

GOLD IN THE HILLS

Central Kingsclear

CENTRAL KINGSCLEAR, Jan. 11.—Ruby Jewett of Keswick Ridge who has been visiting Mrs. John Black, has returned home.

Mr. and Mrs. Geo. McKay, Mr. and Mrs. Dennis McKay and Earl McKay were guests of Mr. and Mrs. Norman Burden on Sunday.

Miss Myrtle Barr of Macnaquac has been visiting friends here.

Oswald Gray, Walter and George Gallagher, Hazen Goodine, Francis Martin, and Charles Trimm have gone to the lumber woods in different parts of the province.

The farmers are anxiously waiting for the fall or more snow to haul hay, wood, pulpwood, etc.

The roads in this vicinity are very icy, but in good condition for car traffic.

Miss Irene Goodine had the misfortune to fall on the ice last Tuesday on her way to school and break a bone in her elbow. Consequently our school is closed for a few weeks but friends of Miss Goodine hope she will soon recover from her injury and be able to resume her duties as teacher of our school.

Friday evening of the week of prayer, our pastor Rev. Harold Rowley assisted by Rev. Mr. Harper of Macnaquac, conducted service in the United church. Professor Hill of N. S. was also a speaker along the lines of the Shantymen's Association. Mr. Harper's text for the evening was: "All things shall be made new."

Miss Ella McIntyre of Barker's Point, who has been visiting friends in this place, has returned home.

We are glad to report that Guy Anderson is gaining daily after his serious accident.

Mr. and Mrs. John Goodine and children spent Sunday afternoon with Mr. Goodine's mother, Mrs. Frank Goodine.

The regular church services were held in the United church and in St. Ann's church on Sunday morning.

The condition of Alex. Martin remains unchanged.

"Although the last thirty years have been crowded with advances, I believe the next thirty years will be even richer in fulfillment than the past."—David Sarnoff.

WATCH PATENTS, TOURISTS URGED

OTTAWA, Jan. 12.—Canadians importing radios or other articles from the United States or elsewhere will be well advised to make sure they are not infringing patent rights in this country, according to authorities here.

It is pointed out that millions of dollars have been expended in the development of apparatus and machinery of all kinds, and that it is but fair that the inventor, or the manufacturer who buys his invention, must be protected.

To give an idea of the fortunes spent in developing articles of common use, it is recalled that Thomas A. Edison spent \$3,000,000 in perfecting the ordinary storage battery which sells for six or eight dollars.

It appears that many Canadian tourists who go to the United States and take advantage of the regulation permitting free importation of goods to the value of \$100 have been running the risk of a lawsuit for the infringement of patents. Doubtless they have violated the patent law quite unwittingly. If they bring in radios or other articles and do not boast about it to their neighbors, the owners of the Canadian rights have no means of knowing and no legal action will result. The law really is intended to prevent the wholesale importation of articles from manufacturers abroad who have not acquired the right to sell in Canada. Large importers, like the department stores make sure before they buy foreign goods that they are not infringing any rights held in Canada.

J. T. Mitchell, Commissioner of Patents in the Dominion of Canada, says with respect to the purchase of American radio receiving sets by Canadian tourists that a patent may be infringed by importation, and as the art pertaining to radio apparatus is extremely well developed, importation and sale of radio apparatus must not be undertaken without a very careful examination of the patent situation to avoid the possibilities of an action for infringement.

Winnipeg, Jan. 12.—Deprecating any move to supervise or control the Winnipeg Grain Exchange, W. J. Dowler, President of the Exchange, told the Turgon Royal Grain Commission recently the Exchange Council had never opposed appointment of a supervisor as recommended by the Stamp Commission inquiry in 1931. No action toward appointment of such a supervisor was ever taken.

On the witness stand throughout the day, Mr. Dowler declared the volume of speculative interest had always been overestimated; the open market and futures method of trading was the most efficient, and the major objectives of Government policies should be the elimination of international trade barriers and advertising of the quality of Canadian wheat.

