## October Has His Sorrow

(From The Gypsy)

Not even the heat, the stirring of  
circling birds  
Spread out like trees full blossoming

Not even the heavy stillness  
Of windless air,  
The warm, unbroken quietness,  
Could make him aware.

But summer has curved now he will  
Stoop for a leaf:  
A withered thing that as it fell,  
Assumed his grief.

DAVID SACHS.

## Autumn Leaves

They dropped like wounded birds,  
like stars,

Like drones from out the clouds;  
Singly they fell, they fell in twos,  
They fell in shivered crowds.

Yellow and dun and royal red,  
Plum-purple leaves brown,  
Like plague-infected moths they fell,  
Resistless, down and down.

Rain-pelted, win-driven, elm and oak  
And linden leaves fell sighing.  
Mulberry leaves and laurel leaves  
And flaming sumac dying.

SOPHIE HIMMELL.

## "ASPIRIN" and Your Doctor

Each performs a vital function.

"Aspirin" in relieving headache, neuralgia and other muscular pain. Your doctor in locating the cause and correcting it. Intelligent people do not hesitate to call on both.

● This may sound like strange advice for the maker of a headache remedy to give. But, nevertheless, we give it.

If you are subject to frequent headaches, go to your doctor and tell him about it. He may find the cause of your headaches, correct it . . . and make your life far more pleasant.

On the other hand, if you have an occasional headache, step into the nearest drug store, the moment you feel it coming on, and get a box of quick-acting "ASPIRIN". Take one or two tablets with a glass of water, and see for yourself how quickly relief comes.

We refer to "Aspirin" tablets as "quick-acting", for one reason, because they disintegrate or dissolve in the stomach almost instantly you

take them. Hence are ready to start their work of relief very quickly.

Just drop an "Aspirin" tablet in a tumbler of water and you'll get the point at once. You'll see it disintegrating before it reaches the bottom of the glass! And that's the way one acts in your stomach when you take it.

● "Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.
