

## News Briefs

### IN POLICE COURT

Two cases, one of trespass and one of begging and drunkenness, made up the docket of Magistrate's Court this morning. A fine of \$50 or sentence of two months in jail was imposed in the case of trespass, while a sentence of two months was imposed for begging and \$8 or 30 days for drunkenness.

### ROWELL COMMISSION

The Rowell Commission on Dominion-Provincial Relations will not sit in Fredericton for some time, it is believed in official circles. It was understood that Fredericton would be one of the first provincial capitals to be visited by the newly appointed Royal Commission, but since the body is now sitting at Regina, it is thought that it will be some time before it arrives here.

### K. OF C. MEETING

Knights of Columbus Councils of District No. 1, met in conference yesterday in the K. of P. Hall, Regent Street, for a discussion of matters of mutual interest and organization purposes. Proceedings were under the direction of State Deputy Dr. J. B. Gosnell, assisted by District Deputy C. J. Breneol, and in addition to the officers of the local council, Grand Knights L. A. Conlon, Saint John, and Dr. G. T. O'Donnell, Woodstock were present with officers of the Saint John and Woodstock Councils.

### TO EDMUNDSTON EXHIBITION

Hon. A. A. Dysart, K.C., Premier and Minister of Public Works, will arrive in Fredericton tomorrow, but will leave almost immediately for Edmundston to take part in the official ceremonies at the opening of the first exhibition ever to be held at that city. Other members of the provincial cabinet expected to be present are Hon. A. C. Taylor, Minister of Agriculture; Hon. F. W. Pirie, Minister of Lands and Mines; and Hon. C. T. Richard, provincial secretary-treasurer.

### C.-P. R. Starts Deisel Service on Chipman-Devon-Woodstock Run

The new Deisel Electric passenger train of the Canadian Pacific Railway, made its initial run this morning from Chipman to North Devon and from North Devon to Woodstock, and will make the return trip this evening.

The new service, which makes the Chipman-North Devon run in two hours and the North Devon-Woodstock trip in two hours and 20 minutes, was instituted through the co-operation of the Transportation Committee of the Fredericton Board of Trade and Railway officials.

This service, besides giving Chipman and Minto residents daily connections with this city and thus benefitting the merchants, greatly shortens the running time on the Gibson Branch, making connections with the St. Stephen-Edmundston Express more convenient.

The first trip was made yesterday for the purpose of bringing the passenger coach down from Woodstock, and was also more or less in the nature of a trial run.

The new train has one passenger coach, with a capacity of about 100 passengers. Light express will also be carried, but no freight.

### BICYCLE HITS CAR, AGED CYCLIST IN LOCAL HOSPITAL

Archie Staples, 62, suffers Fractured Legs, Cuts and Bruises

Archie Staples, aged 62, of Nashwaaksis, suffered two fractured legs and cuts and bruises when the bicycle which he was riding crashed into a car driven by Fred Wilkins, of Stanley, on Saturday evening.

The accident occurred at about 7.30 just below Nashwaaksis. The Wilkins car was coming toward the city and Mr. Staples was going toward his home in Nashwaaksis.

Constable L. B. Matchett, Fredericton detachment, R.C.M.P., who investigated the accident, stated that the Wilkins car was apparently on its own side of the road, and that it is believed that the dust of passing cars had blinded the cyclist so that he crashed into the approaching car.

The driver of the car had not seen the bicycle approaching and it is understood that it carried no light. Wilkins slammed on his brakes and stopped the car in time to avoid other serious injuries to the aged victim.

An ambulance was rushed to the scene and the injured man hurried to the hospital, when the extent of his injuries was made known. Reports from the hospital today state that he is resting as comfortably as can be expected.

## INTERNATIONAL NEWSPAPER WOMAN VISITS CITY

Covered Many Countries In Orient For the Press

Guest Dr., Mrs. Nugent

Japan Visited En Route to South Africa and Coronation

Miss Henrietta McKaughan of Honolulu is in the city and is the guest of her sister Mrs. G. I. Nugent and Dr. Nugent. Miss McKaughan is an outstanding newspaper woman and has recently returned from an extended trip to the Orient after having visited New Zealand, Australia, South Africa, England and Scotland. Miss McKaughan was born in Edgerton, Kansas, U.S.A. After graduating from Kansas University she took up newspaper work her first assignment being with The Statesman in Boise, Idaho, later going to Portland, Oregon. She later did free lance work for some of the Los Angeles papers in California and for the Maui News in Hawaii. For several years she was engaged as a free lance correspondent for the Honolulu Advertiser and British Periodicals in Honolulu where she resided for eight years.

