PHOENIX SQUARE

During all the present summer and fall Phoenix Square, especially the "up-town" side of the square, has been nothing more or less than a disgraceful mud hole. Complaints have been made time and time again by citizens who have to use this section of the city which is a much travelled one. Perhaps we could not afford to pave the whole Square this year. There is absolutely no reason however, why something not costing much money could not have been done with the Square. This has been spoken about several times at the request of citizens who have business in the vicinity and by those who frequent the Square. The city engineer and his department seem to do just as they like. The city is paying out enough money to have things done in proper shape. It need not cost more than we can afford to put some gravel on this terrible spot and to fix it up.

N. B. TELEPHONE SERVICE

Residents of Lincoln who are subscribers of the N. B. Telephone service, are up in arms over what they claim is very imperfect and annoying service. A new system has been introduced which makes matters rather worse than better. The Telephone engineers claim that nothing better can be done and claim that the noise on the rural 'phones will be even worse this winter than it has been in the past. The telephone people blame all the trouble on the electric power and this increased voltage.

The Public Utilities might take a look into the whole matter and see where the blame lies. The telephone service is none too good and the Company is pulling down good tolls and rates for the service which it is giving.

On the other hand, if the power people are at fault they should be straightened out. The latter concern is being blamed for our exceedingly unsatisfactory radio service on Sunday afternoons.

NEW INDUSTRIES

Fredericton city council heard last night from Ald. Fred S. Mundle that there are "three industries knocking at our doors, and we are high-hatting them."

Ald. Mundle was outspoken in favor of the encouragement of such industries and claimed that a committee should be appointed from the council to encourage industries to come to the city of Fredericton.

"Queen Street has been going down because we haven't industries enough in the back sections of the city. The Board of Trade should be a little more wide-awake in this connection."

Ald. Mundle referred especially to letters from W. J. Scott of this city, and from an Upper Canada concern, the latter of which was a feeler for the erection of an "excelsior" plant in the capital. Mr. Scott has plans of erecting a hardware flooring plant in the city. Both would employ local labor.

The third industry is the public abattoir which has been before the council for some time, site for which is still unsettled, because of agitation by the citizens over what they deem will be offensive odors.

It is up to the city council and the Board of Trade to encourage all the industries that want to come in here. At the same time care should be taken not to have objectionable factories erected in residential districts where people's property would be ruined in value. One thing about Fredericton is that we have plenty of room. So do not let us step on anyone's corns, but let us get the industries.

York County people should not have to provide board and lodging even such as they are, to drunks from the Dominion relief camp. There is a whole jail full down there today.

MacKenzie King shows that he is a big man by the way that he treats the gentlemen of the press. The bigger that the man is the easier he is to approach. It is only the little beggars that do the high hating.

Mussolini is already taking economic sanctions seriously. Meatless meals have been ordered, and offices must close early to save fuel and light. This hardly looks as though he expects to get the boys out of the trenches by Christmas.

Commenting editorially on the Canadian general election, the Buffalo News remarks that "the Liberal gains were less than might have been expected". Well, seeking to avoid any tendency toward exaggeration, they might reasonably be termed adequate.

Columbia University is turning its attention to search for a cure for the "common cold". Being common, it has evaded control too long. If it were one of those rare and distinguished ailments, it probably would have been captured and placed in a glass case years ago.

"I never saw a much improvement in my life", said a Woodstock man who drove over the Devon town highway yesterday. Messrs. Hanson, McEvoy and Company should get due credit for having put this road through and they made a good job of it.

We do not wish to scare industries away. Neither do we want them located on our front door steps. There is reason in all things.

RUMANIA RAISING LOAN FOR ARMS

BUCHAREST, Rumania, Nov. 5.—Rumania soon will obtain a \$5,000,000 lei (\$25,500,000) loan in France to finance purchases of French armaments over a three-year period, Telekomp News Agency reported yesterday. The loan would be repaid in 12 annual instalments.

Labor Camps To Be Taken From Militia

(Continued from Page One)

11. That the Dominion-Provincial conference would take place as soon as the Quebec elections of Nov. 25 were over possibly on Nov. 22. It would last four days, perhaps more.

12. That Provincial authorities had been asked for any matters for the agenda.

13. That the new national commission on unemployment was under consideration.

14. That the commission would have an executive nucleus but would be largely composed of public-spirited citizens serving unpaid on this great problem as many had served on the Patriotic Fund in war years.

15. That the question of public health and other problems affecting unemployment insurance and similar social matters would be placed in the Labor Department as being allied problems.

16. That after a few days in Washington he would take a holiday; he did not yet know where, and it would be about two weeks.

For a first press conference the Prime Minister's budget of real news was pretty extensive. He will repeat the conference each week and when there is any special matter on hand he will call a special conference. And the press men went out humming "Happy Days Are Here Again."

Two Hunters are Fined for "Jacking"

(Continued from page One)

are sometimes wounded and left to wander off into the woods to die, thus causing waste of game, and on many occasions farmers' horses and cattle have been known to be the victims of the jacklighting hunters' guns, Col. Ritchie remarked.

He declared that a constant vigil was being kept by the game warden to prevent this kind of hunting and that the fullest co-operation of the public is needed in this respect.

ALL PULP BELOW NASHWAAK

Upwards of ten thousand cords of pulpwood most of which has been stranded along the shores of the St. John river above this city for more than a month, has now been floated down river as far as Mitchell boom, where it is being rafted and made ready to be sent to Saint John. The work of rafting and towing to Saint John will take only a few days more. Last year the date on which this rafting was done was much later. All the pulpwood, is now below the Nashwaak river.

