Public Opinion Forces Nazies To Put Soft Pedal On "State Enemies"

Suppression of Outrages Against Jewish and Cat- holics is Ordered Stop- ped, After Meeting in Council

BERLIN, July 30—Nazi chieftains have called off their drive on "state enemies" it was learned from a high source.

According to this source the suppression of Jewish and Catholic citizens was ordered "soft-pedalled" because of repercussions of the Nazi drive in foreign lands.

The decision was reached after a hurried council at the mountain retreat of Reichsfuehrer Hitler at Obersalzberg. In attendance, it was said, were General Warner von Blomberg, minister of war, Hermann Wilhelm Goering, head of the secret police, and other Nazi leaders.

Impressed with political expediency of halting publisher Streicher's Jewish strictures, the conferees, it was learned, considered whether to call a national plebiscite to show confidence in the Nazi regime.

The leaders were told of inimical reactions abroad to moves against Jews, Catholics and the Steel Helmets. They effected a change whereby Jews will be considered for military enlistment if they have only two Jewish grandparents a proposal seen as the first breach in the non-Aryan warfare. A national police campaign was planned against individual acts of terrorism.

Interview Refused

It was reported Franz Seidte vainly sought an interview regarding the action against the Steel Helmets, which he heads.

Joachim von Ribbentrop, ambassador or extraordinary, and Hjalmar Schacht, head of the Reichbank, are reported to have warned Hitler of the unfriendly reception of war veterans abroad of the Nazi fights, especially the suspension of the Steel Helmets. Meanwhile the Catholic world has learned with sorrow of the sentencing in Hanau of Father Ludwig Roth to eight months' imprisonment for declaring in his pulpit that "human life is worthless in the new Germany." The incident was added to the record being kept by Cardinal Bertram of Breslau to be shown at the conference of Catholic Bishops at Fula Aug. 16.

Cardinal Bertram's own diocese will have read to them Pope Pius' remarks on Germany, published in the Osservatore Romano, the Vatican newspaper. The Pope's observations have been read to the Berlin diocese.

A further step against "political Catholicism" was noted in Baden, where the property of three Catholic organizations dissolved in 1933 was seized by the state.

The attitude of the Jews remained tense. Leaders of Jewish congregations in Berlin received official notice that they should discourage Jews from patronizing cafe and restaurants and from appearing in too great numbers in the streets.

PARISH CONDEMNED TO PAY \$7,500 LOAN

MONTREAL, July 30—The parish priest and church-wardens of the parish of St. Etienne are ordered to pay \$7,500 to Miss Olive Trudel, beneficiary under the will of the late Napoleon Touchette, by a judgment handed down by Mr. Justice C. G. McKinnon in the Superior Court yesterday afternoon. The sum represents the amount of notes, which plaintiff claimed were signed for loans from the late Mr. Touchette.

Your Water

The Daily Mail does not wish to stir up any scare regarding our local water conditions. But would it not be well to check up our filtration plant and our local water supply and the sources from which it comes. This should be done from time to time. Why sit back and say, "Oh, Harry Hagerman is looking after it and he is all right." We believe that Dr. Hagerman is probably all right but who knows whether he is or not? The Daily Mail does not know. Do you?

Are there any private sewers emptying into the river a short distance from the intake? Is there any contamination from the Victoria Hospital nearby? Is there anything floating up there from the dump a short distance below? Did you ever get a "whiff" from one of those bathing suits after you came out of the public bathing beach a few feet below the intake from which we get our city water supply? Was not ice taken from the same location condemned as unfit for use? Why then is the water supposed to be so pure.

A leading Fredericton physician has recently made the statement that he does not know of any city or town of the same size as our own where there is so much kidney trouble, hardening of the arteries, and rheumatism, as there is in this city. He believes that these conditions are due to the water and to the way in which it is handled. He says that the water at times is not fit to smell, much less drink.

The Daily Mail gives you this for what it is worth. These things may be so. They may not be so. Why not check it up? This is our most important municipal service. The health and lives of the public are at stake.

The statement made above is made by a Fredericton doctor whom everybody knows and respects as a leader in his profession. There it is. What do you think?

REX BEACH IN THE ROCKIES

(Special to The Daily Mail)

JASPER, Alberta, July 30—"This is what I call real fishing!" exclaimed Rex Beach, famous American author and magazine writer, yesterday after catching his limit of rainbow and Kamloops trout on a dry new area of Tonquin valley and Amethyst Lakes region of Jasper National Park, Alberta. Following the stocking of these waters with this species of Gamey Fish, which have now grown to a size permissible for fishing, Mr. Beach was the first sportsman to open the angling in this territory, which is now available to the public.