Regulation Undesirable

Raising of the question of eligibility for membership of co-operative companies paying patronage dividends led to filing of the constitution and by-laws of the Exchange as exhibits. Mr. Dowler said that to his knowledge no applicant for membership had been turned down for that reason.

Thousands Visit

(Continued from Page One)

Never since its foundation has the Oratory received so many visitors in such a brief period of time, according to Capt. J. McEnroe, who has been in charge of traffic since last Wednesday, the day of Brother Andre's death, unfavorable weather and long delays did not in the least discourage the visitors. Yesterday and today, they patiently and slowly made ascension of the long stairways. They barely had a glimpse of Brother Andre, but they returned satisfied. They had seen the "Miracle Man of Montreal" whom they had so often admired before during pilgrimages and special services at the shrine.

Fires Last Night

A chimney fire and an overheated pipe called the firemen out last evening, neither causing damage. The chimney blaze was at the Colter home on George Street and the overheated pipe was at the residence of Ald. T. Earle Doohan on Regent St.

SOCIAL HAPPENINGS

Golden Rule Circle, King's Daughters

The Golden Rule Circle of the King's Daughters met last night at the home of Miss Coulter, George street, with a good attendance. Miss Annie McLaggan, first vice-president, presided over the meeting. The meeting opened with singing of the King's Daughter's hymn. Mrs. R. A. MacMillan led the devotional period, reading a New Year's message from the Dominion president, Mrs. Logan. This was followed by prayer. Mrs. McVey read a New Year's message from the international president Mrs. Leibel. Yearly reports were given and the following officers for the coming year elected: President, Mrs. Elinor King; first vice president, Mrs. R. A. MacMillan; second vice-president, Miss Annie McLaggan; secretary Miss Lena Cook; treasurer, Miss Helen Robinson; corresponding secretary, Mrs. Roy Cameron. Five delegates were chosen to attend the Social Service meeting on Monday night, also three delegates for the Children's Aid Society on February 2nd. The meeting came to a close with the singing of the hymn and repeating the King's Daughters' Prayer.

Senator and Mrs. W. E. Foster and their daughter, Miss Joan Foster, left Rothesay the latter part of last week for Ottawa, where they will be in residence during the parliamentary session.

Women's Press Club Competition

"What Interests Me Most in a Newspaper and Why, has been chosen by the New Brunswick Branch of the Canadian Women's Press Club as the subject for this year's prize contest. Every girl residing in New Brunswick who has not yet had her twenty-first birthday is eligible for the \$10 prize competition, the article not to be more than fifty words in length. Saint John members of the branch, at their meeting on Saturday evening at the residence of Mrs. B. P. McCafferty, Orange street, arranged for the committee to select the entries most eligible for the award and present them at the next meeting on March 13, at residence of Miss Alice L. Fairweather. It is hoped to announce the winner of the award following the March meeting. The evening's programme was in charge of Miss Jessie I. Lawson, editor of the Educational Review. Miss Lawson read extracts from "Bliss Carman, a Portrait," by Miss Muriel Miller, daughter of Mr. and Mrs. S. S. Miller, Fredericton, which book won for its writer second place in the Canadian Women's Press Club National literary competition. Interesting excerpts from two of the latest publications were also included in the evening's programme. They were "Cap and Bells," a selection of humorous and lighter poetry by Canadians compiled by the late John Garvin, and "Poems" by Frances Shelley Wees of Toronto. Mrs. Wees is a member of the C.W.P.C., who visited Saint John and Fredericton last year on her first trip to the Maritime Provinces.

Fredericton Jct. B.Y.P.U.

At last night's session of the B.Y.P.U. the following officers were elected: President, Miss Lois Shearer; vice-president, W. Dow Alexander; secretary, Gordon H. Westrup; treasurer, H. F. McCracken; organist, Maurice P. Boone; ushers, Misses Margaret Sealey and Ivy Allen; auditor, H. H. Stuart. A good programme was carried out, including addresses by Rev. H. G. Westrup and H. H. Stuart and readings by G. H. Westrup and Misses Bertha Redstone, Sealey and Allen.

