FREDERICTON, N. B., TUESDAY, JANUARY 14, 1936

#### The Synod

Citizens of all denominations welcome to Fredericton today the prominent Anglican churchmen from all over Eastern Canada who are here to ing something. attend the Synod. It is too bad that they could not have come at a moire pleasant time of year. Fredericton, however, looks well at any time, and we know that our visitors will meet with sincere and friendly welcome.

The Anglican Church is a prominent factor in Canada and she contains many brilliant and eminent men in her ranks, both in the clergy and in the laiety. Some of them are here today.

Those who are visiting Fredericton for the first time should be both pleased and proud of their stately Cathedral, one of the prettiest buildings of its style in Camada. The Cathedral stands as a monument to that saintly and a taxpayer is that the turkey gets man, pioneer churchman in these parts, Bishop Medley, former metropolitan it in the neck only once a year. of Canada, whose remains, with those of his likewise saintly wife, Margaret Medley, rest nearby. The Daily Mail wishes the Synod every success in its to function under the Soviet in Rus-

#### **Kent County in Luck**

Kent County certainly holds first place in this Province, if not in the of the rifle. Dominion, as a breeding ground for Premiers. First and foremost it was the birthplace of Hon. Bonar Law, a war-time minister of Great Britain, who first saw the light of day at Kingston, now known as Rexton. The late Hon. W. J. Bowser, a former premier of British Columbia, was also a native of Rex- easy. They will fall in love, get marton, Kent County. Hon. P. J. Venoit, Premier of New Brunswick from 1923 ried, have children, grow old and then to 1925, was born at Richibucto, Kent County. The present Premier, Hon. A. worry about what is going to become A. Dysart, was born at Cocagne, and has resided in Kent County all his life. Incidentally it might be mentioned that the present Lieutenant Governor, Hon. Dr. Murray MacLaren, is a native of Richibucto, Kent County, having some of the suspended mortals when been born there on April 30, 1861, which means that he is now in his seventy- they re-enter it. Imagine, for examfifth year. Incidentally it may be pointed out that this is the first time in the history of the province that the high offices of Lieutenant Governor and Premier have been held by natives of the same county at the same time, al- 1900 suit when she came out of susthough it has not been unusual for a Lieutenant Governor and Premier to be pension in 1935. residents of the same town or city. For instance, the late Hon. L. J. Tweedie, when Premier resided at Chatham as also did Lieutenant Governor Snowball in the hope that times will be better hand, the archdiocese grew both in one from wellwishers there. It was Archbishop McCarthy, he succeeded during his term of office. The late Hon. H. R, Emmerson when Premier repre- when they "come back". How they sented Albert in the Legislature, and the Lieutenant Governor, the late Hon. A, R, McClelan, was a resident of that county, To cite a more recent case when the present Senator Foster held the Premiership he made his home at again if that is the case. Rothesay as also did Hon. William Pugsley, the Lieutenant Governor. The fine county of Carleton has never been honored with the Lieutenant Governorship and it never had a senator prior to the appointment of Hon, B, Frank Smith last year. In view of the fact that such a great dual honor has come to the county of Kent it might not be a bad idea for the Lieutenant Governor and the Premier to put their heads together with a view to perpetuating the Mr. King as "the Prime Minister who event in some suitable way. The province of New Brunswick is now one hundred and fifty-one years old and another one hundred and fifty years might it was the Bennett government that elapse before we will find the chief executive and his chief adviser claiming Mr. King thumped. the same county as their birth place. Hartland Observer.

## **Protection of Game**

This might well apply to New Brunswick. It's from the Eastern Chron

He was an old-time angler, and one who liked to go to the woods with a shot-gun for small game. He enjoyed the game for the great outdoors. and he know something about the habits, and we believe a lot about the protection of wild life.

He unburdened his thoughts across our desk and there was a lot of sound Mulugheta's troops were hanged and sense in his reasoning.

He related how when a boy, born in a rural section of this country, it was a veritable sportsman's paradise. There were several lakes we could always go to and get a nice gad of trout, or take the gun and go into the which authorities were convinced olics in Maritime Canada. woods and get rabbits and partridge. Today they are exceedingly scarce, and would dwarf all previous plane on- His abilities lay along varied lines. Dec. 28, 1899, he was ordained to the Ring, said to have been the husband fish hatcheries and protection laws have not made them any more plentiful. slaughts. With their overland opera-He ascribed the trouble to the perfect protection thrown around the enemies tions decisively checked on both no orator, a forcible speaker, these of our game. "When I used to go fishing and saw a loon on the lake I fired at bishon's generals will de judgment and foresight. And he was bishon's efforts. His first charge was him when he appeared on the surface. A little of that will drive him off and pend almost exclusively on their flytake it from me, a loon can eat a ton of trout in a season. The loon is proing forces in the next few weeks,

By the same token the wild cat, enemy number one of tion dumps had been advanced as a lally as well as spiritually. He was the rabbit and partrdge, and other feathered birds is protected. So, too the reason for an approaching air bomresponsible, in the bishopric of Halthe executional telegration

Fish hatcheries and protection laws will never supply those vermin with the Red Cross, declared there was no three schools and a new Episcopal three schools are three schools and a new Episcopal three schools are three schools and a new Episcopal three schools are three schools and a new Episcopal three schools are three schools and a new Episcopal three schools are three s their demands. And in conclusion, he stated: "I've put away my gun and rod, truth in the Italian accusation. and abandone the sport I loved just at the time I should get the most sport out

"Perhaps you are right," added the Editor, as the visitor picked up his receipt for his 1936 Eastern Chronicle and went out on George Street.

## Rural Schools

This may apply in this province.

"Way, Fredericton, was chaplain to the In address recently delivered at Queen's University by Dr. Duncan Macthur, deputy minister of education for Ontario, openly deplored the fact the clergy. Prof William I Smith. Arthur, deputy minister of education for Ontario, openly deplored the fact the clergy. Prof. William J. Smith follow his example. that the boys and girls of the country had not the opportunities of receiving was at the organ. as good an education as those in the urban centres. In speaking as he did he undoubtedly pointed out the great weakness in the educational system of this ering his charge this afternoon. province. It is, of course, impossible to impart the same quality of instruction in isolated rural schools with poor equipment as is given in the towns and cities. Perhaps in some instances the people of those districts are themselves to blame because of their desire to procure cheap teachers. This is unquestionably a very short-sighted policy, inasmuch as the boys and girls in the country, because of their meagre opportunities, deserve to have the very best teachers that can be had.

The remedy for this state of affairs is the establishment of consolidated schools. It is not reasonable that these individual schools, with only a small number of pupils, should be maintained to the detriment of the instruction offered. In these days of good roads and motor buses it would be a simple matter to collect the children and convey them to larger schools supplied with the best teachers and all the necessary equipment. It is not a sufficient answer to say that many of the brightest students in the universities started in these isolated schools. If the advantages were greater, the number would be greatly increased. Some years ago Hon. G. Howard Ferguson, when he was Premier of Ontario and Minister of Education, recommended a scheme of township schools, but owing to the opposition raised against it nothing was done. Dr. MacArthur will prove himself to be a real benefactor if he can successfully carry out a scheme that will provide better facilities for the education of the children in the rural communities at a reasonable cost.—Brantford
