

Fredericton Players Among Winners At Saint John Golf Meet

Miss Audrey McLeod, Doug Skinner Keep N.B.-P.E.I. Golf Crowns

Mr. and Mrs. D. W. Wallace, Hon. A. P. Paterson Represent This City in Win Column.

SAINT JOHN, Aug. 17—Miss Audrey McLeod and D. C. Skinner of the Riverside Golf and Country Club, playing on their home course yesterday, retained their New Brunswick-P.E.I. mixed golf championship when they carded an 88 gross.

The defending champions played fine golf but were not pressed although Miss Marjorie Staples and Hon. A. P. Paterson, also of the Riverside Golf and Country Club, topping second division, were only five strokes behind them when play was completed.

The three cornered tie for the lowest net score for first division resulted with the champions, Mr. and Mrs. D. W. Wallace, Fredericton, and Mrs. H. S. Gregory and H. O. Clark of the Riverside Club, all posting 77. As no pair could win more than one prize the latter pairs were awarded prizes for the tie.

An invitation was received from the Fredericton Golf Club to hold the meet on the Capital links next year. This will probably be accepted and although no dates were set it was believed that either July 1 or Labor Day will be selected.

Miss Staples and Hon. A. P. Paterson not only scored the lowest gross in the second division but also posted the lowest net with 68. Mrs. C. W. Armstrong and Joseph A. Likely of Westfield led the third division with a gross of 101 and a net of 78.

At the close of the meet prizes were presented by J. Royden Thomson, president of the New Brunswick-P.E.I. Golf Association. Winners were:

Miss Audrey McLeod and D. C. Skinner, Thorne Cup, donated by W. H. Thorne & Co., Ltd., to be held for one year.

First division: Best gross, Miss McLeod and Mr. Skinner. Best net tie between Mr. and Mrs. D. W. Wallace, Fredericton, and Mrs. H. S. Gregory and H. O. Clark. Prizes were awarded both couples.

Second division: Best gross, Miss M. Staples and Hon. A. P. Paterson. Best net, Mrs. K. T. Creighton and R. J. Hickey, Westfield.

Third division: Best gross, Mrs. C. V. Armstrong and Joseph A. Likely, Westfield. Best net, Mrs. D. G. Fowler and H. N. Springer, Riverside.

Sport Dust

—BY—
"Timmy" Green

We consider that the winner of the York-Sunbury County league gets a raw deal on the draw. The old saying "dirty end of the stick" can well apply here, when the league victor goes directly against the champion St. Croix team and gets kicked out. Then Saint John rolls in the playdown money.

—OO—

The reasonable way would seem that the champs play the some other league winner once in a while, for instance Saint John. Then after they had trampled their way across the Saint John nine, come up against the Devon or Minto team, whichever.

—OO—

The Loyalist City seems to have the cat by the tail and seems to know which way to twist. Of course, with them it's a business, and all's fair, but any Saint John fan who is a true sportsman will agree with this post that after gloating in the playoff money for several years, the fellows who pull the strings should ease up; if for nothing else, at least to make it look right.

—OO—

We are a little in sympathy with Marysville over the playoff dispute, but still believe that the ruling of the league president will be carried out. This post doesn't think it would do the Maroon any good if they did win the dispute. Devon has a little of a playing edge on the Cotton Town team.

—OO—

Jimmy Ekdalook wants a crack at Schmeling, and says that he thinks that he can give him a good fight. Without a doubt Jimmy would give him a good fight, but we can't quite see Jimmy handing Maxie a licking.

—OO—

Max Schmeling won't get a crack at Louis for two or three years. Shrew's management on the part of Louis' handlers will keep Louis out of Maxie's path for a while, and all the time Schmeling is getting older. If Schmeling came up against Louis now, the whites would rule the boxing world again.

MARYSVILLE WON OVER DEVON TWILIGHT GAME

Errors Costly To Devon Nine—Two Home Runs

Marysville climbed over the second place Devon nine last night, pushing them down with a 7-6 tally. Devon lost the game on errors, playing loose ball in several spots.

