## MRS. BERYL MARKHAM SIGHTED OFF COAST OF NEWFOUNDLAND AFTER OCEAN FLIGHT

### Adult Education Plan is Advocated at Teachers' Institute

Mobilizing People in Intelligent Units to Battle  
Ignorance

Rev. Dr. Coady Discusses the Plan

How the Plan Worked Out Successfully in Nova  
Scotia and Defeated Communism in British Way

That an improvement is necessary in our educational system, and that such an improvement lies along the line of Adult Education, were among the chief ideas expressed at the New Brunswick Teachers' Institute, which has been in session here this week.

This education would help to straighten out our economic system, and prevent Communism, as it has done in Nova Scotia.

"There are other ways of straightening our economic system besides Fascism and Communism; a British way by which we violate no laws of God or man. One of the ways this is to be done is through economic co-operation," declared Rev. Dr. M. M. Coady, St. Francis Xavier University, Antigonish, leader of the Adult Education movement in Nova Scotia, in an address to members of the New Brunswick Teachers' Institute at a public meeting held in the Moncton High School auditorium.

The large audience present listened with keen interest to Dr. Coady's discourse as well as the addresses given by the other speakers. His Worship Mayor T. H. King gave an address of welcome, and others heard were Hon. J. B. McNair, K.C., attorney general of New Brunswick, and Hon. A. C. Taylor, Salisbury, provincial minister of agriculture.

#### "A Leaning Smokestack"

In his address Dr. Coady dealt with the necessity of mobilizing the people of Canada to explore the possibilities of life. There is a formula for this, he pointed out, stressing the necessity of this formula being applied. He likened the economic system to a "leaning smokestack," declaring that "our economic smoke-stack is a leaning thing, a dangerous thing which is always threatening to fall. It has been propped by guylines of unemployment insurance, but it never has been straightened." He declared that it never would be straightened until the people of Canada are taught to realize their own possibilities so they will be able to be really masters of their own destiny.

"The education of the masses has always been a postulate of democracy," said Dr. Coady in the opening of his address. "Our insistence on

### HERE TO FISH, JACK SHARKEY TELLS THE DAILY MAIL REPORTER

(By Harry Garvie)

Jack Sharkey, not the Loquacious Lithuanian of the prize fight ring now, but the tall, handsome and dapper appearing man about town, stepped from the C. P. R. train here today looking none the worse for his three-round K. O. off the flying black fists of Joe Louis a few weeks ago.

The former heavyweight champion is in New Brunswick for a week's fishing. Shortly after his arrival he left with Jack Russell, well known New Brunswick sportsman, for the latter's camps at Ludlow where he will seek the elusive salmon—and relax from his tangle with Joe Louis.

Curious residents, fight fans, and the inevitable newsmen, swarmed about the famous Boston scrapper. Far from being aloof as has often been credited to him,

### ANOTHER WOMAN FLYER ATTEMPTS NON-STOP FLIGHT

(Special to The Daily Mail)

ST. JOHN'S, Nfld., Sept. 5—Reports came in this morning that Mrs. Beryl Markham's aeroplane had been sighted over Newfoundland after a non-stop flight from England to America. She was believed heading for New York.

While several American trans-Atlantic flying ventures marked time and one crossed the Atlantic to England safely, Mrs. Beryl Markham, 34-year-old English mother and society woman, hopped off from her homeland yesterday. She had her plane in instant readiness to fly from Abingdon, England, on a solo flight to New York and dared the ocean sky trail in spite of bad weather ahead.

In an attempt to establish a new record air flight east to west over the Atlantic Ocean, Mrs. Beryl Markham took off from her native England in an attempt to be the first woman to fly the hazardous Atlantic east to west, last midnight passed without definite word of her progress.

### Boys and Girls Club Work at the Fredericton Fair

The boys and girls Club work at the Fredericton Fair last year created a great deal of interest. This year the feature will be continued but on a larger scale. Each district has these Clubs and the benefits derived by the Club members make this Boys Club Camp a desirable educational feature.

