

NEW POLISH ELECTORAL CODE BANS PARTY NOMINATIONS

WARSAW, POLAND, May 25—The who receive at least one-fourth of the next Polish Parliament to convene in total vote will be placed on the list November, will consist of a sejm for general election. The code provides that the voters must be given a choice from at least four candidates.

Special Assemblies Pick Senate

The right of selecting sixty-four senators to supplement the thirty-two presidential appointees has been delegated to special provincial assemblies consisting of "citizens who have distinguished themselves through personal service for the good of the community or who have won the confidence of their fellow citizens".

Under the first category the code stipulates citizens who have won any of the seven orders, medals and crosses. Under the second, members of the provincial, country, city and town governments; university deans and members of university senates, officers of organizations of physicians, lawyers and notary publics, as well as high officials in self-government and leaders of various trades and professional groups.

Every citizen who has the right to nominate candidates to the sejm is eligible for a seat in the senate.

Party Elections Banned

Elections by parties will be banned Slawek declared, because they influence citizens to vote their own candidates instead of candidates most worthy of the voters' confidence.

"The custom of operating with programs, theories and doctrines which supposedly foresee and regulate everything has become particularly harmful," he said. "This is all nonsense, because life is more complicated than it seems within narrow doctrines."

"The system proposed by us in the electoral code to the sejm aims to entrust the search for candidates to the community itself. At the same time this closes to parties the possibility of opposing their own candidates and confounding the free opinion of the voter."

Candidates for the lower house will be nominated in the future by district committees, according to the projected code and not, as heretofore, by signed petitions of parties. These committees will be made up of delegates from city and village governments, chambers of commerce, trade, and agricultural societies, and organizations of professional workers. Committees in districts containing universities and professional schools will also have representatives from these institutions.

Each committee members has the right to name his candidates. If more than four names are entered the committee votes on the list, and nominees

BOMBS RUIN SEA FISHERY

But British Air Ministry
Pleads Need for Practice Ranges

By a curious coincidence several parts of the English coast, which would prove most inviting to the invasion of an enemy, are approached by waves which for ages have furnished a livelihood for English fishermen.

Recently the attempt to form a barrage of air bombs across the southern approaches have driven the fishermen out of business, either by slaying the fish or placing the lives of fishermen in jeopardy.

The southern sea fisheries district committee last autumn addressed a complaint to the air ministry, and then waited for months. As no reply came they next suggested a change of the bombing field from the approach to Bournemouth to the sea off Chesil Beach, Portland. The S.S.F.D.C. then received a letter from the air council stating that to meet the need for additional training facilities for air squadrons in bombing and air firing almost the whole of the coast line of England and Scotland had been surveyed by expert advisers.

The Air Council regretted the necessity for increasing encroachments upon the fisheries, but an exhaustive survey had revealed that Chesil beach met requirements while involving the least interference with other interests. The clerk to the committee, H. Tattersall, said he had replied suggesting that one coastal area only should be chosen for bombing ranges, thus obviating the ruination of the fishing industry.

He added that the ministry of agriculture and fisheries was making a special inquiry as to the possibility of finding alternative sites.

In the discussion it was mentioned that a new airdrome is to be built near West bay, Dorset, and that extensive air force accommodation was being prepared opposite Hurst Castle, on the Isle of Wight.

TAX IN SPORT

TORONTO, Ontario, May 24—The Ontario Court of Appeal reserved judgment yesterday on the question whether or not the Ontario Jockey Club is entitled to a reduction in the business tax levied by the City of Toronto on the Woodbine Park properties.

ORGANIZATION OF LIBERALS AT OROMOCTO

(Special to the Daily Mail)

Oromocto, Sunbury Co., May 22—Under the auspices of the Twentieth Century Liberal Club of York-Sunbury counties, a public meeting in the interests of the party was held last evening here. About two hundred were present, many from Fredericton. Harold G. Kimball of Oromocto, acted as chairman. During the evening a Twentieth Century Liberal Club was organized with the following officers elected: President, Lawrence McNagley; vice president, James Wood; secretary-treasurer, Arthur Gilbert; chairman of membership committee, Vincent McFarlane; chairman of program committee, Warren Davis.

A fine entertainment program was carried out with the Marysville quartet; Burke MacAfee, violinist; J. W. Smith, piano; Warren Davis, mouth organ; and Erwin Miller, accordion, all taking part.

