

Your

Handwriting

As Told By

PROF. JAMES STRANGE

Do not be disappointed if Mr. Strange cannot answer you immediately, as many inquiries are coming in which must be answered in turn.

Fredericton, N. B.,
April 12, 1937

Mr. James Strange,
Fredericton.

Dear Sir:

Although sceptical about your ability to read character through chirography I would appreciate your trying on this.

Very truly yours,

SCEPTICAL.

Thanks, sceptical. Your frankness is indeed appreciated. Your handwriting portrays much of the sceptic, yes, and also the procrastinator. You are naturally materialist in your views and altruist regarding the philosophy of life. You will never win the confidence of the world, where expression of sympathy and human understanding is required. However, you have your place in the great scheme of things, and I am quite convinced an individual of your type would do well in the field of writing, accounting and drafting. Your faculties of reason and comparison are excellent.

The moral side of your character is only average in development. Your regard for tradition and reverence does not concern you as of any great importance.

You will attract a few friends, but before doing so a careful survey of the stranger's personality would be required. I am afraid, Sceptical, you will miss many of the joys of life due to your one-sided nature. You will experience many golden opportunities to accumulate money. On the other hand you will fail to receive your portion of the worlds goods owing to your faculty for procrastinating.

TENDERS FOR COAL AND COKE

Sealed Tenders addressed to the undersigned and endorsed "Tender for Coal for Maritime Provinces" will be received until 12 o'clock noon (daylight saving), Tuesday, May 4, 1937, for the supply of coal and coke for the Dominion Buildings in the Provinces of Nova Scotia, New Brunswick and Prince Edward Island.

Specifications and forms of tender can be obtained from the Purchasing Agent, Department of Public Works, Ottawa, the Resident Architect at Halifax, N.S., and the Resident Architect at Saint John, N.B.

Tenders should be made on the forms supplied by the Department and in accordance with departmental specifications and conditions attached thereto.

In the case of tenders quoting for one or more places or buildings and when the total of their offer exceeds the sum of \$1,000.00, they must attach to their tender a certified cheque on a chartered bank in Canada, made payable to the Order of the Honourable the Minister of Public Works, equal to 10 per cent. of the amount of the tender, or Bankers of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies, unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque if required to make up an odd amount.

The Department also reserves the right to demand from any successful tenderer a security deposit, in the form of a certified cheque or bond as above, equal to 10 per cent. of the amount of his bid, to guarantee the proper fulfillment of the contract.

By order,
J. M. SOMERVILLE,
Secretary,
Department of Public Works,
Ottawa, April 9, 1937.

SOCIAL HAPPENINGS

Holmes-Bowlen

A charming wedding was solemnized this morning at St. Dunstan's church at eight o'clock, when Rev. Dr. J. H. Milligan united in marriage Mary Estella Bowlen, daughter of Patrick Bowlen and the late Mrs. Bowlen, and Richard Robert Ralph Holmes, son of the late Cecil Robert Holmes and Mrs. Holmes of Rangoon Burma. The bride wore a French model suit of chromium grey with navy accessories and a corsage of Talisman roses. She was unattended. Following the ceremony Mr. and Mrs. Holmes left for Saint John, where they will take up residence on May 1st.

Guests at Holmes-Bowlen Wedding

Mrs. Francis Wetmore of Clifton, N.B., is spending a few days in the city with her husband at the home of Mrs. A. K. Turner. Mr. and Mrs. Wetmore were guests at the Holmes-Bowlen wedding which took place this morning at St. Dunstan's church.

York-Sunbury Historical Society

Executive met last evening with Rev. Dr. Wightman in the chair. Official announcement was made of an offer of \$50,000 towards the building fund, provided certain conditions are complied with. Progress was reported by the committee who have in hand the matter of a suitable memorial to Benjamin Tibbits, inventor of the compound marine engine. A committee was named to arrange participation in the observance of Coronation Day, and it is possible that the Society will have a float in the local parade. Amongst recent additions to the Museum collection are many interesting old books and some recent publications including Charles Frederick Boyle's Poems, "Stars Before the Wind." An early map of the Nova Scotia Land Company's land in New Brunswick includes what is considered the first map made of Stanley, York County, N. B. This map was made by Robert Waugh, great-grandfather of Mrs. G. Leslie Mavor and Mrs. C. W. E. Dodge. Wm. Kesson has donated two ox chains, found at the McFarlane Wagon Works, Nashwaakasis, Norman C. Woodbridge has given part of a cast and iron, found in the old Fisher house at Forest Hill. Capt. H. F. G. Woodbridge has presented a sheet brass pump cylinder with wooden plunger, also copies of old-time journals. From Robert P. Allen has come a specimen of Albertite, an oil shale, found in Albert County. Mrs. B. B. Barnes has given a purple fan, circular shape, (when opened), used about 1890. Other items of interest are the door lock of the Auld Kirk, and a blue cloth helmet, as worn by members of the old 71st Regiment. G. Alvah Good has sent in a Terry's Percussion Breechloading Carbine. These old guns used percussion caps like the muzzle-loaders, but loaded at the breech. Old-time muzzle-loading-type cartridges were used. Bayard Simmons has donated a wooden bowl and spoon used by the old Brayley Drug Co.

