## AN ALLEGED PLAN FOR TERRORISM AGAINST THE COMMUNISTIC LEADERS IN RUSSIA

### Rebellion Seething In Portugal, Many Killed

One Thousand Loyalists Are Killed En Masse in Portugal

Spanish Gov't Unable to Guarantee Safety

City of Madrid is Now at the Mercy of the Red Mobs

LISBON, Portugal, Aug. 15—More than 1,000 government militiamen, including 100 women, died in a mass execution by rebel forces at Almendralejo, a correspondent of the newspaper Diario Noticias reported today. The newspaper report on the executions came from Rosal de la Frontera. The town of Almendralejo is in Badajoz Province, which is largely in control of the rebels.

LISBON, Aug. 15—The Portuguese troops patrolling the Spanish frontier fired on a group of loyal Spanish militiamen who the Portuguese said were attempting to cross the border.

PARIS, Aug. 15—Portugal has accepted the French proposal for neutrality in the Spanish civil war.

Acceptance by Spain's western neighbor, regarded as one of the main conditions to final adherence by other powers, raised hopes that a general European accord on non-intervention might be reached.

Portugal had accepted the principle of neutrality on Aug. 8, but attached many reservations to full agreement then.

France urged Madrid today quickly to meet German demands for satisfaction for the alleged slaying of German Nationals and seizure of German airplanes.

"We let the Spanish government understand France is anxious to have Madrid make peace with Berlin in order to hasten completion of the international neutrality agreement, Quai d'Orsay officials said.

Hugh Lloyd George, British charge d'affaires, told Yvon Belbois, French foreign minister, Britain had begun to doubt the possibility of applying the neutrality plan. Diplomatic sources said the pessimistic view arose from the hesitation of Germany and Italy over accepting the agreement.

London took under 'urgent consideration' the question of banning export of civil planes after six British aircraft left yesterday, reported to be destined for belligerents in the Spanish civil war.

LONDON, Aug. 15—Reports coming in from diplomatic circles in Spain state that Red mobs control Madrid and the Spanish Foreign Office has admitted it could not guarantee the safety of foreign envoys who were preparing to quit the capital.

One of the diplomats in Madrid has

### EDMONTON CITIZENS RUSH TO REGISTER

EDMONTON, Aug. 15 — Registration of Edmonton citizens for Alberta Social Credit dividends has made "a wonderful showing" the first of the three-day registration period here, it was declared by D. B. Mullen, M.L.A., after he had made a tour of the registration offices in the city.

Mr. Mullen, in charge of registration, said that "well over 50 per cent. of the total voters' list" had been accounted for by persons who had asked for registration forms so far this week.

"It's just wonderful and far better than we expected," he said.

Premier is First

Premier Aberhart was the first person in Edmonton to sign. He put his signature on the individuals' form and covenant and they were witnessed by Mr. Mullen.

Plans for canvassing manufacturers and processors, and also certain retailers, regarding acceptance of agreements under the scheme for registration of basic dividends, were discussed by four Social Credit members of the House of Commons, who conferred with Premier Aberhart.

The Federal members said they intended to begin a canvass of the firms in an effort to persuade them to accept the agreement or covenant and registration form issued by the Provincial Government.

Scrip issued by the Aberhart Government spread through Alberta today as distribution in payment for roadbuilding projects was continued by the Government.

Stores Take Scrip

Ponoka received its scrip late Monday, and immediately it was passed on to the stores, most of whom had agreed to take the new medium of exchange in quantities as large as their sales tax dues. All stores accepting the scrip at Ponoka were taking it at face value, demanding no discount, it was stated.

At the same time, the scrip made its first appearance at Lloydminster. A dozen stores agreed to give cash

### What About This One?

In view of all the money that is being spent by tourist bodies, Federal, Provincial and Municipal, a few dollars might be paid to educate certain railway ticket agents in Boston and some prominent people at Halifax.

A week or two ago a smart young business woman of Boston whose family originally belonged to Fredericton, and who knows Fredericton, called at a Boston ticket office to buy a ticket for Fredericton when the following conversation took place:

Business Woman: "I want to buy a ticket for Fredericton, N. B., and I want to know what days I can leave Fredericton for Saint John in order to connect with the Boston boat for home."

