

FRANCE WOULD CALL A COMMITTEE OF THE POWERS TO DISCUSS THE SPANISH SITUATION

We Are Due For A Change In Our Economic System

"We Are Handicapped By Our Tie-Up With Other Provinces

Hon. J. B. McNair, K.C., Attorney General, Strikes Right Note

Urges Building Up Our Communities by Co-operation, Not By Regimentation

"We are due for a change in our economical and social system," declared Hon. J. B. McNair, K.C., attorney-general, in speaking before the Fredericton Board of Trade yesterday afternoon. We have been richly endowed in this province but we are handicapped by our tie up with the other provinces he stated, and "we must work out our own salvation." The best method declared Mr. McNair is to start by building up our communities—not by regimentation but by co-operation. The need for co-operation on the part of all organizations is great and only by this co-operative system can the efforts of all boards of trade be realized, he stated.

Honorable Mr. McNair also said that this did not mean that he did not believe in Confederation, but that an effort should be made by this province to become as independent as possible.

The government can stand behind such a movement but a New Brunswick consciousness must be created in order that the lesser organizations, the real working units, can function, the attorney general went on to say.

"Buy New Brunswick" is only one phase he declared but it is a commendable one. He referred to the action of His Worship Mayor G. Willard Kitchen in his recent advertising policy. An organization meeting was suggested whereby something could be started "that would put New Brunswick on the map."

In speaking of the tourist industry Mr. McNair mentioned the province's natural beauty and the hard surfacing programme. In concluding, he said, "we want an institution that draws its strength from all bodies in order that the economic and social life of this province will be bettered."

Mayor Kitchen in replying to president S. S. Miller's query of what action should be taken on "Buy New Brunswick" Mayor G. Willard Kitchen said he was "fully in sympathy with the attorney-general's sentiments." He stressed the need for united action and said if we "help the farmers, they will be prosperous and we will prosper as a result."

Ex-Mayor C. R. Jones of Woodstock moved that each board of trade take up the matter individually and give it proper discussion and make necessary recommendations. The motion was seconded by J. L. Neville,

U. S. CHEMISTS PRODUCE SYNTHETIC VITAMIN B-1

U. S. CHEMISTS—LOWER Double NEW YORK, Aug. 26—Forty different chemicals are used to make vitamin B-1, the nerve vitamin, the synthesis or artificial manufacture of which was announced formally Saturday.

The synthesis shows that this all-important health vitamin is a relative of the stuff, which vulcanizes rubber and of the hypnotics used in soothing drugs.

B-1 is the second vitamin to be made artificially. It is the most important vitamin so made to date. The

HON. J. B. MCNAIR, K.C., M.P.P. Attorney-General, Says New Brunswick Consciousness Must Be Created

SUPREME COURT TO CONSIDER APPLICATION

At a special session of the New Brunswick Supreme Court, Chief Justice Baxter announced that the court will consider the application of H. Murray Lambert, counsel for the defence of Daniel Bannister, who was sentenced to hang for the murder of Phillip Lake last January. Chief Justice Baxter, Mr. Justice Grimmer and Mr. Justice Harrison heard the argument from Mr. Lambert on behalf of Bannister and P. J. Hughes, K.C., of this city and G. F. G. Bridges, of Moncton, for the Crown.

This appeal is from the second conviction for Lake's murder. The two brothers are scheduled to hang on the same day, Sept. 23rd.

In his argument yesterday Mr. Lambert made a plea on the possibility of manslaughter in Daniel's case, while Mr. Hughes contended that there was evidence enough to convict all three Bannisters, Daniel, Arthur and Frances, of the Lake murder. Mr. Lambert said that all the Crown had to rely on was Frances' evidence.

first synthetic vitamin was C, the anti-scurvy vitamin.

B-1 prevents and cures beri-beri. New medical discoveries showing that B-1 also relieves neuritis, and may be useful in other ills, have been announced during the preliminary work which led up to the artificial manufacture.

The synthesis was announced jointly by Dr. R. R. Williams, chemist of the Bell Telephone Laboratories, and Dr. J. K. Cline of Merck & Co. The synthesis culminates twenty-five years of research by Dr. Williams.

How Much!

HOW MUCH— Taxes does the outside printing salesman or his employees pay to Fredericton?

HOW MUCH— Does he or his firm contribute to the welfare of our city?

HOW MUCH— Does he or his firm do to keep Fredericton on the map?

HOW MUCH— Interest does he take in the affairs of the community?

HOW MUCH— Money does he or the printers that do the work spend with the Fredericton merchants?

HOW MUCH— Publicity does he give worthwhile movements and individual business enterprises?

YOUR HOME NEWSPAPER PRINTING ESTABLISHMENT

- Pays taxes in Fredericton.
- Gives employment to heads of families whose earnings are spent in Fredericton.
- Gives liberal publicity to every worthy civic movement.
- Boosts Fredericton and York county as a good place in which to live and trade.
- Keeps you acquainted with the welfare of your friends and neighbors.
- And

GIVES YOU GOOD WORK AT FAIR PRICES!

