"As an laid to industry and in order to facilitate the movement of goods, Motor Vehicle Regulations were amended last fall increasing the gross load to be carried by motor trucks from 12,000 Ibs. to 18,000 Ibs. This is calculated to be the maximum load which can be carried on the paved highways of the Province and leave a

safe margin of protection to the highways and bridges. "This regulation as well as the speed limit for trucks which is 35 miles per hour, will be rigidly enforced and the following officers have been detailed to give special attention to this phase of motor vehicle transport-J.
