## Maritime Dinner of C.S.T.A. Largely Attended

Delightful N. B. Salmon Dinner With 250 Present  
—Speakers Included Premier Dysart, Mayor G. Willard Kitchen, Hon. A. C. Taylor, Dr. J. M. Trueman, and Dr. W. H. Brittain—Importance of Scientific Agriculture Stressed.

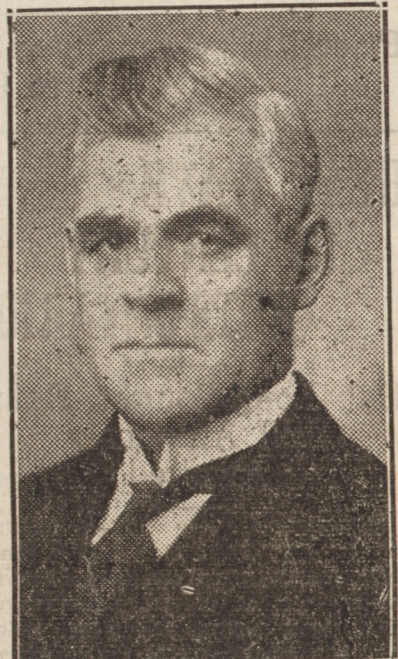

The recreation hall of the Brunswick street Baptist church was the scene for the annual dinner of the Canadian Society of Technical Agriculturists last night. About 250 delegates, members and their friends were in attendance and after partaking of a delightful New Brunswick salmon dinner were privileged to hear the Premier of New Brunswick, the Mayor of Fredericton, the Agricultural leaders from the Maritimes and Dr. W. H. Brittain, president-elect of the C.S.T.A.

Before and during the course of the dinner, the Haydn Trio, composed of Messrs. Bayley, Webber and Gutter provided appropriate music. Geo. Johnston sang several vocal solos.

J. K. King, President New Brunswick local branch C.S.T.A., acted as chairman and introduced the several speakers.

#### Premier Speaks

Hon. A. A. Dysart, premier of the province, greeted the delegates on behalf of the province of New Brunswick.

PREMIER A. A. DYSART

wick. He said it is a great pleasure to meet those from all over Canada who have dedicated their lives to agriculture. The problem of most importance to him seemed: How can we best bring to the farmers the methods that the technical agriculturists of this Dominion have brought to light? He also made a plea for local summer conventions, when the farmers may visit the Experimental Station and learn of the advance being made in technical agriculture today. Although New Brunswick has not progressed as fast as our other provinces he paid a tribute to the present minister of agriculture, Hon. A. C. Taylor, noting that New Brunswick is essentially an agricultural province. The premier closed in wishing the delegates every success in their deliberations.

#### Mayor Kitchen

In a short and witty speech Mayor Kitchen spoke on behalf of the citizens of Fredericton saying that the city was honored in having the C.S.T.A. meet here. He also mentioned the advantages to the people of this

MAYOR G. WILLARD KITCHEN

district in having such a fine experimental station within the town limits.

Dr. J. M. Trueman, president of the Nova Scotia Agricultural College, extended greetings on behalf of Nova Scotia to the Canadian delegates. His remarks were general but he pointed out the contribution that Nova Scotia agricultural college, the only one in the Maritimes, that has a two-year agricultural course, has made to Canadian agricultural life.

#### Hon. A. C. Taylor

Greetings from the department of agriculture for New Brunswick were

HON. A. C. TAYLOR

## IMPEDIMENT TO FARM WEAL IS DIMINISHING

TORONTO, July 15—Canada's burdensome wheat carry-over which has played such a dominant role during the past few years in retarding farm recovery, will at least be cut in half if present conditions in world countries prevail for the remainder of the crop year.

#### Unprecedented Clearances

Already serious drought throughout Europe has turned importers' eyes toward Canada, and wheat clearances for the year to date have reached an almost unprecedented rate. The crop carryover that aggregated 230,000,000 bushels on June 12, 1935, totalled only 176,000,000 bushels, the same date this year, as a result of the heavy foreign demand.

On top of these figures, wheat exports in Canada are forecasting total shipments or the current crop year shipments for the current crop year bushels.

While it is early to forecast the present Canadian crop, one eminent Chicago grain authority yesterday predicted a yield of 337,000,000 bushels, which, on the basis of above figures would leave a carryover of around 260,000,000 bushels. But Canadian consumption for feed and seed alone will amount to 100,000,000 bushels, and the United States, it is felt, will be forced to import wheat

extended to the delegates by Hon. A. C. Taylor. He referred to the special work that the C.S.T.A. does. He paid special tribute to the pioneers of that organization who realized that agriculture was an important industry in Canada, and should be placed on a working and scientific basis. He mentioned the importance and value of the co-operation of the provincial department of agriculture.

Although the depression has hit the farmers very hard he said that it has made the farmers realize the value of scientific agriculture and the need for greater education. It is a challenge to all in agricultural fields to forge ahead to the success that will undoubtedly result from an organization such as the C.S.T.A.

The President-elect of the C.S.T.A., Dr. W. H. Brittain, was the final speaker. In a very brief and to the point address, he thanked everyone for their hospitality and kindness extended to the sixteenth annual convention and stated that its success was due to the co-operation of the university, the city and the local committee.

The meeting closed with the singing of the National Anthem.

again this year, which all boils down to a forecast of a wheat carryover at the end of the crop year of around only 120,000,000 bushels.

#### Short Crop in United States

In regard to the United States, it is now clear that this year's crop will not be sufficient for domestic consumption, and that of their carryover of not more than 140,000,000 bushels, a good proportion is not of millable quality.