Ticket Agent: "Fredericton is not on our railway. You will have to go to Fredericton Junction and they probably run a taxi out from Fredericton. You can buy your taxi ticket at Fredericton Junction. Let me see, Fredericton! Fredericton! It's near Sherbrook in Quebec."

Business Woman: "Oh no it isn't, I want a ticket for Fredericton, N.B." "Well! There is McAdam and Fredericton Junction. You will have to take a taxi."

Business Woman: "Are you working for the taxi or the railroad? I want a ticket to Fredericton. It is the capital of New Brunswick. I've been there and know."

Ticket Agent: "Oh yeah! I thought that it was in Nova Scotia. You must be mistaken. Here it is, McAdam Junction. Harvey, Fredericton Junction and then Saint John. No Fredericton. You will have to drive into that place."

Finally the lady bought a ticket to Fredericton Junction, and then at the Junction purchased another one for Fredericton.

A worse one took place at Halifax a few days ago when a convention was being held. They were picking out a place for the next convention. A Fredericton lady suggested Fredericton as the place for the next convention. A look of surprise came over some of the Upper Province people when she informed them that Fredericton was our provincial capital and the prettiest city in Canada. At last one Nova Scotia lady said: "But you have no roads and we would like to come by car."

A man coming from New Glasgow to Fredericton recently was told by a New Glasgow agent that he could not get into Fredericton from the Junction on Saturday night but would have to spend Sunday at the Junction.

So there you are.

### CLERICS PLAYING UNUSUALLY ACTIVE ROLE IN POLITICS

NEW YORK, Aug. 15—Prominent clerics mixing in potentially in national politics is a quite unusual phenomenon in America—this with a hasty qualification as to sumptuary legislation. In this field, they have been active and powerful, from Henry Ward Beecher on down, including Billy Sunday, Dr. Parkhurst and Bishop Coughlin.

The Rev. Georald L. K. Smith and Father Coughlin, stealing the show from the Townsendites in Cleveland, are among the few to sluce evangelistic fervor into the field of practical politics or millennial economics. The late Father Vorke of San Francisco, ferocious battler for labor when the union had the town of 30 years ago is a localized instance, as were the few smalltime Methodist and Baptist parsons of Kansas and Colorado who rolled up Apocalyptic thunders behind old "Blood-to-the-Bride-Reins" Waite, governor of Colorado in the Populist days. But on a national scale, this is the first transmutation of religious zeal into the purely secular wallop, haymaker or short-arm jab.

The big, handsome, bucko Mr. Smith is the arch-type of clerical careerist, whom, no doubt, Sinclair Lewis would enjoy depicting. He says he has in hand Huey Long's Share-Our-Wealth clubs, and whether he is in error or not, he is the voice of the bayous.

good opportunity to make many photographs. Considerable time was spent here, the party being quite fascinated by the unusual sight.

"An absolutely charming place in a magnificent setting," he said to Manager John O'Brien, as he stepped from the front door.

### OTTAWA FAVORS REHABILITATION HOUSING SCHEME

OTTAWA, Aug. 15—The National Employment Commission tonight issued a statement saying its studies of the housing problems in Canada "have shown that rehabilitation and remodeling of existing structures present particularly favorable promise for early action" in its drive against unemployment.

At the same time, the statement said, the Commission has found it advantageous to divide its work into two main classifications: "Formulation of such emergency measures as may be helpful in mitigating the severity of the seasonal employment problem which necessarily and normally results from the approach of winter conditions" and "the longer-range plans for stimulating employment in many different fields."

The statement emphasized such plans "require considerable study and analysis as a preliminary to their adoption." It said:

"Individual Commissioners have spent some time in visiting areas which involve special problems, as, for instance, Windsor, where special circumstances exist which have led to unusual restrictions on employment opportunities."

The stage is now being reached where the situation can more specifically be explored with Provincial Government administrators. The Commission has already been given a great deal of co-operation by the Dominion Government departments in Ottawa and the Provinces who, on request, have promptly sent their specialists to help in working out specific plans. Steps are now on the way to develop a form of organization which will assist in enlisting an ever-enlarging co-operative effort on the part of the community as a whole toward solving many of the existing complex employment problems."

