

BEAVERBROOK SCHOLARSHIP WINNERS ANNOUNCED

MAKE STUDY OF EDUC. SYSTEM IN NEW BRUNSWICK

Meeting of Educational Committee of the N. B. Farmers' & Dairymen's Assn. Ended Tuesday.

Members Leave Today

Recommendations To Be Made To the Association At Its Next Convention.

A study of the educational situation in New Brunswick, particularly as it applies to the rural sections of the province, and as it concerns the youth destined to live in the country, was made at the second meeting of the Educational Committee of the New Brunswick Farmers and Dairymen's Association held in the office of the Deputy Minister of Agriculture yesterday and Monday.

Several resolutions were adopted, and will be presented to the next annual convention of the N. B. Farmers and Dairymen's Association.

Members of the committee present were: Chairman Frank Dolan, Reynolds; J. E. Comeau, Bathurst; A. C. Gunter, Gagetown; J. K. King, Deputy Minister of Agriculture for N. B.; Dr. A. S. McFarlane, Chief Superintendent of Education for N. B.; J. E. DeGrace, school inspector, Campbellton; A. J. Gaudet, St. Joseph; Miss Muriel Lutes, Lutes Mountain; E. F. Pineau, Carleton Place; and Mrs. W. H. Prescott, Baie Verte.

Foresters To Meet Here In December

The first annual meeting of the newly organized Maritime Section of the Canadian Society of Forestry Engineers will be held in this city early in December of this year, it was decided at yesterday's session of the first (and last) annual convention of the now defunct New Brunswick Section.

The forty members of the N. B. section have amalgamated with the six members of the Canadian Society residing in N. S. to form the Maritime Section. The forestry experts left for their homes yesterday afternoon and night.

Aged Stanley Resident Passed Away Today

The death occurred at an early hour this morning of Simon E. Foreman, Stanley, at the home of his daughter, Mrs. L. E. Keenan, 321 Saunders Street, this city.

The deceased was a life long resident of Stanley, and a well known and highly respected member of the community. He possessed a great circle of friends and acquaintances, and was well loved by the younger people of the district. His passing will be felt as a great loss to the community.

He is survived by his wife, one son, John C. Foreman, Stanley; and three daughters, Mrs. Guy Flynn, Stanley, Mrs. Leo Fourville, Long Island, N. Y., and Mrs. L. E. Kennan of this city. Also surviving is one brother Ronald Foreman, Stanley.

Funeral arrangements will be announced later.

NEWS BRIEFS

CANDIDATE FOR COUNCILLOR
Cyril Brewer, Burt's Corner, is the unanimous choice of the people of that parish as a candidate for parish councillor in the coming county elections, Sept. 7.

CABINET MEETING
Routine business only was considered at last evening's session of the provincial cabinet, it was announced by Hon. A. A. Dysart, K.C., premier and minister of public works. The cabinet is meeting again this afternoon.

FIRES ALL OUT
"All's quiet on the New Brunswick front" was the word given out this morning by J. Edwin Hall, assistant chief forester for the province. There have been no new forest fires reported during the last three days, and all fires which have burned during the last couple of weeks are now officially out.

MAY SOLEMNIZE MARRIAGE
According to today's issue of The Royal Gazette, Rev. Cecil Grant, of Danforth, Maine, has been registered temporarily from Aug. 20 to Sept. 30 to solemnize marriage in this province. Rev. Grant is a United Baptist clergyman. Rev. Frank Baird, Chipman, a clergyman of the Presbyterian Church in Canada, has also been registered to solemnize marriage.

ROBT. E. JAMIESON IS WINNER FOR THIS DISTRICT

28 NOW AT U. N. B.

George R. Cowan, Leonard C. Regan, Robt. E. Mair, George A. Bishop, Stanley L. Pringle, Robt. S. McLeod Other Winners.

Robert E. Jamieson, son of Ross E. Jamieson, Prince William Station, is the winner of the Lord Beaverbrook Scholarship for this district for the academic year 1937-38, it was announced this morning by S. Dow Simmons, secretary of the Beaverbrook Scholarship Committee. Young Mr. Jamieson, who will enter the University of New Brunswick next month is a graduate of Fredericton High School of the Class of 1937.

