## RE-ALLOCATION OF TAXES TO BE DISCUSSED AT OTTAWA

Dominion Finance Problems Will Be Dealt With  
By Provinces and Federal Government Meet  
to Go Into Important Matters

OTTAWA, Oct. 22—A Dominion-Provincial conference will convene at Ottawa some time next month, to take up where it was last dropped the question of co-operation between federal and provincial authorities on finance, taxation and related themes.

A year ago, when provinces and the Dominion met, an impressive scheme was worked out on paper which appeared to promise big things for provincial financing, especially of the western provinces. All of them were suffering from unduly heavy annual interest payments from their provincial debt structure; several of them had loans coming due. It was suggested that the Federal Government lend its backing to provincial loan flotations, and in this way secure money at very much lower interest rates than would otherwise be possible.

At the time it was claimed by some

## Action Demanded

FROM what The Daily Mail can learn on good authority there is a movement on foot in other sections of the Maritimes to prevent the building of the new C.N.R. bridge in this city. It is time that the Boards of Trade, both of this city and of Saint John, got busy in regard to this matter. In the opinion of a number of the leading citizens of Fredericton, including some who are members of the Board, there has been altogether too much inaction and pussyfooting in regard to this important matter. The Daily Mail has done its part in calling the attention of the Board of Trade to the condition that prevails in regard to the bridge. This paper has quoted from the Minister of Transport to the effect that he knows nothing about the matter. We have given in full, copies of the telegrams received by us from the chairman of the Railway Commission, Mr. Hungerford, and from the Deputy Minister of Railways who passed the buck to the Canadian Pacific Railway. We have published within the last week the statement from official sources, of the Canadian Pacific Railway, to the effect that that Company was willing to enter into an agreement with the Railway Commission in regard to the bridge. The Canadian Pacific passed the buck back to the Railway Commission, and disclaimed all responsibility for the delay. In our opinion, the citizens of this part of the province who are interested in the bridge are BEING MADE GOATS OF BY THE AUTHORITIES AT OTTAWA AND MONTREAL.

If those who control the Board of Trade had any consideration for the needs of this section of the province, they would have called a meeting of the Board and started some action long before the present time.

It has already been pointed out by railway authorities that the C.N.R. bridge between Fredericton and Devon is the key of the railway situation in this section of the province. This paper has already pointed out many times the needs of this bridge and its importance as a connecting link in the traffic between Western and Central Canada and the seaport at the city of Saint John. It is also up to the Federal representatives in both this city and Saint John. THE BUSINESS MEN IN THIS COMMUNITY AND OF THE WINTER PORT ARE WAITING FOR ACTION. We suggest that a conference be arranged between the Boards of Trade of the city of Saint John and of York-Sunbury be requested to attend and to give a clear statement of just where we stand in regard to the building or otherwise of the new bridge. THIS IS THE MOST IMPORTANT QUESTION WHICH HAS BEEN BEFORE THE CITIZENS FOR SEVERAL YEARS AND THE BOARD OF TRADE, WHICH IS SUPPOSED TO REPRESENT THE BUSINESS MEN, HAS TAKEN ABSOLUTELY NO ACTION IN REGARD TO IT. There should have been a meeting of the executive of the Board of Trade on the second Wednesday of this month, but it was not called. There are those who believe that some minor trouble, which existed last summer, has caused a delay in calling this meeting. If this is the case it seems to be pretty small stuff. The Board should forget its petty troubles, which are human, and be big enough to get together and deal with bigger things for the benefit of the community.

In the meantime since the bridge has been gone, freight coming to Fredericton from Central Canada by the C.N.R. has been routed down to Moncton, across the country to Saint John and then up to Fredericton by the valley. The estimated cost of a new bridge is about \$1,000,000. With the interest on this amount at 2½% the cost to railway authorities would be \$25,000 per year. It is a safe bet to assume that the cost of this extra haul, around by Moncton and Saint John and up the valley, is running at a much higher figure to the railroad. This may be a good business proposition but we fail to see where it fits in.

