"MURDER IN THE STREETS"

Chicago Judge Proves Jail Terms Make Automobile Drivers Give Pedestrians a Chance.

CHICAGO, Illinois, May 27—Gibson E. Gorman, the jailing judge of the Safety Court, yesterday, received reports showing that success was attending his campaign "to stop murder in the streets".

The jurist took the bench three weeks ago with the announced intention of curbing careless motoring by drastic punishment. Since then he has sent as many as ten offenders to jail a day for terms ranging to six months.

He declared that he would continue to mete out stiff sentences to day when a survey gave the first indication of popular reaction. It showed that in the ten days ended May 23rd only nine Chicagoans were killed on the streets, compared with 39 in the previous ten day record.

Judge Gorman packed off eight men to jail yesterday. One of them Carl A. Johnson, charged with driving while intoxicated, protested: "But, your honor, I've got four little kids to take care of, I can't go to jail".

Judge Gorman replied: "You weren't thinking of other people's children when you did this. Ten days in jail".

DUMFRIES, N. B.

DUMFRIES, May 26—The farmers of this place are somewhat later putting in their crops, owing to the recent frost and cold spring.

The bears have been killing quite a few of the sheep in this community.

EDMONTON, May 27—Two possible successors to Dr. R. C. Wallace as president of the University of Alberta, already are being considered by the Alberta government, Premier Aberhart said today. Both are educationists in Eastern Canada but their names were not disclosed. The Premier termed "foolish" and "unthinkable" reports that he himself might take the presidency.

BRITISH EXERCISE HABIT CITED FOR UNITED STATES

NEW YORK, May 27—The British, as a nationality, keep in much better physical condition than Americans, in the opinion of Charles Atlas, the man who holds the title for possessing the world's best developed body. He spent several weeks in England studying physical culture. Atlas de-

now reached a stage where it becomes attractive to private railway interests, and if the invasion by such interests is permitted, the people of Canada will be deprived of the benefits for which they have already paid in capital costs and operating deficits. Instead of reaping the reward of a development project, the people boldly conceived, the people of Canada will have to recognize the National Transcontinental railway as a permanent drag upon the finances of the country if this invasion is allowed. We hope, therefore, to make an early start on the building of this branch line from the National Transcontinental Railway.

President Hungerford and A. E. Labelle, Trustee, of the National System, accompanied by a number of the officers of the System, left for Quebec tonight to appear before the committee of the Quebec Legislature to oppose the granting of a charter to the Temiskamingue and Abitibi Railway (the Canadian Pacific subsidiary), and the Quebec Goldfields Transportation Company.

clared daily exercise there was much more prevalent than in this country. "Unlike the Americans, the British are in much better condition because they exercise daily," he said. "The men are wiry and ruddy and don't have to rely on their nerves when the going gets tough."

The trouble with Americans is that we take everything sitting or lying down. Even the day of getting up early to walk to work is passing. Taxi drivers tell me that Americans have actually hired cabs to get across the street or to ride half a block.

"Already this failure in exercise is showing dire results," Atlas said. Our chins, chests and our arches drop like our enthusiasms. Even our pride, strong as it is in most respects, does not seem to prevent us from developing paunches.
