Appointment of New Archbishop of Moncton is Delayed

Financial Matters Are Being Adjusted Satisfactorily in Meantime

Archbishop to Be Named Soon

Debt is Being Paid Off --- Moncton Will Handle Its Share

(Special to The Daily Mail)
OTTAWA, Nov. 26—It is said in official church circles here that the delay in appointing the new Archbishop to the Roman Catholic Archdiocese of Moncton has been due to the fact that the new Archdiocese when created had inherited from the Saint John diocese the sum of five hundred thousand dollars which is Moncton's share of the one million dollar debt piled up by the former Saint John diocese. When the payment of this debt by the Archdiocese of Moncton has been satisfactorily arranged for it is understood that the new Archbishop will be named. It is also said here that the delay in the appointment of the Bishop of Saint John following the death of the former Bishop was due to the fact that the financial affairs were being adjusted. When this financial matter was adjusted by the then administrator of the diocese a new bishop was appointed for Saint John. It is also stated that the Moncton share of the debt is now being adjusted satisfactorily to all concerned. This will probably be followed at an early date by the announcement of the name of the new Archbishop for that See.

POPULATION INCREASES

PORT ARTHUR, Ont., Nov. 26—Port Arthur's population, according to the assessor, is 20,405, an increase of 53 over last year.

28 YEAR OLD DUKE WILL PICK GUESTS FOR THE CORONATION

LONDON, Nov. 26—A twenty-eight-year-old former cavalry officer will be stage manager of the greatest pageant of this generation, the coronation of King Edward VIII. More onerous still is the task of picking the audience. By installing a gallery and crowding the seats Westminster Abbey can be made to hold between 7,000 and 8,000 persons. Untold thousands would like invitations; at least five times the number who can be admitted think their high positions or titles entitle them to be present.

The stage manager occupies a place in English society from which he is immune to retaliation from disappointed ticket seekers. Few are in a position to snub the sixteenth Duke of Norfolk, Earl Marshal and Hereditary Marshal and Chief Butler of England, Premier Duke and Earl. Those that are undoubtedly will get tickets, anyway.

Already the Duke has given up residence at Arundel Castle, Sussex, his principal estate, to full-time work on the coronation. Associated with him are the officers of the College of Heraldry, of which he is president, in a study of precedents. His offices occupy a house near Buckingham Palace. A ten-hour day will be the rule from now until the coronation.

The Duke, who is unmarried, received his initiation into ceremonial affairs last January, when he was in charge of King George's funeral.

IOWA UNIVERSITY OPENS NIGHT CLUB FOR STUDENTS

IOWA CITY, Ia., Nov. 26—The University of Iowa mixed soft lights and sweet music, dancing and eating—in fact all the ingredients but liquor—and opened the university operated night club last night. Sponsors said it was the first club of its kind in U.S. A capacity crowd was there—110 couples of formally attired collegians packed elbow to elbow at the tables. (Continued on Page Four)

ITALY TO RECOGNIZE MANCHUKUO

PARIS, Nov. 26—Havas news agency reported from Rome tonight that Italy will recognize Manchukuo in exchange for Japan's recognition of the conquest of Ethiopia.

Rome political circles reported the reciprocal recognition moves were envisaged for the near future, but would be effected separately, the Havas despatch said.

General Increase Tourist Trade, Says Griffiths

D. W. Griffiths, Director of New Brunswick Bureau of Information and Tourist Travel, returned today from Niagara Falls, where he has been attending the annual convention of the Canadian Association of Tourist and Bureaux. He stated that the convention was well attended, although Alberta, Saskatchewan and British Columbia were not represented. Winnipeg being the city farthest west to send delegates. Transportation companies and agencies interested in tourist travel were well represented.

The provincial representative reported a general increase in tourist travel during the past year and D. Leo Dolan, Dominion Publicity Director, who has spent considerable time in the United States recently, believed that a further increase is to be expected during the coming year.

The location for the 37th annual convention to be held next year has not been definitely selected, but has been left to the executive of the association. The association has been invited to come East to the Maritimes next year.

Mr. Griffiths, a director of the Association, was elected third vice-president during the convention.

The Bye-Laws

THE CITY COUNCIL is now working on the city by-laws. Here are some suggestions they might well consider.

