TOURISTS AND CITIZENS

Working in unison, we can make Fredericton a place for tourists to COME TO, not just a place to pass through. With a beautified river bank, we can cater to tourists' desire for amusement as well as for rest. This is not said in a mere mercenary spirit, either. It is only natural that we should like tourists to be VISITORS, and not just patrons of garages and service stations. Clear the river bank of objectionable features, give opportunities for rest and amusement, tourists will WANT to stay in Fredericton at least for a few days. We do not realize, nor appreciate, nor advertise, our natural resources. Look forward to the auspicious opening of Jubilee Park early next Summer. Here's an opportunity for WORK AND WAGES, and for more contact with the outside world, surely. And what do we need more? Won't every one of us benefit, directly or indirectly?

Time was when Fredericton welcomed two circuses each year, and everybody had an enjoyable time, worth the cost. This city needs more public amusement features. Young people have no place to go and nothing to do, especially, when the day's work is done, and discontent is bound to arise and to spread. Other small towns have attractions come, to relieve the monotony. Why not Fredericton? The annual exhibition is just for a week, and not until the glorious Summer weather is over. Circuses, carnivals, etc., in no way interfere with the exhibition. A lot of local people are compelled to remain in the city all year around so why not give opportunities of open-air amusements to those who are not base-ball fans? Band concerts are good, but they are few and far between. The City needs living, for the sake of those who do not own automobiles and who cannot get away just whenever they feel like it.

ALL DAYS ARE TOSPY-TURVY

One of our friends who writes letters to the newspapers has quite a variety of topics. What he does for a living, we haven't the slightest idea, but it must be an easy job, for he writes blizzards of letters on almost every topic under the sun.

In one of his latest emotional outbursts he writes that:

"In our topsy-turvy age ministers deny God; women rule men. children dictate to their parents; criminals are coddled; servants rebel against their masters; attempts are made to limit and prevent the procreation of children; mediocrity is rewarded, white talent is neglected or ignored; beggars ride on horseback (in automobiles) and men are encouraged to live without working".

Calm yourself, brother! Was there ever a time when the same complaint could not be made? The fact of the matter is that the world of yesterday was not the better world some of us now would like to think it was. We forget many of the heartaches and the injustices.

Persons who despair, persons who think all is lost, are merely growing old. The world is moving by them, just as they, in their youth, moved past the standpatters who were grumbling by the fireside.

The wise older is unafraid. He views progress calmly and gives the youngster generation the benefit of the sage advice based upon his intelligent observation through the years. For age has much to hand on to youth, much that is precious. And to it intelligent youth eagerly reaches, and upon it builds for a better day.

MAD CHALLENGE TO COLOR

Rome rocked with the roars of throngs cheering an orator who was urging them to war in the poisonous hell of the Ethiopian wilderness. Poor fools!

The screaming speaker worked himself into a frenzy. He defied the world. Italy, he shrieked, would be ready for war against blacks and

Yellows and, if necessary, blondes". He meant Ethiopia, Japan and, if necessary Great Britain.

His kind of mouth-rothing makes for grave consequences. Right away the Mahatma Gandhi takes a hitch in his diaper and calls upon 3,500,000 East Indians to rally against the challenge to color. The great powers stir uneasily, knowing well that the color cry of Italy is being borne to their distant colonies, by courier and by beating tom-toms.

Black Africa mutters against the (Italian) white man's racial threats. All up and down the Hind, India's millions chatter excitedly. The broad sweep of China and the islands of Nippon buzz with resentment against the Italian-flung gauntlet.

The words of firebreathing war lords of Italy are breaking down the dyke that holds back the tide of color, ready always to sweep westward.

THE PRICE CUTTER

The Price Cutter is a degrader of business. He pulls down the standing of his goods; his competitors; himself and his whole trade. He scuttles the ship in which he, himself is afloat.

Nothing is so easy as to cut prices. Nothing so hard to get them back.

Nobody gets the benefit of price cutting. The man who sells makes no net profit. The man who buys is getting an inferior article. No business man can permanently keep up the standard of his goods if the price is persistently cut. He is compelled to use cheaper materials and cut down wages.

SNAPSHOTS

* Frank has decided to apply for the position of street traffic director at railway crossing. He was a success, though, while on probation.

A circus teaches a great lesson on the value of system and experience.

One could not help admiring the spirit of co-operation and courtesy existing amongst the Barnes Circus people.

A community spirit can do wonders in building up a town. We are dragging dreadfully in that respect, here. "It is time for a change". Brace up, citizens, work together for the common good. Help along any worthy cause; you will benefit directly, and indirectly.

Trains backing up, within city limits, should give more warning than sometimes has been noticeable.

The town clock looks decidedly better, by day. Will we be able to tell the time after dark, by it or would aluminum have been wiser? John Haines sure knows the ropes. No wonder he is a good fireman, agile and fearless of the dizzy heights.

A narrow-minded person says the movie boat that was sunk the other day should cause actors and actresses to mend their ways, for it was an act of God. Where does the Gospel teach that Our Heavenly Father is a God like that? Moreover, actors and actresses are not the only sinners, and there are moral actors and actresses outnumbering the other type.

They say the Uptown bathing beach is a favorite spot for calf-love. And some say they don't know whether it is negligee or negligence that is most in evidence in some of the costumes, what there is of them.

DISEASE FOLLOWS FLOOD DISASTER

TOKYO August 3—A despatch from from Antuangu Manchukuo, by the Rengo (Japanese) news agency correspondent reported today 91 percent of flood survivors, in the southern area of Manchukuo were suffering from diseases as a result of deplorable sanitary conditions.

