## Name of Britain High in Councils Of The World

### Policy of National Government Expressed and Manifestoes of Other Parties Issued in British Election Campaign.

LONDON, Oct. 27.—Support of the League of Nations and strengthening of defence forces were set forth today as cardinal points in a manifesto issued by the National Government for the general election.

The manifesto comprehensively reviewed the policy of the government since its advent to power in 1931, outlined broad measures for development or domestic needs, and said formation of the national government had exercised "a profound influence on the course of international events."

The country has "emerged from the depths of depression to a steadily returning prosperity, with the name of Britain high in the councils of the world," he asserted.

"The actual condition of our defence forces is not satisfactory, gaps in the defences must be repaired, but Britain will never use her forces for aggression."

Reference was made to "the beneficial results" of the Ottawa agreements. "The government will endeavor further to promote the exchange of inter-empire goods. Attention will be paid to the necessary extension of the markets of the colonial Empire."

#### Bilateral Treaties

"An endeavor will be made to reduce foreign barriers by bilateral commercial treaties."

The broad issue of defence, the manifesto declared, "is whether the stability and confidence which the National Government has built up are to be preserved in a period of special difficulty and anxiety."

"The League of Nations will remain the keystone of British foreign policies. There will be no wavering in the policy hitherto pursued in the present unhappy Italo-Ethiopian conflict. A commonwealth which holds the position in the world occupied by the United Kingdom and her Empire partners must always take an influential part in League discussion."

There will be no relaxation of efforts to attain by international agreement a general limitation of armaments by every possible means, it said.

#### For the Farmers

A series of measures allowing the farmers to benefit from unemployment insurance will be introduced in the next Parliament. The unemployment problem will be attacked, first by a more elaborate building program. (Continued on Page Four)

### Mounties Make Liquor Seizures Over Weekend

R. C. M. P. officers made two seizures of liquor over the week-end, one at Devon and the other in Fredericton. In the seizure was a quantity of wine, beer, whiskey and gin. It is understood that the police will lay charges of keeping liquor in an unauthorized place under the Intoxicating Liquor Act. The names of the offenders were not divulged by police today.

#### FORD CAR SMASHED

A Ford car ended a headlong flight out Brunswick Street on Sunday in disaster, when it landed "smack" up against a huge elm tree at the intersection of Brunswick and Regent Streets. The car was badly smashed although the girl driver of the car miraculously escaped injury.

## HON. J. E. MICHAUD RECEIVES A HEARTY RECEPTION

CAMPBELLTON, Oct. 28.—Hon. J. E. Michaud, K.C., Edmundston, new minister of fisheries, was officially welcomed to Campbellton by Mayor P. W. Caldwell at a short reception in the Town Hall here yesterday morning.

The reception was held immediately after Mr. Michaud's arrival on the C.N.R. Ocean Limited from Ottawa. Mr. Michaud visited Dalhousie in the afternoon and in the evening a reception was held at the Liberal committee rooms on Water street here. Mr. Michaud left for Edmundston today.

### HUNTER WAS KILLED IN ALBERT COUNTY

#### Answered Moose Call Made by Other Hunters

MONCTON, N. B., Oct. 28.—Three hunters answered each other's moose calls so naturally as they drew closer in dense woods near Turtle Creek, Albert County, on Saturday that death resulted for one of the trio, George Cole, 33, Turtle Creek farmer. It was the first fatal accident of the present big game hunting season in New Brunswick.

The shot was fired three miles from Turtle Creek road early in the afternoon by Thomas Beers, Harcourt who was accompanied by Melvin Spencer, Newton Heights.

Beers and Spencer went into the woods together Saturday morning and shortly after the noon hour they were calling moose. According to the information given R. C. M. P., they heard a return call and, thinking it was a moose, moved in the direction of the sound. When they drew closer they heard the call again, and Beers fired. The bullet struck Cole in the right side, killing him almost instantly.

Beers and Spencer hurried to the spot and were horrified to find that a man had been shot. They immediately left the woods and proceeded to Moncton, where they informed R. C. M. P. of the accident. Constable Walter Morgan was despatched from the Moncton office with the two men to meet Dr. B. J. Dash, coroner of Hillsboro, and the party proceeded to the scene. It was not until after seven o'clock Saturday night that the body was brought out of the woods.