#### CONDITION IMPROVED

The condition of Mrs. F. C. Squires, wife of Hon. F. C. Squires, leader of the Opposition, is reported to be improved at the Fisher Memorial Hospital at Woodstock. She is still on the danger list, however, following a serious operation which she underwent recently.

### The School Board Met

The closed door school board has held another meeting. This is the last before the school term opens on Tuesday, unless that the chairman decides that he will summon the members together on Sunday, which is not possible.

The meeting this week opened on Thursday. It was decided to dispense with prayer. The chairman went through the usual form, warning the members not to talk of anything that had transpired at the meeting, except only to those who were trustees and were bound by the same fraternal ties as themselves.

The new trustee who had recently arrived in the city, and who had been on probation, was admitted to full membership in the board after it had been decided that he could keep properly the secrets of the board. Knowing that the new trustee was an Albert County man some of the trustees thought that his name must be either Steeves or Alward, but finally it was discovered that he was Mr. Colpitts, and appeared to be a very nice kind of a man, as most Albert County people are. It was decided that he would fall in with the notions of the present board. One of the members said that he thought it was rather mean of that man, Ald. Hagerman, to call the attention of the City Council to the matter of the coal for the schools not being properly checked in regard to weight. The amount of coal lost in this way on each carload of coal for the schools might of course keep one poor family warm all winter. He thought also that it was mean of The Daily Mail to let the public in on the information regarding the purchases of different articles such as the piano, pumper, loud speakers and so on. The public, he contended, had no right to know anything except what the board wanted them to know in a prepared report. Why, he wanted to know, could The Daily Mail not accept these so-called reports in the same way as the other paper, which did not ask any questions as to what the board did with the peoples' one hundred thousands dollars per year.

"What difference does it make?" said another member of the Board. We have for years been holding secret meetings of the school board. Today we are the only board anywhere which keeps out the public and the press. But so long as the City Council, who put the majority of us here, puts up with this we need not care. The dear public will say: "This is not right. We should know what is going on at the school board meeting, and how our money is being spent. Then the dear public will let it go at that, and that will be the end of it."

It was decided that as Miss Marjorie Macreadie had walked down to Morrison's Mills many winter days, and was well qualified to handle a school in the city, that she be transferred to the York Street school, Grade II.

It was decided not to build the \$20,000 addition to the High School this year. Dr. VanWart, the chairman, has decided to build it another year. In the meantime another Grade IX will be established in the York Street school. It will be in charge of Miss Josephine Burt, and a Grade VIII department in York Street school will be in charge of Miss Irma Mawhinney. Miss Gertrude Davis will take Grade I. Miss Helen Young has been transferred to Charlotte replacing Miss Jean Staples, who was married and taught Grade I. last year at Charlotte Street school.

Before the meeting opened a search was made to see that The Daily Mail reporter, who had been fired out on a previous occasion, was not concealed anywhere about the room.

### RICHMAN AND MERRILL AWAIT GOOD WEATHER

CROYDEN, Eng., Sept. 5 — Harry Richman and Dick Merrill, with a record of the fastest west-east Atlantic crossing established, awaited favorable weather last night for a return flight to New York.

"We expect to fly back to the United States as soon as we get favorable wind and weather," said Richman.

The pair landed in a South Wales cow pasture yesterday less than 18 hours after they took off from New York, out of gasoline. They took off in their plane, "The Lady Peace," and landed this afternoon at Croyden after halting briefly at Bristol.

#### DIED AT SAINT JOHN

Roscoe Jewett, aged 51, died at Saint John on Sept. 3. Surviving are two brothers, Alden of Vt., and Dr. M. L. Jewett, Ex-M.P.P. of Millville; also two sisters, Mrs. Frank McKay of Calgary, and Mrs. Arthur Gordon of Keswick Ridge. The funeral took place yesterday with burial at Keswick Ridge.

Among guests registered at the Queen hotel are Mr. and Mrs. Atwood Dunley and Mr. and Mrs. D. F. Ahern, of Boston, Mass.