With the opposition which has been worked up against this bridge in other sections of the Maritime Provinces, the time has arrived when we will have to get busy and protect ourselves. The Daily Mail, therefore, asks the Boards of Trade to take the matter in hand AT ONCE and demand a showdown in regard to this bridge. Otherwise there is every chance of our not having the bridge built at all.

## ITALY, GERMANY SUPPORT MILITARY DICTATORSHIPS

ROME, Oct. 22—Germany and Italy have agreed to support a Fascist-military dictatorship in Spain if the insurgent armies triumph, it was disclosed by well-informed sources tonight.

Other policies on which the two states are in accord were reported as the League of Nations, the Locarno treaty, and the status of Central European balance of power.

The developments were disclosed while Premier Mussolini's son-in-law and foreign minister, Count Galeazzo Ciano, was in Berlin awaiting conferences with Chancellor Hitler.

As far as the League of Nations was concerned, it was reliably reported, Italy and Germany stood for a reorganization plan that would be virtually a directorate of great powers to administer the collective security of Europe.

Germany, it was reported, agreed to return to the League fold only if such a plan were effected.

Both nations also wish a new Locarno treaty based on the old one, it (Continued on Page Four)

## Adult Education Program Proposed by M. R. E. C.

Dr. Fletcher Peacock Speaks on the Qualities and  
Equipment of Teacher

DR. G. J. TRUEMAN

M. R. E. C.

SUSSEX, Oct. 22—In the absence of the president, Rev. Dr. George E. Ross, Fredericton, Dr. George J. Trueman, president of Mount Allison University, occupied the chair at the evening session of the M.R.E.C., held in St. Paul's United Church, which was filled to capacity with delegates and visitors.

The great factor in education was the teacher with his personality, training and experience, said Dr. Fletcher Peacock, in his address on "The Equipment of a Teacher." After tracing the development through the years of the rising standard in education, he set the teacher in the centre of the educational picture in the day school and in religious education "the teacher in whom must be found sympathy, love, and above all, the right spirit."

GODERICH, Oct. 22—A two weeks' search by Gordon Ard of Wingham, for his friend, Kelly Ritchie, a full-blooded Chippewa-Huron Indian, to whom Ard bore good news that he, Ritchie, had inherited a considerable fortune, ended successfully in Goderich today.

The good news was that the Department of Indian Affairs, Ottawa after eight years of negotiation, had conceded that Kelly Ritchie was the lone and rightful legal heir by wedlock to the estate of his father, the late Peter Ritchie, Cape Croker, consisting of farm property and Government annuities of several thousand dollars; just how much Ritchie today did not care to say.

## Premier Says Witness Prompted --- Closely Questions Brother of Former Premier.

QUEBEC, Oct. 22—Antoine C. Taschereau, 72-year-old brother of Quebec's former premier, assured the public accounts committee today he would submit a statement showing the total interest he derived personally from government funds deposited in his name as accountant of the Legislature for more than 20 years.

Tired and so sickly his physician accompanied him, witness gave the assurance to Premier Duplessis whose motion led to expulsion from the hearing of Valmore Bienvenue, counsel for the former accountant.

The motion, passed 25 to six by the committee, was made by the premier who charged counsel with prompting his client in answering questions.

"Such a practice," declared the premier, "is against the rudimentary elements of decency expected from a lawyer of so many years standing."

Opposition Leader T. D. Bouchard charged Mr. Duplessis with contravening "the spirit of British justice," and displaying "autocratic conduct." (Continued on Page Four)

## POTATOES HIT AN ALL- TIME HIGH

CHICAGO, Oct. 22—Potato futures established new peaks for the year, with March delivery contracts at an all-time high price, in an active session in which gains ranged from ten to twenty cents a hundredweight.

March potatoes soared 20 points to \$3.10, October closed at \$2.35, and January at \$2.90 a hundred.

The skyrocketing of the futures was attributed by traders to several factors, including predictions of freezing temperatures tonight in Northwest areas, moderate receipts and a good demand for Western stock here.