And yet there are Home Owned Store merchants and even Fredericton Aldermen who profess to have the interests of the city at heart, who send their printing out of the city to Ontario concerns. This paper has many times referred to people who buy their home furnishings and provisions, and their wearing apparel out of town. Their money goes away to enrich Ontario millionaires. And it does not come back. The same thing applies to printing.

Nearly every week some organization asks for free boosting, and we are always pleased to boost anything that stands for the good of the community. But in many cases, through pure cussedness or want of thought as to the fitness of things, the same people ask the newspaper to do the boosting—and then go some where else with their printing.

Something worse than this happened here recently. A city alderman called on this paper with the request that we boost home industries. The gentlemen in question had made a survey of local industries and wanted them encouraged by local people. We spent an hour going over the proposition and heartily endorsed his idea, doing our best to help him put it before the public. Amongst the industries that he wanted to boost was the printing industry. There were, according to his count, five printing establishments in this city. In the aggregate these printing establishments employed fifty hands. The majority of these hands were employed by this paper. But all these five printing establishments were local industries, and any one of them could turn out a first class job. But the alderman took the first opportunity of sending to a printing concern in Ontario for a little job that any one of the five printing establishments in the city could handle. When one strikes such mentality as that, it makes one sit up and wonder what's the use of trying to boost the old home town after all. One would expect this kind of a handout from the chain stores, but hardly a city alderman who made a loud cry about "boosting local industries."

GOVERNMENT TO REVIVE OLD WHALING TRADE

WASHINGTON, Aug. 26—Any day now the government will launch a new programme to revive an old and romantic American industry—whaling. "It is hoped," said John R. Gardner, special assistant to the commissioner of fisheries, "that this ancient and honorable business can soon be restored to something of its old glory."

Commerce and treasury representatives are re-drafting a few final regulations and officials said they hope within 60 days to issue the first United States whaling license.

Laws are Rigid

Through laws passed by the last Congress, the much-hunted right whale has been given the immunity of a sacred cow and its killers can be imprisoned for six months and fined \$10,000.

Congressional definition of a right whale includes those familiar figures of sea fiction—North Atlantic or North Cape

EACH OF AYRSHIRE FAMILY GIVES 100,000 LBS. MILK

OTTAWA, Aug. 26—The Canadian Ayrshire Breeders' Association tonight reports a new Ayrshire record has been set when one family of cows—mother, daughter and granddaughter—have each produced more than 100,000 pounds of milk.

The oldest of the Ayrshires, Briery Belle of Sunny Slope, 2nd, bred by Edwin Reid of Souris, P.E.I., beside exceeding production of the 100,000-pound mark, has just completed a record of 12,000 pounds of milk, 468 pounds fat in 365 days. She is 16 years old.

Her daughter, Sunny Slope Bonny Jean, owned by W. D. Black of Watford, Ont., has produced 103,414 pounds of milk, 4,341 pounds of butterfat in 2,912 milking days.

The granddaughter, Winswept Betty owned by Gavin D. Reid, son of Edwin Reid, reached the production mark of 102,082 pounds of milk, 4,221 pounds of fat in seven lactations.

LONDON, Aug. 26—Portugal is strongly urged to have an immediate arms embargo on Spain because it is said their country is being used as a shipping place for arms to Spain.

FORMALITIES AT SOCIAL CREDIT GOV'T SESSION

EDMONTON, Aug. 26—Simple formalities were observed here yesterday as members of the province's eighth Legislative Assembly, the only Social Credit government in the world, congregated for the special session which the government hopes will be completed before the end of this week.

The Throne Speech forecast legislation dealing with introduction of social credit principles, debt adjustment and reduction of interest rates.

Premier Aberhart introduced the first bill, one to amend the Mothers' Allowance Act. Then on motion of the Premier, the House agreed to take the Speech from the Throne into consideration Wednesday and adjourned until that time.

Many Questions

Under what legislative authority does the Alberta Government issue prosperity certificates? was one of the questions covering almost every phase of the certificates plan, filed today with the Clerk of the Legislature by D. M. Duggan, leader of the Conservative party.

Another question was whether the Dominion government or any of its officers were consulted regarding the legality of issuance of certificates before they were issued and, if so, what was the opinion expressed. Whether the province's bankers were consulted regarding legality of the issuance also was queried.

REICH IMPROVES DANZIG CHANCES

BERLIN, Aug. 26 — In a Europe overhung with omens and portents from Salonika to Cape Finisterre and The Hague, the Reich today went quietly and efficiently about its own business closer to home—specifically its business in Danzig and Memel.

No responsible person here would have the bad taste to rejoice publicly in the confusion into which most of Europe has been plunged. But if this confusion prevents others from taking as close an interest in Germany's policies as they usually take, this development must not be expected to give rise to universal grief here.