Two years ago this energetic newspaperwoman left Honolulu and sailed for New Zealand where she spent five months. In Australia she put in six months. Enroute to South Africa she travelled through Japan and parts of China and after her stay in South Africa she sailed for England where she covered the Coronation for the International News Service Company. Her wide travels through so many important countries of the world as an observing journalist have given Miss McKaughan a chance to draw conclusions for herself and she has many interesting comments to make on the various countries that she covered for her papers.

### English Popular with Japs

In Japan much English is spoken by foreigners as well as among the natives. The Japanese are learning English rapidly which is being taught in the schools and modern progress is the order of the day in the Nipponese country. All Japanese whether rich or poor would not think of missing their daily hot bath although they are not so clean in other ways, there still being primitive habits contrary to the rules of hygiene. Houses are properly lighted and Western influence and jazz are rapidly influencing the Japanese who however seem to be lacking in their hygienic food preparation methods.

While in Japan Miss McKaughan was stationed in Kobe and wrote for English papers which were conducted by Japanese.

In Tokyo there are two English papers, the Japan Times and the Japan Advertiser.

### Cosmetics Not Used

In New England the women drew admiration from the correspondent who stated in her interview with The Daily Mail that she found the New Zealand women different in that they were not slaves to cosmetics. They were charmingly simple, old fashioned and led natural lives without depending on artificial ways of enjoying themselves. The inhabitants of New Zealand are almost entirely of British origin.

In Australia there is a tendency to fall into American rather than British influence. There is a strong inclination to mold manners and ways of thinking according to New York and other American fashions. In South

### Infantile Total Reaches 102 Mark Since Saturday Last

In spite of continued cool weather for the past three weeks, the number of cases of infantile paralysis in New Brunswick spurted ahead over the weekend. Twelve new cases have been reported to the Department of Health and Labor since press time Saturday, and one death, that of a child in Gloucester County.

Eight of the new cases are at Saint John, two of the cases having broken out in families of which one member already had contracted the disease. One case was reported at Fair Vale, Kings County, one at Grand Bay, Kings County, one in Carleton County, and the one in Gloucester County, which later died.

The total number of cases which have been reported since the first outbreak of the disease now stands at 102, and the total for Saint John City is 63. The death in Gloucester County is the first reported in several weeks, and makes the death total as four.

Three of the new cases are women, 20, 22 and 28 years old.

## MARITIMES NOW PRODUCE ENOUGH HOGS FOR HOME MARKET, STATES S. E. TODD, SEC'Y CANADIAN MEAT PACKERS

N. B. Making Good Progress In Developing Hog Industry; Quality of N. B. Bacon Good, But Room For Improvement in Types and Feeding Methods; Canada to Export 190 Million Pounds of Bacon This Year

For the first time in many years the Maritime Provinces are producing enough hogs for home consumption, and for the first time in the history of the Swift Canadian Company plant at Moncton there has been a sufficient supply of hogs to enable the plant to enter into the export market, it was stated by S. E. Todd, Toronto, secretary of the Council of Canadian Meat Packers, in discussing the condition of the Canadian hog industry with The Daily Mail. For the past year Swift's Moncton plant has been shipping a car load of hog products per week for the export market.

### Inspects Hog Districts

Mr. Todd, who arrived in Fredericton Friday, was extremely interested in the work being done by the provincial Department of Agriculture in encouraging hog-raising. He travelled to the up-river hog raising districts, where he inspected the methods used, and on his return Saturday spent the afternoon at the Dominion Experimental Station reviewing the work being done there.