#### Dense Woods

According to the constables, who investigated, the woods at that point are very dense. The scene of the accident is about ten miles from Moncton and about three miles from Turtle Creek Road into the woods, and it was with considerable difficulty that the body was brought out after it had been viewed by Dr. Dash.

As Beers and Spencer were coming from the woods to report the accident they met two men going in. They told them what had happened and on going back to the scene it was found that the dead man was a brother of the two men.

Cole was survived by his mother, Mrs. Rosella Cole, Turtle Creek; three brothers, Elmer, Arthur and Bliss; and four sisters, Mrs. W. Steeves Dawson Settlement; Mrs. J. Milon, Turtle Creek, and Miss Emma Cole and Mrs. Roy Deware, Sunny Brae.

Constable Morgan has empanelled a jury and an inquest will open in the Coverdale Public Hall today before Dr. Dash.

#### GOT WRONG MAN

Fred E. Brewer, who lives on Albert Street, is a little chagrined today, and he has every right to be. This morning it was announced from Saint John that "F. E. Brewer of Fredericton was the winner of the automobile in the drawing held in connection with the Orange Lodges' Fair". So far as he knows Mr. Brewer is the only one in town with those initials. But the point is that he never bought any ticket, nor does he know anyone who bought one for him. Meanwhile the Orange Lodge officials are scurrying here and there looking for the F. E. Brewer, who did win the automobile. The lucky number is O-461.

### Going to the Pictures

The League of Decency which was started a couple of years ago and which had for its object the securing for the public decent moving pictures has accomplished much and much has yet to be done. The League and similar organizations which followed in its path have made their influence felt. These organizations have, through getting their members to keep away from filthy pictures and thus cutting into the box receipts, brought home to the producers the fact that it does not pay to produce indecent pictures. One does not have to go to the other extreme and be puritanical as an officer of the League pointed out in an excellent address on the subject.

Pictures are of a great social value—the right kind of pictures. But the majority of moving picture fans do not select their pictures as they do their books.

People do not run into a bookstore and throw down fifty cents and ask the bookseller to hand them a book. They specify what book they wish. If the book is for their children they are even more particular. Wouldn't our past disappointments in the pictures suggest that we apply the same shopping principles in regard to pictures. Most people say "Let's go to the pictures," or they give their children the money to go to the pictures without knowing what these pictures are all about. Is this indiscriminate running to the pictures without considering the nature of the picture a good thing for our boys and girls? All social organizations are alive to the dangers as well as to the advantages of certain kinds, especially to the young. Much improvement has been made in the last couple of years. But the following figures from Ontario are startling:

The figures which were issued by the Ontario Board of Moving Picture Censors state that out of a total of 479 pictures submitted last year (1934) that only 94 were classed as suitable for family showings. We never hear anything about out New Brunswick censorship. We believe that there is such a thing tucked away somewhere in Saint John but no person ever hears of it.

When the Motion Picture Research Council finds that 17 per cent of a group of 139 delinquent boys admitted that the movies influenced them in wrongdoing and forty-one per cent of a group of 252 delinquent girls admitted being "in trouble" through the craving for wild parties, cabarets, road houses, inspired by the movies. This report of the Research Council might make one ask "How many of Canada's harvest of over 8000 illegitimate children were inspired by the indiscriminate running of young people 'to the pictures.' Remember that it will cost \$250,000 to raise these children until they reach the age of 16 years.

There are good pictures being shown in New Brunswick and in Canada, pictures that are of excellent educational value. There are others that are, to say the least, just trash. It is up to the people to consider the above figures presented by a leading reliable social organization and to use judgment in regard to what pictures are objectionable, especially insofar as their children are concerned. Pick your pictures as you would select a book.

## 2,000 DIED IN WEEKEND HURRICANE

PORT AU PRINCE, Haiti, Oct. 28.—Heavy rains accompanied a hurricane, forcing all streams far out of their banks, and bringing death and suffering to thousands. The peninsula area has been isolated since Monday. The Jeremie region was the hardest hit, according to official statements.

Bodies of 96 victims already have been recovered at Jacmel.

One small airplane is the only means of maintaining communication between this city and the hurricane-swept area.

The hurricane that struck Haiti was believed to have been the one that swept over Eastern Cuba and Jamaica last Monday.

#### Widespread Suffering

The pilot of the airplane reported widespread suffering was likely in the storm area unless aid is rushed. No epidemic was threatened, according to his reports.

