McCatherine was a son of Dugald S. and Adelaide McCatherine and was a member of a family well known here in years that are gone. He was a member of the 71st Regiment Band and also was an orchestra player of note. He is survived by his widow, formerly Miss Maude Stephens, of this city, and four sons, Harry, George Charles and Jack, and four daughters, Adelaide, Jean, Marion and June. Two sisters also survive, Mrs. Ina A. Jones, of Lakeville, Carleton County, and Mrs. Stella White, whose husband, Kenneth White, died a few days ago. The funeral will take place at Portland, Maine, tomorrow afternoon.

#### BADMINTON PLAY

The Christchurch Cathedral Badminton Club annexed the Jas. S. Neill and Sons, Ltd., cup, emblematic of the winner of the Fredericton District Church Badminton League tournament in which five church clubs competed. Alderman Dr. H. S. Wright presented the cup at the conclusion of the play. Last year's winners of the trophy, the Brunswick Street Baptists of Fredericton, placed second with nine points, while clubs of the other three churches competing finished as follows: Christ Church Parish Church, 5; Marysville Baptist, 4, and St. Mary's, Devon, 2.

## The Scout Drive

"The child is the father of the man." The boys of today are to be the men of tomorrow. On their training today depends to a large extent their future as the citizens of tomorrow. The homes and the churches are doing their part. It, however, requires other influences to appeal to the lively he-boy nature. There is no organization in the world today that is doing a better work nor is exerting a better influence on boy life than is the Boy Scouts' Association. This is recognized by all leaders in church and in state.

His Excellency the Governor-General has made a nation-wide appeal for funds to enable those at the head of affairs to increase the Scout membership so as to include the boys throughout the land who have not yet the advantage of the splendid training which the Boy Scouts are giving. Our own Lieutenant-Governor, Hon. Murray MacLaren, by his first official act as Governor contributed the generous amount of five thousand dollars to the fund to be raised in this province. This is a worthy example which might well be followed by everyone according to his means.

It is to be hoped that when the various collectors make their calls this week they will meet with a generous reception and that our Capital City will reach the quota outlined for it by those who are doing their best to promote this worthy work.

Remember, this money is not to pay any person to carry on the present Boy Scout work. It is for the purpose of extending the movement and to aid in bringing many worthy boys into the force. There are many outside districts in our province, even right here in our own county, where a good Boy Scout troop would be of immeasurable value. The same is true through the broad Dominion. Be a factor in helping out this work.

A Boy Scout is loyal to his King, his country, his officers, his employers and to those under him. It is his duty to be useful and to help others. He is supposed to be courteous and be a friend to dumb animals. He is clean in thought and in action. He smiles under difficulties and is taught to be useful and thrifty. His training in woodcraft, in first-aid and a score of other useful things, all of which tend to make him a REAL MAN.

If you wish to see the present generation of boys develop into REAL CLEAN, HEALTHY MEN IN MIND AND IN BODY THERE IS NO BETTER WAY TO ENCOURAGE THIS THAN TO HELP OUT IN THE DRIVE NOW GOING ON.

## FISHERMEN TELL OF CAPTURING A BIG SEA MONSTER

BOSTON, Feb. 23.—A score of seamen descended on the Boston fish pier from the steam trawler Quincy this morning, swearing unanimously to an account of discovery of a massive monster, half fish, half cow, off the west bank of Nova Scotia a few days ago.

The monster was 20 feet long, and weighed over a ton, had the tail of a fish, barrel-like body and the neck and head of a cow, but no horns. Its back was dark gray and its belly light gray, and scales the size of half dollars glistened over the whole body.

There were fins on the belly but none on the back. The monster was exceedingly ugly and of sluggish disposition.

The sailors agreed that they were fishing off Nova Scotia in 100 fathoms of water, when the net began to drag. Strain was evident on the steam winch and on a heavy steel cable extending 150 to the 50-foot mouth of the net, which itself had a capacity of 1550 pounds to a ton of fish.

The boat heaved dangerously. The crew hauled the net in with great difficulty. There on the deck lay the prize, sleepy-eyed and utterly indifferent to its captors.