### MARKET TODAY LARGEST SINCE A YEAR AGO

Today's market at Phoenix Square was the largest since exhibition week last year it was stated today by farmers at the marketplace. The entire space about the square was completely occupied and there were farmers even in front of the city hall steps and about the fountain. Many of them arrived here as early as yesterday at noon, and many came in last night to secure spots of vantage. Fresh vegetables of all description were much in evidence. The prices were as follows: Chicken, 23 to 25 cents per pound; potatoes, per peck, 20 cents; cucumbers, per dozen, 15 cents; corn, per dozen, 18 to 20 cents; lamb, per pound, 15 to 20 cents; veal, per pound, 7 to 10 cents; beef, per pound, 6 to 8 cents; pork, per pound, 12 to 15 cents; fowl, per pound, 20 cents; eggs, per dozen, 30 cents; butter, per pound, 25 to 30 cents; apples, Duchess, per peck, 25 cents; Transparents, per peck, 20 cents; tomatoes, per basket, 35 cents; blueberries, per box, 10 cents; blackberries, per box, 10 to 20 cents; cranberries, per peck, 25 cents; bees' honey, per jar, 25 cents; wood, per cord, \$5 to \$7-flovers, per bunch, 10 to 25 cents.

### ATTEMPT BY GOV'T TROOPS FAILS TO HOLD IRUN

International Bridge  
Drive By Rebels Re-  
pulsed by Loyalists

IRUN Spain, Sept. 5—The last desperate counter attack of Government troops on Irun was driven back today by the rebels forces who are now in complete control of the city. The rebels also made another attempt to capture the International Bridge going into France, but were defeated. Fifteen hundred people including soldiers are now facing starvation at Toledo which is being besieged by government troops.

Fighting in Irun—which has held out against the insurgents' persistent attacks for more than six weeks—had practically ended. Most houses in Behobia contained not a single unbroken window. Some of the walls had been blown out into the street.

The road to Irun from Behobia was a shambles, pitted with holes blown by dynamite. Abandoned trucks, dead horses and cattle littered the highway. Fascist officers said the government troops had moved to Gaiquibal, in a line of hills running from Fort Guadalupe to Pasajes. They said they expected to encounter serious resistance there.

A desperate Rebel offensive at Talavera de la Reina cost the insurgent army hundreds of lives and two of its new bombing planes.

Attempting desperately to force a breach in the government front in Estramadura and open the road to Madrid, the Rebel command hurled wave after wave of shock troops against the government positions all through the night. The objective was not attained despite the price the rebels paid.

G. E. Plunkett, Moncton, is a guest in the city, registered at the Queen hotel.

### N.B. Hunting Season Opens September 15, Fees Announced

Hon. F. W. Pirie, Minister of Lands and Mines,  
Makes Announcement

Various Classes of License

Game Officials Are Busy Sending Out Hunting  
Licenses

### PEACE AND PLENTY IN YEAR 1937 SAY U. S. ASTROLOGERS

CHICAGO, Sept. 5—The stargazers foresee good times and no drought in 1937.

At least that was what one of the leaders of the All-American Astrological Convention, D. M. Davidson of Chicago, said was the consensus of the 500 astrologers meeting here.

Although he said the purpose of the convention was to discourage indiscriminate predicting and put astrology on scientific standards, Davidson consented to disclose the astrologers read in the stars that:

The general economic outlook for America during the next year is good. The average citizen is going to fare well.

There will be a boom in real estate. There will be no recurrence of this year's disastrous drought, which stargazers believe was caused by an excess of ultra-violet radiation from the sun.

There will be no general European war for at least a year.

Japan will not advance on China until 1940.

With the opening of the deer hunting season, due on September 15th, the officials of the Game Division, Department of Lands and Mines, are busy sending out the usual supply of hunting licenses to over four hundred vendors in different parts of the province.

Hon. F. W. Pirie, Minister of Lands and Mines, wishes to draw attention to the different classes of licenses which are available to non-resident as well as to resident sportsmen in the province.

