# R. C. M. P. DO PROMPT WORK IN LAKE CASE

# A. W. Bannister **Arrested Charged** With Murder

Mitten and Other Strong FARMERS AND Clues Found — Police DAIRYMEN'S Think Drinking Bout Followed by Fight. CONVENTION

Prompt work on the part of Inspector John Bird and members of his staff of the Moncton detachment of the Will Meet in Saint John Royal Canadian Mounted Police has resulted in the arrest on charge of murder of Arthur William Bannister, aged 22 of Berry's Mills, five miles from Moncton. The arrest is in con-

nection with the death of Mr. and Mrs. tion will be the evening of January Phillip Lake and their two children 14, when a dinner will be tendered at their little home at Pacific Junction, visiting delegates by the thirteen miles from Moncton. ## Mayor W.G. Clark M.P.

With last night's meeting of the City Council His Worship Mayor W. G. Clark completed ten years of faithful service as Mayor of Fredericton. He had previously been an alderman, and retires with honor to himself and to all connected with him.

Mr. Clark came to Fredericton from the farm. He was honest and a hard worker, coming to his office in the morning before his clerks were around and working far into the night. He is of temperate habits, nor did he squander his money. He has made considerable money, and he has made it by his good business ability. Even since Mayor Cark has become possessed of wealth both he and his good wife have continued to live the simple life without any high hatting. Their home has been an ideal one and an example to many,

The same dignity and the same financial ability that distinguished Mayor Clark in his home life and in his private business affairs he brought with him into the City Hall. During his term as alderman and for the past ten years as Mayor of Fredericton. Mayor Clark has guided the city's financial affairs through the most trying period of its history. Citizens have felt safe with him at their head. He has served as Mayor longer than any other man in Fredericon's history of Mayors since 1848. He has served creditably and he deserves the thanks of all citizens irrespective of class or party affiliations. The citizens in a manner showed their appreciation of Mayor Clark's services last fall when they decided to elect him to go to Ottawa for the next five years.

Mayor Clark employs in the various branches of his business nearly three hundred persons, most of whom have families to support. He knows the needs of the working man and while he has never laid a man off during the depression he has given up drawing his own salary and has lost money besides.

The Daily Mail in common with hundreds of citizens irrespective of politics will wish W. G. Clark, M.P. and his excellent wife every measure of success. We want more men like Mayor Clark in our public life.

When parties are selecting men as candidates for Ottawa, or for Fredericton, an effort should be made to select the beat man. The best man is not necessarily the most brilliant man. The best man for any party to select is the man whom people can trust, the man who has no axe to grind either for himself or for his relations. The day has come in Canada when it is necessary to have such men, if we are to pull out of the hole.

The man you can trust is the man who is simple, direct and sincere. When he undertakes a responsible task he is fully and deeply conscious of his responsibility. He is intent upon fairness and justice to all, even to those who oppose him. To him, the insincerity of the demagogue is as dishonest as the trickery of the con man or the embezzler. To him, honor is dearer than power, and a clear conscience more precious than wealth or fame

#### \* Doaktown Area **Receives Power**

FREDERICTON, Jan. 8-At a meeting of the New Brunswick Electric Power Commission here last night Hon. W. S. Anderson, the chairman, \* stated that the power had been tunned on at Doaktown Monday night. Thus, he pointed out, the 47-mile extension of the commission system from Newcastle to Doakotown which had \*. been commenced about the \* middle of November was com- \* pleed in short order.

At the present time about \* 290 customers were receiving 🛠 electricity all along the line. There are, he said, approximately 600 potential customers

along this extension. \* \* \* \* \* \* \* \* \* \* \* \* \* \* \* \*
