## ASSOCIATED BOARD OF TRADE FORMED TO INTERVIEW GOV.

Other Important Resolutions Carried in Board of Trade Meeting Here Yesterday — Freight Rate Discussion.

A resolution that the various presidents of the boards of trade with the President of the Fredericton Board as chairman be a committee with power to add to their number whose duty to consolidate all other boards of trade in the Saint John Valley was carried unanimously when put in motion by J. D. Winslow of Woodstock when the combined boards of trade in the Saint John Valley met here informally yesterday afternoon. The name resolved for the new body was the Associated Board of Trade of the Saint John Valley and the body will meet here late in October.

**Rich Possibilities**  
F. MacC. Sclanders, commissioner of Saint John Board of trade spoke at length on the potential wealth of New Brunswick and the efforts of traders to develop and market this wealth. The speaker thought that an increase in land cultivation carried out under skilled farm technicians would be a truly great movement. In speaking of cottage industries Mr. Sclanders was pleased to see some national growth but he hoped in the future that through institutional promotion of these industries a product would be produced that would compare with the workmanship of other nations. Mr. Sclanders said that he expected a report of the sponsorship of Mount Allison University of this work would soon be published.

**Combined Action Necessary**  
Rand Matheson, expert for the Maritime Transportation Commission, stated that an investigation as to freight rates brought about by the criticism of potato shippers had been called for Moncton at which a combined meeting of shippers will prepare a statement for the railway board. It was a necessary demand of the Maritime Transportation Commission to take this on the strength of the Maritime Freight Rate Act to obtain rates that are fair to New Brunswick shippers and to offset the rate reduction in the different classes of shipped goods that were set up in Ontario and Quebec; there is no uniformity in the different class rates and the provincial shippers in the Saint John Valley pay higher distributing charges over main lines than any part of the Maritimes. People were too railway-minded, and the need for other conveyance and means of distribution of produce, was coming in for greatly unmerited abuse; what is necessary was not abolition nor restriction, but regulation, an idea to get something that is economically sound is what is needed. J. E. Porter, Andover, a prominent shipper said that the shipping body should go direct to the railway board.

**Dust Poor Advertiser**  
Grover Campbell, of Woodstock and E. R. Jones brought before the meeting the need for dust preventive measures for all boards of trade were interested in tourist travel and a great deal of travel into the beautiful Gaspe County was not travelling through New Brunswick but through Maine the province thus losing hundreds of dollars. H. W. McPhail, Perth and J. P. Winslow, Woodstock also spoke on the tourist question.

**Wants Bermudan Market**  
A. R. Jones, Saint John, a prominent egg and poultry man recommended that the transportation commission go after the Bermudan market for the poultry men. He stated that there was a possibility of 600 dozen eggs per boat and hundreds of thousands of baby chicks that could be marketed alone by his company which marketed 125,000 chicks this year in the Maritimes. D. J. Barrett, Saint John, a representative from the Canadian Packers pointed out the need for added production as his company would take all produce that they could get and were finding a scarcity of quality brand produce.

**Butter Poor**  
J. Arthur VanWart, of Hampstead, recommended that interest be taken in the creamery industry in the St. John Valley and a move be started to have creameries established in the St. John Valley. The speaker stated that dairy butter had no uniformity in quality which hindered a larger market being found for it.

**To Meet Government**  
Grover Campbell of Woodstock, made a motion, seconded by J. Arthur VanWart, Hampstead, that W. W. Hubbard, S. S. Miller, and Alex. Murray be empowered to carry the suggestions carried on at the meetings before the government. The motion was carried. A motion that the combined board of trade would go on record to give support to a movement to have a daily railway service in the section of Saint John Valley below Gagetown to facilitate the distribution of mail was carried out. J. Arthur VanWart of Hampstead and Gagetown was the promoter of this motion.

## BOYS—A RECIPE FOR SUCCESS

BELLINGHAM, Wash.—Success in life, as defined by the youth conference held in connection with the district Rotary conference held recently in this city, means "a fair income, a house to live in, and whatever is required to make a reasonable person happy."

A report of the conference is made up of excerpts from the discussions of boys from all over the Pacific Northwest. On the subject of "personal liberty" are recorded these pertinent remarks: "Modern human existence is entirely independent; every action influences some other person;" and "the cost of crime in the U.S.A. is between ten and fifteen billion dollars, and the cost of education between two and three billion dollars."

In regard to youthful criminals: "One of the big things we need is sympathy, a desire to pull the other fellow along, not to baby them but to encourage them. If a boy has no parents to help him there may be some fellow who would be willing and glad to act for him in the capacity of a parent."

On the subject of drinking, the following are among observations made: "I think the fellow who drinks does so because he thinks it is smart. Some weak fellows drink because other fellows do, but chiefly they drink because their parents drink. I think the influence and habits of parents explain most of the drinking of our young people. I think that when young folks see that drinking makes a fool of adults, it keeps them from drinking."

On the question of playing fair one youthful speaker contributed this: "Crookedness and unfair play have reaped large financial gains but you have yourself to live with after all, and all the physical and financial gains do not equal at all the mental results that come from fair play. To have a lot of money does not count as much as having an idea that you have done good."

## A RECORD OF ACHIEVEMENT

The Devon Lumber Co., which started in March 1928 as a retail lumber yard, is an object lesson to those who complain of unfavorable sales conditions and restricted opportunities. During the past seven years this Company has gradually branched out until today they carry a full line of builders' supplies. This includes foundation materials, chimneys, sand and gravel, brick and lime, nails and paint, as well as all grades of rough and dressed lumber. They carry all kinds of standard interior trim and hardwood flooring and specialize in the best grade cedar shingles and roofing.

They are also dealers for the Canadian Johns Manville and for the Eastern Steel Products.

The Company now has their own sawmill on the Nashwaakasis. Only this summer they have completed a resawing and planing mill for planing and matching lumber.

This is a record of achievement of which the management may well be proud.

### INCREASE IN BUSINESS

The B. & M. Beverage reports a most satisfactory increase in their volume of business for this season, particularly upon their dry Ginger Ale. Mr. Rogers, the manager attributes this to the fact that by experiment they have succeeded in producing a dry Ginger Ale that is particularly suited for use as a base for fruit punches and which seems to blend perfectly with any type of cooling drink. Those who have used this ginger ale seem to prefer it to any other, as witnessed by the constantly increasing number of repeat orders.

Mr. Rogers looks forward to a steady volume of winter business and is well satisfied with the results of the present summer.
