hit numbers, "Born to Love" from the

production of the same name, and

The You and Me That Used to Be."

Accompaniment for the songs of

Irene Landor will be offered by the

two-piece of Wally Townsend and

Bernie Yuffy. A special arrangement

of "Only a Rose" from "The Vaga-

bond King" and "It Looks Like Rain

NEW YORK, Aug. 18-The National Broadcasting Company will broadcast exclusively a complete blow-byblow description of the world's heavyweight championship fight between Joe Louis, title-holder, and Tommy Farr, challenging British champion, at the Yankee Stadium, Thursday,

The fight broadcast, sponsored by the Buick Division of General Motors, will be heard over the combined NEC-Blue and NBC-Red Network in one of the most extensive hookups ever arranged for a major sporting event. Arrangements for the August 26 broadcast are even more elaborate than those made for three previous fight broadcasts over NBC sponsored by the motor manufacturer. Buick sponsored broadcasts of the Baer-Louis contest in 1935, the Louis-Schmeling fight in 1936, and the Louis-Braddock bout last June.

Farr won the right to the title bid by his victory over Max Baer in England this year. Louis is now in training at Pompton Lake, N. J., and Farr at Long Beach, N. J.

As was the case in the Louis-Braddock broadcast, fight fans will hear not only the blow-by-blow chronicle of the fighting but between-the-

Prexy Jack Oakie will re-open the doors of Camel's 'Oakie College' on Tuesday night, September 28th, for a new radio session at 9:30 P. M. EST, over the WABC-CBS network.

The fall semester will record the slightly unacademic activities of the incoming Freshman class. Welcomed by President Oakie, they will be introduced to Ephus Hall where the graduating class of '37 listened to the lectures of many eminent visiting professors, including Joe Penner, Gertrude Niesen and Frank Fay.

Dean Benny Goodman, who has conducted the summer Swing School activities, will be sent East by the Prexy for the fall opening. He will be heard from the New York studios from 10:00 P. M. to 10:30 P. THEIR INDUSTRIES ... AND THEIR BANS CANAD

· THE FOREST INDUSTRIES

The forest area of Canada on which there is timber of merchantable size is larger than the total area of France and Germany combined; the standing timber on this is estimated at 274 billion cubic feet. An area of even greater extent is covered with young growth.

This vast reservoir of wood is the source from which Canada drew wealth in excess of \$110,000,000 in 1934 (the latest figures available) in the form of primary products such as:

- raw material for saw-mills, pulp mills, wood distillation, charcoal plants;
- logs. pulpwood, bolts, etc., for export,
- · firewood, railroad ties, posts, poles, fence rails, prining
- maple sugar, balsam gum, resin, cascara, tanbark,

The total value of manufactured products made principally from raw materials of forest origin was \$404,435,948. Forest products in 1936 afforded an excess of exports over imports-\$158,560,000-very important to Canada's international trade.

The Bank of Montreal has co-operated with every activity of the forest industries - assisting in every phase of production and marketing. The Bank has had the priva ilege of financing a large share of the export business of these industries. Thousands of workers are depositors, sharing in the safety and facilities of the Bank with their employing companies.

Some of the Bank's services most frequently used by employers and employees in the forest trades: Commercial accounts, foreign currency accounts; financing of shipments; commercial loans and discounts; collections; trade and credit information; safekeeping of securities; savings accounts; personal loans, money orders; travellers cheques; banking by mail.