After considerable debate in the interests of science, the seamen went on, they agreed its weight was dangerous to the trawler on heavy seas and they hitched the block and tossed

## MUSIC AS A POWER IN THE GOOD LIFE

(Special to The Daily Mail)

MINTO, N. B., Feb. 24.—The Power and Status of Music in Education was subject of an interesting and illustrated address given to the pupils of the Minto-Newcastle School by Mrs. Burton Wisely at the regular Friday afternoon program. Excerpts from the works of George Frederic Handel gave the address a heightened interest and were rendered by the speaker on the piano.

#### REMAND TILL THURSDAY

Harry Bailey Broad, who is charged with carrying concealed weapons and also with breaking and entering the store of R. B. Young, Aberdeen street, appeared before Police Magistrate Walter Limerick in the police court this morning and was given a remand until Thursday when the hearing will take place. P. J. Hughes, K.C., is counsel for Broad, who will defend the charges.

their catch overboard with a monster swish!

Once upon a time, the dictionary romancers, there "sea cattle" peopling the oceans. In fact, there were sea bulls and sea calves. They were supposed to be shepherded by mermaids. The Boston seamen didn't catch a mermaid.

## A WELL KNOWN FREDERICTON WOMAN DIES

Annie deWolf Taylor  
Passed Away Here  
This Morning

Funeral on Wednesday  
Deceased Was Promi-  
nent in a Number of  
Organizations

Regret will be felt at the death of Mrs. Annie deWolf Taylor, which took place this morning at her home on Brunswick street. Mrs. Taylor, who was the wife of George A. Taylor, formerly manager of the Royal Bank of Canada, had resided in Fredericton for several years and was very popular with a large circle of friends. She was connected with several organizations, including the Sir Howard Douglas Chapter, I.O.D.E., the Kings Daughters, and the W. A. of the Christchurch Cathedral, in all of which organizations she was an active and respected member. The late Mrs. Taylor was born at Halifax on August 27, 1860, and was the daughter of the late Benjamin A. and Anna Smith. She is survived by her husband, George A. Taylor; three sons, H. A. Taylor, Allison H. Taylor and G. M. Taylor; two daughters, Mrs. Andrew C. Morris and Mrs. C. W. Lemont; also six grandchildren; one sister, Miss Edith Smith, and one brother, George P. Smith, of Toronto, also survive.

The funeral will take place on Wednesday morning at eight o'clock from her late home on Brunswick street. Service will be conducted at Christchurch Cathedral by Very Rev. Dean J. H. A. Holmes. At the conclusion of the funeral service the remains will be taken to Halifax, where interment will be made on Thursday.

## TILLEY URGES CONFERENCES

Frequent Dominion and  
Provincial Parleys Ben-  
eficial, He Declares.

Conferences between the Dominion and various provincial governments could be held with beneficial results at annual or semi-annual intervals, in the opinion of Hon. L. L. D. Tilley, K. C., New Brunswick premier and minister of lands and mines, in radio address from Fredericton last night under the auspices of the Young Men's Canadian Club of Montreal. He dealt with some of the serious national problems for young men of Canada to consider, citing five.

They were: The growing debt of the Dominion and provinces; the railway situation; the marketing of wheat; the price spread between producer and consumers, and national unemployment.

The national debt was \$2,500,000,000 and the Canadian National Railways indebtedness likewise was \$2,500,000,000, the premier pointed out. There was no need to grow panicky, however, providing the increase did not take place too fast.

Canada was beginning to awaken to the fact that times were improving. Canada was convalescing, but there were the doctors' bills to be paid, including the interest on the debt and sinking fund, the railway bonded debt and sinking fund, the current deficits and the costs of unemployment relief.

DUBLIN, Feb. 23.—Ireland in the international rugby series today defeated Scotland 12-5. Trailing 5-6 at half time the Irish team made a great spurt after the interval to wipe out the margin against them.

WASHINGTON, Feb. 23.—President Roosevelt has signed the new United States oil control bill into law.

## Boy Scout Drive Is Now In Full Swing

### PREMIER TILLEY IN INTERESTING TALK OVER RADIO

New Brunswick's Ruler  
Speaks of Beneficial  
Results of Confer-  
Between Dominion and  
Provincial Govts.

Hon. L. P. D. Tilley, New Brunswick's premier, delivered a brief radio address last evening, speaking over CFNB and under the auspices of the Young Men's Canadian Club of Montreal. Premier Tilley dealt with some of the serious national problems facing the young men in Canada today. He referred to the following problems: The growing debt of the Dominion and provinces; the railway situation; the marketing of wheat; the price spread between producer and consumer, and national unemployment.

