to the salmon pools of the Saint John and Miramichi rivers for seven years, and has been a great booster for the province and its sporting attractions. He arrived here at noon on Saturday last in a Ford station wagon specially constructed for his use and labelled "Dungarvon Whooper II." "I have planned to remain until the end of the month, and then some," he told The Daily Mail last evening. "There are larger fish at the Hart's Pool than the one I caught, some stream liners, and I hope to contact some of them before I quit, and I am also out to get a deer or two." Mr. Campbell has made many friends during his visits to the province, and is being warmly congratulated on his success of yesterday. His business partner, Paul W. Richardson, recently spent three weeks in the province, and caught his largest salmon at the Hart's Island pool.

good business. The usual fortune wheels and bingo games are attracting a large number of patrons. So far this week there has been a "bingo war" on. The prices to play have been carved to rock bottom, to the advantage of the local patron.

The mechanical thrill machines are in their usual locations and the loop the loop is never idle. Although Children's Day has come and gone the older people are braving the dangers of the whip, merry-go-round and the chair planes.

Catering to the wants of the hungry are many hot dog stands and lunch counters. This year they are trimmed up more attractively than ever.

Young Farmers Here

Many from the rural districts were present at the fair grounds yesterday. A feature of special interest today is the visit of about sixty young farmers and farmerettes, representative of New Brunswick's younger farming element, who arrived here last night to be present at the boys' and girls' club camp here today and also on Friday. They represent calf, swine, poultry, grain and garment-making clubs. They are special guests of the exhibition for today and tomorrow.

Stanley Wood, provincial livestock superintendent, is in charge of the boys' activities, and Miss Alma Weldon, superintendent of New Brunswick Women's Institutes, is in charge of the girls. J. C. Bremner, district agricultural representative, is in charge of the calf club exhibit. A display of twenty Jersey calves by the Harvey and Stanley calf clubs, is one of the features. A showmanship contest is billed for today and the girls are expected to pay a visit to the Marysville cotton mill. This afternoon the boys and girls will visit the Dominion Experimental Station, and a programme will be carried out in the agricultural school building. Tomorrow the delegates will make a tour of inspection of the city and in the evening they will be guests of the directors at the Open Air attractions at the Fair.

The church was decorated with autumn foliage, ferns and other garden flowers. She wore white satin shoes and carried an arm bouquet of Talisman roses and Swansonia. The bride was attended by Miss Audrey Falkins who was in cascade green taffida made in long lines. Leslie G. The guest tables were each centred with a bud vase containing a long-stemmed dahlia in one or either of the colorful shades.

The bride is a graduate of the Provincial Normal School of the class of 1930 and the groom is a graduate of U.N.B. of the class of 1932, when he received the degree of B.Sc. in Forestry. Their popularity was evidenced by the array of lovely gifts received, including a walnut bookcase from the department of lands and mines, a bridge lamp from the Golden Chain Circle of the King's Daughters and a silver cake plate from the choir of Main Street Baptist church. The happy couple left by motor for a wedding trip through Prince Edward Island. For travelling the bride wore a grey mottled tweed suit. The full length coat had trimmings of grey fur. While in Atlantic City, Washington and New York, the Vice Consul and Mrs. Johnson were special guests at many social functions. Their arrival in Fredericton earlier than planned is due to the fact that Mrs. Johnson contracted a heavy cold in New York.

MIDNIGHT DREAM

'Twas midnight on the ocean,
Not a street car was in sight;
The sun was shining brightly,
For it rained all day that night.

'Twas evening and the rising sun
Was setting in the West;
And in the trees the little fishes,
Were huddled in their nests.

While the organ peeled potatoes,
Lard was rendered by the choir;
While the sexton rang the dish-cloth,
Someone set the church on fire.

Holy Smoke, the Preacher shouted,
In the rush he lost his hair;
Now his head resembles heaven,
For there is no parting there.

APPLE TIME

I shall think of them always,
Lying in the grass.
Yellow, like the daffodils,
Red, as the reddest roses,
Green, as new-born foliage,
And as starlight silver. . . .

I have seen their blossoms flaunting
When the year was young,
Very shy and beautiful,
And the sky was tender,
Pale forget-me-not. . . .

I have seen my youth
And left it over
Down behind the hills of Never-Never
Where our dreams go
With the apple-blossom.
And I sometimes wonder
What shall be the harvest
In my old age;

Till I think—and then take courage
Or those apples in the sunset
Waiting, peaceful, in their orchard,
A pride, a glory, and an end accomplished. . . .

I shall think of them always,
Lying in the grass.

N. B. Will Be Free Tubercular Cattle By First of Year

It is expected that by the first of the year the whole of the Province of New Brunswick will be free of tubercular cattle and when this becomes the case, New Brunswick will be the only Province in Canada with the exception of Prince Edward Island which will have cattle free from T.B. A testing of cattle embracing all the western sections of the province from Madawaska to Westmorland County has been completed. An astonishing fact has been shown in Kent County where the percentage of reactionary cattle shows as low an average as twenty reactors in ten thousand. This is exceptionally low as in Ontario tests showed thirty-nine in ten thousand.