RESERVOIR FOR ENGLISH SETTLEMENT?

The city council last night discussed at some length the matter of a reservoir or standpipe for the English Settlement area, several of the aldermen mentioning its desirability as a fire fighting use and also for supply of water to that section of the city.

The aldermen questioned the desirability of erecting such, what its cost would be, and how much revenue could be obtained for the purpose in that vicinity. The most serious question proposed was: Would the revenue obtainable justify the expense of the undertaking?

His Worship Mayor Clark asked City Engineer MacKay to prepare a sketch and ascertain how much water would be needed. Ald. Moses Mitchell remembered some years ago that it had been estimated that the cost of such a standpipe or reservoir would approximate \$30,000. He believed it would be a help to fire fighting in the hilly section back of town, although there had been no serious outbreak there yet.

ARMISTICE DAY FRIVOLITY SCORED

WINDSOR, Nov. 5.—Remembrance Day should be made a national Day with blinds drawn on the windows of stores and dwellings. Captain Sidney E. Lambert declared at yesterday's service at Temple Baptist church.

As Dominion President of the Amputations Association of the Great War, Capt. Lambert came to Windsor to take part in the annual banquet and service of the Association's Western Ontario branch.

"Remembrance Day," he remarked, "should not be a holiday, a day for golf and baseball, but a day for remembrance."

PASSED WORTHLESS CHECK

Fred Marquay, of Marysville, pleaded guilty yesterday afternoon in the city police court to a charge of passing a forged check. Magistrate Walter Limerick reserved sentence until Wednesday morning. Leo F. Cain appeared for the accused. Maroney chose to be tried by the police magistrate.

PREMIER TO BROADCAST

Premier A. A. Dysart will be heard over a province-wide hookup on Sunday evening from 9 until 9.30 p.m. The broadcast will emanate from Moncton and will be heard over the Saint John, Fredericton and Moncton stations. Premier Dysart is expected to discuss general provincial issues.

TWO MONTHS FOR BEGGING

A vagrant hailing from Prince Edward Island was sentenced to two months when he appeared before Police Magistrate Walter Limerick charged with begging and selling shoe laces this morning.

WANTED

LIVE SALES AGENTS

Several additional live agents to sell subscriptions to The Daily Mail. Good money to the right man or woman. We will give you any necessary training and assistance.

The Children's Contest

DO YOU KNOW FREDERICTON?

The Daily Mail in order to encourage a knowledge of our own city and its history, will give one dollar each week to the school child in the schools up to Grade VIII who can answer correctly the most questions regarding our city. Here are the second set of ten questions:

(1) Where was the first church in Fredericton located?

(2) What was the first Imperial Regiment to come to Fredericton?

(3) Where was the first Exhibition held?

(4) What were the streets, Queen, King, Brunswick, George and Charlotte named after?

(5) Where was the first Collegiate School located?

(6) When was the first Fredericton newspaper started? Who was the Editor?

(7) When was the first highway bridge built across the river at Fredericton?

(8) From what points did the old ferry boats running across the river at this city leave?

(9) What institution of learning conducted a ferry boat here for the purpose of raising funds?

These sets of questions will be published several times per week in The Daily Mail. Bring or send the replies to this paper at the end of each week the correct answers will be published in The Daily Mail. Send your name, grade, and teacher's name.

Wish Local Concerns To Get Contracts

(Continued from Page One)

ency. The committee waited upon Mr. Clark yesterday afternoon and were informed by him that he had already taken the matter up with the proper department at Ottawa and that department was giving the matter favorable consideration and it was understood that the request of the Board of Trade be complied with as far as it was possible to do so. The committee of the Board of Trade which waited upon Mayor Clark were S. S. Miller, Ald. David McCaughey, and G. W. Hodge.

GRADUATE OFFERS PRIZE

A prize of \$50 has been offered for proficiency in philosophy in advanced classes at the University of New Brunswick this year, it was announced today by Dr. C. C. Jones, president of the University. The prize is offered by Sidney B. Smith, M. A., Ottawa, a member of the class of 1911. Mr. Smith graduated with honors in philosophy and economics and received his M. A. from the University of New Brunswick in 1913. He is now employed in the bureau of statistics of the Department of Trade and Commerce, Ottawa. He was a classmate of Hon. J. B. McNair, K. C., attorney-general of New Brunswick.

PLAN FOR ROTARY AUCTION

At today's weekly Rotary luncheon plans were made for the annual Rotary auction which will likely be held during the first week of December. Jack MacKay, chairman of the auction committee, presided at today's luncheon.

York County Jail Housing 44 Prisoners

(Continued from Page One)

completely justified, its being displayed by the county officials in having to house these offenders from the relief project. The board, lodging and trial expenses of these prisoners adds up to a considerable figure in a year, and Major John S. Scott, county secretary, maintains that some action should be taken to prevent such a situation.

Most of the offenders were arrested for drunkenness, it is said. Therefore if some provision were made at the relief project whereby these men could be prevented from entering the city on pay day and filling themselves and the jail, it would be a great benefit to the county.

QUALITY or QUANTITY

Take your choice. You cannot expect both. Many people buy flavoring extract that is put up in large containers at a low price but they get QUANTITY only.

The housewife that takes pride in her cooking demands flavoring extract of high QUALITY. We recommend our PURE IMPERIAL EXTRACT which is of the highest QUALITY.

Ask your grocer for it. There is no other just as good.
