MISS M. McGEACHY EXTOLS GENEVA FOR CO-OPERATION

Speaker Condemns "Starvation in World of Plenty"

TORONTO, Ont., Jan. 14.—The bodies in Canada are much healthier looking than those I have seen in most of the countries of Europe," declared Miss Mary McGeachy, Liaison Officer of the Secretariat of the League of Nations, who addressed the Women's Canadian Club of Toronto recently in the Eaton Auditorium.

"It is difficult to explain to people here in Canada how much better off they are than others in the world," said Miss McGeachy, who spoke at length upon the question of nutrition and what she named "a pathetic anomaly", that starving people lived in a world of plenty and overproduction. She spoke of some Governments which have revenue tariffs on food-stuffs. She instanced the scarcity of certain kinds of food, stating it was estimated that one orange per fourteen people per year entered Poland.

Upon such practical problems as nutrition, sociological questions, the effect of relief distribution upon the moral life of the child, the speaker stated, League committees were now at work. The remarkable development of practical co-operation within the League in securing information and material which is of service to people in many countries, was stressed by Miss McGeachy.

"The nucleus of our international health organization," she said, "was set by the crisis and 1920 epidemic of typhus in Poland. No preconceived plan was made for the steady development of the internationally co-operative groups."

Miss McGeachy explained that the social field of work was organized through the emergency problems arising.

"O! No. Excuse me, old man. I thought you said Bryant street."
 "No. I said Bryant Street."
 "Never heard of it. Sorry, stranger."

Even in crime people don't get very far unless they put their whole soul into it. And if they do, they probably get as far as Dorchester.

'SALADA' TEA is delicious

ing out of the white-slave traffic, which struck at the social security of many nations. The immediate problem of relief was a real test for the international co-operation and was a challenge to take up the preventive aspect in problems arising out of a changing social organization, she said. The function of the Social Committee of the Child Welfare Division had been to gather information from all over the world as to how some of the child problems were met.

In this field, she stated, women's international organizations were invaluable and experiments and experiences tried in small towns in child welfare projects were of service to others. The serious effects of unemployment and relief measures upon the moral development of children present serious problems, the speaker stated, and the committees study results upon children in many countries and methods used to prevent loss of self-respect. Two publications are issued by the Child Welfare Committee to serve in this work.

The League of Nations, emphasizing

the democratic basis upon which it is founded, values discussion and research which may be done by experts and their findings are distributed to the world.

Whether or not the work will be of permanent value must yet be proved, the speaker stated. When the League was set up no one, she said, had any idea that such a plan of international co-operation between social workers, doctors, organizations and workers for the benefit of mankind would come into existence. That has happened, she said, and the important thing about it all is that the habit of co-operation in every field of practical national life was growing. This influence upon the peoples of the world, Miss McGeachy believed, was having results, evident in the recent monster vote on the peace ballot and a spontaneous public demand of each nation to its Government to cast its weight for the further development of collective action. Such habits of thought, Miss McGeachy hoped, would be applied to political problems.

Mrs. Albert Matthews presided.
