

NEW BOARD TRADE ROOMS BIG SUCCESS

More Than 4,671 People
Have Registered This
Summer

From All Over World

One Tourist Comments
on Unsurpassed Beauty
of Capital City

That the new Board of Trade rooms on Queen Street have been a success this year is demonstrated by the fact that more than 1,500 parties estimated at more than 4,671 people visited these rooms and registered during the past season. During the month of August there was \$11 registered. For the month of September up to and including the sixteenth there were 432 parties who visited the rooms. These people came from all over the world. One recent visitor was from Japan, another was from Mexico.

A party who arrived here yesterday included a gentleman who has been travelling since the first of June, 1930—practically five years. He had visited every place of importance in Mexico and in Canada and he stated to Mr. Harris of the Tourist Bureau that Fredericton was the prettiest place he had yet seen in his travels. He said that the elm-embowered streets could not be surpassed anywhere.

The information bureau connected with the rooms has been called upon daily to answer a large variety of questions and supply information on every conceivable thing. One party will come and inquire of Mr. Murray or Mr. Harris, which is the best place to get a permanent wave. Another lady wants to know where she can buy yarn. Several have come in the rooms and after giving the quiet wink and making various motions with their hands, will ask where "a fellow can get an odd drink." These are always escorted next door. Sometimes they come back after they have made the purchase and offer the kind tourist officials a "wee snort." But neither Mr. Murray or Mr. Harris have yet been known to fall for this temptation.

NEWS BRIEFS

INJURED IN FALL

Friends will regret to learn that Mrs. H. Hallett had the misfortune recently to trip and fall down the cellar stairs at her home on Carleton street. Mrs. Hallett suffered a broken arm and injuries to her head in the fall. She was reported to be resting fairly comfortably today.

ILL AT HER HOME

Friends will regret to learn that Miss Annie MacLaggan is ill at her home on King street this week. Miss MacLaggan suffered a heart attack earlier this week and her condition is causing her relatives and friends much anxiety. Miss MacLaggan has a nurse in attendance.

SPECTACULAR DISPLAY

A dazzling display of Northern Lights was put on in the heavens last evening, many citizens witnessing the event. The images of light chased themselves across the skies interminably and it was one of the most spectacular sights to be seen for many a month. Aurora Borealis is the scientific name for this natural phenomena.

NAME DELEGATES

The city council at its special meeting yesterday selected its representatives to attend the Union of New Brunswick Municipalities convention, which is to take place in Moncton, September 23-25 inclusive. The three delegates from this city council will be Aldermen Warren Maxwell, Ivan McKnight and David McCaughy.

CHIMNEY FIRES

Chimney fires which caused considerable smoke but no serious damage occurred here yesterday and this morning. Yesterday afternoon at five o'clock one occurred to the R. C. M. P. building on the Woodstock Road. Another occurred this morning at 5:30 o'clock at the home of William Hunt on Brunswick Street, causing a great quantity of smoke. No damage was done in either fire.

MARRIED AT SAINT JOHN

A marriage of interest took place at Saint John last evening when Miss Violet Partington, daughter of Mr. and Mrs. John Henry Partington of this city was united in marriage to Adolf Hardland Nisbett, son of Mr. and Mrs. Robert George Nisbett, also of this city. The marriage was performed at St. Mary's church and the rector Rev. W. C. V. Martin officiated. The signing of the register was witnessed by Mr. and Mrs. William Howard Yeomans of Saint John. The couple are well known here.

CITY GETS 4- YEAR LEASE ON A DUMP SITE

New City Dump Leased
Near Victoria Mills

Draft New By-Laws

Other Matters Considered
at Special
Meeting

At a special meeting of the city council yesterday afternoon arrangements were made for a four-year lease from Fraser Companies, Limited, for a new dump site on the Fraser property near Victoria Mills, which borders on the Wilsey Road. The arrangements have been approved by the city solicitor, P. J. Hughes, K. C., and the new site will mean a yearly rental cost to the city of \$10.

In this connection it was pointed out by His Worship Mayor W. G. Clark that a new set of by-laws will have to be drafted, also new regulations. It is planned to have a supervisor in attendance during the summer months. Among the new regulations will be one that dumping shall be only done between the hours of 8 A.M. and 6 P.M. daily. The matter of drafting such new by-laws and regulations was left to the Roads and Streets committee.

Advocated By The Daily Mail

There was discussion by the aldermen on the subject and several suggestions were offered. The removal of the old dump and the selection of a new and more suitable site has been originally advocated by The Daily Mail and immediate action had been urged.

The city council considered a number of matters at its special meeting, the meeting lasting for almost two hours.

Plans of the new dump site, three of which were marked out, blue-printed and the council examined them yesterday. It was suggested that new embankment would be needed in the dump vicinity and it would be necessary to build a solid foundation. His Worship Mayor Clark raised the question of old autos being dumped there also.

Said Incinerator Best

Ald. C. Hedley Forbes while he approved the new dump site and its leasing, nevertheless believed that an incinerator was the best solution. Mayor Clark agreed with him but said that the cost of an incinerator at the present time would be excessive and not practical. His Worship was of the opinion that new by-laws should be drawn up covering the disposal of garbage. There should be no dumping at night, and dumping should be regulated on a schedule between 8 A. M. in the morning and 6 P.M. at night. Care should be exercised, the council agreed, that the dump should not be used for other purposes than the disposal of garbage.

Ald. David McCaughy brought up the matter of water and sewerage service for the residents in the rear of the city. He urged that this work be proceeded with at once as the people there have requested it. He estimated the cost to be about \$3,000. A motion that this work be done on Beaverbrook street was moved by Ald. McCaughy and seconded by Ald. Forbes. Ald. Forbes brought to the attention of the council that advance was needed for some of those people now on relief. This was left to the Municipal Home chairman.

Disagreement Here

Some disagreement occurred on a motion in connection with an offer to Joseph Myhrall for his lot in the Beaverbrook street area, upon which the city have already begun expropriation proceedings for a right-of-way through his property. A resolution passed some months ago gave the council authority to complete the expropriation if no settlement could be reached. Yesterday a motion to give him a final

GEOLOGICAL WORK NEARS TERMINATION

Eight Parties Conduct
Geological Work Dur-
ing Summer

Progress Made

Several of Parties Likely
to Remain at Work
Until Late October

The eight separate geological parties, which have been conducting experimental work at various points in the province during the past summer have made rapid progress, and most of them will terminate their summer work in the near future, it was reported today by Dr. W.J. Wright of this city, provincial geologist.

Several of the parties, including the one now at work in the Miramichi area, are likely to continue to work until some time in October. The others will probably finish their work within another week or two.

Here This Week

Dr. Bruce Rose, professor of geology at Queen's University, and who has been in charge of the provincial geological program, is expected in the capital some time this week and will hold consultation with Dr. Wright.

One of the eight parties which have been at work during the summer is stationed at Plaster Rock in charge of Dr. Rose; another is in the Miramichi area, one at Woodstock, one at St. George in Charlotte County, and another at Moncton. Topographical mapping is being done in the Petitediac, Salmon River and Plaster Rock "sheets" also.

The geological work is sponsored and under the direction of the federal government, the object being to reveal the extent of the mineral wealth and deposits in this province and to discover the value of them as resources.