Relief operations, however, are awaiting the arrival here of the Standard fruit steamer Truxton which has been delayed by strong winds north of Cuba, and is expected to arrive tomorrow.

#### Cut Salaries for Relief

The government, to provide relief funds, has cut the government payroll ten percent for a period of one month. The move affects the salaries of every government employee.

The difficulties in the way of an adequate survey of the storm and flood damage was said by officials to be enormous because of the isolated position of the stricken area.

The bodies of most of the missing were feared to have been washed out to sea, as streams in the deep river valleys roared to record heights under the impetus of torrential downpours.

Villages and thatch huts of natives along these streams were believed to have been swept away, with the floods completing the destruction begun by the raging hurricane blasts.

It pays to advertise in The Daily Mail.

## WILL CANCEL BROADCAST OF ROYAL WEDDING

OTTAWA, Ont., Oct. 28.—The Canadian Radio Commission announced Saturday it had received word from the British Broadcasting Corporation that arrangements to broadcast the wedding ceremony next Wednesday of the Duke of Gloucester and Lady Alice Montagu-Douglas-Scott had been cancelled due to the death of the bride's father.

### Chief Highway Engineer Returns

C. B. Croasdale, chief highway engineer, who with W. J. Lawson, government engineer, spent several days in the province of Nova Scotia last week inspecting hard-surfaced roads, returned to Fredericton over the week-end. The public works department had no announcement to make today regarding the engineer's inspecting tour, but it is thought they were seeking a comparison of the Nova Scotia roads to those in New Brunswick with the idea in mind of combining the best qualities of roads in other provinces in the roads to be built in this province next summer.

#### ROBERT W. COYLE DIES

Robert W. Coyle, aged 81 years, passed away this morning at his home 531 York street, after a short illness. The late Mr. Coyle was one of Fredericton's best known and oldest residents and was a lifelong resident, respected and highly regarded by everyone. He was the son of the late Mr. and Mrs. Neil Coyle. For several years deceased was employed in the public works department of the city of Fredericton and was a faithful servant. Surviving is one son, J. Austin Coyle, of this city; and two brothers, James Coyle of Fairville, and Neil Coyle of Calais, Maine. The funeral will take place on Wednesday with service at 8:30 o'clock and High Mass of Requiem at St. Dunstan's church at nine o'clock, conducted by Rev. Dr. Milligan. Interment will be made at the Hermitage.

## France Joins Britain In Sanctions Against Italy

### RUM - RUNNING CACHE FOUND AT BELLEDUNE

#### A Large Quantity of Al- leged Contraband Liquor

BATHURST, Oct. 28.—A seizure of contraband liquor valued at more than \$55,000, duty paid, was made by R.C.M.P. in a barn at Belledune yesterday.

Consisting of 1,500 gallons of alcohol and rum, mostly alcohol, besides a quantity of whiskey, the liquor was believed to have been put ashore from a rum-running craft within the last few days. The barn was about a quarter of a mile from the shore of Chalour Bay. No arrests had been made but it was expected by police that arrests would be effected shortly, possibly of an alleged rum-running gang.

The quantity of liquor seized was sufficient to comprise a large part of the cargo of a fair-sized schooner. The seizure was the largest made in this district since June 6, 1934, when the schooner Paul T., was seized. That vessel contained 378 cases of liquor, each case containing five gallons, or a total of 1,890 gallons.

The alcohol in today's seizure was in two and one-half gallon tins and the rum in barrels, and the whole cache was so well hidden that it required three hours to find it. The seizure was made finally at about 10:30 a.m. by Sergeant B. G. Peters, in command of the Bathurst section, and Constable J. B. Springer of the Bathurst detachment.

Duty alone, on the contraband, at the rate of \$11 a gallon, would amount to \$17,380. The value of the liquor, duty paid, is about \$35 a gallon.

The barn where the seizure was made was said by police to be one in continual use and a private by-road led to the shore from behind the building. The place had been under observation by police for some time, it was stated.

It required two trucks, heavily loaded, to transport the contraband to the customs house at Bathurst. The unloading of the wet goods caused considerable stir.