Revision of the present city electoral law so as to allow all citizens who are of age the right to vote. The present law by which only those who have their taxes up are allowed to vote is a vicious one. It works much hardship and injustice. The man earning a small salary, who is consequently taxed less, may be eligible to vote when his employer with more taxes to pay is not eligible. Never will there be proper interest taken in civic affairs until this law is changed. A man who employs twenty-five hands and carries on a large business may be taxed to the extent of \$300 per year. He may have paid one hundred and fifty dollars on account, but because he has not paid it all he has no say in affairs of the city, although he has thousands of dollars worth of a business and is helping to keep many hands off relief. His clerk, whose taxes are fifteen dollars a year and who has no financial obligations and business cares, is able to pay the whole fifteen dollars tax. The clerk who has no stake in the community has the vote. He may put on his hat and move away during the year, but that does not make any difference. He has a vote and the business man who is keeping the home fires burning has none.

The qualifications for voting for the aldermen and for the position of Alderman are greater than those of the Legislature, the House of Commons, or of the Imperial Parliament. The by-law is not only vicious, it is foolish and in many cases works an injustice on men who are helping to keep the city going. If the Aldermen have modern ideas—as we believe most of them have—they will change this law.

That all vehicles, on whatsoever errand bound, be compelled to stop at the intersections of through streets. As an alternative, the elimination of through streets.

A higher fine for those allowing dogs to run loose on the streets. These dogs are a nuisance to motorists and in some cases a positive danger to pedestrians. Many dog owners prefer to let their dogs run loose and pay the fine. They openly admit this. Put the fine up high enough so they will have to think twice before paying it.

Pass a curfew law and enforce it.

Tighten up the law concerning salesmen and pedlars. The town is swarming with them, and they do not pay any license.

Take better care of icy sidewalks. If they can't be kept clear of ice let them be sanded. At present some get the sand and others don't.

Reconsider the city tax law, which as it now is, does not allow exemptions that should be allowed. Interest on borrowed money should be exempted for one thing. The Federal Income Tax Law will allow that exemption.

Carry out some re-assessments on property. At present there does not seem to be any uniformity in the matter. Two residences which cost the same to build, are in the same state of repair, and situated on the same sized lots, may differ widely in the amount assessed. This is irrespective of location. The Assessment Law contains several bad spots.

KEY TO EUROPEAN PEACE STILL HELD BY GREAT BRITAIN

WASHINGTON, Nov. 26—It has been written in a thousand places that Britain's day is done, and by none with more certainty than the royal subjects of the crown of Windsor. Indeed a fat anthology of lamentations can be compiled from the outpourings of disheartened Britons. Recurrently over a period of several centuries they have written black pages regarding their country's fate. Recently much lumber has been piled up for that house of gloom. Englishmen are all too ready to build. A few years ago it was the Washington treaty which seemed to mark the end of Britain's greatness. No longer, said ardent British patriots, does Britannia rule the waves. The wily Yankee has scored an easy triumph over stupid John Bull.

Later it was the spectacle of the little brown men of Osaka beating the spinners of Manchester at a game in which the latter had been supreme for generations which aroused gloomy forebodings in Great Britain. And (Continued on Page Four)

NEW CONSTITUTION RUSSIA WEAPON TO FIGHT FASCISM

MOSCOW, Nov. 26—Joseph Stalin told the congress yesterday the new constitution gave moral support to all those fighting Fascism.

"This constitutional project," he said, "is an indictment against Fascism."

He said the constitution, which Stalin is generally credited with having written himself, was a new weapon in the hands of the people in fighting "Fascist barbarism." He assailed the German press and its anti-Communism campaign for fully fifteen minutes.

LIFE OF GERMAN ENGINEER SPARED BY RUSSIA

MOSCOW, Nov. 26—Russia last night spared the life of a German engineer, Emil I. Sticking, who was sentenced to death for plotting against the Soviet regime and killing 14 miners in acts of sabotage.

The central executive committee in a terse announcement disclosed that Sticking's sentence had been commuted to 10 years' imprisonment, after the German embassy had made repeated protests in acts of sabotage.

Sticking and eight Russians were sentenced to death Nov. 22, after all had admitted total or partial guilt in plotting to wreck the great Kammerova coal mines in Western Siberia. The sentences of two of the Russians also were commuted to 10 years.

The C.E.C. also disclosed that the other condemned men had been shot by firing squads.

The German embassy, which had made a "cause celebre" of the death sentence of Sticking, expressed relief and pleasure.

Admitted Guilt

Sticking admitted full guilt on the charges against him, but in a final plea said, "I openly showed it wasn't myself who took the road to wreckage. I showed who led men down this road."

This declaration, Soviet observers said, deferred to the German consul at Novosibirsk, whom Sticking accused in the judges' chamber.

Sticking, termed by Prosecutor (Continued on Page Four)

Notice to Advertisers

Owing to our increased advertising patronage it is absolutely necessary to have all display advertising copy filed at this office not later than 9.30 o'clock on the morning of publication. We will do our best but we will not guarantee publication of any adv. brought in after that hour.