### ANTI-SOVIET PLOT CHARGED BY TROTSKY

Believed Fascist Contact With Exiled Leader

MOSCOW, Aug. 15—Leon Trotsky, now an exile from Russia, and forced to wander from country to country, is charged with being at the back of a plan of terrorism in Russia. The Soviet government last night charged its onetime war minister and revolutionary zealot, Leon Trotsky, sought to foster a rebellion from his Norway exile, and jailed 16 alleged accomplices.

Direct responsibility for the assassination of Sergei Mironovich Kiroff, colleague of Dictator Joseph Stalin, was attributed to Trotsky, Leon Kamenoff and Gregory Zinovieff. Kiroff was slain in 1934.

The three, most powerful enemies of Dictator Stalin in his fight for power after the death of Nikolai Lenin, were charged with planning a campaign of terror and attacks upon leaders of the Soviet regime.

The government asserted that under the direct direction of Trotsky and the leadership of the so-called United Centres, the Trotsky-Zinovieff gang prepared a number of terroristic actions against Communist leaders.

"Trotsky sent five agents from abroad into the Union of Soviet Socialist Republics," the government charged. The communiqué did not name leaders against whom the new plot allegedly was directed.

Both Kamenoff and Zinovieff now are serving 10 year prison sentences for counter revolutionary activities coincident to the assassination of Kiroff. Bitter opponents of Stalin in party councils, Zinovieff and Kamenoff joined with him to direct the nation.

(Continued on Page Five)

WINNIPEG, Aug. 14—Three armed bandits held up officials of the Parkhill Bedding Company today and escaped with the company's payroll, the amount of which could not be determined immediately. One of the bandits fired a shot when the cashier resisted efforts to obtain the money but no one was hit.

### Man Who Surveyed Quebec Town Is Now Its Mayor

Allan K. Grimmer, M.Sc., Holds Important Position in Temiskaming

Has Held Important Posts

A Company That Provides Excellent Living Conditions For All the Citizens

### NEGOTIATIONS FOR PEACE NOT MOVING FAST

Making Every Effort for International Agreement

(Special to The Daily Mail) The British government is incessantly warning the powers of Europe that foreign meddling in the Spanish rebellion will eventually end in an European war.

The Government is making every effort to secure international agreement on the French "hands-off" pact. Under the French draft as submitted to the powers, the supply of both civil and military planes to Spain is prohibited.

But negotiations for the pact are not moving with speed. Italy and Germany still delay. Pressure on Premier Leon Blum from his left-wing supporters increases. "Time presses," comments the Morning Post, "unless Spain is to become a cockpit for all Europe."

OTTAWA, Aug. 14 — Joseph A. Brousseau, formerly well known in newspaper circles and president of the Parliamentary Press Gallery in 1907, died in hospital here today after a brief illness. He was 67 years old.

Mayor Allen K. Grimmer, M.Sc., of Temiskaming, Quebec, former city engineer, of Fredericton, who with Mrs. Grimmer has been a guest for several days at the home of Miss Helen Babbitt, University Avenue, sister of Mrs. Grimmer, is leaving tomorrow for Temiskaming, and will go by car via Rimouski, Quebec. Mr. Grimmer, who after leaving Fredericton, was city engineer of Medicine Hat, Alberta, and was also professor of engineering at Manitoba University, Winnipeg, and was later connected with Colonel "Bob" Lowe in reconstruction work following the Halifax disaster, now occupies a leading position at Temiskaming. He is connected with the International Paper Company as departmental manager.

Eighteen years ago when Mr. Grimmer went to Temiskaming, the place was virgin forest. Mr. Grimmer made a survey of the town plot and the town now contains over 2,500 people. The large pulp mill has been busy all through the depression and has operated continuously for several years employing over 800 hands. They specialize in the manufacture of rayon silk and cellophane, and their production is sold all over the world. A big part of the production is shipped to Europe.

