CONFLICT IN PROV. FEDERAL LIQUOR ADMIN.

Man in the Street is "On the Spot" Re Buying U. S. Liquor

Liable to Arrest

R. G. Fulton Says Acc- cent on Bootlegger, Not Solo Buyer

The man in the New Brunswick streets who thinks he'd like to taste the brand of liquor they serve in the United States had better be careful. For even if the federal government does condone it, the provincial government doesn't.

Meaning that if a resident of this province buys a quart of alcoholic beverage "across the line" he's just as liable to have it taken away from him when he gets over to this side of the line. That is if the provincial government wishes to.

There appears to be some sort of clash between the province of New Brunswick and the federal government in this matter. Under the N. B. Liquor Act no one in this province may have in his possession any liquor which has not been purchased from a New Brunswick Liquor Commission store, and if a person transgresses this law he is liable to a fine of \$100. But—and here the conflict arises—the federal government says that a resident of any province may visit in the United States and bring back home an amount of alcoholic beverage not exceeding one quart. Under the terms of the British North America Act the provinces continued to have control of the liquor business in their respective territories. So now the question naturally arises as to what a person who brings in a bottle of whiskey from the United States will do with it when he gets it home. According to the provincial law if he is caught with the bottle he is liable to a fine, but the federal law says he may bring in a bottle without paying duty.

R. G. Fulton, chief commissioner of the N. B. Liquor Board noted the conflict in the provincial-federal laws in conversation with The Daily Mail today. However he said that while this province "reserves the privilege" to make a seizure of this liquor as soon as it is brought across the provincial border, the emphasis will be placed on bootlegging rather than the individual buyer. He intimated that the individual buyer of a quart of U. S. liquor will not likely be molested. The Dominion government, he believed, had overlooked the fact that the provincial liquor law was in conflict with the federal law in this matter.

CENTRAL N. B. HIT BY COLD WEATHER SPELL

Six Degrees of Frost Experienced Here Over Weekend

Damage to Blossoms

Unseasonable Weather Has Checked Hazard of Forest Fires

Fredericton and this part of the province in general suffered the severest cold weather spell for over a month, during the past weekend, one which did damage to the young crops, to shrubbery, to maple trees and possibly to the apple trees and fruit blossoms generally.

A temperature of 26 degrees—six degrees below freezing point—was registered here on Friday and Saturday and on Sunday the cold spell was climaxed by cold drizzling rain, snow an sleet and, in the early morning hours today, a thunder and lightning storm. The cold weather caused much inconvenience to the citizens, many of whom had prematurely dressed for summer.

C. F. Bailey, superintendent of the Dominion Experimental Station stated today that the severe weather had caused damage to the leaves of shrubbery and to the maple trees. There is evidence also that damage has been done to apple trees and to the fruit blossoms but the full extent of this damage will not be known for a week or so. The cold weather has delayed farming operations in most parts of the province, although an early start had been made because of the early breakup of spring.

Forest Fire Situation

G. L. Miller, chief forester, said today that so far there has been no danger in the forests, the backward weather serving as a check to any (Continued on Page Five)

"SNOOZERS"
Please the Wide-Awake!

It seems almost paradoxical when one realizes that Fredericton's "oldest" haberdashery, established in the year 1890, should be continually offering the "newest" ideas for the younger generation.

Once again the "oldest" haberdashery is guilty of introducing the "newest." All ready? Here they are, hot off fashion's griddle: "SNOOZERS" for the wide awake young fellows of 1936. Snoozers are comfortable enough for pyjamas, tailored enough for the beach or garden. Quality broadcloth slacks (blue or brown). Pleated front, side pockets, elastic waistband at back, worn with striped basque shirt with harmonizing stripes. Short sleeves. Extra pocket in shirt. "Snoozers" answer the demand for comfort all 'round the clock. Price \$2.00.