Jasper National Park in the Canadian Rockies stepped into the angling limelight a few seasons ago when sport fishing for speckled trout was first permitted in the Maligne Lake waters, where speckled trout had been planted in waters which were hitherto barren of fish life. The success of the Maligne experiment, which produced in a few years speckled trout weighing up to five and six pounds led to the planting of other lakes. Included in these were the lakes in beautiful Tonquin Valley and Amethyst Lake planted with Kamloops and Rainbow trout. These fish have now grown and multiplied to such an extent that fishermen were this year permitted to fish these lakes for the first time. Record sized rainbows are believed to lurk in the lakes and streams in this area awaiting the anglers and Mr. Beach has already found them running over three pounds.

JACKIE COOGAN HOLIDAYING IN ONT.

BROCKVILLE, Ontario, July 30—Jackie Coogan, motion picture star, is holidaying in the Thousand Islands section of Ontario. He is a guest of Benjamin Golder, Philadelphia Attorney and former Congressman, at the summer home of Lew Golder, of Warner Brothers, at Sargeant Island.

C.C.F., SOCIALIST WORKERS UNITE

VANCOUVER, B. C., July 30—Members of the Co-operative Commonwealth Federation and the Socialist party of Canada will work in British Columbia as one unit, under one executive during the ensuing year, their organization to be known as the Co-operative Commonwealth Federation (B. C.).

The merger was ratified by a decisive vote at the final session of a joint convention of the two parties, which concluded early today. Arnold Webster, C. C. F. candidate in Vancouver-Burrard Dominion riding, was elected president.

A platform statement was adopted stating the C. C. F.

1. Favors ownership of the means of life by the whole of society instead of by a small section.
2. Recognizes the necessity for orderly political action by an intelligent electorate.
3. Recognizes that a period of transition will intervene unless society is precipitated into a revolutionary condition.
4. Proposes in the provincial field organizing the period of transition by substituting social for the present private ownership of industry wherever possible.
5. Recognizes the need for educational preparation for this revolutionary change.

Delegates insisted the new organization is not a "party" and refused to have the word "party" appear in its constitution.

SPIES SENTENCED BY SPANISH COURT

BARCELONA, Spain, July 30—Victor Legazpio Moron, Italian and Guido Dalpach Detrich, Frenchman, yesterday were sentenced by a court martial to six years' imprisonment for espionage in the Balearic Islands.

SHOO AWAY THE OFFICE SEEKERS, CAMP FOLLOWERS

These People Do Not
Give Gov't Chance to
Do Better

Want Any Job

Dysart and Company
Good Fellows but Must
Get Tired of It

Every person who is a Liberal over twenty-one years of age and has no job is chasing after the provincial government or the local members—all are looking for jobs.

They just want "a job," they will take anything. One man was willing to come either as deputy minister of Agriculture or of Lands and Mines or else he would take Sterling McFarlane's job "bossing the education department." No matter at all about the qualifications.

If the office seekers had the regard which they profess to have for "the party" they would give the government a rest and allow them time to get started and to become familiar with their duties.

The individual members of the Government from the Premier down are all he-men and good chaps to talk to,—no small country airs like the former provincial secretary used to try and amuse one with, and imagine it was dignity—but they must get tired out looking after jobs.

Give the boys a rest and let them get started. They are getting away to a good start. But they want to chance from office seekers and hangers-on. Peter Veniot had a lot of barnacles. These camp followers trailed him at every meeting. Premier Dysart will do well to "shoo" this bunch away. Some of them were here last week.

N. B. DRAGOONS TO BE ABSORBED INTO ARTILLERY

Rumor that Process now
in Order, may take five
Years—Some of Cana-
dian Cavalry Units to
be Converted — Noth-
ing Definite about N.B.

There is a possibility that within five years the two provincial cavalry units, the 8th Princess Louise Hussars, and the New Brunswick Dragoons, may be absorbed into a field artillery unit, which would emphasize heavy battery work, rather than the mounted infantry as heretofore.

The report is about that such a transition may take place but nothing definite has been announced from official militia circles. At the camp held at Sussex recently it was pointed out that there might be a change of this kind made, but that if it did happen the process of changing from cavalry to artillery would be a gradual one, probably taking five years to complete.

Some of the units of cavalry in the Dominion are already being changed. It is reported but whether this will extend to this province is not actually known.

At the present time the Dragoons consist of three squadrons, one at St. George, one at Campbellton, and the other in this city.

There is also the possibility that the 8th Princess Louise Hussars will be converted into a Tank battalion. A re-shuffle of infantry has been mentioned also, the rumor being that official sources believe there are too many regiments. The unofficial consensus seems to be, however, that there will be no re-shuffling in any of the respective militia departments for at least several years.