V. O. N. Meeting

The Victoria Order Nurse's meeting was held yesterday, with the President Ivan McKnight in the chair. There was a good attendance of members and G. W. Bonnell of the Bank of Nova Scotia was made treasurer in place of B. M. Love. The nurses reported a very busy month. 130 cases have been nursed, eighteen of these being maternity cases, and eighty were due to influenza and various pneumonia cases. There has been a good attendance at the Well Baby Conference, 18 babies have been referred to their own physician. At the conference in Devon the ladies of the Gibson Memorial Church served tea and the Ministering Circle of King's Daughters in Fredericton. The nurses assisted the Medical School Inspector in his yearly examination of the city schools. 767 pupils have been examined of which 112 were referred to their own physicians, ten to the Rotarian Eye Clinic and six were excluded on account of skin disease. A report from Miss Dawson, Eastern Supervisor of the V.O.N. was read and discussed. Various accounts were passed and routine business carried on.

On Southern Cruise

Among the passengers on the Lady Rodney, C.N.R. Steamship which is sailing from Halifax today for Bermuda and British West Indies are Mr. and Mrs. H. A. Porter and their son Tom Porter of Saint John.

Represent Oldest Anglican Families

The regular meeting last night of the Cathedral Men's Club was an especially bright and interesting one, due in large part to the contributions made to the educational and entertainment portions of the program by visitors from other churches. The visitors were Arthur Kelsall of Annapolis Royal, Capt. Edgar Shampier from Kingston, N.B., W. W. Hubbard from Burton, P. E. Smith and John Rogers from Long Reach. It was noteworthy that these men were representative of the oldest Anglican parishes in Nova Scotia and in New Brunswick.

Mayor Kelsall told of some of the "first things in Canada" which are associated with Annapolis Royal, the old Port Royal of Acadia. He spoke of the settlement made by De Monts and Champlain and of the work of Lescarbot and Memberton, the latter being the first native of America to receive the rites of baptism. He also told of the Order of Good Cheer founded by Champlain and Memberton and of their present Men's Club which bears the same name. The speaker extended an invitation to the men of the Cathedral Men's Club to visit them in the meetings of the order of good cheer whenever any of them should be in Annapolis.

The speaker then told of the development of church life in old Port Royal. Father Aubrey was the priest with De Monts and Champlain in 1604 and 1605 and he had one very unusual experience in that he was lost for seventeen days in the forest on one occasion, the only white man on land in all North America. The ministry of the church thus early begun was soon followed by that of the school, a seminary with several instructors being established in 1611. The activities of the Anglican church in Annapolis Royal began in October 1710 with Rev. John Harrison conducting the service after the capture of the fort by the British. The Bible used on that occasion is still in regular use in the church. The speaker then told of the various church buildings which have been used through the years, the present St. Luke's Church dating from 1820.

Capt. Shampier, whose home is in the Parish of Kingston where the Anglican church service was first conducted by Frederick Dibble, lay-reader and schoolmaster, and in later years by Rev. John Beardsley and Rev. James Scovill, entertained the club by giving a number of humorous recitations among which the tale of Old Mother Hubbard in modern sermon style was much enjoyed.

Rev. Dean Moorhead moved a vote of thanks to the visitors from the oldest parishes in Nova Scotia and New Brunswick, who had assisted in the program. Besides being church members both had fought for the Empire in the Great War, one in the Princess Pats and the other in the Canadian Air Force, and it was a fitting thing that they should be welcomed to Fredericton in the Cathedral Memorial Hall.

W. W. Hubbard, an active member of the club when a resident in Fredericton, spoke of the history of the old parish of Burton where he now resides which was one of the oldest in the province. He expressed his pleasure at revisiting the Cathedral Club and wished all members continued opportunities for service and in service happiness and pleasure.

The group singing was led by Oscar Harris and on the arrival of Archbishop Richardson two extra numbers were presented in order to show him the progress made in past weeks. Herbert Maxwell presented a humorous recitation and then play continued in the progressive card tournament. The scores of the evening showed Mr. Nevers the leader in bridge and Harry Ryan in forty-fives. Light refreshments and the singing of the National Anthem closed another very pleasant evening in the history of the club.

Ice "Break-up"

(Continued from Page Eight)
record of 112 years. The earliest date in history was last year when the ice ran out on March 19, causing an unprecedented flood condition which resulted in the loss of the railway bridge. In 1935 navigation opened on April 22, while on the previous year it was eight days earlier. In 1926 the ice remained in the river until May 1.

Canadian National Railways officials had to contend again yesterday with landslide conditions on the "Valley Railroad" line west of Fredericton. The trouble occurred between Vessey's and Macnaquac Station, some 13 miles from Fredericton. This is the same locality where similar trouble occurred during the week-end.