The Saint John district winner is George R. Cowan, son of Charles E. Cowan, of that city. Young Cowan, a graduate of Saint John High School, led the province in the recent high school matriculation examinations.

Leonard C. Regan, son of Mrs. Florence Regan, is the graduate of Gloucester and Restigouche counties is Robert E. Mair, son of Robert F. C. Mair, Tide Head. He is a graduate of Campbellton High School.

The only non-high school graduate who received a scholarship is George A. Bishop, son of Rev. A. S. Bishop, East Pollockville. A graduate of the East Florenceville Superior School, young Mr. Bishop took second place in the provincial high school matriculation examinations.

Stanley L. Pringle, son of Peter K. Pringle, St. Stephen, a graduate of the high school of that town, and Robert S. McLeod, son of John W. McLeod, Penobscis, a graduate of Sussex high school, were the other two recipients of the award.

The Beaverbrook Scholarships, established in 1920 by Lord Beaverbrook, famous London newspaper publisher, are worth \$400 a year, which is to be used in defraying the expenses attendant to a course at the University of New Brunswick. There is an additional \$100 per year available to the student if he chooses to reside in the Lady Beaverbrook's Building on the U.N.B. campus.

Counting this year's winners, there are now 28 students attending the provincial University on the Scholarships. Ninety-nine scholarships have been awarded since 1920, it was revealed.

The members of the election committee are Hon. Mr. Justice C. D. Richards, this city; Hon. Mr. Justice W. H. Harrison, Saint John; and R. Corry Clark, Newcastle.

FIRST SALMON OF SEASON TAKEN AT HARTT'S IS. POOL

Raymond Currie of This City, Lands 6-pounder This Morning — Good Fishing From Now On.

To Raymond Currie, anglers' guide of this city, belongs the distinction of having caught the first salmon on a fly at the Hartt's Island Pool this season. While fishing from the shore this morning near what is known as Wheeler's Rock, he hooked and landed a six pounder.

Due to low water and adverse weather conditions the present season has not been favorable for angling at the Hartt's Island Pool. All indications now point to good fishing from now until the close of the angling season on September 30th. The heat wave has apparently subsided, the water is at a good pitch, and the net fishermen ceased operations on the entire river on August 15th.

Guides who handle non-resident anglers at the Hartt's Island Pool have had many applications for reservations during the last few weeks, it is understood, but have been holding off the applicants pending more favorable weather conditions. Now with the prospects much improved they look for a big influx of anglers at the pool within the next few days.

PATIENT IN HOSPITAL

Mrs. James Morecraft, Harvey Station, is a patient of Victoria Public Hospital. Her condition today is reported as favourable, but it is expected that she will remain in the institution for some time.

MUST IMPROVE GRADE OF HERDS IN THIS PROVINCE, SAYS E. E. LISTER, PRES. HERD IMPROVEMENT COUNCIL

Free Veterinary Service For N. B. Farmers, Says Dr. Akins — All But Five Counties Are Free From T.B., States J. K. King—70 Delegates.

Fifth Annual Meeting Held Yesterday—Election of Officers

"If we, as farmers, would enjoy the same standards of living as city dwellers, we must improve the standard of our herds", stated Earle E. Lister, Harvey Station, in his presidential address delivered yesterday afternoon to the assembled delegates of the fifth annual convention of the New Brunswick Herd Improvement Council. The president noted the great improvement in the economic condition of the farmer during the four years that the Council has been functioning, stating that the prices of beef, butter, cheese, milk and cream have all gone up.

The election of officers at yesterday afternoon's session for the ensuing year resulted in the reelection of Mr. Lister as president, W. H. Huggard, Norton, vice-president; H. N. Flewelling, Fredericton, secretary-treasurer; Stanley Wood, Fredericton, auditor; and Lloyd Sloat, Keswick, a member of the board of directors. Charles Butler, Newcastle, and J. E. Comeau, Bathurst, were elected to the board to succeed Isia Melanson, St. Paul, and James Douglas, Petitcodiac.