The Canadian International Paper Company in addition to supplying neat homes for the people in their employ also provides free education, both for children and adults, men and woman to any inhabitant of the town

### Premier King Denies Part in The Election

### LORD TWEEDSMUIR IS NOW CHIEF "TELLER OF TALES"

CARLTON, Sask., Aug. 15—Accepted into the Cree brotherhood, Lord Tweedsmuir, Governor General of Canada, became Chief Okemow Otawawken—"Teller of Tales"—at a brilliant ceremony here.

There were 5,000 spectators as Chief Sam Swimmer of the Sweet Grass band, nephew of the great Poundmaker, who led the Indian uprising on these plains fifty years ago, placed the feather headdress on the head of the Governor General and draped about his shoulders a fine white caribou skin.

The Indian Chief also presented Lord Tweedsmuir with a beautifully beaded robe as a Coronation gift for His Majesty the King. In addition they created Prime Minister W. L. Mackenzie King an honorary Chief, naming him "Oteenesew Weensowew"—"Wise Counsellor."

The visit of the Governor General, Lady Tweedsmuir and their party was a highlight of the two-day celebration to mark the sixtieth anniversary of Treaty No. 6, signed at Carlton, by which the Indians ceded rights to their lands to Queen Victoria.

### Follows "Laurier's Example"—Minister's Action Does Not Imply Federal Participation.

OTTAWA, Aug. 15—Right Hon. Mackenzie King, Premier of Canada, in a statement yesterday declared that he has taken no part, "directly or indirectly" in the Quebec election and had no intention of doing so.

"While passing through the City of Quebec on July 10," he said, "the press inquired as to whether I would participate in the provincial elections in Quebec. I stated, at the time, that that ever since I had become leader of the Liberal party I had not intervened in any provincial election; that in this particular, as in many others, I had followed the example of Sir Wilfrid Laurier. I recalled that in Sir Wilfrid's day members of his Government usually confined their participation in provincial elections to the provinces with which they were associated and did not, as a rule, intervene in provincial campaigns in other provinces. I said further that in participating in provincial campaigns, Federal Ministers were doing so as citizens of their own provinces, interested, like others, in the affairs of their own provinces. Their actions should not, however, be construed as implying Federal participation."

### 100,000 NAZIS EYE FIRST SANDLOT BALL

BERLIN, Aug. 15—The largest crowd ever to see a baseball game in the Western Hemisphere—fully 100,000—recently jammed the Olympic Stadium and watched two obscure American amateur teams play a demonstration game.

The "World Champions" and the Olympics, both picked from the American Olympic baseball squad, played for seven innings, the champions winning, 6—5.

If the Germans liked anything about the game, it was the way the umpire yelled, "Bawl, one! Bawl, two!" This always got a great laugh, but later became monotonous. Twice a great cheer shook the Stadium; one when the announcer announced that there would be a review of the military demonstration after the game, and again when he announced that the next inning would be the last.

The lighting was bad, and the spectators could not follow the ball's flight. In addition, they were so unaware of the rules that scarcely, if ever, did they understand what was going on.

### JASPER LODGE MUCH ENJOYED BY LORD AND LADY TWEEDSMUIR

(Special to The Daily Mail) JASPER PARK LODGE, Alta., Aug. 15—Breaking his journey between Edmonton and Vancouver here yesterday afternoon, His Excellency Lord Tweedsmuir, Governor-General of Canada and party spent a delightful few hours en route to the coast. During this short stay in what was their first stop in the Canadian Rockies the vice-regal party took advantage of the opportunity to take a tour through Jasper Park Lodge and also visited several points of interest in the close vicinity.

The Governor-General was met at the station by a tremendous crowd who gave the distinguished visitor

a wholesome western ovation as they stepped down from their special cars. John B. Snape, acting superintendent of Jasper National Park Lodge, Magistrate A. B. Campbell, Rev. R. E. Bradshaw, rector of St. Mary's Church and "Ten Gallon Hat" Tom McDonough, know to all travellers, while Corporal R. E. Baynes had charge of the detachment of Royal Canadian Mounted Police.

Their Excellencies, Lord and Lady Tweedsmuir got a tremendous thrill when they were driven out past the Lodge to see the bears mulling around the "dump," the four footed natives seemed to sense something different and gave the visitors a
