Cattle in Europe seem to be getting more from the pastures there than cattle in this country are getting from a growth of grass of a similar height. This is due to European feeding of pastures with various forms of lime, he stated. N. B. producers must consider these things, he claimed, and to do so must go back further than the cow.

Dairy producers in this province must also see that their products get to the consumer in the best possible condition. For this reason, he explained, the government has established rules to govern the grading of butter and cream.

RESIDENCE OF PROF. TURNER BROKEN INTO

A few days ago the residence of Prof. E. O. Turner situated on Alexandra Street was broken into and ransacked. Prof. Turner and his family are out of the city. The police who visited the scene claim that nothing was stolen and that the entry was evidently made by a number of children who were playing about the neighborhood. This is evidenced, they state, by the fact that a number of sea shells were spread out on the bed as though the children had been playing with them.

There has recently been a number of complaints made about houses in different parts of the city being broken into during the absence from the city of their owners.

TO ATTEND CONVENTION

Rev. John Linton, pastor of the George Street Baptist Church, has left for Wolfville, N. S., where he will attend the Maritime Baptist Convention beginning there tomorrow. The convention will continue until next Sunday.

MINOR ACCIDENT YESTERDAY

Slight damage to the car and a shaking up received by the occupants was the result of a minor accident near Jemseg yesterday when the car owned by R. B. Wallace of this city and containing Rev. J. A. Corey, Doaktown, went off the road on a sharp curve and tilted on its side. Neither occupant of the car was injured, while the damage to the car consisted of dented fenders and scratches. The accident occurred about four miles beyond Jemseg while Mr. Wallace and Rev. Mr. Corey were on their way to Wolfville, N. S. to attend the Baptist convention being held there this week. The accident forced them to return to the city and abandon their trip.

CAT WARNS

(Continued from Page Eight)
flames, the firemen fought their way into the cellar inch by inch to get the hose on the flame-wrapped beams below. Gas masks were necessary to allow the men to stand the smothering gases, and the terrific heat forced them to take short turns at the nozzles.

After battling the flames from 3.20 a. m. until 7 a. m., the fire, which it is claimed may well have been one of the worst in the history of the city, was extinguished. The fire fighters kept the flames confined to the cellar of the establishments so that little damage was done to the buildings proper.

Smoke and heat damage, however, will amount to roughly \$1500 in the tobacco store, while damage to fixtures and stock in the jewelry store cannot be estimated by the owner. According to the popular belief at the scene of the blaze, loss will be at least \$3000. Repair costs to the buildings will be approximately \$1200, it was estimated by Fire Chief Karl A. Walker.

The building and the stock of both stores were insured, it was stated. A survey of the damage done by the flame shows that carrying beams and supporting posts in the cellar are literally burned to ash, while the whole underside of the floor under the tabacco and jewelry store was unwrapped in the flames. Some fire came up through the walls, necessitating their opening by the firemen to check the advance.

The terrific heat generated by the blaze coming up through the floors scorched the paint on the walls and fixtures of both stores, and did considerable damage to the apartments on the second floor. Smoke and heat damage to the tenants upstairs has not been estimated. In the Ryan apartment furniture is a total wreck, in the words of the owner. Upholstery is burned by the dry heat to he point that it crumbles at touch.

Damage to Delcina's beauty parlor, which has recently been opened, was not so great, the equipment and fixtures receiving no damage. The walls and ceilings of the establishment were badly damaged by smoke however, and redecorating is proceeding at once.
