The route through the Rocky Moun taims has been tested very thoroughly and it is the belief of the Department of Transport experts that Canada has one of the best of the four transcontinental routes now being used in North America. This route traverses the Rockies through the Crows Nest Pass.

Bearing in mind that this memor-

Montreal-Winnipeg .....

The members of the staff of the Railway to whom this memorandum is addressed will agree that it may

gether with administrative flying officers of the public service. Arrangements have been made whereby the

United Kingdom recommended that, for the development of airline sereration should be sought. The Minister proceeded to give instances in which the facilities of the railway would be of great value to the air line-ticket offices, facilities for the solicitation of express and passen-

where services would be more or the Hon. C. D. Howe, "after the consideration of these matters the government has decided that its agency for transportation, the Canadian Naional Railways, should be the means of organizing this company,

just as it was used as the means for operating such shipping as the government owned, and the means of operating other government transportation facilities.'

It is very desirable in discussing the Trans-Capada Air Lines that emphasis be placed upon the marked improvement that will accrue to the Dominion's mail services as the result of this air line development. No feature of the plan is more important than this. In all arrangements, including the starting time of the planes from important terminals, the policy will be carried out that the mails must go through in the quickest possible elapsed time, proferably

TRANS - CANADA

(Continued from Page Two) Transport, has been engaged in form ulating plans for the new services. Seven planes of the latest type, suit able for carrying mail, express and passengers, have been ordered and three of these will be delivered dur-

ing the present summer. The three planes to be delivered first are each capable of carrying ten passengers. They are Lockheed Electras. Delivery of two of these 10-passenger planes is expected in July, the third pany for the seventh consecutive in August. These planes cost approximately \$75,000 each and will certs, to be broadcast weekly over have a cruising speed of 180 miles the NBC-Red Network from 3:00 to per hour. In December, it is expected that delivery will be made of the four 14-plassenger Lockheed-Ee'etra

planes. These cost approximately \$110,000 each and will have a cruis ing speed of 200 miles per hour. All seven of these planes are twin-engined, each engine having sufficient power so that in case of the failure of one engine the plane could fly over the Rockies. With one engine the plane could also take off from landing fields.

The training of Canadian pilots to handle these planes is proceeding and will continue for some months to come. They will be given concena group of distinguished musicians trated practice in instrument flying, as guest soloists. The first of these and will be made thoroughly proficiwill be Ernest Hutcheson, eminent ent in what is known as flying on pianist, to be heard as soloist in a the radio beam.