Hits were evened up, both sides getting nine, making the game mostly a slug-fest. Features of the game were the two homers, one by McIntyre of Marysville and one by Bus McLennahan of Devon. McIntyre swatted his circuit out with no men on, but McLennahan tallied two runs when his homer also brought a man on bases across the plate.

Neither Harris of Devon, or King of Cotton Town pitched ball worthy of comment. Lifford relieved King early in the game and hurled the remaining innings.

This puts Marysville two games behind the Devon squad, and has greatly raised the hopes of the Maroons, giving them a better chance for a play-off berth if they win their contention that the league schedule should be completed.

Batteries were: Devon, Harris and McIntyre; Marysville, King, Lifford, and McPherson. Devon chalked with 6 runs, 9 hits and 5 errors, while Marysville drew 7 runs, 9 hits, and 1 error.

MAJOR LEAGUE TO SANDLOTS

The Reversal of Usual Career for Former Athletic Hurler

PHILADELPHIA, Aug. 17—Big George Earnshaw, who used to breeze them past the batters without much trouble, pitching for Connie Mack's American League pennant-winning Athletics seven years ago, is pitching for a Philadelphia sand-lot team this year, but just the same he's 'happy.'

'I'm perfectly satisfied,' the 'Big Moose' said. 'When I quit the Cardinals at the end of last season there were two things in the back of my mind. First, I wanted to be home with my family. Second, I wanted to be my own boss. Pitching semi-pro ball satisfied both ambitions.'

Earnshaw, a former Swarthmore College star before he gained prominence with the A's, has won 13 games and lost two on the sand-lots to date. They used to think I was a strike-out artist,' he went on. 'Well, I guess I still am, fanning an average of 10 to 12 batters a game. That should prove I'm in shape, if my record is not sufficient.'

JOE MEDWICK AND CECIL TRAVIS LEAD MAJOR BATTING

Joe Only Big Leaguer To Reach .400 Mark—How the Others Follow.

NEW YORK, Aug. 16—Joe Medwick, St. Louis Cardinals outfielder, and Cecil Travis, Washington Senators' shortstop, continued to head the major league batters according to averages released today and including games of Aug. 12.

Medwick dropped from .40 to .383 but still had a 22-point margin over Gabby Hartnett, Chicago Cubs catcher, in second place with .378.

Travis average remained at .383 but gained four points on Lou Gehrig, New York Yankees' first baseman, who remained in second place with .374.

Clay Bryant, Chicago Cubs, held the National league pitching lead with seven victories and one loss. Monte Pearson kept his record unmarred to stay in first place in the American league with six victories and no defeats.

Other Leaders:
Leaders in other departments follow:
Runs—(N), Medwick, St. Louis, 87; (A), Di Maggio, New York, 106.
Hits—(N), Medwick, St. Louis, 160; (A), Di Maggio, New York, 149.
Doubles—(N), Medwick, St. Louis, 42; (A), Bonura, Chicago, 39.
Triples—(N), Vaughan and Handley, Pittsburgh, tied with 10 each; (A), Kreevich, Chicago, 13.
Home runs—(N), Medwick, St. Louis, 26; (A), Di Maggio, New York, 34.
Runs batted in—(N), Medwick, St. Louis, 114; (A), Greenberg, Detroit, 113.
Stolen bases—(N), Galan, Chicago, 16; (A), Chipman, Boston, 27.
Club batting—(N), Chicago, .294; (A), New York, .292.
Club fielding—(N), Chicago, .978; (A), Detroit, .976.

TAKE THE HEAT ON HIGH (or Keep In High Gear This Summer)

WHEN the heat comes, some people, like old cars, can't make the grade—they have to slip into "second" or into "low". The heat slows them, saps their "horsepower". Why can't a youngster of almost 80, who, judged by conventional standards, should be on the scrap heap, drive in high through the hottest summer, defying Mr. Sol, just as in winter I scorn Mr. Zero? The answer is foods. People give no thought at all to the foods they ought to eat, only the foods they like. They follow the herd. Herd intelligence is notably no intelligence at all.