Paving Costs

(Continued from Page Eight)
Highway No. 11, Chatham-Kouchibouguac River, 25 miles, Warren Bituminous Paving Co., Ltd., Toronto, \$530,000.

Highway No. 11 Kouchibouguac River—Chockpish River, 24.6 miles, Modern Paving, Ltd., Montreal, \$620,000.

Grading on the new work will start immediately with the exception of completing the preparatory work before fall and all contracts are to be completed by October 31st, 1938.

With the 420 miles of paving already under contract, this will mean that by the fall of 1938 the present Government will have laid 648.3 miles of permanent paving on the main trunk highways.

Premier

(Continued from Page Eight)

"By the Fall of 1938 this Government will have completed the Trans-Canada highway through the Province from the Quebec border down the Saint John River Valley to the City of Saint John, thence to Moncton, the Nova Scotia border and to connect with Prince Edward Island. There will be permanent, road, construction from St. Stephen to Moncton and from Moncton to the Quebec border near Campbellton, with a single gap in the Bathurst woods.

"We will have established ideal road conditions for tourists entering from the United States, from Quebec and Nova Scotia and there is every reasonable expectation that we will divert through our Province tourist trade which has been patronizing Quebec and sister provinces and staying away from us.

"Our main traffic highways will then compare with any on the North American continent. They will take the tourist conveniently and comfortably to those main points of historic scenic and sporting attraction which are recognized and appreciated throughout the world and which on the last visit made to this province by Premier Baldwin of Great Britain prompted him to speak in such glowing and admiring terms.

Government Plan

"We are consistently planning to enable our people to take advantage of the millions that tourists spend. While we are providing modern facilities for travelling, the Government is also exploring the possibilities provided in the New Brunswick Town Planning Act, 1936, to regulate tourist camps, roadside advertising and promote the beautification of areas which lend themselves to exploitation.

"Having thus placed our house in order, we are reaching out to invite tourists to the province. We have prevailed upon the Metro-Goldwyn-Meyer interests to make a technical or travelogue of New Brunswick this fall which will be screened throughout the world the following spring, and we are presently negotiating for other publicity of a similar striking and effective character to promote and stimulate the flow of tourist business and tourist dollars."

N. B. Appeal

(Continued from Page Eight)

enter a judgment for the plaintiff or for a new trial.

The original case was heard before Chief Justice J. H. Barry of the King's Bench Division at the January circuit of the Supreme Court King's Bench Division in the City of Saint John and was brought up on a policy of life insurance issued by the appellants on November 18, 1935, to Lucretia M. Byrne, wife of the respondent for \$500.

A verdict was entered for the plaintiff for the sum of \$500 and costs on questions answered by the jury. Mrs. Byrne died 48 days after the policy was taken out at the age of 44 years. A. B. Gilbert, Saint John, argued for the respondents.

The Crown paper appeal of the King vs. Alonzo Breaux, in which the defendant was supporting an appeal from the judgment of the judge of the Westmorland County court has been withdrawn.

Public Notice

I wish to take this opportunity of informing my friends and the general public that I have taken over the Imperial Oil Service Station formerly run by Harry L. Boone on the corner of King and Westmorland Streets, Fredericton, and respectfully solicit their patronage. I can promise my customers prompt, careful and cheerful service done in a satisfactory manner, whether gas, oil, washing, simonizing, tire repairs, or other necessary requirements are desired.

MERVILLE O. FLETCHER.

NOTICE

The Annual Meeting of the
Fredericton Community Concert
Association will be held in the Council Chamber, City Hall, on
Thursday Afternoon
April 15, at 5 o'clock
All members are cordially invited to attend.

An April Morning

Once more in misted April
The earth is growing green,
Along the winding river
The plums willows lean.

Beyond the sweeping meadows
The looming mountains rise
Like battlements of dreamland
Against the brooding skies.

In every wooded valley
The buds are breaking through
As though the heart of all things
No languor ever knew.

The golden-wings and bluebirds
Call to their heavenly choirs,
The pines are blue and drifted
With smoke of brushwood fires.

And in my sister's garden,
Where little breezes run,
The golden daffodils
Are blowing in the sun.

—Bliss Carman.

"The Home of Beautiful
Flowers"Here's Simple Way
to Curb a Cold

Two Quick-Acting, Quick-Dissolving
"ASPIRIN" Tablets with a Glass of Water

The modern way to curb a cold is this: Two "Aspirin" tablets the moment you feel a cold coming on. Then repeat, if necessary, according to instructions in the box.

At the same time, if you have a sore throat, crush and dissolve three "Aspirin" tablets in one-third glass of water. And gargle with this mixture twice.

The "Aspirin" you take internally will act to combat fever, cold pains and the cold itself. The gargle will act as a medicinal gargle to provide almost instant relief from rawness and pain. It is really marvelous; for it acts like a local anesthetic on the irritated membrane of your throat.

Try this way. Your doctor, we know, will endorse it. For it is

quick, effective and ends the taking of strong medicines for a cold.

• "Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.
