

News Briefs

TO SEND DELEGATES

The Gyro Club at its weekly meeting last night named Hedley Wilson and James T. Mayor and G. Alvah Good as delegates to attend the Council No. 6 of Gyros to be held at Moncton on October 5. Frank Osborne presided at the meeting. The matter of new members was taken up and the usual bills ordered paid.

TO WORLD SERIES

Mayor G. Willard Kitchen and Mrs. Kitchen, accompanied by Mrs. B. R. Ross and Mr. and Mrs. Merrithew, left this morning by automobile, for New York where they will attend the world series baseball classic between the New York Giants and Yankees. They expect to return here early next week.

HAD SUCCESSFUL TRIP

Charles A. Campbell, New York stock broker, who has been visiting this province for the past three weeks and fishing at Hartt's Island Pool, left today in his "Dungarvon Whooper II" for home. Mr. Campbell was successful in catching a 24-pound salmon two weeks ago and by so doing is eligible for the N. B. Guides' Association trophy to be donated to the non-resident fisherman getting the largest salmon in open waters accompanied by a registered guide. Mr. Campbell also was hunting deer, but although he saw several, he didn't shoot any.

STUDIES AT NEW YORK

Malcolm Mc.M. Ross, son of Mr. and Mrs. Charles D. Ross, George street, has left for New York where he will resume his studies as a Pennfield scholar at New York University, doing special research work on the drama. Mr. Ross, who is an honor graduate of the University of New Brunswick, taught English at the U.N.B. summer school. Last year he studied at New York under a fellowship, and the year previous he secured his M.A. degree from Toronto University. Mr. Ross is at present preparing a thesis on modern drama which will be developed into a book later.

PATRONIZES LOCAL MARKET

Miss Josephine Griffin, R.N., who is engaged in private nursing in Boston, arrived at Griff-Inns, Boiestown, early in August to spend a vacation with her parents, Mr. and Mrs. William Griffin. A big influx of tourists followed her arrival and she was at once commissioned to act as purchasing agent for her father's tourist and sporting camps. Since that Miss Griffin, who drives her own car, has been a regular patron of the Fredericton market on Wednesdays and Saturdays, and has purchased for the appeasement of American appetites large quantities of chicken, lamb, fruit, vegetables and other farm produce. As a connecting link between the farmer and the tourist, Miss Griffin has done commendable work. She says that her father has had by long odds the best season during his long career as a guide, and salmon angling has been the big drawing card. Many visitors to his camps on the Miramichi hooked their first salmon this season and were captivated with the sport and asked to be put down for annual visitors. A New Jersey couple who arrived early in August with the intention of remaining one day got such a kick out of salmon angling that they stayed for six weeks.

PLANS FOR NEW
BUILDING BEING
CONSIDERED

York-Sunbury Historical Soc. Want Museum, Free Public Library

Committee Appointed

If Society to Continue to Function Something Must Be Done

A committee of the York and Sunbury Historical Society, Limited, which was named at a recent meeting to devise some way for securing a new building met last night. Rev. Dr. Wightman, the president of the Society put several propositions to the meeting as to location, the manner and style of the proposed building and the ways and means for financing the same.

It was the opinion of those at the meeting that the time had arrived when the York and Sunbury Historical Society should secure larger quarters for the proper housing and display of their many exhibits which had now reached more than 2,000 and the most of this was very valuable in character. It is also felt that there was urgent need for a free public library in Fredericton as this is the only city in Canada as far as is known that is without a free public library. The meeting last night endorsed the opinion that the building should be an imposing one and one which would add credit not only to the Capital of the province but should be built with an eye to future expansion. It was felt by the meeting that the building should be of New Brunswick products in construction. Further information on the style and cost would be secured and the public will be made familiar with the need of the building.

When this is done it is hoped to be able to secure financial aid. With a proper building the Carnegie Foundation would give an endowment which would go to pay the upkeep and for a qualified librarian. The committee is to meet in another week and the information gained in the meantime will be considered by the society as a whole when the committee reports progress next month. Those present at the meeting included Rev. Dr. Wightman, W. J. West, Mrs. A. E. Mathewson and Mrs. J. B. Maxwell.

The Historical Society has done a good work since its organization. If it is to continue to function satisfactorily it will have to have a permanent home in which to display its many exhibits. Fredericton needs a public library. Here is a chance for us to wake up and have the two combined. There is no reason why the citizens could not put this over. Here is also a chance for some of our public men who are interested in the Historical Society and who have received many favours from the city in past years to show their generosity and public spirit.