The Tuesday evening bridge club will meet tonight at the home of Mrs. B. H. Hagerman, Lansdowne street.

Mrs. Kenneth Scott entertained last evening at the home of her mother, Mrs. J. H. Hawthorne. Bridge was played at which Miss Louise Sterling was the winner.

Spoke on Rembrandt

DR. JULIUS HELD

Professor of Art at New York University, who gave a delightful lecture on Rembrandt, at the Provincial Normal School last evening, under the auspices of the National Gallery of Canada. The lecture was both interesting and instructive and was heard with attention by all with the exception of a few students in the rear of the hall who had to be called to order by the speaker. The lecture was appreciated.

Miss Muriel Clarke, of Ripples, is spending a few weeks' vacation in Port Fairfield, Me., with relatives and friends.

Miss Helen Coburn who is a student at the Minto High School, spent the week-end at her home in Ripples.

Miss Jean Porter who has been the guest of Mrs. Joseph Arbeau, is returning to her home in Saint John tomorrow.

Miss Dorothy Palmer who has been visiting at Niagara Falls for the past few weeks, is expected home on Saturday.

Mrs. George E. Howie entertained a few intimate friends at a delightful tea on Saturday afternoon at her residence on Waterloo Row.

Mr. and Mrs. Leo F. Cain had as their guests for dinner over the weekend Miss Nan Kelly and Miss Esther Taylor of the Fisheries Department.

Miss Maggie Jean Chestnut, who spent the week-end with friends in Saint John, returned home yesterday.

Mrs. Leo F. Cain underwent a minor operation at Victoria Public Hospital today. During the time that she is at the hospital Mrs. Cain's brother R. Guay, B.A., student of the Provincial Normal School, is supplying for her at the Vocational Evening classes.

J. Springer of Montreal, is a guest at the Queen Hotel today.

W. E. Neve, of Truro, N.S., is registered at the Queen Hotel this afternoon.

W. D. McGachie, of Toronto, is among those registered at the Queen Hotel today.

Miss Molly Barry is entertaining at a children's party this afternoon for her little niece, Mary Rita O'Brien of Nelson.

The Picardy Chapter I.O.E. held a get-together meeting yesterday afternoon at the residence of Mrs. J. H. Ramsay. The meeting was an informal one and matters of interest were discussed.

LIFE AND WORKS OF REMBRANDT BY GIFTED LECTURER

Sponsored by Maritime Art Association at Normal School

A large and appreciative audience was present at the auditorium of the Provincial Normal school last night to hear a lecture on Rembrandt. The lecturer, Dr. Julius S. Held gave a vivid picture of the life and paintings of the famous artist of the early seventeenth century. His lecture was illustrated with slides of the major works of the great painter who was the first "modern" artist of his century inasmuch as he maintained the right of the artist to express his own moods and thoughts in a strictly personal way, in emergence from the Middle Ages. The Dutch painters of the 17th century were the first to depict the world as a pleasant place in itself. The works of Rembrandt show a portrayal of his personal moods thrown into his subjects. The "Night Watch" one of his greatest commissions, found a world wide approval, his fame spreading throughout the world. The speaker, Dr. Held was brought here under the auspices of the Maritime Art Association. A short sketch of the gifted speaker is as follows: Julius S. Held, Ph.D., Educational University of Heidelberg, Berlin, Freiburg, Vienna Dr. of Philosophy February 21, 1930, Summa cum Laude Freiburg 1931-33 Assistant Kaiser Friedrich Museum under Dr. Friedlaender. 1935-36 Research Fellow and Lecturer on Fine Arts, New York University, New York.

