

News Briefs

IS IMPROVING

Friends will be glad to learn that Mrs. James Moorecraft, who was recently operated upon at the Victoria Hospital, is considerably improved today. She spent a fairly comfortable night at the hospital.

CAUGHT FOUR POUNDS

Jack Sharkey, who is at Ludlow fishing salmon, caught a four pound grilse on Sunday. The "Boston Gob" did not have much of a tussle with the fish although it provided him with some real sport for a time.

HIT BY SOFTBALL

Mrs. Mitchell Campbell of this city, while watching the exhibition softball game between Fredericton and Saint John teams at Queen's Square last evening, was struck over the head by a softball and was badly stunned. Mrs. Campbell was reported to be resting fairly comfortably at her home today.

TO MEDICAL ASS'N MEETING

A number of Fredericton physicians are attending the convention of the New Brunswick Medical Association at Bathurst this week. Among those attending from this city are Dr. G. C. Vanwart, Dr. A. F. Vanwart, Dr. J. M. Cameron, Dr. A. L. Gerow, Dr. William Warwick, Dr. S. F. J. Wainwright and Dr. H. S. Wright.

ON BUSINESS TRIP

Ald. H. Ralph Gunter, M.P.P., has returned from a business trip to Montreal and Quebec city. On Friday, Ald. Gunter sailed on the "Duchess of Bedford" from Montreal to Quebec, along with the delegation of English lumbermen, who recently visited the west coast of Canada. Ald. Gunter came as far as New-castle by train, and motored from there to his home here on Sunday afternoon.

A. AND B. CLUB OFFICIAL VISIT

G. Walter Kitchen, commodore of the A. and B. Club entertained the executive and committee members of the club on a delightful cruise down the Saint John River. The party left this city at 10 o'clock on Sunday and arrived in Saint John at 5 in the afternoon. They were officially visited by the Royal Kennebecasis Yacht Club and the Saint John Power Boat Club. The return trip was made yesterday. Those making the trip were president Donald Smith, F. B. Osborne, G. Leslie Mavor, Alderman F. S. Mundie, Major F. H. Rowe and Commodore Kitchen. The boat "Frances K" at times attained the speed of 24 knots; the weather was generally fair.

SUCCESSFUL FISHING

Rev. J. E. Braune, pastor of St. John's Lutheran church of Newark, N. J., and chaplain of the fire department, and Mrs. Braune, who have been occupying one of Councillor John F. Doherty's camps at Spring-hill, and who have been enjoying fishing at Hart's Island Pool, have returned by automobile to their home. They had a most successful fishing trip, and succeeded in landing a number of salmon and grilse. Rev. Mr. Braune has been making annual visits to the Hart's Island Pool for several years and plans to return again next season.

RETURNS FROM GASPE

R. E. Balch, Dominion Entomologist, returned yesterday from the Gaspe peninsula where he inspected Timber Linits regarding the spruce sawfly infestation. He reports that the damage is increasing there somewhat. The spruce sawfly menace has been attacked this year and has attracted considerable attention from the tourists. Mr. Balch while away visited the Matapedia and Gaspe sections and also visited the Cascapedia section.

Arrangements Made
For Exhibit at
Fall Fair

Trade Bureau re Indians
Annual Fees of Society
Exempt From Year
to Year

The September meeting of the executive of the York and Sunbury Historical Society, Ltd., was held Saturday evening at the society's rooms in the post office and arrangements were made to have the annual exhibit at the Fredericton Exhibition. A committee consisting of Mrs. J. B. Maxwell, Mrs. C. C. Camp, Mrs. Susan Squires, Major F. A. Good, C. A. Taylor and R. P. Gorham were appointed to look after the matter. Major F. A. Good who recently returned from the Old Country presented the society with a copy of an edition of the Breeches' bible of the year 1815. This bible was issued in various editions between the years 1560 and 1815. Major Good also presented the society with two Malay Kris. These are two very dangerous looking swords. He also presented them with a beautifully carved elephant hook or elephant teaser. It is also stated that G. W. Bartlett had in view the presentation to the society of a photostatic copy of the correspondence of the O'Dell family, extending back before the Revolutionary war in the United States.

Those present at the meeting discussed the matter of a trade bureau to handle Indian affairs, and suggested that the matter be taken up by the Department of Indian Affairs at Ottawa. As the matter is one which might properly be left to the general meeting of the society and as the executive on Saturday night was practically informal owing to the fact that there was no quorum, it is not likely that anything will be done as the result of this suggestion.