Visitor To F'ton Is Promoting National Gov't

Cecil Smith of Montreal in City. A Delegate to
Maritime Provinces — States Some of the Aims
and Objects of the National Government
Association.

Cecil Smith of Montreal is in the city today. Mr. Smith is making a tour of the Maritime Provinces in the interests of about 30,000 Upper Province members of an organization to promote a National party for Canada.

Mr. Smith, speaking to The Daily Mail today, said that he believed that a National party was Canada's need today. He claims that unless something is done to change the economic affairs of Canada that we will very shortly reach a crisis in our affairs that will have serious results.

Mr. Smith believes that politics today has become too much of a profession and that men at the head of affairs are filling executive offices for which they are not qualified. He believes that there is too much partisan politics in the country and that the people do not consider that they are stockholders in a large corporation—The Dominion of Canada—and as such stockholders should work to promote its interests.

Discussing the C.N.R. Railway problem Mr. Smith gave figures at length which were appalling, to show the terrible sink hole to the people of the country.

Continuing he said:—

Our railway problem is one that requires immediate attention.

Some plan of action must be evolved without further delay.

We have had the Duff Commission whose report—adopted by Parliament—in effect laid down certain principles the object of which was to eliminate duplication, establish co-operation between the two railways and to bring about economies in operation.

The appointment of that Commission was a step in the right direction, but did it go far enough?

We still face large deficits, and incidentally, for the years 1932 and 1933 the Canadian National Railway deficits were absorbed into the Government accounts and do not appear in the railway's reports.

This action has all the earmarks of a write-down of the National Railway debt in the effort to keep the total from passing the three billion mark.

However, it does not matter to you where it is carried because you pay it anyway.

What was the origin of this Canadian National Railway debt?

Is it the sum of those amounts paid by the Canadian Government to private corporations for assets of questionable value?

No—not by any means.

The following table will show that \$882,000,000 was paid for the assets and obligations of the Canadian Northern and the Grand Trunk Railways. The balance of some \$1,800,000,000 represents railway debt contracted on account of capital expenditure or losses since the railways were taken over for operation under partisan government.

This is the story:	
Canadian Northern obligations assumed	\$413,000,000
Grand Trunk obligations assumed	310,000,000
Grand Trunk Pacific obligations assumed (due to G. T. operation)	159,000,000
	\$882,000,000
Intercolonial and Grand Trunk Pacific Construction Cost (built by Government)	\$404,000,000
Amount spent by Government in losses and on capital account since acquisition	1,409,000,000
	\$2,695,000,000
And this is not all. The total is close to three billion.	

We hear a great deal about the white elephant taken over by the Government from private corporations.

It is quite true that the railways taken over were, in part, ill-advised promotions by private interests.

But, however, these ill-advised promotions could not have come into

being had not our Governments, Federal and Provincial, blessed them with guarantees and other forms of gratuities.

There are many things to be said about the C.N.R. but there is not time nor room to discuss them. The newspapers of Canada have handled them thoroughly in recent months.

Mr. Smith discussed at length in an interesting way the cost of government; the British North America Act, our tariffs, our National Credit and the unemployment situation.

Speaking of National Government and of an association which he seeks to promote to carry out this scheme, Mr. Smith says:

Already Canada staggers under an added debt burden of two billion dollars due to Canadian National Railway operation since the Government took it over.

Bankruptcy stares us in the face. The only hope of Canada is a National Government composed of men who will rise above party politics and grapple in a businesslike way with Canadian problems, divested of party bids for power.

You may have assumed by now that I am condemning all and sundry who have at any time shared in the government of our country.

If so I wish to correct that impression.

There have been scandals, which have involved the names of men high in government circles, but I believe that we have had, and now have,

GT. BRITAIN RETAINS DAVIS CUP - NEW TEAM

WIMBLEDON, England, July 30—A new British combination yesterday upset all calculations, defeating the United States in the doubles match to chalk up Britain's third successive victory in the classic of world tennis, the Davis Cup.

Paired together for the first time in Davis Cup play, George Patrick Hughes and young C. R. D. Tuckey came from behind to take the measure of the United States team, Wilmer Allison and Johnny Van Ryn, after five sets that saw the Englishmen in complete command at the finish. They won 6-2, 1-6, 6-8, 6-3, 6-3.

WINNIPEG, July 30—If recommendations of the civic legislation committee are adopted, it will cost Winnipeg \$75,000 to boost civic employees' salaries this year. The committee voted to give employees a 3 1-3 per cent pay increase, retro-active to January 1st.