As a result, it is felt in grain circles here, the United States will, for the second year, find it necessary to import large quantities of Canadian wheat. Last year that country imported 35,000,000 bushels of the Canadian cereal.

Private estimates released yesterday back up the sentiment of local grain men. From Chicago sources it was estimated that the yield will run 497,000,000 bushels from winter wheat and 134,000,000 bushels spring wheat or a total of 631,000,000 bushels, against a domestic consumption of 650,000,000 bushels.

#### Looking at Europe

Looking at European competition, Canada appears to have little to fear. The so-called Danube countries, Bulgaria and Yugoslavia will it is reported have yields a little better than normal, but France's crop is indicated as poor; Spain and Italy will have smaller crops than in 1935; and only a very small margin will be available for export from North Africa.

Australia appears to be getting away to a good start, but on the other hand in Argentina complaints are heard of too much rain, and that seeding has been interfered with. These countries, however, will not in any way upset the Canadian picture for some time, as crops in the Southern Hemisphere are not in until nearly the end of our calendar year.

Meanwhile, it is felt, the chief source for Europe will be Canada.

The significance of the fact that the world wheat crop is now the lowest in a number of years is that any important damage to the Canadian crop will immediately influence the world price level for wheat. And those indications are now at hand. Last night telegraphic reports to the Bank of Montreal stated that throughout Canada conditions are relatively satisfactory, but that crops are deteriorating and rain is urgently needed in extensive areas.

#### Benefit to Farmers

## NOTICE OF SALE

IN THE SUPREME COURT—  
CHANCERY DIVISION

BETWEEN Hazel H. Lumbert, Executrix of the Last Will and Testament of Ansel L. Lumbert, late of the Town of Houlton, in the State of Maine, deceased, Plaintiff,

and Hazel H. Lumbert, Robert H. Williams et al. Trustees of the Estate of the late Ansel L. Lumbert, and others, Defendants.

AND BY AMENDMENT BETWEEN: Hazel H. Lumbert, Executrix of the Last Will and Testament of Ansel L. Lumbert, late of the Town of Houlton, in the State of Maine, deceased, Plaintiff, and Hazel H. Lumbert, Robert H. Williams et al. Trustees of the Estate of the late Ansel L. Lumbert, and others, Defendants.

There will be sold at public auction in front of the City Hall in the City of Fredericton, in the Province of New Brunswick, on Wednesday, the twelfth day of August, 1936, at the hour of 2.30 o'clock in the afternoon, by the undersigned Master of the Supreme Court, pursuant to the directions contained in a certain decretal order made in the above suit, on Friday, the sixteenth day of August, 1935, and by supplementary decree made in the said suit on Tuesday, the eleventh day of February, 1936, the lands and premises which are in part described as follows:

1. All the undivided one-half interest of the late Ansel L. Lumbert in and to all that parcel of land beginning at an ash tree standing on the eastern bank or shore of Monument Brook, at the south-west angle of Lot Number 40, granted to John McAdam, north-west of Belle Lake, containing twelve hundred and thirty-two acres more or less and situated between Monument Brook and Belle Lake; the above mentioned lands having been granted by the Crown to John E. Haley, by Grant dated the twelfth day of September, A. D. 1902, Registered Grant Number 24,682, Book Number 148.

2. Also that certain lot or tract of land situated in the Parish of McAdam in the County of York and Province of New Brunswick, together with the improvements, privileges and appurtenances to the same belonging or in any manner appertaining, commonly known as the "Brown & Sawyer Lands" situated in the Parish of McAdam, in the County of York and Province of New Brunswick, described in a Deed thereof to Irvin R. Todd by Freeman H. Todd and F. A. Pike, by indenture bearing date January 23rd, 1917, registered in York County Records in Book 1-7, page 117 et sequitur, as by reference to said Deed and the Registry thereof will more fully appear: said tract of land containing 5,262 acres more or less (excepting therefrom the Maudslayi Ballast Pit so-called, situated on the easterly side of the right-of-way of the Canadian Pacific Railway leading from McAdam to Woodstock, containing thirty-eight acres more or less).

3. Also the undivided half-interest in all those certain lots or tracts of land situated in the Parishes of Dumfries, Prince William and McAdam, in the County of York and Province of New Brunswick aforesaid, commonly known as the "Railway Lands" near McAdam Junction, described in the Deed thereof from Christiana H. Bolton et al. to Freeman H. Todd, dated June 18, 1879, registered in York County Records in Book M-3, page 29 et sequitur, (also referred to in Conveyance dated December 30th, 1898, made between the New Brunswick Railway Company, of the first part, and the Canadian Pacific Railway Company, of the second part, registered in York County Records in Book H-5, pages 483 and 484, containing 10,720 acres in the Parishes of Prince William and McAdam; excepting however from the said lots of land, certain portions thereof, as by reference thereto or the Registry thereof will fully and at large appear).

For terms of sale and other particulars apply Hanson, Dougherty & West, Carleton Street, Fredericton, N. B., Solicitor for the Plaintiff.

Dated this fourth day of June A. D. 1936.

F. H. PETERS, Master of the Supreme Court.

10-6-ew-t July 29; Aug. 1-3-4, 5, 6, 7, 8, 10, 11.

current Canadian wheat situation is that all farmers will benefit from the increased prices for the cereal. In previous years when prices were high, the increase was due to the fact that large areas were wiped out by drought or other factors which meant little or no income for farmers in those areas. This year, it is indicated that throughout the Canadian wheat producing belt, income will be strongly bolstered and should pave the way to a definite upsurge in other lines of business endeavor.

TORONTO, July 15—Mrs. W. Parkyn Murray, widow of the vice-president of the Murray Kay Co., died at her home here yesterday after a long illness. She was an enthusiastic sportswoman and devotee of the arts.