If people would really think, they would realize that bodily health depends upon the blood that feeds the body cells. The blood depends upon the kind of foods which build the blood. Therefore the kind of blood that flows through our bodies can make us shrivel and shiver on cold days and wilt and wither on hot days. The cause of both is viscid, ropy, toxic blood, derived from denatured, dead, demineralized, constipating foods.

Here is how to prove me right or wrong. During the hot spell, make your breakfast of Roman Meal, Bekus-Puddy or Lishus, all you can enjoy with milk or cream, raisins or chopped dates, but no body-heating sugar. Make thick enough to chew thoroughly. If hot cereal is not liked, cook any of them the previous night, allow to cool, place in refrigerator and serve for breakfast, with sliced or canned peaches, ripe bananas, fruit jelly, or conserve, or honey with cream or milk. Drink Iced Kofy-Sub, sweetened with brown sugar, or preferably honey, added while hot, a very delightful and healthful beverage. For noon meal a salad of fresh fruit or raw vegetables, Iced Kofy-Sub. For evening meal, a large fruit or vegetable salad, sprinkled with grated nuts, grated cheese or cottage cheese, or lightly steamed vegetables if salads are not liked, as second choice. Any kind of juicy fruit for dessert. Iced Kofy-Sub or hot Kofy-Sub if hot drink is preferred.

Train the intestines to eliminate after each meal. It is of utmost importance to exercise all groups of muscles briskly, fifteen or twenty minutes daily, to the point of deep breathing, to burn up internal poisonous waste. If you do not know how, send fifty cents for my book "SYSTEMATIZED

The above is from a photograph of Robt. G. Jackson, M.D., taken in his 77th year.

MUSCLE EXERCISES, illustrated. Rub the body down with rough towel wrung out of hot water in hot weather; cold water in cold weather. Relax muscles, nerves and mind. Do not fret or worry and—well, I stake my reputation on this assertion:—follow this program for one month, or at most two, and so remarkable will be your improvement, you will always follow it. Write for University proof that Roman Meal, Bekus-Puddy, Lishus and Kofy-Sub are wonderfully rich in blood-forming minerals, also other important health literature free. Address: Robt. G. Jackson, M.D., Vine Ave., Toronto.

Forecasts 10 Per Cent Increase In Groceries

Outcome of the vegetable and fruit canning crops continues to be the main topic of conversation in the food industry these days, according to Canadian Grocer. Not only canners but jobbers as retail distributors are greatly interested in how respective products will turn out and so far the general situation looks fairly good with most of them. Pea canning is now a thing of the past for this year, and while the various packs are well below earlier expectations considering the acreage, final figures should show an increase of maybe ten per cent over 1936. The pack in Canada last year, however, was comparatively small. A year ago, too, there was thrown on the market a large quantity of canned peas packed by the old Associated Quality Canners Ltd. amounting anywhere from 300,000 up to half a million cases. These have all gone into consumption or retail distributors' hands and are off the market from the standpoint of canners and jobbers. In view of this, there does not appear to be any too large a quantity of canned peas in sight to see us through until July or next year. Packs in different districts of Ontario run all the way from 40 per cent to 70 or 75 per cent of early anticipation. The Quebec pack was late and estimates for different sections there are from 40 to 60 per cent. On the whole, there should be sufficient canned peas but no great surplus.

The corn situation while good in spots is not so good in other areas. This applies particularly to the Essex district where excessive rain in June not only retarded growth but prevented a good part of the seed being planted. Some of it was not in the ground until first week in July, which is going to throw the crop late for canning and into the frost danger zone. From now on the crop and pack will depend on the weather. One large canning company expects its usual pack, but a number of others are not sanguine at all.