Speakers were Donald C. Duffie, H. W. Sutherland, Ronald G. Burke, Philip Desaulniers, Frank B. Osborne and Murray A. Shanks, all of Fredericton.

Mr. Duffie dealt with the program of health and the reorganization of the Workmen's Compensation Board, declaring that it would be "the policy of the incoming government to enlarge the scope of the present health policy, as regards mental health and cancer, and to reorganize the Workmen's Compensation Board and place it on a sound financial basis as well as correcting present inequalities and abuses".

The Daily Mail is the only "daily" in New Brunswick with a full radio page and programme.

NOTICE OF SALE

To the heirs-at-law and next-of-kin of Richard G. Shaw, also known as George Robert Hart, late of the Parish of Canterbury, in the County of York and Province of New Brunswick, deceased, and to all others whom it may in any wise concern:

PUBLIC NOTICE IS HEREBY GIVEN that under and by virtue of the provisions of The Property Act, and under and by virtue of the Power of Sale contained in a certain Indenture of Mortgage, bearing date the twenty-fourth day of February, 1928, made between Richard G. Shaw, of the Parish of Canterbury, in the County of York and Province of New Brunswick, of the one part, and Edgar F. Scheibe, of Lincoln, in the County of Middlesex and Commonwealth of Massachusetts, of the other part, and duly recorded in York County Records in Book 204, pages 332-333, under official number 80420, on the 26th day of March, 1928, there will, for the purpose of obtaining payment of the money secured by the said Indenture of Mortgage, default having been made in the payment thereof contrary to the provisions of the said Indenture of Mortgage, be sold at Public Auction in front of the POST OFFICE in the CITY OF FREDERICTON, in the County of York, on SATURDAY, the FIRST DAY OF JUNE, 1935, at the Hour of TWELVE O'CLOCK NOON, the lands and premises mentioned and described in the said Indenture of Mortgage as follows:

"ALL that certain lot or parcel of land situate in the Parish of Canterbury, in the County of York and Province of New Brunswick, bounded and described as follows, to wit: Being an irregular and triangular lot at or near the southwestern corner of Skiff Lake, being a projection or point of land lying southwesterly of the Northcote Island so-called, in said Lake. Meaning and intending to convey the point upon which said Shaw now has a log cabin, the land hereby conveyed, lying east of a line beginning at a spruce tree on the southerly side of said point where it joins the mainland, running thence north across the point, and containing not over four (4) acres. Together with all the houses, out-houses, barns, buildings, edifices, fences, improvements, profits, privileges, and appurtenances, to the same belonging, or in any manner appertaining; and the reversion and reversions, remainder and remainders, rents, issues and profits thereof, and also all the estate, right, title, right and title, homestead interest, use, possession, property, claim and demand either at law or in equity, of him the said mortgagor, of, in, to, or out of the same, and every part and parcel thereof, with the appurtenances."

Being the same premises described in an Indenture between James Murchie's Sons Company and Richard G. Shaw, dated June 15, 1915 and recorded in the Registry Office of York County in the Province of New Brunswick in Book D-7, pages 522-523, said document being numbered 65512."

Together with the buildings and improvements thereon and the appurtenances and privileges to the same belonging.

Dated this 22nd day of April, A.D. 1935. (Sgd.) EDGAR A. SCHEIBE (L.S.) Mortgagee.

Of Interest to Women CLIMBING PLANTS AND CANADA BEAUTIFUL

There are many dwelling houses in Canada which could be made much more attractive looking by the judicious use of climbing plants. A house which lacks any pretence of beauty in architecture may have much of the stiffness taken from it by planting a vine that will break the monotony of a straight wall. Verandahs, summer-houses, fences, rocks, and old stumps of trees covered with climbing plants will so change the appearance of the place that it will hardly be recognized by the person who has known it before. There are so many good, hardy, native climbers all over the Dominion that it is not necessary to go to any expense in procuring something which will produce the desired effect.

Neither is there any lack of information for those who desire it. For many years numbers of climbing plants have been tested at the Central Experimental Farm at Ottawa and at the other Dominion Experimental Farms throughout Canada and much information

has been obtained as to the relative hardiness, attractiveness and usefulness of practically all kinds of climbing plants, with particular stress on their suitability in different districts. This information is at the service of everyone.