The complete list of licenses is as follows:

**Non-Resident**  
\$50.00—License to hunt one bull moose, two deer, four bears, partridge and ducks.  
\$25.00—License to hunt two deer, two bears, partridge and ducks.  
\$10.00—Special license to hunt two deer and two bears.  
\$25.00—License to hunt game birds including partridge.  
\$5.00—License to hunt four bears during the months of April, May and June.

**Resident**  
\$3.00—License to hunt one bull moose, two deer, game birds including partridge and geese, Ducks, and Woodcock.

## Ontario Men Appointed on Board to Advise National Commission on Work For Young

### ROADS MUST BE MADE DUSTLESS SAYS CONVENTION

(Special to The Daily Mail)

MONCTON, N. B., Sept. 5—"We have had one of the most successful convention meetings in the history of the Canadian Good Roads Association," stated Theodore G. Morgan, a director of the Association and president of Montreal Tourist and Convention Bureau, when leaving here on the Ocean Limited of the Canadian National Railways en route to Montreal with delegates returning from the 22nd annual meeting of the Association, which was held in the Canadian National Hotel, Charlotte-town P.E.I. One of the outstanding features of the Convention, Mr. Morgan said, was the determination of every delegate present that the highways must be made dustless and safe that there must be a more rigid enforcement of the various motor vehicles Act. Delegates were in attendance from every province in Canada.

Attending the meeting was C. K. Howard, manager of the Tourist and Convention Bureau of the Canadian National Railways, who was also en route to Montreal. Speaking with regard to the tourist travel to Canada, he stated there has been an estimated increase of 40 per cent over last year. One of the features of

B. E. C. Gillette, Mrs. A. C. Gilman, Brookline, Mass., are registered at the Queen hotel.

### Will Formulate Measures to Utilize Unemployed Youth and Vocational Grinding.

OTTAWA, Sept. 5—Appointment of a Youth Employment Committee, to advise the National Employment Commission on the problem of unemployed youth, was announced this week by Hon. Norman Rogers, Minister of Labor.

Following are its members: Alan Chambers, Victoria, B. C. (Chairman); Robert F. Thompson, Toronto; Joseph McCulley, Newmarket; W. C. Nickerson, Halifax; and Andre Montpetit, Montreal.

#### Already At Work

"The committee will be asked to assist the National Employment Commission in the formulation of measures to utilize unemployed youth on work and training projects and to improve existing facilities for vocational guiding and placement," Mr. Rogers said. He added that a quorum of the committee had been actively at work during the past month.

"The members of the committee have been closely identified with youth organizations in various parts of the Dominion," the Minister said. "I feel sure that the National Employment Commission and the Governments will profit from the service which will be rendered by this committee. It will provide in Canada an organization with a purpose corresponding largely to that of the National Youth Administration of the United States and similar agencies in many other countries."

It is expected that the personnel

### A FAMOUS WRITER AT JASPER LODGE

(Special to The Daily Mail)

JASPER PARK LODGE, Alta., Sept. 4—Looking fresh as a daisy and simply "rairin" to go, Robt. H. "Bob" Davis, accompanied by Mrs. Davis, arrived at the lodge today and will remain here until the middle of September. Bob Davis, who has travelled more miles and seen more country than any newspaper man alive or dead, had hardly settled down to a slow gait before he was seen scribbling a few notes in his famous scribbler.

"Just a little more dope for the melting pot," said the veteran as he disappeared in the general direction of his typewriter. One of the few sections of the Canadian Rockies Mr. Davis has not visited is Maligne Lake, the famous speckled trout fishing glacier-fed lake. "I want to go in there because Irving Cobb told me of a pippin that got off his hook on his last visit and I'm on my way to catch it if it has grown any since he let it off his hook. However, I'll need plenty of help to bring it home. But I'm sure going to make short work of the trout," threatened the famous writer.

Dr. and Mrs. H. S. Wright and family returned today from their summer home "Kum Wright Inn," at Lincoln where they have spent the vacation season. They will reside at their old home on George St., before taking up residence in their recently acquired residence, on York St.