With tomatoes, the situation is different, and it looks to be especially good, with one or two exceptions. Acreage is considerably greater than last year in view of the development of export trade. There are forecasts that Canada will export

N. S. Tennis Matches Opened Yesterday

BRIDGEWATER, N. S., Aug. 16—Nova Scotia's annual tennis tournament got underway here with early arrivals playing first round matches.

Don Bauld, the province's first ranking player, won his first match handsily from John Dobson of Halifax, 6-3, 6-3, and Rev. Piers, Harry Roper and Gordon Bauld, other top-rankers in Nova Scotia, also won matches.

Ross Wilson of Toronto, Canada's No. 2 ranking player and favorite to win the provincial championship, had not arrived from Charlottetown where he won the Eastern Canada championship last week and did not see action yesterday.

Don McDiarmid of Ottawa, who defeated Marcel Rainville, former Canadian champion, in a quarter-final match in the Prince Edward Island city last week, and two Toronto players, Vic Topping and Dave Robertson were also to see action today.

FARR LOSES WELCH TITLE

LONG BRANCH, N. J., Aug. 14—Replying to an announcement from London that the British Board of Boxing control had declared his Welsh heavyweight title vacant because of his failure to defend it, Tommy Farr, training for his heavyweight title bout with Joe Louis, August 26, declared his willingness to meet any opponent named by the board.

Farr, who holds the British Empire crown and won the Welsh title with a seven-round K. O. of Jim Wilde last September 14, added:

"I have never barred any opponent, but the reason I have not defended my title is that no suitable challenger has appeared."

"The weather-man said fine and cool—"
"He must have been thinking about Sweet Caps!"

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."—Lancet

anywhere from half a million to 700,000 or more cases this year. These forecasts cannot be confirmed as there are so many in the business, and we shall have to wait until Government figures reveal the situation exactly; but undoubtedly Canada is securing a permanent market in the Old Country as well as in Newfoundland for substantial quantities of canned tomatoes. The new pack, too, will come on a fairly bare market so that the situation is a healthy one. Similarly a big pack of tomato juice is anticipated. Last year it was double previous one and we may see still larger packs this year provided the weather man does not play any pranks out of the usual between now and early October.

One large package tea firm has advanced one of its grades four cents to the retailer and five cents to the consumer in view of the firm primary market. Tea importers see little let-up this year in spite of the extra five per cent being exported from producing countries. A number of firms selling special blends have also advanced and it would be no surprise to see other package houses increase prices on one or more of the lower grades within the next month. Coffee continues to be destroyed in Brazil on a wholesale scale. No less than 48 1-2 million bags have already been burned or sunk in the ocean, which is more sufficient to last the entire world two years. This year, Brazil is destroying more than in any former year with a possible top quantity around 16 million or 17 million bags of 132 pounds each.

THE FOREST INDUSTRIES

The forest area of Canada on which there is timber of merchantable size is larger than the total area of France and Germany combined; the standing timber on this is estimated at 274 billion cubic feet. An area of even greater extent is covered with young growth.

This vast reservoir of wood is the source from which Canada drew wealth in excess of \$110,000,000 in 1934 (the latest figures available) in the form of primary products such as:

- raw material for saw-mills, pulp mills, wood distillation, charcoal plants;
- logs, pulpwood, bolts, etc., for export;
- firewood, railroad ties, posts, poles, fence rails, mining timbers;
- maple sugar, balsam gum, resin, cascar, tanbark, moss, etc.

The total value of manufactured products made principally from raw materials of forest origin was \$404,435,948. Forest products in 1936 afforded an excess of exports over imports—\$158,560,000—very important to Canada's international trade.

The Bank of Montreal has co-operated with every activity of the forest industries—assisting in every phase of production and marketing. The Bank has had the privilege of financing a large share of the export business of these industries. Thousands of workers are depositors, sharing in the safety and facilities of the Bank with their employing companies.

Some of the Bank's services most frequently used by employers and employees in the forest trades: Commercial accounts, foreign currency accounts; financing of shipments; commercial loans and discounts; collections; trade and credit information, safekeeping of securities; savings accounts; personal loans; money orders; travellers cheques; banking by mail.