Petitions have been sent to Hsin-king, the capital, urging immediate assistance. Thirty free medical stations have been established in this city by Japanese and Manchukuan authorities.

WASHINGTON, August 3—The White House yesterday announced appointment by President Roosevelt of Thomas Riggs of New York as a member of the Canadian Boundary Commission.

Liberal Chief Says The 1933 Platform Will Be Confirmed

(Continued from Page One)

Bank of Canada

"As a national central bank has been established, by the present government, I feel it necessary to say here that the Bank of Canada, as established, is far from being the institution contemplated by the Liberal party. The Bank of Canada is, as more than one of our leading economists have said, of the Fascist type. It is a private corporation, with power to control the volume of the country's credit.

"Let me repeat what I said in Parliament, in protesting against the surrender, to a private institution, of the state's control over the nation's currency and credit: 'Once a nation parts with the control of its currency and credit, it matters not who makes the nation's laws. Usury, once in control, will wreck any nation. Until the control of the issue of currency and credit is returned to government and recognized as its most conspicuous and sacred responsibility, all talk of the sovereignty of Parliament and of democracy is idle and futile.

"To regain for the nation what has thus been lost, will continue to be a first objective of Liberal effort.

Investment Control

"Control of investments; "The Liberal party believes the financial mismanagement of industry is largely responsible for many conditions obtaining today.

"To prevent exploitation of public through the sale of watered stocks and worthless securities, it believes an investment control board should be established, with supervision of issues of securities by companies incorporated under federal charters.

"How far short the legislation enacted by the present administration has fallen off what is here proposed, should be apparent to all.

"Safeguarding of national railways: "The Liberal party stands for the maintenance of the integrity of the Canadian National Railways as a public-ly-owned and public-ly-controlled service.

"This statement of policy will, I hope, serve to remove all doubts as to Liberal members of the House of Commons favoring the amalgamation of the railways of Canada under private ownership or control, or of their countenancing either at the present time or in the next Parliament of Canada, the formation of any national government which may have this end in view.

Industrial Reconstruction

"Democratization of industry: "The Liberal party believes that industrial reconstruction is the problem of the future. It will seek in industrial relations, as opportunity offers, to give to workers and consumers a larger share in the government of industry.

"On all the subjects of industrial reconstruction, I shall have much to say throughout the campaign.

"Restoration of responsible government:

"The Liberal party believes that the present crisis has been made an excuse for the usurpation of the rights of Parliament and the assumption of autocratic powers by the executive.

Personal Liberty

"Re-assertion of personal liberty: "The Liberal party believes that under the excuse of the present crisis, the rights of the individual have been violated. Liberalism stands, as always for the British principal of free speech and free association, and to this end will repeal Section 98 of the Criminal Code and end the present practice of arbitrary deportations.

"The Liberal party will give no quarter to Communism in Canada. Those who advocate the overthrow by force, of our existing institutions, are enemies of society, and should be so regarded. This is no reason, however, why every avenue of redress should not be open to those who have legitimate grievances. Arbitrary and autocratic methods are no substitute for British justice.

"Electoral reform: "The Liberal party stands for electoral laws which will ensure a true parliamentary representation of the Canadian people and such legislation as may help to reduce the cost of election campaigns.

"A balanced budget: "The Liberal party believes the aim

CHURCH SERVICES

United Services

Devon Baptist and Devon United churches. Morning worship at 11 a.m. Rev. W. Steadman Smith of Marysville will speak. Evening service at 7 p.m. at United church. Rev. David L. Kennedy will be in charge of the services.

Dr. Ross will officiate at both services.

LATE FLASHES

BROCKVILLE, Ontario, August 3 — Senator George P. Graham and Mrs. Graham played their annual game over the course of the Brockville Golf and Country Club in celebration of their 53rd wedding anniversary. They were married at Morrisburg, Ontario in 1882.

RICHMOND, Virginia, August 3 — Virginia's infantile paralysis epidemic continued yesterday to centre its attack on Albemarle County, where eight of 15 new cases reported were said to be located, bringing the total to 273.

MOSCOW, August 3—Otto Schmidt, head of the Northern Sea Route Department, announced at eight P. M., that the Polar airplane may take off later tonight or early tomorrow on its attempt to fly non-stop to San Francisco.

of every government should be the balancing of its budget.

"It would seek to effect that end, by retrenchment of public expenditures, by resolution of principal and interest of the public debt by a reduction in taxation and by increased revenue through the encouragement of trade.

"It will seek to effect a reduction of the cost of government in Canada by a careful inquiry into federal, provincial and municipal costs.

"The record of Liberal administrations in the reduction of expenditures, taxation, debt and interest, and in transforming deficits into surpluses is the best guarantee that Liberal policies if given their opportunity, will be able again to achieve these results.

"The statement concludes with the two following all-important declarations of policy.

"International relations:

"The Liberal party will seek to further wherever possible, those courses in international relations which make for peace and good-will among nations, and promote friendly intercourse between them. It will seek to further the work of the League of Nations.

"More equitable distribution of wealth:

"The Liberal party recognizes that the problem of distribution has become more important than that of production, and believes that personalty is more sacred than property. It will devote itself to finding ways and means of effecting a fair and just distribution of wealth with increasing regard to human needs, to the furtherance of social justice, and to the promotion of the common good."

Minimum Effort

"Please remember that what I have just read represents the minimum of united effort to which the Liberal party as a whole is already pledged. Save their inability to persuade others of the party of the wisdom of measures they may propose, there is noth
