

Subway Road To Be Ready In Ten Days

It was stated yesterday by Ald. David McCaughey, chairman of the Roads and Streets Committee of the Fredericton City Council that a temporary road through the subway area would be constructed either today or Monday. Today Ald. McCaughey learned from the contractors of the subway that it would be impossible to have this roadway finished for at least ten days.

Engineers who have examined the conditions in the middle of the road near the subway find that there is considerable work to be done, and that the stringers which will have to be used on the surface owing to water difficulties will not arrive here for another ten days. The work in this area has been much more difficult than the general public appreciates, it was stated, and that has caused the delay about which there has been considerable adverse criticism on the part of the citizens.

ANOTHER DAY!

The sun climbs up in splendor in the east. And floods the world with warm and golden light. It comes to bless a world with promise new, Another Day!

The night was long, the shadows gathered close, And far away the bright dawn seemed to be; Yet every hour, near and nearer came Another Day!

Thus with our lives when Failure's night is long, And we have lost the gleam of Hope's own star, There yet remains, another chance to win, Another Day!

MERIT RATING

(Continued from Page Eight) interior furnishing were discussed. It is felt by members of the association that native woods are unjustly condemned for this use, especially on account of knots, and that woods which are imported can be matched for fineness of grain in New Brunswick.

Twenty-two members of the Society were present at this morning's meeting, with President Emery D. Smith, Saint John, presiding. Other officers were: vice-president, Leonard Lockhart, Moncton; secretary-treasurer, Charles S. Christie, Jr., Saint John; directors, A. L. David McCaughey, Fredericton, H. Wallace Sussex, H. THE MEADOW

This is the final dusk before the haying, The high grass stands eager and green beneath the green of evening. Oh, let the hands

eager for the scythe be stopped a day, let not be laid this meadow low tomorrow, let there be staying of the sharpened blade.

Let the wet cloud blown down from the hidden mountain halt the brown mowers, for a last time let the swinging meadow rain be knotted with flowers!

—Frances Frost.

INCREASE CREW

(Continued from Page Eight) ing at the office of the chief forester but it is known to be small. It is being fought by a small crew under the direction of the district warden, Arthur G. Hill, and the county councillor. The fire is burning on granted land.

The two small fires at Spruce Lake in Saint John county, were stated to be under control. No report on them has reached the provincial office in the last two days. The scene of the recent fire at McBain Brook, on the Nashwaak, is still being patrolled, although the fire is stated to be out. It is believed that the blaze at Barbour Dam, near McAdam, is either under control or out, since no report has been received on it for two days.

The hot dry weather of the past few days has greatly increased the danger of fires, it was stated by Mr. Hall. The relative humidity of the atmosphere has dropped, making the extinguishing of fires more difficult. A steady, two day, province wide rain is necessary to alleviate the dangerous condition which exists, it is believed.
