Officials of the "big fair" have decided to put all their eggs in one basket—to give the C.B.C. full charge of all broadcasts originating on the grounds. And the network according to all plans, is sparing no effort to "cover" every angle of the "Ex" both for its own chain of stations from coast to coast and for the many independent stations of Canada.

SOMETHING LESS THAN WAR

Until diplomacy finds the face-saving formula or is forced to give up, the world will be asked to look upon the havoc and carnage of Shanghai as something less than war. Thousands dead in five days' fighting, a city in flames, two armies at grips along a thirty-mile 'front,' a Government prepared to abandon its Capital, to the 'un-understanding' layman are fairly conclusive signs. But only the most cynical would be so incautious as to jump to 'unsupported conclusions' in the absence of a formal declaration. Diplomacy, the seemingly shameless instrument of perverted statescraft, while saving faces, must itself avoid the humiliation of having guessed wrong should Chinese resistance suddenly melt.

It is through the processes of the same diplomacy that an aggressor is able to turn a local incident, such as the killing of two Japanese naval men, into wholesale death for thousands of innocents. The direct responsibility for those killed by Saturday's bombings admittedly rests upon the shoulders of the Chinese authorities. As an act of aggression they have not pressed any arguments that they were entitled to strike back across the International Settlement because the other Powers have failed to prevent Japan from exploiting their neutrality and hiding behind the skirts of their nationals.

But permit it they did. Whatever crimes the Chinese forces may be accused of, there is not the slightest doubt that there would have been no bombings if Japan had not capitalized that local incident in a dramatic show of naval force, calculated to compel Nanking to accept her terms in the North, and calculated to keep Western intervention confined to anaemic notes of protest. Rather pathetically it has been suggested that Tokio 'can ill afford at one and the same time to infuriate China and alienate the West' in this manner. Japan did a fairly good job of alienating and infuriating in Manchuria and in the Shanghai slaughter of 1932, but there is no record of her suffering any international handicaps as a result.

Nor is there much likelihood of an infuriated China and an alienated West altering her very good chances of getting away with the present territorial grab. China may fool the diplomats and resist to the limits of making a war of it, but few observers will gamble anything on her chances of winning out. Even success at Shanghai cannot mean victory. At most it would extend the duration of dismemberment operations in the northern Provinces. But, win or lose, an almost certain outcome is that the status of the Western Powers in Shanghai will undergo considerable alterations. Twice the international zone has been used as a trap. It is hardly to be expected that Nanking will let that occur again.

ONTARIO OFFICIALS FIGHT TO HALT PARALYSIS SPREAD

School Opening Delayed in Several Centres—Cases Now Total More Than 300—19 Deaths—Respirators Used With Benefit in Advanced Stages.

TORONTO, Aug. 30.—As a further precaution against the spread of infantile paralysis in York Township, the Board of Health today ordered all public places closed to children under 16 years. Meanwhile Mayor Robbins of Toronto has announced opposition to the proposal that children be barred from attending the Canadian National Exhibition which opened today.

TORONTO, Aug. 30.—Medical science continued its investigation and efforts today to stem the infantile paralysis epidemic which has claimed 19 lives in Ontario in less than three months.

More than 300 have suffered from the disease, and to alleviate conditions among the scores in isolation hospitals and private homes, doctors and nurses are working night and day, principally in Toronto and London, centres of the outbreak.

Respirators known as "iron lungs" are in use for patients in advanced stages of the disease, those whose paralyzed muscles cannot keep their lung functioning. A studied case was at Hamilton General Hospital, where an iron lung was received from Boston.

Condition Improved

Into the appliance was placed a 22-year-old patient and within a few hours his condition was reported improved. The "lung" was breathing for him, giving his body a chance to battle the disease.

Doctors prescribed absolute rest for their patients and in most cases serum was being administered. This was made from blood donated by those recovered from the disease. Fifty donors attended a clinic at Kitchener yesterday, while 60 others volunteered their blood at London where 44 known or suspected cases were under treatment.

Greater accommodation was provided London sufferers last night when 10 persons suffering from other afflictions were removed from the isolation ward of Victoria Hospital to St. Joseph's Hospital, more than a mile away.

Toronto took additional safeguards, the Board of Education ordering that all public and high schools remain closed until Sept. 13. School opening, scheduled for Sept. 1, was first pushed back to Sept. 7 because of the epidemic and then given another hoist.

The School Board also recommended to the Board of Health that children be banned from all public places, including swimming pools, playgrounds and theatres. The advisability of keeping them from the Canadian National Exhibition which opened today was also discussed, but no action was taken.

