DEVON COUNCIL WILL CONSIDER INDUSTRY PLAN

Meeting Tomorrow Night Likely Complete Negotiations

Town Co-operating

Results of Policy Are Beneficial to Devon, Fredericton

The Devon town council will meet tomorrow evening to further consider the matter of new industries for Devon which were exclusively mentioned in Tuesday's issue of The Daily Mail. Negotiations are still pending and will likely be completed after the meeting of the council tomorrow night.

Although nothing really definite is to be learned, it is certain that two large factories will be erected in the town. The industrial expansion will be carried on on a large scale. One of the factories will employ in the vicinity of 500 workmen and the other one will give work to about fifty.

Needless to say this will cause a period of prosperity on both sides of the river and many of the young men who are now listed among the jobless will be given a chance. Since the town of Devon and the City of Fredericton are complementary the merchants of both places are bound to feel the results of this progressive move.

The town itself is co-operating in that it is prepared to grant concessions in the way of fixed water rates and valuations for assessment. The powers that be in Devon are to be commended on their foresight and energy.

The meeting tomorrow night will no doubt be largely attended and readers of The Daily Mail should await with interest the results of the meeting.

ORCHARD FIELD DAY FEATURES SCAB CONTROL

Series of Experiments With Spray Calendars Carried Out

Hon. A.C. Taylor Speaks

Inspection of Farm Orchards in Burton and Keswick

A real chance to learn something about scab infestation and control will be offered to all who plan to attend the "Orchard Field Day" on Tuesday, September 1, 1936. The first item on the programme will be a series of experiments to determine the period of greatest susceptibility to russeting and will take place at George Barker's orchard, Burton. Further orchards inspected will be those belonging to W. W. Hubbard, Burton; the St. John Valley Fruit Farm, Burton; and A. G. Turney, also of Burton. At the last named farm the examination of three different spray calendars will be carried out.

In the afternoon following a dinner at the Experimental Farm, C. F. Bailey, superintendent, and Hon. A. C. Taylor, Minister of Agriculture, will address the Fruit Growers' Association and L. S. McLaine of the Dominion Entomological Branch will speak on apple maggot control to comply with Federal Export Regulations. The party will then take to the orchards, this time to inspect the Farm orchards under the direction of L. C. Young. Other orchards to be examined are those of Wm. Coburn and Lloyd Sloan, Keswick Ridge.

SECOND BATCH OLD AGE PENSION CHECKS MAILED

Upwards of 8,500 Are Sent Checks This Month

100 More Than July

Director W. P. Jones Explains Endorsement, Cases of Death

It was stated this morning by W. P. Jones, Director of Old Age Pensions, that cheques dated the 31st instant will be mailed today and tomorrow to upwards of 8,500 pensioners, involving an expenditure of some thing more than that of last month. The total is about 100 more than last month.

Some few of the cheques issued in July do not bear the proper endorsement by the pensioner. They were endorsed by other persons. In cases where it occurs again there can be no further cheque issued to such pensioner until the proper endorsement is made. When a pensioner cannot write, his name is to be written on the back of the cheque and the pensioner will make his mark which must be witnessed by the signature on the cheque of some person who can write. The name of the pensioner must be endorsed in the same spelling exactly as is stated on the face of the cheque.

Attention is again called to the fact that all of these pension cheques are payable at the face at any chartered bank in this province and that the pensioner is not required to pay to any person anything for exchange or commission or discount on such cheques.
