NEW BRUNSWICK'S HOME COMMUNITY PAPER

Closed School Meetings

The Boston School Board which has been one of the few modern school boards in the United States or Canada to hold

star council meetings, now sees the error of its ways and has

thrown its meetings open to the press. This was done after a strong demand had been made on the part of the press and public

for an open door at the school meetings, at Idast as far as the

The Boston Traveller in an editorial on the matter says:

County Council Hears Contradictory Stories About Check

All Arose of Renting the Rooms For Election', Purposes

Matter Investigated

Ex-Sheriff Smith's Statement Does Not Agree With Sec'y-Treas. and Atty.-General's Dept.

Former Sheriff Roy W. Smith and Secretary Treasurer Major J. S. Scott appeared before the County Council this morning at its final session and discussed the delayed check for the rental of the County Court House rooms for election purposes. This check has provoked considerable discussion at the session of the Council which closed today.

Roy W. Smith this morning told the Council that he offered to turn over the check to the Secretary Treasurer several months ago and that that official refused to accept the same, stating that he did not know to whom the check was to be delivered

The Warden of the Council sent for the Secretary Treasurer who denied

teachers." The Boston School Board does not deal with financial affairs, nor did it handle the people's money, but the public demanded publicity just the same. Had the Boston School Board been given the people's money to spend and had carried on its deliberations behind closed doors as does the Fredericton School Board, the demand would probably have been much stronger. The ghosts of those who dumped the tea into Boston Harbour would probably have arisen up and held an indignation meeting on "The Common."

freely discussed without outside witnesses.

the right of youngsters in trouble.

In Fredericton we allow our school board not only to conduct its meetings behind closed doors, but we also allow it to spend hundreds of thousands of our money in any way it wishes, and the public is not allowed to know anything about the items. It is alleged that a proposed increased in teachers' salaries went to buy loud speakers for the assembly hall and other gadgets, and that some of the teachers did not get the expected increase, while one teacher who had an inside track with the trustees fared better. As these things are hidden from the public by the closed door the press has no way of giving particulars.

One of the members of the school board, and one of those who has been on the board long enough to imagine that they own it, has the unlimited nerve to say that the press cannot be trusted to handle "the proceedings decently." This remark was both intemperate and indecent. Any reliable member of the press will. as the Boston Traveller says, protect the children who might get into trouble with the school board. If the teachers get into trouble they would get a fair show. The teachers are public servants paid by the public and the public has a right to know what they are doing.

There are conditions in our city schools today about which the

DELEGATES H. & S. ASSOC. CONVENTION **ENTERTAINED**

Stirring Addresses Are Heard by Representatives From All Over Canada.

(Special to The Daily Mail)

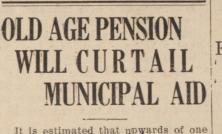

TORONTO, July 11-The delegates to the fifth convention of the Home and School Association, which was held this week in Toronto, were en tertained at a reception given by the Toronto Public Library at Central Auditorium. An informal address was given by C. R. Sanderson, assistant librarian.

The guests were received in the large rotunda by Mrs. Reece, the Provincial President, gowned in marine green lace; Mrs. R. S. McLaughlin, first vice president of the National Federation, in white chiffon; and Dr. George Kerby, National President. Miss Jessie Rorke and members of the library staff assisted in welcoming the visitors, and, following the reception, a visit was made to the internationally known Boys' and Girls' House, on St. George street, where Miss Lillian Twiss spoke of the work.

Announcement was made that following the sessions in the Royal York Hotel, there would be a drive, terminating at High Park Forest School, where a reception and tea would be held by the Toronto Council of the Federation. In the absence of Mrs. Peter Sandford, President, guests will be received by Mrs. W. H. Plant, Mrs. D. McKerihen and Principal Macklim of the Forest School, with Mrs. R. Belyea in charge of the refreshments.

Among guests at the reception were Dr. W. P. Percival of Montreal; Mrs. W. R. Morris, Peterboro; Mrs. Robt. Dorman, Ottawa: Mrs. G. H. Lightfoot, Stratford; Mrs. W. J. Young, Saskatoon; Mrs. Whorlow Bull, of Windsor; Mr. and Mrs. L. A. de

Quints Temporarily Lose Spotlight To Their New Brother

Hundreds of Curious Gather Around Barricaded Dionne Farmhouse in Callander

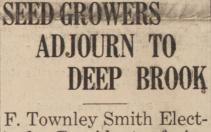

Dr. Dafoe Not Called to Mother of Quints

Disagreed With Quintuplet Doctor Over Care of Famous Babies

New President

F. W. TOWNLEY-SMITH President C.S.G.A.

ed President of Association at Final Ses- replied: "I can't say anything." Brook, N. S., Today

CALLANDER, Ont., July 10-The new eightpound brother of the Dionne quintuplets and the forgotten five other little Dionnes kicked his fat legs and howled healthily today while hundreds of curious persons gathered around the barricaded seven room farmhouse of Mr. and Mrs. Oliva Dionne. The mother and the child were re-

ported in excellent condition.

The birth of the 12th child to the parents of the world's only quintuplets, was 'very successful' according to Dr. J. E. I. Joyal, of North Bay, who attended.

"As far as I was concerned it was only an ordinary birth," Dr. Joyal said, "but I am glad that the mother and baby are in such excellent condition.'

Dr. Joyal was engaged by the Dionnes because they disagreed with the quintuplets' doctor, Allan Roy Dafoe, about the care of their five famous daughters.

The crowds of visitors who came today expecting to see something unusual were disappointed. There was no indication that the birth, which had been expected for several weeks had taken place.

parents are up in arms. The school board represents the people What is the board doing to remedy these things? OUR SCHOOL CONDITIONS ARE FAR FROM SATISFACTORY. WE COULD BE MORE SPECIFIC BUT WE WILL NOT COME OUT WITH IT AT THE PRESENT TIME. What is the school board doing to remedy affairs? Are the members of the school board too sleepy or are they ignorant of school affairs as they are going on at present?

The majority of the school board is elected by the city council. The city council should select men and women on the school board in whom the people have confidence, and when they will no longer merit the confidence they should make a change and appoint others. What are the Aldermen doing to regulate the control of the school board? Everyone knows that the school board like the police commission ignores the aldermen and laughs at the city council and does as it likes.

The Daily Mail does not publish the reports of the school board, because these are not reports of the school board meetings. They are cut and dried "ready to wear" reports handed out by the secretary and contain only what the school board wants the public to know. Skeleton reports. As long as the public are satisfied with these skeleton reports they will get them, but not in The Daily Mail. This paper sent a reporter out to take in the meetings and he was not allowed behind the closed door where the people's business was being transacted in private, and the people's money was being voted in secret. Secrecy always breathes suspicion and The Daily Mail will not be a party to it by passing cut and dried reports of the school meetings along to the public with the pretense that they are the true reports of the meetings. They are not.