Mistinguett's Legs Are No Longer Worth \$5,000,000

NEW YORK, Jan. 12.—Years ago, Mistinguett confided to this reporter in Paris that it was a daily goat's milk massage that had made her legs the most beautiful in the world. They were then insured for \$5,000,000, and now, as they bring her down the gang plank to New York, they carry only \$70,000. That's quite a write-off, but they say that, at 69, Mistinguett is still the richest actress in Europe, topping all records of Yvonne Pringle, Josephine Baker and the Dolly Sisters.

It was quite a while before the war when she originated the Apache dance. Her press agent, hiking insurance quotations on her legs, up or down, got her newspaper space for years. In the years of the grand razed-dazzle, American tourists used to rush to see Mistinguett's legs before seeing the Eiffel Tower or Napoleon's Tomb. In late years, she has been running night clubs although it was only six or eight years ago that she sank as a stage star.

There is a good story in Mistinguett's career if some diligent investigator will disentangle it from goat's milk, leg insurance and the like. She was an extremely effective worker in the French intelligence office in the war, and some day her connection with the Mata Hari case will make interesting reading. Also the story of how she got her young protegee, Maurice Chevalier, out of a Verdun prison camp. There was a time when Lloyd's wouldn't have banked thirty cents on her whole charming person, to say nothing of just legs. She says she'll never tell, although, sometimes, mischievously, she lets out that she's going to spill all her secrets in a big book—causing consternation along the Riviera gold coast.

Arriving in New York, she says she will marry a man with the initials S. P. Word from another source is that she is going to marry a well-to-do Cuban named Battiste. Her eyes are still green and smouldering and her hair copper-colored.

"What will endear King George VI to his people is that more than any of his brothers he resembles in character his father."—Stanley Baldwin.

Follow This Plan for Better CONTROL of COLDS

For Fewer Colds...
Vicks Va-tro-nol helps
Prevent many Colds

At the first warning nasal irritation, snuffle or sneeze, use Vicks Va-tro-nol—just a few drops up each nostril. Va-tro-nol is especially designed for the nose and upper throat—where most colds start. It stimulates Nature's own functions—in the nose—to help prevent colds, and to throw off head colds in their early stages. Used in time, Va-tro-nol helps avoid many colds.

For Shorter Colds...
Vicks VapoRub helps
End a Cold Sooner

If a cold has developed, rub Vicks VapoRub on throat and chest at bedtime. VapoRub acts direct—two ways at once: (1) By stimulation through the skin like a poultice or plaster; (2) By inhalation of its medicated vapors direct to inflamed air-passages. Through the night, this combined vapor-poultice action loosens phlegm, soothes irritation, helps break congestion.

Follow Vicks Plan for Better Control of Colds

A helpful guide to fewer colds and shorter colds. Developed by Vicks Chemists and Medical Staff; tested in extensive clinics by practicing physicians—further proved in everyday home use by millions. The Plan is fully explained in each Vicks package.

Dr. Wood's

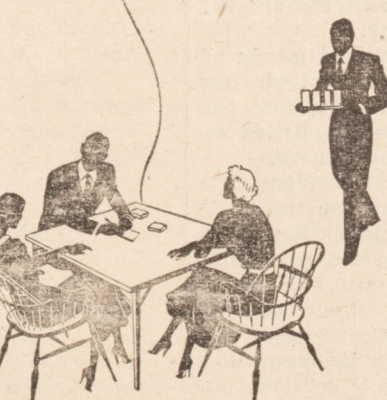

NORWAY PINE SYRUP

Don't Neglect That Persistent, Hacking Cough

Get a bottle of Dr. Wood's Norway Pine Syrup from your druggist or dealer. It strikes at the foundation of the trouble. A few doses will convince you it is just the remedy you require.

It helps to stimulate the weakened bronchial organs, allays irritation, subdues inflammation, soothes and heals the irritated parts, loosens the phlegm and mucus, and aids nature to dislodge the morbid accumulations.

When this is done the persistent, hacking cough will disappear, no lying awake nights, no inflammation of the bronchial tubes.