WEATHER FINE, FIGHT TONIGHT

Experts Still Call Louis To Win By Knockout Under 12 Rounds

NEW YORK, Aug. 29.—With the weather man promising to lend a hand, Joe Louis and Tommy Farr will attempt to go through with their postponed world's heavyweight title match at the Yankee Stadium tomorrow night.

The 23 year old champion and the youthful Welshman who holds the British Empire title, originally were scheduled to settle their argument last Thursday night but Promoter Mike Jacobs ordered a four-day postponement because of rainy weather and also because he hoped the delay might boost a none-to-promising ticket sales.

Promoter Jacobs, who has insisted all along the fight would not cross less than \$300,000, is jubilant. He paid flying visits to both training camps today and hoisted his guess to a gate between \$350,000 and \$400,000 and a crowd of not less than 40,000.

The delay has brought no change in expert opinion. The men who make their living following and writing about fights are almost unanimous in the belief Louis will dispose of the challenger by the knockout route in well under 12 rounds. Most of them say the thunder will strike between the first and seventh heats.

All operations are under the direction of Rupert Lucas of the C.B.C. production staff. He is in charge of a studio set up in the Press building and constructed in such a way that the broadcasts originating there for the network will be visible to a large audience of Exhibition visitors.

TAKE THE HEAT ON HIGH (or Keep In High Gear This Summer)

WHEN the heat comes, some people, like old cars, can't make the grade—they have to slip into "second" or into "low". The heat slows them, saps their "horsepower". Why can I, a youngster of almost 80, who, judged by conventional standards, should be on the scrap heap, drive in high through the hottest summer, defying Mr. Sol, just as in winter I scorn Mr. Zero? The answer is foods. People give no thought at all to the foods they ought to eat, only the foods they like. They follow the herd. Herd intelligence is notably no intelligence at all.

If people would really think, they would realize that bodily health depends upon the blood that feeds the body cells. The blood depends upon the kind of foods which build the blood. Therefore the kind of blood that flows through our bodies can make us shrivel and shiver on cold days and wilt and wither on hot days. The cause of both is viscid, ropy, toxic blood, derived from denatured, dead, demineralized, constipating foods.

Here is how to prove me right or wrong. During the hot spell, make your breakfast of Roman Meal, Bekus-Puddy or Lishus, all you can enjoy with milk or cream, raisins or chopped dates, not body-heating sugar. Make thick enough to chew thoroughly. If hot cereal is not liked, cook any of them the previous night, allow to cool, place in refrigerator and serve for breakfast, with sliced or canned peaches, ripe bananas, fruit jelly, preserve, or honey with cream or milk. Drink iced Kofy-Sub, sweetened with brown sugar, or preferably honey, added while hot, a very delightful and healthful beverage. For noon meal a salad of fresh fruit or raw vegetables, iced Kofy-Sub. For evening meal, a large fruit or vegetable salad, sprinkled with grated nuts, grated cheese or cottage cheese, or lightly steamed vegetables if salads are not liked, as second choice. Any kind of juicy fruit for dessert. Iced Kofy-Sub or hot Kofy-Sub if hot drink is preferred.

Train the intestines to eliminate after each meal. It is of utmost importance to exercise all groups of muscles briskly, fifteen or twenty minutes daily, to the point of deep breathing, to burn up internal poisonous waste. If you do not know how, send fifty cents for my book "SYSTEMATIZED

MUSCLE EXERCISES, illustrated. Rub the body down with rough towel wrung out of hot water in hot weather; cold water in cold weather. Relax muscles, nerves and mind. Do not fret or worry and—well, I stake my reputation on this assertion—follow this program for one month, or at most two, and so remarkable will be your improvement, you will always follow it. Write for University proof that Roman Meal, Bekus-Puddy, Lishus and Kofy-Sub are wonderfully rich in blood-forming minerals, also other important health literature free. Address: Robt. G. For an Early Morning Headache—DO THIS

IN 2 SECONDS BY STOP WATCH
An "ASPIRIN" Tablet Starts to Disintegrate and Go to Work

Drop an "Aspirin" tablet into a glass of water. By the time it hits the bottom of the glass it is disintegrating. "Aspirin" tablets start "taking hold" of pain a few minutes after taking.

What happens in this glass happens in your stomach

Enjoy Relief Before You've Finished Dressing

If you wake up with a headache, just do this: Try two quick-acting, quick-dissolving "ASPIRIN" tablets with a little water. Take them the moment you get up—before you start dressing.

By the time you've finished dressing, nine chances in ten, you'll feel relief coming. You'll meet the day with a clear head instead of suffering for hours.

"Aspirin" provides this quick relief because it is rated among the quickest methods for relief science has yet discovered. And—because

"ASPIRIN" tablets are ready to start working almost the instant you take them. (Note illustration.)

So, next early morning headache you have, try this way.

● "Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.