Would Approve the Marriage King Edward and Mrs. Simpson

National Vote 61 Per Cent in Favor of Romance, Baltimore Approving Wedding by 54 p.c.

Women Indorse It Less Than Men Do

Small Towns Are Most Enthusiastic, Farmers Least Cordial to Idea

OPEN-MINDEDNESS DECLARED VIRTUE BY TWEEDSMUIR

EDMONTON, Nov. 26—Unchanging views and grim constancy of thought were chided here recently by Lord Tweedsmuir, when the Governor-General paid a flying visit to Alberta.

"Dull inelasticity," he told a luncheon gathering, "is a doubtful virtue—in fact, I think it is no virtue at all. There is no value in sticking to principles if they are wrong principles, or to views if they are meaningless views. In the first case, you are merely a consistent rogue, and in the second, a consistent fool."

The Governor-General arrived at noon from the East and returned last night.

Speaking of the "shame-faced admiration" for consistency, the Governor-General said he thought it was "due to the laziness of most of us," and a second reason was that consistency is assumed to have some (Continued on Page Four)

WASHINGTON, D. C., Nov. 26—A large majority of American citizens would be pleased if King Edward VIII married Mrs. Wallis Warfield Simpson.

The American Institute of Public Opinion discovered this fact by asking representative Americans in all walks of life the question: "Would you like to have King Edward marry Mrs. Simpson?"

Of those having a direct opinion, 61 per cent answered "yes" and 39 per cent answered "no."

The dimensions of this statement may be understood better if it is remembered that President Roosevelt led Governor Landon, when the ballots were counted, by about the same margin.

Women, the poll shows, are less in favor of the royal wedding than are men. The highest percentage of approval comes from the small towns.

This is the way five groups of Americans mark their ballots:

	Favoring	Marriage Opposing
Women	60 p.c.	40 p.c.
City persons	61 p.c.	39 p.c.
Small town persons	68 p.c.	32 p.c.
Farmers	57 p.c.	43 p.c.
Young persons	65 p.c.	35 p.c.
Nation	61 p.c.	39 p.c.

The Italian Embassy in Spain Reported Sacked and Destroyed

QUEEN MARY TO PRESIDE AT XMAS REUNION

LONDON, Nov. 26—Queen Mary, it is expected, will preside over the Royal Family's Christmas reunion at Sandringham.

The King probably will arrive Christmas Eve, remaining until Dec. 27. Then His Majesty will go to Fort Belvedere, his house near Windsor, to entertain a small New Year party.

The Dukes of York, Gloucester and Kent, and their wives and children, will join the Queen. Yuletide naturally will be spent even more quietly this year than usual. Last Christmas was overshadowed by the Royal circle by fear of King George's failing health.

Popular notion that Christmas was ever a time of high festivity at Sandringham always was mistaken. The season over several generations has held sorrowful memories for the Royal family.

Rome Hears of New Attack by Loyalists at Madrid

ROME, Nov. 26—It was reported semi-officially at home today that the Italian Embassy in Madrid had been sacked and destroyed.

Government quarters said that if it is true that the Italian embassy has been sacked, it would represent (Continued on Page Four)

Campaign is Warming Up in Ontario

(Special to The Daily Mail)
TORONTO, Nov. 26—The political campaign in East Hastings to fill a vacancy in the Ontario Legislature is warming up. Premier Hepburn in a speech recently said that he was becoming tired of the campaign of misrepresentation being carried on by the Conservative Opposition. Citing a statement by Earle Rowe, opposition leader, that he had suppressed parts of a report by Gordon Brown, the province's addition on province finances he said that it was not true. If Mr. Rowe could prove his statement, he said, he would donate \$200 to a hospital.

AFFAIRS MARITIME WILL BE DISCUSSED BY 3 PREMIERS

MONTREAL, Nov. 26—Discussion of Maritime Province business conditions by the three Eastern Canada premiers—Angus L. Macdonald of Nova Scotia, A. A. Dysart, of New Brunswick, and Thane A. Campbell of Prince Edward Island—will be heard here by former Maritimers early next month, it was learned.

The Maritime premiers are to speak from the same platform at Montreal's Maritime Province Club, December 7.

The club held a similar joint lecture for Maritimers away from home in 1934 when the premiers of the three eastern provinces at that time—Angus Macdonald, L. P. D. Tilley and Dr. W. J. P. MacMillan—came to Montreal for the occasion.

LONDON, Nov. 26—It was understood today that King Edward had definitely decided to sell his famous "EP" ranch near Calgary, Alberta.