The national debt was \$2,500,000,000 and the Canadian National Railways indebtedness likewise was \$2,500,000,000, the premier pointed out.

Canada was beginning to awaken to the fact that times were improving. But there were the doctors' bills to be paid, including the interest on the debt and sinking fund, the railway bonded debt and sinking fund, the current deficits and the costs of unemployment relief.

While Canada had a pegged price for wheat, Argentine undersold in the British market, the premier stated. It might be advisable to take a loss by selling at the Argentine price until that country realized the situation, and was willing to agree to the quota.

The price spread situation was the most important problem. Farmers and fishermen are not receiving a fair return of their produce and labor, he asserted, adding that this condition might be remedied even if governments must step in and peg the selling prices.

Turning to unemployment relief, the premier said the unemployment situation was still facing the country. There were two remedies—the direct dole, which was cheaper, and the creation of public works and expenditures to give employment. It was here the premier expressed the view that annual or semi-annual conferences between the provinces might be beneficial.

In the capital and labor aspect, inflation on the part of individuals and companies must be prevented, continued the premier, pointing out that capital must pay a reasonable wage and guard the mutual interests of capital and labor.

## PRINCESSES HURT IN COLLISION

ROME, Italy, Feb. 24.—Princess Elena, of Rumania and Princess Irene of Greece were injured last night in an automobile collision on the road between Monselice and Stanghella, in the Province of Padua.

The Rumania Princess suffered injuries to both legs. Princess Irene was cut slightly on the head and chest. Princess Elena was driving from Brioni to Florence when the accident occurred.

Both girls were taken to a hospital in Rovigo for treatment and later were removed to a hotel. Physicians said they would recover within a few days.

MEXICO CITY, Feb. 23.—Five hundred Indians in the mountains of Chiapas State rose, killed non-Indian residents and set fire to Government buildings, official dispatches said today.

Addresses by Hon. R. B. Hanson and by Different City Clergymen Launched Scout Campaign on Sunday—Collectors Meet Good Reception.

The drive in connection with the Boy Scout Movement will be in full swing during the present week and it will end on March the fourth. From present promises and indications it is thought that the committee will be able to raise considerably more than the two thousand dollar allotment for Fredericton.

The appeal is being made at a time when an unending series of worthy social activities is calling for financial assistance but this work needs particular attention. Speaking on the movement, President E. W. Beatty of the C. P. R., president of the Boy Scouts' Association covered the ground when he appealed to his hearers for support of the Boy Scout Movement.

He said the objective aims to finance the movement for the next five years and guarantee its expansion to hundreds of communities throughout the Dominion which now have no organized programme for their boys.

Mr. Beatty said: In appealing to my hearers for support for the Boy Scout Movement at a time when an unending series of worthy social activities is calling for financial assistance, I must unquestionably give my special reasons.

At one time the Boy Scout Movement was alleged to be a disguised form of military training. A generation of experience has taught us that it is a method of training soldiers—but soldiers of peace, not of war.

It is based on the sound assumption that boys will be boys—that the primal instinct of young humans is to group together in gangs for mutual support in noisy, healthy and active play. It takes into consideration the essential democracy of the young—their refusal to believe that social distinctions are important. It accepts the fact that boys place little value on race or creed, and only accept extreme nationalism with its crop of hatred because their elders tell them to.

In a word, the Boy Scout Movement starts with faith that boys are merely men not yet made suspicious, overcautious or narrow-minded by their experience of a world which is only too artificial.

On that basis it has built a system by which boys are given the maximum of freedom to play, to set free their abounding energy and to develop healthy contact with other boys. To this is added the minimum of formal discipline—only enough to prove the worth of organized effort without stifling initiative.

The movement covers the world, and brings the youth of nations into a great union directed by the single ideal of play made worthy because it has a purpose. Mr. Beatty says:—

"I can offer no more powerful argument for your active support of this movement than my honest faith that a country whose leaders in public and private affairs are trained in youth to hold the ideals of the Boy Scouts will be a country in which service will be placed before profit, and the community ahead of the individual.

Honesty, courage, resourcefulness, clean living and kindness—these are the lessons which the Scout learns. Can any of you suggest what more we can do to help our nation and the world than to teach these?

The Boy Scout Movement, founded by Lord Baden-Powell nearly 30 years ago, has had a powerful influence in serving the Empire, while teaching its young members that there is a need for loyalty to humanity at large, (Continued on page four)