Climbing plants usually make rapid growth when once established. The best results, however, will be obtained by preparing the ground well beforehand. As a rule the soil about buildings is poor, and if such be the case it will well repay anyone to remove it where vines are to be planted and replace it with soil of a good loamy character, thoroughly mixing well-rotted manure with it. The choice of plants is wide and varied according to climatic conditions. There are Virginia creepers of several varieties, climatis (Western Virgin's Bower, the Virgin's Bower of Eastern Canada, Jackman, Japanese, Traveller's Joy), Peas, Honeysuckle, climbing roses, wisteria and other varieties of climbers.

AUSTRIA DEFENDS CONSCRIPTION AS BRAKE ON UNEMPLOYMENT

VIENNA, Austria, May 25—Austria has fallen into step with Germany and Japan in advancing as an argument for conscription that it is the quickest and safest and, therefore, the best way to improve economic conditions and to bring back prosperity.

Conscription will reduce unemployment by throwing the jobless into uniform and by stimulating war and allied industries, according to Col. Walter Adam, head of the government propaganda bureau, who held a special newspaper conference to propound the official view to about 75 members of the American British and European press. His remarks were met with the usual courteous round of applause.

The same argument was used by Germany, and Japan has long been telling a somewhat skeptical population that through the stimulation of arms and explosive manufactures Japan is being saved the bitter experiences of America and others engulfed in a hopeless economic depression.

In its proper sequence, the next step in the logical formula for absolute reduction of unemployment is actual warfare—but of this, naturally, no mention was made.

Austria, growing specific in this argument, but naturally still not pushing it to its final conclusion, claims that the auto industry, clothing trades, because of the demand for new uniforms agricultural products.

and the building trades, because of the

need for new barracks, will benefit with the arms, airplane and powder manufacturers.

Austria expects that her decision to enforce conscription at a date not yet specified will absorb at least 40 per cent of her jobless and affect the lives of more than 250,000 of her 6,000,000 inhabitants. She expects the war industries to give employment to 30,000 men and that an equal number of able-bodied men will join the colors under compulsion.

She goes one step further in painting this picture of economic rehabilitation by claiming that there will be marked improvement in the sale of Plans are now being made for the transference of a university and a preparatory school into a national military academy for the training of officers, the first classes to open in the autumn for the 1935-1936 academic year.

These official views were given to the press at a special conference held in the central chancellery in a long, sombre room, at the head of which hangs a magnificent oil painting of Former Emperor Frans Josef in uniform, which had not been removed even in the bitterest days of the republican era which descended upon Austria after the World War.

On another wall hangs a crucifix which the dying chancellor, Engelbert Dollfuss, had attempted to reach when he was shot down by assassins in an adjoining room last June.

Faster Way Found to Relieve Headaches

NOW PAIN OFTEN RELIEVED IN MINUTES!

Remember the pictures below when you want fast relief from pain. Demand and get the method doctors prescribe—Aspirin.

Millions have found that Aspirin eases even a bad headache, neuritis or rheumatic pain often in a few minutes!

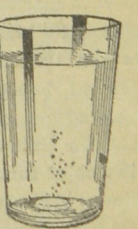

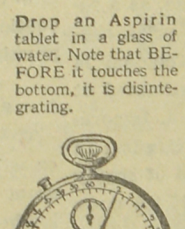

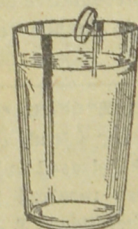

In the stomach as in the glass here, an Aspirin tablet starts to dissolve, or disintegrate, almost the instant it touches moisture. It begins "taking hold" of your pain

practically as soon as you swallow it. Equally important, Aspirin is safe. For scientific tests show this: Aspirin does not harm the heart.

Remember these two points: Aspirin Speed and Aspirin Safety. And, see that you get ASPIRIN. It is made in Canada, and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin tablet.

Get tin of 12 tablets or economical bottle of 24 or 100 at any druggist's.

Why Aspirin Works So Fast

IN 2 SECONDS BY STOP WATCH An Aspirin tablet starts to disintegrate and go to work.

What happens in these glasses happens in your stomach—ASPIRIN tablets start "taking hold" of pain a few minutes after taking.

When in Pain Remember These Pictures

ASPIRIN IS THE TRADE MARK OF THE BAYER COMPANY, LIMITED
