ime To Take Stock

It is an immemorial custom of retail business to take account of stock in January. Down comes every bolt of cloth off the shelves-every dress and pair of shoesevery can of tomatoes-every tube of toothpaste. Busy clerks check inventory. Managers figure their new merchandise requirements.

And then come the sales!

There's an idea in all this for the woman who runs her home on a business basis. No need to spend days at it. But why not take a systematic peek at the linen closet when you're upstairs? An appraising glance at the medicines and toilet requisites in the bathroom cabinet? A candid look at the furniture while you're dusting.

It's time to take stock. And when you've made a list of the things you need, sit down with this newspaper and see how economically you can buy them now - during January's stock-taking sales. You'll be delighted, as you read the advertisements, to find how far a moderate outlay will go!