The last non-Nazi newspaper disappeared from the streets of the "Free" City of Danzig Thursday when the Nazi secret police there suppressed it for six months. It was the Volkszeitung.

DUCK SEASON OPEN SEPT. 15 IS ANNOUNCEMENT

The 1936 New Brunswick game and fishery laws were announced by Hon. F. W. Pirie, minister of lands and mines this week.

The duck season, which is at present under discussion in the province, has been ordered to open on September 15th, and extend to November 15th, both dates inclusive. On the islands of Grand Manan, the dates are from October 15th, to December 15th. These dates also apply to geese, coots, gallinules and rails. Some suggestion has been made to have the duck season set ahead two weeks, but this has not yet been acted upon.

The open season for bull moose extends from October 20 to November 20, both dates inclusive. For deer the season opens on September 15 and extends to November 30. Shooting of cow moose of any age and calf moose under the age of four years and with less than five points on one of its antlers, is prohibited at all times. No person shall kill or take more than one bull moose and two deer during any open season.

Resident's hunting licenses for bull moose, two deer, game birds including partridge, if open season, and geese, ducks, brant and woodcock, is \$3.00. Non resident hunting licenses are \$50.00 for license to hunt one bull moose, two deer, four bears, partridge, if open seasons, and ducks.

PARIS Aug. 26—On account of the recent mobilization decree issued by Berlin, France is making expensive military preparations.

LONDON, Aug. 26—With armaments multiplying on every side in Europe, Great Britain is striving to cement an alliance for peace among nations.

Yesterday England moved to enlist other powers in a joint appeal to end the reported "atrocities" in the Spanish civil war—such as the alleged massacre of hostages and killing of civilians.

The British sentiment along these lines, it was authoritatively stated, was influenced by incidents at Hendaya, France, where a little band of foreign diplomats, accredited to Madrid, are living on the edge of almost daily violence.

It was explained that the move does not mean that an offer will be extended of mediation in the dispute itself. It is not expected to end the civil war. But it is hoped, for instance, that it will lead to more humane treatment of civilian prisoners.

As these proposals were gaining momentum throughout official circles, the foreign affairs committee of the cabinet held a half-hour session during the afternoon, following a morning session lasting nearly three hours.

Foreign Secretary Anthony Eden remained in constant communication with Prime Minister Baldwin, although Mr. Baldwin did not attend the foreign affairs committee meeting.

France was urged to cement its military understanding with Russia and seek Italy's firm friendship in the face of Chancellor Hitler's decree increasing the German army.

Says Europe Is Not Likely to Get Embroiled in Civil War of Spain

FRANCE PREPARING COMMITTEE HEADS NATIONS

(Special To The Daily Mail)

PARIS, Aug. 26—France is preparing a semi-permanent committee to discuss the Spanish situation and non aggression. The committee would probably meet in London. France also urges Russia and Italy to come into the agreement non-conditionally, and to force an arms embargo against Spain.

CAR THIEF GUILTY

Otto Rittage, who stole a car licensed—2799 about two weeks ago from the City of Saint John, pleaded guilty before the magistrate of that city. The car was traced through this province, into Quebec and finally to Orillia, Ont. Rittage who has a number of aliases attempted to sell the car in Orillia but a checkup revealed that it was stolen.

Spain Kept Out of the World War, Why Should Other Nations Get Tangled Up With Their War Now.

(Special To The Daily Mail)

MONTREAL, Aug. 26—"Europe is not likely to become embroiled as a result of the trouble in Spain," said Admiral John Denison, R.N., Ret'd., yesterday afternoon when the Canadian Pacific Liner Duchess of Richmond docked here from Southampton. "The rest of Europe has too much sense—and remember, Spain stayed out of the Great War so there is no particular reason why other nations should become embroiled."

Admiral Denison, spry and alert at 83 years of age, is an old-Torontonian. He is a brother of the late Col. G. T. Denison, long-time police magistrate of the Queen City, and left that city to join the navy at the age of 13 years in 1866.

"Toronto was a pretty little town of 35,000 people at that time," he told reporters, "and Montreal not very

FREEDOM OF SAINT JOHN TO H. J. HUMPHREY

(Special To The Daily Mail)

MONTREAL, Aug. 26—Coincident with the honor of the freedom of the city of Vancouver being conferred upon Sir Edward Beatty, K.C., LL.D., chairman and president of the Canadian Pacific Railway Company Friday, August 28th, at ten o'clock at the City Hall, Vancouver, in commemoration of the fiftieth anniversary of the Canadian Pacific linking Atlantic and Pacific ports, the honor of the freedom of the city of Saint John, N. B., will be conferred upon H. J. Humphrey, vice-president and general manager Eastern lines, Canadian Pacific Railway, on Friday, August 28th, at the City Hall, Saint John. This was decided at a meeting of the Saint John City Council held on Monday, August 24th. On the same day a dinner will be given in Mr. Humphrey's honor.
