

FARMERS INVITED TO "AT HOME" AT GOV'T STATION

Annual Event Opens at Experimental Farm August 11th

All farmers in the province will be invited to attend the annual Dominion Experimental Station "At Home" which is to be held at the station here from August 11th to August 13th, inclusive. Outstanding agriculturists will attend the conferences and assist in the various demonstrations.

C. F. Bailey, superintendent of the station, in his comments regarding the big event, stated: "For several years it has been the custom to hold a number of field days at this Experimental Station during the summer months. Each field day has been devoted mainly to addresses and demonstrations of particular interest to farmers specializing in certain branches of agriculture. It is realized that many farmers are interested in various farm enterprises and would like to attend several field days but they find it impossible to leave home several times during the summer. With accommodation now available at the farm for visitors wishing to stay over night, it is felt that it would be advisable to hold a number of field days on successive days at a time when work on the farm is perhaps less pressing than usual. This will provide an opportunity for farmers to visit the Station, inspect the work of the various departments and obtain information on a greater variety of subjects than would otherwise be possible.

"With this in mind, the first annual At Home has been set for August 11-13 inclusive. A program of general interest has been arranged and special subjects will be featured each day. An invitation is extended to all farmers of the province to attend one or more of these field days.

While the primary object of these field days is to acquaint farmers with the results of experimental work being carried on at the Station, the various divisions of the Dominion and Provincial Departments of Agriculture are giving their wholehearted support to make these meetings a success.

We Are Neighbors

(Continued from Page One)

years. The field is broad, but in whatever direction you may look you will find just cause for pride. We rejoice with you in your past and your present, and in the promise which the future holds.

"Our is an enviable record of friendship and amity as witnessed by an unfortified boundary of more than 5,000 miles as the outward and visible token of mutual confidence and good-will. This friendship between our two peoples is secure from every hazard of destruction or misunderstanding because it is based upon a common aspiration to maintain, to defend and to perpetuate the democratic form of constitutional representative government. In that spirit I salute our neighbor of the North. I congratulate the Canadian people on the successful achievement of the free institutions through three score and 10 years of Confederation. And as one who has spent so many happy moments on Canadian soil, I send you my affectionate greeting."

Lord Tweedsmuir

Lord Tweedsmuir spoke as follows:

"On behalf of the people of Canada I most warmly reciprocate the greeting of the president of the United States. Canada is an old country; as a territorial unit she is older than the United States, older even than New England or Virginia. But the United States became a federated people nearly a century before us, and thereby set us an example. We welcome with gratitude and affection the good wishes of the president not merely as a pledge of fellowship between neighbors and old friends but as the congratulations of the pioneers who blazed the trail for us to follow.

"We are neighbors and friends and we are also colleagues. We are both North American peoples with the making of a new civilization in our hands. We have both behind us a living European tradition which must be the basis of that civilization. And we are both coming to realize that we have certain responsibilities to the world at large, which may still be difficult to define, but which it is probable will have much in common. Marching in the same direction towards the same goal, I hope and believe that more and more we shall come to pool our ideas about the problems of the world.

"I should like to offer to the people of Canada one reflection which I think is appropriate to this day of national remembrance. Seventy years ago the Fathers of Confederation accomplished a great work. They gave Canada union. They could not give her unity. Unity comes only by the process of time, by the slow assimilation of different points of view and different traditions. Canada must have not merely a formal Confederation, but a sincere identity of purpose, and a true homogeneity of spirit. Let us remember today that her destiny is not to be a mere territorial expression and not to be merely nine vigorous provinces, but to be a single and indivisible nation."

ACTOR QUOTES HOLLYWOOD'S 10 MOST FAMOUS LAST LINES

FAMILY HEALTH CARE SET AT \$16 PER YEAR

WELLAND, July 2—Dr. W. K. Colbeck, Immediate Past President of the Ontario Medical Association, who last week at the Ontario Medical Association convention in Ottawa urged industry, labor and the medical profession to co-operate in administering their own health insurance, tonight elaborated on the cost of a scheme of this nature in an address before a Welland Service Club.

Assuming industry would co-operate in financing the plan by contributing from 1.5 to 2 per cent of the payroll, Dr. Colbeck said the complete medical service with full nursing and some dental work could be furnished for \$16 a year for each person. This rate would cover full nursing and would embrace dependents of the insured person. The figure would be reviewed every year and might drop lower, the doctor said.

In urging industry and the medical profession to co-operate in establishment of the plan, Dr. Colbeck said such action would not make it necessary for the Provincial and Federal Governments to act. Should the Governments take over the plan administration costs would be higher and local control will be lost, he believed.

Service is Ready

Associated Medical Services Ltd., is now ready to provide the service he had outlined, Dr. Colbeck said. Should industry adopt the scheme and assign a wage increase of the approximately 1.5 per cent. required for the specific ideal of medical service, the plan would be carried along lines of a scheme in operation in Denmark, where, it is claimed, the best medical service in the world is provided, he declared.

HOLLYWOOD, Calif., July 2—After a long spell of keeping his eyes and ears open, Ray Milland, actor, came out today with a list of Hollywood's "ten most famous last lines."

They are:

1. Director—"Temperamental, eh? I'll show her."
2. Director—"This time I'm going to make a picture without star names—a director's picture."
3. Most any film employee—"I'm holding out until the studio comes to terms."
4. "Watch me put this cameraman in his place."
5. Star—"An interviewer? Tell him I never grant interviews."
6. Producer—"Pictures should be educational as well as entertaining."
7. Star—"I'm too busy for love."
8. Same star—"My private life is nobody's business."
9. Same star—"We're just good friends."
10. And the same star a little later—"Our careers will never interfere with our marriage, will they, darling?"
