## SALVAGE WORK C.N.R. BRIDGE IS UNDERWAY

The St. John river remained almost stationary today, dropping only half an inch from its seven-foot rise of last week. Heavy rains and the melting snows in the backwoods sections upriver are still having their effect on the river level.

The height of the river did not deter the commencement of operations of salvaging the C.N.R. bridge, preliminary efforts being made this morning. The derrick scow or "floating crane" of the Garson Wrecking Company, arrived here yesterday afternoon with ten men and equipment from Saint John. A. M. Garson of Halifax, who is in charge of the work, told The Daily Mail today that about ten men will be employed temporarily on crane work and that local labor would not be taken on for some time yet.

It is planned to raise the spans by the use of the floating crane and work will be begun between spans five and six, and the work will progress to either side of the river from there. It had been previously assumed that local labor will be hired, numbering between fifty and sixty men.

A large number of people congregated on the river banks in this vicinity and watched the derrick scow and its equipment as it made its way up the St. John river yesterday, arriving in front of the city early in the afternoon.

The Oromocto Flats were still covered with about two feet of water today and a car-ferry is in operation. The Jemseg Flats also were flooded, and the road there was closed. The Maugeville road and thoroughfare from Sheffield Corner was said not to be flooded and the road is passable from Fredericton to Minto. The "back road" to Saint John by way of Tracy and Fredericton Junction was threatened with flooding at Blissville yesterday, but in view of only a small rise in the water it is believed that this route is passable and probably will remain so.

The water today was over the highway at Hoyt causing inconvenience to motorists.

Despite the onset of the recent freshet planting is well underway in central New Brunswick. At Stanley planting is progressing rapidly.

### NO BALL TEAM HERE

At a meeting of last year's Pets baseball team was held last night in the office of Dr. P. G. Thompson when decision was made not to have a senior hardball team here this summer. No interest whatever has been manifest in a team here, neither from players nor from organizers. At the meeting it was pointed out that there is an absolute lack of "initiative" on the part of Fredericton as regards a Fredericton ball club. It seems that the younger athletes are turning to softball, which is greatly to be deplored. The meeting for the reorganization of the York-Sunbury baseball loop has been indefinitely postponed.

Crockett, president of the local Community Association reports that the membership returns for next year's Community Concert Association for this city are far ahead of last year, as a result of the recent campaign. ## MAY MORNING

Now the bright morning star, day's harbinger,  
Comes dancing from the East, and leads with her  
The flowery May who from her green lap throws  
The yellow cowslip and the pale primrose.  
Hail, bounteous May, that dost inspire  
Mirth and youth and young desire!  
Woods and groves are of thy dressing  
Hill and dale doth boast thy blessing.  
Thus we salute thee with our early song,  
And welcome thee and wish thee long.