#### ON INSPECTION TRIP

Tennysen A. MacDonald, superintendent of colonization in the department of lands and mines, left today for Tracadie on an inspection tour of the rebuilding of homes in the fire-stricken area there. Mr. MacDonald was on a tour of the district last week and reported today that building is progressing rapidly. At Charnisey all the refugees are now housed, and at Belledune all the houses are completed. A few barns have yet to be finished in the latter place. Building at Tracadie is not so far advanced, but most of the refugees are occupying the houses while work is still going on. Mr. MacDonald expects to return to Fredericton on Thursday.

#### DEATH OF CHILD

Harry B., the infant child of Mr. and Mrs. Donald Adams, of Victoria Mills, passed away this morning shortly before nine o'clock after a short illness. Besides the parents two sisters survive. The funeral is taking place this afternoon with service at the home at Victoria Mills at 4:30 o'clock with Ven. Archdeacon A. F. Bate conducting. Interment will be made in the Rural Cemetery extension. The sympathy of friends and relatives is being extended to the bereaved parents on the death of their young son.

### United States Expresses Sympathy With Plan, Affected Countries to be Assisted.

In order to isolate Italy from the economic world as a penalty for having been an aggressor of war on Ethiopia France has joined Britain in the plan of enforcing a severe economic sanction on the offending nation.

This means that Britain and France have agreed to buy nothing from the Fascist state and to stop the exportation to Italy of certain key products, especially those needed in the manufacture of armaments, munitions and implements of war.

Thirty-five countries now have announced acceptance of the arms embargo recommendations, which also includes the lifting of any such bars to Ethiopia. Fourteen nations have agreed to enforce financial sanctions intended to cut off Italian cash and credits from abroad.

Seven have accepted both boycotts agreeing to buy nothing from Italy and to refrain from selling her certain essential products.

#### Ethiopians Repulsed

WITH THE ITALIANS NORTH-ERN ARMIES IN THE FIELD, Oct. 28.—Heavy fighting occurred during the night along the Setit River with the Ethiopian losses estimated at 100 dead and many wounded. (The Setit River is in Northwestern Ethiopia near the frontier of the Anglo-Egyptian Sudan.)

The Ethiopians apparently made a determined effort to invade Eritrea from the extreme northwest corner of Ethiopia.

Under cover of darkness a strong force of warriors tried to ford the river.

But the new system of blockhouses devised to protect this section of the Eritrean frontier proved their worth. Sheltered in the blockhouses and firing very lights, the Italians were able to frustrate the attack with rifle and machine-gun volleys.

They drove off the Ethiopians with heavy losses. Later Italian outposts down the river reported many bodies had floated past.

#### Closer To United States

Ethiopia and the United States were brought a step closer today with establishment of the first direct wireless communication between Addis Ababa and Washington.

This emergency wireless was established as a precaution against Italian bombardment of the government wireless station.

### Frank X. Goodine Died as Result of Kick From Horse

Frank Xavier Goodine, aged 57 years, died on Saturday night as a result of being kicked by a horse at his home a week ago Friday. Deceased was a well known farmer in the vicinity of Kingsclear where he lived, and his unfortunate death will be the cause of widespread regret. He had been a resident of that place all his life. Mr. Goodine's injury was so serious that he failed to rally from the effects of the kick.

Surviving are his wife, four sons, Kenneth, Hazen, Albert and Charles, all at Kingsclear; three daughters, Mrs. William Steen of this city; Mrs. Tyler Mills of Kingsclear and Miss Margaret Goodine of Kingsclear. The funeral took place this afternoon with High Mass of Requiem at St. Anne's Church at Kingsclear at ten o'clock by Rev. H. L. Coughlan. Interment was in the cemetery at Kingsclear. A large number attended the funeral service as the late Mr. Goodine was regarded highly by everyone with whom he came in contact.

## BEACON TO HONOR POST AND ROGERS

NEW YORK, Oct. 28.—Plans for a powerful revolving airway beacon on the New York end of the George Washington Bridge, 650 feet above the Hudson River, which will be named for Will Rogers and Wiley Post, were announced yesterday by Senator A. Spencer Feld, chairman of the New York State Aviation Commission.

Senator Feld said that the beacon

would be supplied by the Federal Bureau of Air Commerce, since the bridge is directly on the New York-Boston and New York-Albany-Montreal airways, and that it will be formally dedicated and put into operation on November 30.

The beacon, built by Sperry Gyroscope Company, of Brooklyn, will develop 1,800,000 candle power and revolve six times a minute.