ANGLING SEASON
COMES TO CLOSE
ON WEDNESDAY

Season on Miramichi and St. John Rivers Most Successful

Some Record Catches

Partridge Season Opens in New Brunswick on Thursday

The open season for angling on the Miramichi and Saint John rivers comes to a close for the season tomorrow Sept. 30, featuring record breaking seasons on both waters.

Angling for salmon on the Nashwaak river and the Cain's river will not close until October 15. This date also applies to the St. Croix, Magaguadavic and Digdeguash.

The salmon and trout fishing on the Saint John river was the best since the year 1931 according to expert opinion and the Miramichi river had its best season in its history.

No fewer than 600 salmon and grise were caught at Hartt's Island Pool, which also was a highly successful season for fly fishermen.

Among the outstanding catches at Hartt's Island Pool this year was one by Gorham Hubbard of Campbell a 24-pound salmon, also a distinguished catch by Charles Campbell, New York broker, who probably set the record for non-residents with a 24-pound catch two weeks ago. Charles Pitcher caught a 25 1/2 pounder for what was the largest catch made by a resident fisherman.

The past few weeks have been more than ordinarily favorable for fishing on the above waters. The Cain's river also has produced exceptional salmon fishing this season. Only this week H. P. Emery, veteran sportsman from Worcester, Mass. captured two 20-pounders.

Partridge Season Opens

The New Brunswick partridge season will have its opening Thursday and local nimrods are all ready to enter the woods for some early season shooting. The bag limit for partridge is six, not more than 20 for the season.

The New Brunswick deer season is already underway, having opened on Sept. 15, and lasting until Nov. 30. The moose season will not open until Oct. 20, and will close on Nov. 20.

Conference On
Unemployment
Among Youths

Allen Chambers of Victoria, B. C., chairman of the Youths Unemployment Commission, a subdivision of the National Employment Commission arrived here by a Dominion Government seaplane yesterday and last night conferred with a number of Fredericton people to discuss the aims of the Commission and to get ideas on the subject of unemployment among the youth. With Mr. Chambers was W. C. Nickerson, of Halifax and Horace Carscaller, the pilot. The conference was held in the mayor's office of the city hall last evening at six o'clock.

Messrs. Chambers and Nickerson were flown to Halifax today by the pilot where they will interview officials there on the same subject.

TRANSFERRED HERE

Superintendent W. V. M. B. Bruce of "D" Division, R.C.M.P., who will succeed Major E. C. P. Salt as head of "J" Division in this province and who will arrive here within a few days, has had a long and distinguished career in the Mounted Police. He joined in Regina in 1907 and in the same year was transferred to Calgary, and from there was sent into the Arctic, where he participated in the famous hunt for the Eskimo murderers of Fathers Rouvier and LeRoux, Catholic missionaries. In 1917 he returned to Calgary, but did not remain there long, as in the following year he went to Siberia with the Mounted Police squadron. On his return to Canada, he was stationed at Brandon, where he received his commission, and in 1921 came to Lethbridge. The following year he was sent to East Kootenay, being stationed at Fernie, B. C., and from 1927 to 1932 he served in the Yukon. He "came out" in 1932, going to Banff and in 1934 was transferred to Lethbridge, succeeding Inspector Kenneth Duncan. He was promoted to the rank of superintendent last year.

SHIPMENT OF
AYRSHIRES TO
NORTH QUEBEC

In Line With Breeding Policy of Experimental Station

Sixteen Head Shipped

In Future Local Station Will Concentrate on Holsteins

The Dominion Experimental Station today shipped sixteen head of purebred Ayrshire cattle to the recently established Dominion Station at Normandin, Quebec, located in the Lake St. John country of Northern Quebec. Also the station sent a flock of purebred Shropshire ewes and a ram which had been imported a year ago from Great Britain.

This step on the part of the Dominion Experimental officials here is in line with this station's policy to discontinue breeding of Ayrshires and devote all effort to the breeding and development of Holstein stock in future. The reason for this, it was stated today by C. F. Bailey, superintendent of the station, is that all the popular breeds are carried in the various other Maritime stations, each one concentrating on a particular breed. The station here is now falling in line and will breed Holstein stock exclusively.

This will enable the Experimental Station here to keep more of the one kind of stock and thus improve the breeding of the one stock, Mr. Bailey believes.

COMMITTEE MEETS

The administration of justice committee of the city council is holding a meeting at 5.30 o'clock this evening. Matters in connection with the police commission are expected to be discussed.