The recording secretary of the society has received a letter from the Provincial Secretary-Treasurer in which it is stated that all annual fees of the society as an incorporated body will be exempt from year to year, owing to the fact that the society exists for educational purposes, and is visited each year by students from all over New Brunswick. The York and Sunbury Historical Society, Limited, was reorganized during the present summer and in connection with reorganization it was incorporated under the New Brunswick Joint Stock Companies' Act.

SPOKE ON VIMY TRIP

At the weekly Rotary luncheon today, Abner B. Belyea, was the speaker, taking as his subject his recent trip to Vimy. Dr. Ray MacGibbon was chairman.

SCHOOL DAYS BEGIN AGAIN, NEW PERMITS

School Trustees Report
Many Moving Into
City From Outside

Overcrowding Cared For

Prov. Normal School
Opened Today With
Less Enrolment

Back to school is the cry today as hundreds of the local children hike back to their desks with books, pencils and slates. Some of the pupils have lagging feet, others are eager and ready for the new school year. The parents are tickled to death.

A total of 216 new permits have been issued by the local board of school trustees, which is approximately the same as last year. Of this total, 162 are in Grade One, and 54 are from grades two to eleven. The trustees report that many of these new permits have been issued to children whose parents are moving into this city.

The Fredericton High School will have a total registration this year of 557, it was reported this morning. This figure is very similar to last year, with only a deviation of several students. In the Academic department are 372 students, in the Commercial department, 91; and in the Industrial and Home Economics department a total of 94.

Students Absorbed

It was announced today that while it had been planned to open a new department for Grade Nine at the Smythe Street School because of anticipated overcrowding, that these students will be absorbed into the High School building. O. V. B. Miller, principal of the High School, has arranged to have these other pupils absorbed into the classes at the High School building.

A peculiar fact this year is that there are more outside students in the higher grades. The approximate number of students in the city schools this year will be 1,800. Last year the total was slightly over 2,000. The total number of students in the province is 1,800.

DOOR UNLOCKED BURGLARS MAKE BIG MONEY HAUL

Abe Levine's Home En-
tered and \$500
Stolen

Bureau Drawer Sawn

Organized Epidemic of
Burglary in Recent
Weeks

The age-old wisdom of locking doors was proved here over the Labor Day holiday, when thieves entered the home of Abe Levine, 259 King st., while both Mr. and Mrs. Levine were out, and stole \$500. The Levines had left the back door unlocked. The thieves sawed away a section of a bureau in the guest room of the house and made away with the cash. No arrest had been made in the case by the police who are investigating. Mr. Levine told police of the robbery when he and his wife returned and found the back door ajar, the bureau drawer sawed away, and the \$500 gone. The robbery occurred on Saturday night.

During the past two or three weeks there seems to have been an organized epidemic of burglary in this city. A week or so ago the house of J. Brown Maxwell on George st. was entered not less than three times in one week. Notwithstanding the fact that the police were called and that the burglar was practically seen getting through a shed window there has been yet no arrests. The suspected parties who did the entering in this case are quite well known and it is understood that the police have at least one man whom they think they could put their hand on but no arrests have yet been made.

The Hunting Season

Shortly now, with Fall well under way, the New Brunswicker's thoughts will turn to rifle and shot-gun and his eyes turn more and more often from the window to the calendar as he longs for the day when he can go out and fire a blast into a moving bush or a suspicious looking patch of white.

One would have been as safe on the Marne in 1914 as in the New Brunswick woods after the hunting season opens. A man goes out to shoot a deer. He walks through the dim aisles of the forest with his rifle in the crook of his arm. Suddenly he sees a movement and is sure it must be a deer or moose, for that is all that occupies the hunter's mind. Afraid that the animal will fire first, the Nimrod throws his rifle to his shoulder and lets fly.

The Wrong Animal

Going forward to examine his kill he finds all too often that he has bagged a human being, an erstwhile contented cow or some other animal he didn't want. Mounted human skulls or cows' heads haven't come into style yet in this country.

If a hunter shoots a cow he pays the farmer for it. There is no penalty, however, when a human being is shot. It is unfortunate, but if one will go in the woods—

Rifle vs. Shot-Gun

In some thickly settled areas where game is plentiful it is against the law to carry a rifle in the woods or to use ball shot in a shot-gun. Thus, while