In reviewing the Canadian hog situation in its entirety, Mr. Todd stated that in 1932, when the Ottawa Agreements came into effect, which conceded to Canada a 280 million pound market for bacon in Great Britain, we exported a mere 11 million pounds. So great has been the development of the industry in this country since then, Mr. Todd stated, that this year it is expected that between 180 and 190 million pounds of Canadian bacon will be exported to Great Britain.

### Hog Market Sound

However, great as this figure may seem, Mr. Todd said, there is still a chance for a great increase in the size of the export trade. The market for hogs is sound, and will remain so, he stated. The cheapness of feed this year makes hogs a very profitable and safe investment for the Canadian farmer, he said.

That New Brunswick is coming along "pretty well" in developing the hog industry was the belief expressed by the official of the Packers' Council. Three or four years ago, he said, the Woodstock district was not shipping any bacon. So far this year, seven or eight cars have been shipped from Woodstock, with more to come, making a probable total of about 15. The Maritimes are now helping to build up the English market, Mr. Todd said.

### N. B. Bacon Good

The quality of New Brunswick bacon is good, he said, but work must still be done in getting more finish to the hogs. Hogs should weigh between 200 and 210 pounds when marketed, he said. Improvement in feeding methods will bring about a better finish. Attention should also be paid to improving the type of hog, that is, improving the physical conformation of the animal by selective breeding so that its frame will be able to carry more meat.

Mr. Todd remarked on the splendid opportunities of New Brunswick farmers, especially those in the potato belt, for raising hogs. Potatoes, he said, combined with some grain make excellent feed for the animals.

## BLOWOUT HURLS CAR OFF ROAD NEAR LINCOLN

T. D. Clark Rendered Unconscious As Car Crashes Into Pole

T. D. Clark, Aberdeen Street, narrowly escaped serious injury when his car was hurled off the road by a blowout and crashed over a six foot bank into a telephone pole near Lincoln this morning. He was found unconscious in the wreck by Bert Nason of Rusagons, and rushed to this city for medical attention, where it was found that he was suffering from bruises and minor injuries.

The accident occurred at about 10.30 this morning as Mr. Clark was proceeding toward Fredericton, after a business trip outside of the city. The car, it is believed, was travelling at a fair speed when it suddenly lurched toward the right side of the road and over the embankment.

### Top Smashed In

The car left the road at nearly a right angle and then rolled on its side up against a telephone pole. The top of the car was smashed in, stunning the driver.

The Nason car happened along shortly after the crash. The occupants saw the overturned car, but at first thought that it had been there for some time. They stopped however, and were startled to see the form of a man slumped in the seat behind the wheel.

The car was rolled back on its wheels and the driver extracted and

## CITY WILL HAVE TO REMEDY THE SUBWAY AREA

Claim Subway Dangerous at Cor. Brunswick and University Ave.

Practically Blind

Roads, Streets C'm'tee Will Take Action To Avoid Accidents

A large number of people yesterday visited the area of the subway at the intersection of Brunswick Street, University Avenue and Waterloo Row. The subway at this point which is nearing completion presents a very nice appearance. General dissatisfaction however was expressed at the main portion of the subway situated at the foot of Brunswick Street and directly at the intersection of University Avenue. It was pointed out by practical people who were in the position to know that in their opinion the subway extends at least fifteen feet too far at Brunswick Street and that its situation makes it practically impossible for drivers of cars coming in University Avenue to see a car coming down the through street on Brunswick Street. It is contended that unless the city places some special signal at this point that it will be almost impossible to avoid accidents. It is claimed that the engineer of the railway made a mistake in placing this subway so far out on the street line when it could have easily been avoided, and that the error was not properly checked up by the local roads and streets authorities. This condition of affairs was pointed out

## Chief Justice J. H. Barry Is Granted a Leave of Absence

His Honor Chief Justice J. H. Barry of the Kings Bench Division of Supreme Court has been granted a leave of absence until the first of the coming year. Chief Justice Barry has been twenty-eight years on the Supreme Court Bench having been appointed in 1909 at the same time as the late Hon. H. A. McKewen. Chief Justice Barry has many friends throughout the province who will extend to him best wishes for a well earned vacation.

taken to the other car, where he soon regained consciousness.

It is believed that Mr. Clark may have suffered a chipped shoulder bone, but that injuries are not of a serious nature.