The meeting was addressed by H. N. Flewelling, supervisor of the herd improvement service of the N. B. Department of Agriculture; D. J. P. L. A. Donovan, Saint John, veterinary surgeon and chairman of the N. B. Dairy Products Commission; J. K. King, deputy minister of agriculture for New Brunswick; and J. B. Reardon, agricultural representative, who read a paper prepared by Thomas G. Hetherington, director of agricultural extension, N. B. department of agriculture, who was unable to be present.

After stating that the herd improvement associations are becoming increasingly popular with the farmers throughout the province, President Lister stated that in 1927 only 122 cows producing 300 pounds or over of butter fat were discovered by the association tests, while last year 1,011 such cows were reported.

The policy of the provincial department of agriculture at the present time is to give veterinary assistance free of charge to the farmers of N. B. in an effort to stamp out bovine diseases, stated Dr. Akins. "We have made over 1,000 tests of cattle since the veterinary laboratory was established," he continued.

Dr. Akins went to some detail to explain the symptoms, and tests made for Bang's disease, which, he stated, strikes at the very heart of the cattle industry by causing abortions of pregnant animals, and leaves them susceptible to mastitis, or inflammation of the udder. Animals reacting to tests for this disease must be either slaughtered or segregated from the rest of the herd, he stated, in recommending the adoption of "maternity stalls" by cattle breeders, because at the time of calving there is the greatest danger of infection.

Possible Cure
Dr. Lister also discussed the symptoms, treatment and prevention of various other bovine diseases, such as shipping fever and contagious granular vaginitis.

Mr. Flewelling, speaking on "Variations in the Butterfat Content of Milk," stated that these variations are caused by inaccurate and unrepresentative samples of milk taken, day by day variations caused by environment and other factors, and long time trends, influenced by season, age of animal and lactation periods.

Dr. Donovan speaking on non-contagious diseases, treated bloat and milk fever to some length.

Farm Planning Advocated
A comprehensive program for farm improvement, especially in soil fertility, crops and cropping practices, live stock and equipment was suggested in the paper by Mr. Hetherington on the subject of Farm Planning and Management. He recommended that the farmers follow a routine which will keep them ahead of their work all year long, and that they build permanent instead of temporary fixtures. "One of the most progressive steps a farmer can take," he said, "is to plan his farm." He outlined general principles which

CAT WARNS OF FIRE, SAVES LIVES OF SEVERAL TENANTS

Four-hour Blaze Early This Morning At Royal Bank, Beardsley and Aliotis Establishments.

Damage Over \$5,000

Blaze Began in Cellar—Grey Cat Acclaimed As Hero by Local Firemen, Apartments Damaged.

The frantic walls of a grey cat in the Royal Tobacco Store last night awakened the proprietor, "Nick" Aliotis, whose apartment is over the store, in time to escape through the smoke laden atmosphere in his night-clothes, waken the other tenants, and summon the fire department by telephone. At approximately the same time an alarm was rung in from box 34 by Allan Ryan who lived in an apartment over Beardsley's Jewelry Store and who had been awakened by Aliotis. His family also escaped in night attire through the choking fumes. Miss Delcina Robichaud and her sister, Miss Robichaud, who occupy an apartment in connection with their beauty parlor, which is on the second storey of the building, also had a narrow escape through the fumes to the safety of the open air.

The fire began in a coal bin in the cellar, which was littered with paper and waste material. The cellar under the Royal Bank of Canada, the Royal Tobacco Store and the Beardsley's Jewelry store being one, the flames quickly spread along the beams under all three establishments.

When the firemen arrived they found all access to the cellar blocked and were forced to cut a hole through the floor of Beardsley's Jewelry store. Bringing three lines of hose into play against the seething inferno of (Continued on Page Five)

might be followed to advantage by the delegates.

Only Five Counties with T. B. Cattle Akins, There are at present only five counties in the province which are not bovine tuberculosis accredited areas, revealed J. K. King. The counties accredited, however, must be retested every year in order to keep their good name with the American government. In Kings county, he mentioned, less than one half of one per cent of the cattle are reactors, yet this is not an accredited area.

In expressing the belief that the dairy cow is the highest type of agriculture, Mr. King said that this type of cow is the predominate animal in Eastern Canada.

"Nutrition must be given closer study in the future than it has been given in the past," he warned. When this has been done, he said, the farm (Continued on Page Five)
